SATURDAY MORNING, SEPT. 13, 1890.

### FIFTY-FIRST CONGRESS.

FIRST SESSION.

he Federal Election Bill Presented for Passage in the Senate-Petitions for and Against the Compound Lard Bill-Debate on the Railroad Land Forfeiture Bill-Another Fruitless Effort in the House to Secure a Quorum and no Busmess Transacted.

### By Telegraph to the Morning Star

### SENATE.

WASHINGTON, September 12.-Mr. Ingalls presented for passage the Federal Election bill.

Many petitions were presented for and against the passage of the Compound

At the suggestion of Mr. Edmunds it was agreed that one hour be given each day after the routine morning business, to bills on the calendar. Unobjected to. Mr. Quay gave notice that to-morrow,

after the reading of the Journal, he would ask the Senate to consider the resolution in respect to the memory of Samuel J. Randall. The bill to authorize the construction of a bridge across the Mississippi river,

at Winona, Minn., was taken from the calendar and passed, with a verbal amendment. The calendar was then taken up. An hour was devoted to bills on the calendar. Among other bills passed was the Senate bill giving the consent of Congress to the construction of a bridge over Duck river, in Humphrey's county, Tenn., and the Senate bill to subject to

State taxation national bank notes and

U. S. Treasury notes the same as other

The conference report on the Railroad Land Forfeiture bill was taken up, and Mr. Morgan continued his argument

During the argument Mr. Gorman presented a telegram from Senator Mc-Pherson, stating that he was indisposed and would not be able to act as a member of the conference committee on the Tariff bill, and asking to be excused from service. The request was complied with, and Mr. Voorhees was appointed conferee in the place of Mr. McPherson.

After Mr. Morgan had spoken about two hours the Senate was addressed by Mr. Sanders in favor of the adoption of the conference report, the main point of his contention being that lands actually patented to railroad companies could not be taken from them because they turned out to be mineral lands.

Mr. Hearst took a contrary view, and insisted that mineral lands were specially reserved by original grants and must be kept for the use of the people

Mr. Sanders said that in the courts of his own State, of the State of California, and in the Supreme Court of the United States, the term "mineral lands" had been held to mean lands commercially valued for mining purposes.

Without concluding his argument Mr. Sanders yielded to a motion to proceed to executive business, and at 6 p. m. the Senate adjourned.

HOUSE OF REPRESENTATIVES. After prayer by the Chaplain, the Clerk proceeded, under instructions from the Speaker, to call the roll on the question of ordering the previous ques-tion on the approval of the Journal of Tuesday's proceedings.

During the roll call a message was received from the Senate announcing the passage of the Tariff bill, with amendments, and by direction of the Speaker, it was referred to the Committee on Ways and Means.

The previous question was orderedyeas 113, nays 34-the Clerk noting a quorum; and the question recurred on the approval of the Journal. The quorum disappeared, and a call of the House was ordered. One hundred and seventyfive members responded to their names, but on approval of the Journal these had dwindled to forty-three, no quorum, and on motion of Mr. McKinley, at 1.55 p. m. the House adjourned.

### WASHINGTON NEWS.

The Ways and Means Committee of the House Considering the Amended Tariff Bill-Speculations as to the Course of the Democrats Relative to the Passage of the Bill-Government Purchases of

By Telegraph to the Morning Star.

WASHINGTON, September 12.-This morning for the first time in several months the Ways and Means Committee held a session. The purpose was to discuss the treatment of the Senate amendments to the Tariff bill, and the entire session was so consumed. As the bill itself had not reached the Committee no formal conclusions could be noted, and proceedings were entirely confined to general discussion. On one point there seemed to be a practical agreement, and that was that the amendments should be considered by the committee, instead of acceding at once to the request of the Senate for a conference. As to how much time should be allotted to the proceeding there seemed to be a diversity of opinion, but there was a pronounced disposition on both the Republican and Democratic sides to hasten action in the committee as much as possible. The date upon which the bill, when enacted into a laws shall take effect, was also discussed, but without result beyond the development of a strong individual belief that the date fixed by the Senate, October 1st. was too early to admit of final action upon this bill and its distribution among. the customs officers of the country.

