OUTLINES.

In the Senate yesterday Mr. Ingalls presented for passage the federal election bill; a number of petitions were presented for and against the compound land bill; bills on the calendar occupied an hour, after which Mr. Morgan continued his argument in opposition to the railroad land forfeiture bill, occupying about two hours; Mr. Sanders favored the adoption of the conference report, but without concluding his argument yielded to a motion to proceed to executive business; in the House the tariff bill, as amended by the Senate, was presented; an effort was made to secure a vote on the approval of the journal of Tuesday's proceedings, but it was found impossible to secure a quorum, and every effort at business had to be abandoned.

The ways and means committee of the House held a session yesterday to consider the tariff bill with Senate amendments; a disposition was manifested on both sides to hasten action as much as possible, but if the Republicans should endeavor to force through any partisan measure the Democrats will resort to all parliamentary means to obstruct the tariff bill.

The revolutionists in Switzerland have convoked a public assembly and ordered general elections for next Sunday; the Bundesrath has been called in extra session and troops have been ordered to the scene of disorder.

The U. S. man-of-war Baltimore, with the body of Mr. Ericsson on board, arrived at Gottenburg, Sweden, yesterday evening, during the voyage a sentinel was constantly on guard over the casket.

Dun & Co. report unbusiness in financial quarters, and slackness in business; all of the principal cities report a monetary pressure, with the single exception of New Orleans, where the market is easier; the great industries are doing well; business failures for the week number 193, against 203 for previous week.

The latest dispatches report that the revolt in Switzerland has collapsed; it has been agreed that the question of the revision of the constitution be submitted to the popular vote.

New York markets: Money tight, last loan 6, closing offered at 6 per cent; cotton steady; middling uplands 10 1/2 to 11 cents; low middling 10 1/2 cents; southern flour dull and firmer; wheat unsettled and 4 1/2 to 4 3/4 cents down; No. 2 red \$1 05 1/2 at elevator; corn unsettled and 41, closing steady; No. 2, 57 1/2 to 59 cents at elevator; rosin steady and quiet; spirits turpentine steady and quiet at 40 1/2 to 41 cents.

The eagle must be a very complicated machine, when we are informed that there are 60,000,000 parts in a single feather.

The French sardine fisheries are a failure this year, but the Maine fisheries, from which the main supply of our French sardines comes, are all right.

Non-partisan tariff discussions is one of the features Western agricultural fairs this fall. Every speaker has a fair show, and vast crowds gather to hear them.

Northern florists do not bother themselves raising a great variety of roses now. They raise the ordinary rose, dip it in a chemical solution and give it any color desired.

Hannibal Hamlin, now eighty-one years old, never kept a diary. As Hannibal is one of the greatest fishermen in America, this relieves his conscience from a great strain.

A Kansas woman predicts that the world will come to an end November 19th. There may be some consolation in this to the Republican candidates who get left on election day.

Erastus Winans' fortune started from money earned as a newsboy. This shows the grand possibilities there are in the newspaper business for bright, sharp and thrifty young men.

Lightning from a clear sky recently struck a chestnut tree measuring six feet in diameter and split it in two clear to the roots. This was in Missouri but is none of your ordinary chestnuts.

It looks as if there was another filibuster on in the House. No quorum Wednesday nor Thursday. This is a Democratic filibuster, it seems, to stave off the Venable-Langston contested case.

Col. Shepard aspires to be Mayor of New York. This is another verification of the correctness of the opinion of old man Vanderbilt when he said, "my son-in-law is the biggest d—n fool in New York."

LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted.

The weekly half-holidays close this week for the present season, as they expire by limitation on the 15th instant.

The first snow of the season in the United States fell in Montana, Thursday, to the depth of about one inch.

The Masonic excursion, down the river yesterday, on the Sylvan Grove, was a pleasant affair. There were about two hundred in the party.

Rev. Dr. Primrose will preach in St. Andrew's Church to-morrow morning on "Rewards in Heaven," and at 8 p. m. on "The Ten Lepers."

Messrs. Gannon and O'Keefe, steamboat inspectors, who went to Jacksonville, Onslow county, to inspect the steamer Louise, returned to Wilmington yesterday.

The Sunday School Conference of the Wilmington District Methodist E. Church, South, will convene on Friday morning, September 19th, at Bladen Street Church in this city.

In the absence of the pastor from the city the pulpit of the Bladen Street Methodist Church will be filled at 11 o'clock a. m. and 8 o'clock p. m. on to-morrow by Rev. J. W. Craig.

The stalls and stores in the various markets of the city will be rented at public auction Saturday, Sept. 20th, under the direction of the Market Committee of the Board of Aldermen.

The members of the Executive Committee of the Sam Jones meeting are requested to be at the Tabernacle at 10 o'clock this morning. Business of importance must be attended to at that time.

