In the Senate vesterday Mr. Edmunds moved that the names of Senators who answered to the roll call should be inserted in the Journal; there was much objection to this, as unprecedented, and the motion was rejected Mr. Blair offered a resolution providing for the incorporation of the previous question in the rules, and wanted its immediate consideration, but it went over antil to-day; the tariff bill was then taken up for consideration, and the dehate was of quite an interesting character, all amendments offered by Demorais was, as heretofore, rejected, and ally such as came from the Republican side were adopted; an incident of the consideration of the bill was that Mr. Plumb was found voting with Democrats, the first break party vote; in the House the Senate amendments to the sandry civil appropriation bill was tiken up for consideration, but the absence of a quorum prevented any progress being made. - The Republican majority in the House are much troubled over the large number of absentees, and the list is daily growing larger, while the Democrats look upon it with a feeling of equanimity; and notice has been given by Mr. Cannon that, he will offer at the earliest opportunity, a resolation revoking all leaves of absence except those granted from sickness. - President Celman, of the Argentine Republic, has issued a manifesto relative to the recent events in the capital he ignores the gravity of the situation, and his own party are aghast at his calbusness and the vanity which he exhibits in his production. ——The House election committee made an effort yesterday to further consider the Clayton-Breckinridge contested election case, but could do nothing on account of the absence of a quorum; it is stated that a re port has been prepared, declaring that Mr. Breckinridge was not legally elected and is not entitled to his seat. Gen. Rivas, who headed the revolt against San Salvador, has been defeated, after capturing the artillery barracks, and peace has been restored; Guatemala has withdrawn her forces from the frontier, and ail is quiet at present - Dun & Co. report trade as uniformly satisfactory, while the heavy exports of gold excite apprehension; business tailures for the week number 189, as compared with 210 for corresponding work last year. - A famine prevails in the Soudan, and there are many At-aths from starvation; the growing

When Senator Hiscock undertakes or desires to play mentor to Senator Vance again, perhaps he will go over and ask that gentleman about it before he undertakes it.

The Republican majority in the House of Representatives-so-called -is evidently not looking for invesfigations these days. It is not "dignined" to be investigated.

San Diego, Cal., is a good town to start newspapers in. In the last three years eighteen have been started there. But it is a good town to bury them, too, for every one of them is dead. There are lots of good places to start newspapers.

Senator Plumb, of Kansas, is not an enthusiast over protection, but he believes that a State which does so much to lubricate the "inards" of humanity as his State does is entitled to all the protection she can get on her castor oil beans.

One of the best jokes of the warm season is to see the Reed gang, with boss Reed sitting down with his two hundred and thirty pounds of flesh, girded around the middle with a silk sash, on a proposition to be investigated, taking refuge in their "dignity" They don't propose that the Senate shall have a monopoly of the dignity."

SERIOUS AFFRAY IN GREENSBORO Between Two Young Painters Said to be

From Wilmington-One Man Fatally

The Greensboro Times gives an account of a fight in that town last Thursday between two young painters-Tom Pleasants and Jos. James-who came to Greensboro from Wilmington a short time ago-Pleasants inflicting wounds upon James from which it is probable the latter will die. The quarrel was over a board bill. becoming exasperated at some remark made by Pleasants, seized a piece of scantling and struck him a murderous blow, knocking him down. As Pleasants got up he drew a barlow knife and rushing upon James began cutting him to pieces. One thrust of the knife entered the chest and penetrated the lung. Numerous wounds were inflicted on the sides and abdomen.

After the cutting Pleasants walked up street and told officer Whittington that he had cut a man badly, in self-defence, and wanted to surrender himself after the man had been attended to. Whittington went to see after the wounded man and Pleasants walked around to the Mayor's office and waited until he returned. He was lodged in

Pleasants says that as he arose after being knocked down with the piece of scantling, James rushed upon him with a drawn knife and inflicted an ugly cut on his hand. He shows a wound on the hand, and his head and arm are badly bruised where James hit him.

Y. M. C. ASSOCIATION.

A Building for the Young Men-A Lot on the Corner of Front and Mulberry Purchased for the Site.

The Board of Directors of the Young Men's Christian Association held a consider a proposition from Messrs. date last year: Hall & Pearsall, to sell to the Association the lot on the corner of Front and Mulberry streets, extending on Mulberry to Nutt street, recently purchased by the firm. Upon the recommendation of a special committee of the Board appointed some time ago to investigate and report upon the matter, it was decided to purchase the lot, and committees were appointed-one to make the purchase and the other to secure plans for the building which the Association proposes to erect. The general idea is for a large and handsome building with frontage on Nutt and Front streets; the lower floors to be rented for business purposes and the upper part of the building to be for the use of the Association.

COTTON REGION BULLETIN.

Higher Temperature and Light Showers. Showers were general yesterday throughout the South Atlantic States, with the exception of the Wilmington, Charleston and Augusta districts, which not a trace of rainfall was reported. High temperature prevailed generally, but the maximum in Wilmington was only 87 degrees as recorded at the Signal Office, with a pleasant breeze all day from the southwest that made the weather enjoyable. Higher temperature prevailed at other stations in the district; Charlotte and Raleigh reported 92 degrees as the maximum, Lumberton, Weldon and Goldsboro 94. and Cheraw 96.

The discontinuance of the rainy spell and the return of hot weather just at this time is greatly to the advantage of the cotton crop.

SEVENTH DISTRICT.

COMMUNICATED. THE FAILS MURDER.

Great interest and much excitement have been created in this community growing out of the recent murder of Nathan Fails. On day before yesterday an adjourned examination of the facts found to be connected with the homicide was concluded before R. H. Bunting, Esq., and the judgment of the Magistrate's Court was to the effect that the prisoner Charles Maynor be held for the action of the grand jury at the next term of the Criminal Court, and that in the meantime he be committed to prison

without bail until then. The facts connected with the homicide have been brought to light, after a patient, quiet, and (as such investigations should be conducted) as secretly as possible. The public did not know what was going on, and every movement was carefully kept from publication in the newspapers or otherwise, so that the witnesses themselves, nor eyen the officers engaged in the investigation, did not come to the knowledge of what each other knew, until the chain of circumstances was put together before the committing magistrate.

These proceedings were set on foot by Solicitor Moore eight hours after the homicide was made known. The Sheriff's officers under the direction of Mr. Shaw, aided by a detective from a Northern city, have quietly and persistently worked the case up under the general direction of the Solicitor, until the result above mentioned has been accomplished.

The murderer of Nathan Fails is known; he is in prison and the necessary evidence to convict him of the crime is in the possession of the proper officer who will not disclose it until the proper times arrives. This may be stated, however, that the leaden missile that killed Nathan Fails was not such a pistol ball as is known as a thirty-two calibre.