The committee will meet again tomorrow and proceed formally to consider the bill and amendments, which were referred to it soon after the com-

mittee adjourned. It is said by some of the Democratic members that the facility with which their party associates will lend themselves to the Republican efforts to hasten the final disposition of the bill, is conditional upon the programme which is to be adopted by the Republicans in the House for the remainder of the session; and that if it should be attempted to pass the threatened resolutions to interfere with the Ohio districts, as estabished by the last gerrymander, or to lorce through other pronounced parti-

san measures, resort will be had to all parliamentary means to obstruct the

WASHINGTON, September 12.-The prepayment of interest on four per cent bonds at Washington, New York and Boston yesterday, under the circular of September 6th, aggregated \$874,289, making a total thus far of \$1,426,734.

The amount of silver offered for sale to the Treasury Department to-day aggregated 431,000 ounces, and the amount purchased, 821,000 ounces, as follows: 46,000 ounces at \$115.6; 100,000 ounces \$115.7; 100,000 ounces at \$115.74; 75,000 ounce7 at \$1.1575.

### LATE FOREIGN NEWS.

Progress of the Revolution in Switzerland-Arrival of the Baltimore with the Body of Ericsson at Guthenburg-The Southampton Strike-Cholera in Spain. By Cable to the Morning Star.

BERNE, September 12.—The revolutionists in the Canton of Picino have formed a provisional government and convoked a popular assembly, which declared the existing government and the Grand Council dissolved, and ordered general elections for next Sunday. The insurgents hold Lugano, Mendrano.

Cheasso and Loc Arno. The Bundesrath was called in extra session and ordered federate troops to be sent to the scene of disorders.

The populace support the insurgents and the civic guard occupies the telegraph office, thus preventing the supporters of the Cantonal government from communicating by telegraph with each other or with the National govern-

The rebels arrested Councillor Oreali, the Federal Commissioner, who received instructions to annul the decision of the Provisional government and vote of the popular assembly.

Bellinosa, September 12.-The Liberals occupy the towns and stations on the St. Gothard railway, A counter revolt is feared.

Bellinosa, September 12.—The revolt has collapsed. Troops have been well received by the revolutionists. It has been agreed that the question of the revision of the constitution be submitted to the popular vote.

GUTHENBURG, SWEDEN, Sept. 12 .-The United States man-of-war Baltimore, with the body of Mr. Ericsson on board, arrived here this evening. She made the run from New York to Guthenburg in seventeen days, which is the fastest time on record for a man-of-war. During the voyage a sentinel was constantly on guard over the casket.

GLASGOW, September 12.—The State Line steamer State of Georgia, Capt. Moody, was about to depart for New York to-day, when the crew struck because a non-Union baker was on board. SOUTHAMPTON, September 12.— Sprow, one of the leaders of the strike,

has been arrested on the charge of intimidation. The dockmen have decided to return to work in the morning, but the sailors and firemen are still holding out. The town is quiet to-night.

VALENCIA, September 12.—Thirty-one new cases of cholera and twenty deaths from the disease were reported in this city to-day. A number of suspicious cases have been reported in Castellon and Vallecas, near Madrid.

### THREATENING FIRE.

Ar Ontario Town in Danger of Destruc

By Telegraph to the Morning Star.

CHICAGO, Sept. 12.—A dispatch from Sault St. Marie, Mich., says: Fire started in Almstead & Lothein's store, at St. Marie, Ont., at 11 o'clock last night, spreading rapidly, and the entire city is in danger of destruction. The fire department is small there. There are no water works, and the firemen so far are unable to control the flames. At ,10 a: m. the fire was still burning fiercely.