The hour for the beginning of the services of the business and working men's prayer and experience meeting at the Seaman's Bethel, commencing with to-night's services, has been changed to 8 o'clock.

The excursionists from Rutherfordton and Mount Airy, after a pleasant visit yesterday to the Hammocks and Ocean View, returned to the city at five o'clock and left for home at seven last evening. They enjoyed their visit very much.

The Hibernian Benevolent Association have decided to give a "sociable" at their hall on Third street the latter part of this month. Col. Jno. L. Cantwell, Mr. T. Donlan and Mr. R. B. Barry are the committee of arrangements.

The third annual meeting of the stockholders of the Citizens' Building and Loan Association will be held in the City Court Room next Tuesday at 8 o'clock p. m. An important amendment to the constitution will be submitted.

A Georgia editor, in resigning a country postoffice, writes: "The receipts for the last month have been \$6.40, the rent \$4, and the clerk hire \$10. Being a Democrat we can no longer give our consent to hold office under a Republican administration; hence we resign."

The Goldsboro Argus mentions that the congregation of St. Paul's M. E. Church gave their popular and energetic pastor, Rev. B. R. Hall, a pointing of such preponderance as has never before been known in Goldsboro. Almost the entire congregation turned out for the occasion, and the beloved pastor and his good wife were literally overwhelmed with the bounty that was bestowed upon them.

The Winston correspondent of the Raleigh Chronicle is what "boom" newspapers would call an enterprising reporter. Thus he writes: "It is reported and comes to me on good authority that the Sprague Electric Light and Motor Power Company of New York, which built the street railway here, has purchased the Wilmington Street Railway, and will at once begin the construction in that city of an elegant electric car line, such as we have in Winston. We all up here, who know a good thing when we see it, congratulate Wilmington on the new step that it is to be taken."

Oh! no, Sonny. The Sprague people haven't done anything of the kind. They have simply made an offer for the Wilmington Street Railway, but it is not an offer that will be accepted. As the Chronicle says of the Winston people, the owners of the property in question "know a good thing when they see it," and not only that, they "know a good thing" when they have it.

Cotton Belt Bulletin. Rain was reported yesterday from all stations in this district of the cotton belt, but it was moderate in amount. The heaviest rainfall was at Charlotte, 54-100ths of an inch. The average for the district was 24-100ths. The maximum temperature was 86° at Cheraw and Florence, 84° at Charlotte, Raleigh, Wadesboro, Lumberton and Weldon, 88° at Wilmington, 82 at Goldsboro and 80 at Newbern. The minimum averaged 70°.

IN THE RAILROAD WORLD.

The Georgia, Carolina and Northern. The trestle of the bridge at Long Cane, on the Georgia, Carolina and Northern Railroad, is being pushed to completion, and will be ready for the track by the 1st of October.

The first snow of the season in the United States fell in Montana, Thursday, to the depth of about one inch.

The Florence Railroad will soon be completed from Rowland, N. C., to Fayetteville, a distance of a little over forty miles. The company is now buying up the various rights of way necessary, and construction will begin very soon.

The contractor on the Bennettsville extension of the Carolina, Sumter and Northern Railroad has a very large force of hands at work, and the road will be completed in a few months. There has been but little trouble in regard to the right of way through the counties, and no delay has been experienced in the work of construction.

The Santee and Little River Road. The affairs of the Mount Pleasant, Santee and Little River railroad seem to be in statu quo just at present. The officers of the company are still working for rights of way, which work is of necessity slow.

The A. C. L. Augusta Extension. The people of Graniteville and vicinity are looking forward to the completion of the Augusta extension of the Atlantic Coast Line from Sumter, benefiting them greatly in various ways. Among other advantages they expect to derive is the utilization of their kaolin fields. It is well known that the best deposit of kaolin in the South is to be found on the line of this proposed road. Many years ago a kiln was operated very successfully, but was finally abandoned for various reasons. A road through this country will revive the interest and make the lands of the greatest value.

Wilson Excited. A Woman Found Dead on the Railroad—Supposed to Have Been Murdered. It was reported yesterday that a young white woman, neatly dressed, was killed on the W. & W. railroad near Wilson by the north-bound fast mail train which left Wilmington Wednesday night. It was said that the woman was asleep on the track. Later information is to the effect that the woman's name is Driver, that she was in company with a white man named Jonathan Rountree, and they were eloping from Black Creek, where Rountree's wife and family live. The couple left Black Creek Monday evening together, walking, passing through Wilson early in the night en route for Toisnot to take the train, and, becoming tired, they lay down to rest and fell asleep. The train struck the woman, Rountree said, and broke her neck, he escaping without a scratch.

The people do not believe the story and there was much excitement. The body of the woman, which had been buried by Rountree, was to have been exhumed yesterday and an inquest held.

BY RIVER AND RAIL.

Receipts of Naval Stores and Cotton Yesterday.

Wilmington, Columbia & Augusta R. R.—774 bales cotton, 43 casks spirits turpentine, 255 bbls. rosin, 3 bbls tar.

Wilmington & Weldon R. R.—240 bales cotton, 18 casks spirits turpentine, 61 bbls. rosin, 126 bbls. tar, 1 bbl crude turpentine.

Carolina Central R. R.—403 bales cotton, 29 casks spirits turpentine, 73 bbls. rosin, 11 bbls. tar.

Steamer D. Murchison—7 bales cotton, 37 casks spirits turpentine, 302 bbls. rosin, 91 bbls. tar.

Steamer Lisbon—37 casks spirits turpentine, 121 bbls. rosin, 8 bbls. tar.

Steamer Delta—55 bbls rosin, 42 bbls tar, 2 bbls. crude turpentine.

Total receipts—cotton, 1,424 bales; spirits turpentine, 154 casks; rosin, 807 bbls; tar, 281 bbls; crude turpentine, 3 bbls.

NAVAL STORES.

Comparative Statement of Receipts and Stocks at this Port.

Receipts of naval stores at this port for the crop year—from April 1st to September 13—compared with receipts for the same period in 1889, are as follows: Spirits turpentine, 40,000 casks; last year, 37,212. Rosin, 107,868 barrels; last year, 95,498. Tar, 22,939 barrels; last year, 23,075. Crude turpentine, 10,413 barrels; last year, 10,327.

Cotton Receipts this Month. Receipts of cotton at this port for the first twelve days of September are 13,367 bales—an average of over 1,000 bales per day. Receipts for the same time last year were 1,180 bales.

The stock at this port is 13,873 bales—4,900 bales in warehouses and 8,973 on shipboard; against stock at same date last year, of 1,095 bales.

Exports so far this season have been 655 bales—to domestic ports.

RIVER AND MARINE.

Messrs. Funch, Edye & Co., in their freight report, September 5th say: "Our advices from all the cotton ports state that there has been very little demand of late for freight room, a fact attributed to the disinclination on the part of Europe to make purchases, in consequence of the declining and unsettled condition of the cotton markets. Since the collapse in Liverpool the sales of cotton have already increased at that place; spinners here, as well as abroad, are said to have only light stocks on hand, and it is therefore expected that our market, under an increased demand, will shortly settle down to a firm basis at prices which will bring us lots of orders, and a good inquiry for steam tonnage to load at the Southern ports. As to the crop itself, the prospects are as bright as they ever were, whilst the movement of cotton continues to be exceptionally free. We are offered from the Atlantic coast 5-16d and 5 per cent. to the U. K. or Continent with \$1.20 for stevedoring and compressing, October and November loading. Owners show no inclination to charter at this rate, whilst transactions reported below demonstrate their readiness to accept from the Gulf ports 21-6d. and 6 per cent., with stevedoring and compressing fixed at \$1 per bale."

The British steamship Ethelburga is reported as having sailed from Buenos Ayres, August 30th for Wilmington. Also, the British steamships Leafbird, from Hull, Eng., September 3rd; British steamship Thurston, from Ibrah, August 16th (was at Malta August 29th), and the Spanish steamship Julia from Hull, Eng., September 3d.

Yacht Mignon.

Capt. Edgar Williams, with the tug Lawrence, returned yesterday afternoon from a visit to the stranded steam yacht Mignon, off Cape Fear, having on board Capt. R. H. Beery, Surveyor for the Record. They report the yacht in a bad condition, full of water and sand, and recommend that she be sold where she lies, for the benefit of all concerned.

They took off the furniture and a couple of boats and placed them on the beach. The Mignon was bought by the Oemler Oyster Company of Savannah, Ga., and was on her way out to that port. She was valued at \$6,000, and insured for \$4,000 in the North American Insurance Company of Philadelphia. One of the owners, Mr. Aug. Oemler, of Savannah, arrived here yesterday to look after the interests of the company.

Juvenile Military.

The Wilmington Guards (juveniles) gave their lawn party at the City Hall last night, and had a merry time of it. The company paraded through some of the streets early in the evening, winding up their parade at the lawn, where an exhibition drill was given, and the prize, a saucer of ice cream, was won by Private Dozier. Lieut. Capt. James Cowan drilled the company.

RANGE OF THE THERMOMETER.

The following is the range of the thermometer yesterday at the Signal Office in this city, as compared with the same date last year:

CHARGED WITH LARCENY.

Archy McLaurin about twenty years of age, and Stephen, Hill, a boy of fourteen or fifteen, were arrested yesterday charged with stealing the lines with which the small schooner Anna was made fast near Market dock. One of them acknowledged the theft and said they sold the rope at a junk shop. They were locked up for examination this morning before Mayor Fowler.