### A DEATH SENTENCE.

Rufus B. Collins and Emily Boon to be Hanged in Gordon Co., Ga. By Telegraph to the Morning Star.

ATLANTA, September 12.—Rufus B. Collins and Emily Boon were sentenced to be hanged on November 7th next, between the hours of 10 a. m. and 3 p. m. They are to be hanged publicly. 'Collins is a white man, who hired Steve Custer to kill his wife. Steve Custer was sentenced to life imprisonment at

### THE TRADE SITUATION.

DUN'S REVIEW OF TRADE FOR THE PAST WEEK.

Uneasiness in Financial Quarters But Slackness in Business. By Telegraph to the Morning Star.

NEW YORK, September 12.—The past week has fully justified those who gave warning that the monetary relief caused by Treasury disbursements could be but temporary. The market here has been tight with extreme rates paid in some cases, At Boston and Philadelphia the monetary pressure also affects business At Chicago the market is somewhat firmer and the demand active; at St. Louis it is stiff at 7 to 8 per cent.; at Kansas City more firm; at Omaha a trifle close, but fairly supplied; at Milwaukee very active and to some ex-tent disturbed by large lumber failures; at Detroit the demand is strong at 7 per cent.; at Cleveland the tightness is rightly ascribed to volume of business; at Pittsburg the demand is fair at 6 to 7 per cent.; and only at New Orleans of all the cities reporting is the market easier. These details show that the rising tide of business all over the country is closely employing all the money available, and yet within three weeks more than \$15,000,000 has been added to the circulation by the Treasury and sent to the interior, no part of it being retained in this city.

The immediate fright at New York was about the supposed enormous demands for payment of duties, If the new tariff should go into effect October 1st, the fact as officially reported is, that less than \$9,000,000 would pay full duties on all goods in warehouse on which rates have been increased, but no one supposes that the entire quantity would be taken out, and meanwhile the Treasury is now offering to pay out \$20,000,000 for 41/2 per cents. and \$23-000,000 more in prepayment of interest

on 41/2 per cents, If there were no speculative tendency interrupting the free movement of the crops, commercial bills would soon draw money from abroad, but an unfavorable crop report causes higher prices for staples, and prior to that exports had been very light, prices here being too high for foreign markets.

The pressure has caused considerable decline in stocks, the average having fallen about \$2.50 per share since August 25th, but there is money used for particularly active speculation in grain and cotton, which is wanted in legitimate

The report from other cities indicate no slacking of activity on account of monetary difficulty at any point west or to Paris the entertaining was largely south of Philadelphia. Reports as to collections are almost uniformly satisfactory.

The crops are moving fast and prices encouraging to farmers, but they do not go forward to consumers as rapidly. The distribution of merchandize in new lines continues in much excess of last year's, at every point reporting.

The great industries are doing well The weekly output of iron rises again to 17,776 tons, against 164,798 August 1st and 134,068 a year ago:

Greater activity in woolen manufacture is shown by the rapid rise in sales, and speedy passage of the tariff bill is anticipated as a basis for larger operations. Activity in dry goods is everywhere increased, importers being quick to dispose of many kinds, while the demand is large and general. In short there is every reason to look for a large and prosperous business, if the pressure in the money market is met, and that pressure tends to cure itself quickly by repressing speculation. But the treasury has ample funds available, and if commercial needs become such that bonds, before prepayment of interest is accepted, disbursements, should quickly be large enough to meet all necessities. Failures of the week are for the United States 167, Canada 26. Total 193, against 203 last week.

### CHICAGO REVIEW.

Fluctuations in Prices of Grain and Provisions. By Telegraph to the Morning Star.

CHICAGO, Sept. 12,-Wheat-Trading was not as active as yesterday; but a very fair volume of business was transacted. The feeling was unsettled, and while prices were higher at times they generally ruled lower than yesterday's closing. There was rather a wild opening again, but unlike yesterday the tendency was down instead of up. Prices varied one cent in different parts of the crowd, sales being made simultaneously at 107 and 106 for December and 101% and 101 for May. The top figures mentioned were from 1/20 1/4c higher than the closing figures of yesterday and inside about 1/2c lower. The market held for a while within small range, then advanced 34@ 3/8c, but under free speculation offerings again took a down grade and prices declined 11/011/c, rallied

%@1c, and closed about 14@36c lower than yesterday. Corn-Another active day was witnessed and fluctuations were frequent within wide range. The feeling early was much stronger, but later an easier tone was manifested. First trades were at 114c advance, the market afterwards selling up 1/2c higher, but due to prediction of decidedly cold weather in the corn region, which had the effect of frightening shorts for three million bushels. There was free realizing by "longs," and a sharp reaction followed the early advance and prices receded quickly 1½@2½c, rallied some, and closed with a decline of ½@½c on near

months, and May a shade better. Oats-Active, but the market had less snap, and after opening firm and 1/2 @36c higher, gradually weakened and prices receded 1@1%c, rallied slightly and closed steady.

Mess pork-An active business was transacted. Opening sales were made at 15@17½c advance, followed by a further slight improvement. Later prices receded 171/2@20c and the market closed tame at inside figures. Lard-Fairly active. Early prices ruled 21/205c higher. Later prices re-

ceded 71/2@10c and closed comparatively steady. Short rib sides—Quite a good business was transacted. Early sales were made at 21/6 65c advance, but later a reduction of 5@71/2c was submitted to. The market closed quiet at inside fig-

A special from Sault St. Marie, Michigan, says: The fire on the Canadian side of the river, was extinguished after great difficulty, but the loss was only about \$10,000, chiefly in lumber.

### COTTON.

The New York Sun's Report of the Market Yesterday. By Telegraph to the Morning Star.

NEW YORK, Sept. 12.-The Sun's review of the cotton market to-day says: Futures opened at 1@2 points advance, closing quiet and unchanged on September and 1@3 points decline on other mouths from yesterday's closing prices. The market made a slight advance on a strong report from Liverpool, but the bulls showed neither vigor nor courage, and there was a feverishly unsettled tone throughout the day, closing dull and somewhat irregular. At one time some strength was infused by receipts at some interior towns making comparatively small showing, giving rise to other reports that planters may be holding back cotton because prices are not satisfactory. There was clearing weather in nearly all sections of the South, and turning cooler with bulls inclined to get up a frost scare on every sign of a blizzard in the Northwest. High rates of money will, it is believed, check for some time the demand from New England spinners. Spot cotton quiet.

SAVANNAH, Sept. 12. Spirits tur-pentine steady at 371/2c. Rosin steady at

CHARLESTON, September 12,-Spirits turpentine firm at 37c. Rosin quiet; good strained \$1 10.

### IN CHINA.

Not as Cheap a Place to Live as is Supposed. New York World.

As to the cost of living in China Col. Denby, our minister, told me that he could save nothing from his salary, and there is perhaps less entertaining done in Pekin than at any other of our foreign missions. The minister to Corea receives only \$7,-500 a year, and I do not suppose that Mr. Dinsmore has saved anything to speak of. The colony at Seoul is a dinner-giving one, and when it is remembered that most of the provisions are brought over from London via Shanghai it will be seen that a dinner in China is quite an expensive item. Our minister to Siam gets \$5,000 a year, but he does not have to entertain to any great extent. The European ministers spend, as a rule, more than their salaries, done by his secretary of legation, Mr. Hitt, at present a representative in Congress from Illinois. Gov. Noves once told me that Mr. Hitt's expenses in Paris were \$30,000 a year. I doubt not that Senator Palmer is spending at Madrid considerably more than he receives as Minister to Spain, and Whitelaw Reid will never get through with his social duties at Paris on \$17,000 a
