Voting isn't simply a privil a of the citizen; it is a duty, a duty that he westo himself, to his fantily and has State. There is no dodging that.

North Carolina expects every white man to do his duty in the coming election, and the man who don't do it, won't feel very white if the Radicals slip in through his indifference or negle :t of duty.

The main object in President Harrison's junket is to liven up the Republican party in the West and help to bring out the vote in the coming elections. The political managers are working up the enthuse.

Paddock, Plumb and Pettigrew were the Republican Senatorial trinity of P's who voted against the Mc-Kinley tariff. This is somewhat Pculiar. They stood square up with the three big V's, Vance, Vest and

California furnishes nine-tenths of the raisins consumed in this country now. When they want to convert them into Spanish raisins to please the taste of those who prefer the imported article, a Spanish brand is slapped on and the thing is done.

It the State of Wyoming were picked up and dropped down in some other State, she wouldn't have population enough to entitle her to one member of Congress, but, coming in as a State ward of the Republican party, she has two Senators and a member of the House.

The census of the new State of Wyoming shows a population of 60,-589, a population not three times as large as the population of Wilmington, and yet the Republicans by taking her in scooped two U. S. Senators and a member of the House. That's business, from a party standpoint?

Herr Most says the ideal commonwealth is one whose "foundation should be communism, whose soul should be atheism, and whose pervading spirit should be anarchy," this, with no soap and lager free gratis and for nothing would fill the bill for Herr Most and most of his €rowd.

Fine Church Music To-Day. It is quite generally conceded that no church in our city has finer music in its services than St. Paul's Lutheran Church. To-day, in its services, superior and suitable church music will be furnished by strangers, who will assist the organist and choir.

Prof. Koeben, who is not only a master on the Zither, but also a fine pianist, is also a superior pipe organ player. He has played on some of the largest and finest organs in the cities of Cologne, Worms, etc., in Germany, and in quite a number of places in this country. He will assist the finely skilled organist, Miss E. Adrian, both in the morning and evening services, by playing voluntaries of the highest order. Mrs. Koeben will sing a grand selection from Abt's Church Music.

Rev. C. L. Arnold. Rev. C. L. Arnold, rector of St. Paul's Episcopal Church, has definitely deter-

mined upon leaving Wilmington. He will accept the charge of St. Stephen's Church, in Goldsboro, and will make that city his headquarters, engaging in mission work as well as in parish work. He will therefore remain in the diocese of East Carolina. His charge of St. Paul's, in this city, will terminate November 1st, very much to the regret of his parishoners and other friends in the

FOUND ON MARKET STREET.

Articles Supposed to Have Been Stolen. Several small articles, supposed to have been stolen, were found on the door-steps of a house on Market street near Fifth, Friday night by two young white men, who carried the things to the City Hall and gave them to the Chief of Police. The find consists of two infants' white caps, four small damask tablemats, an infants' crochet sack-white and blue worsted, two squares of figured Japanese or China silk-one of the squares having metal ornaments pendant on one edge, and a cook's or housekeeper's gingham apron. The owners can recover the goods on application at the City Hall.

Suggestions for Reading.

From Sire to Son. At the close of the first act it was apparent that Milton Nobles' latest offering to the muses was an undeniable success. The plot is particularly interesting to us, as the basis of the play is of California origin, and many of the incidents occur on this coast. We can judge of the versimilitude to nature as experts, nor can we find one incident or touch to cavil at. "From Sire to Son" is absofutely true to the represented period in our State's history, and the coloring and character drawing are worthy of Bret Harte. It is one of the best, if not the best, California play, which has been written .- New Orleans Times.

Electric lights will probably be used in Fifth Street M. E. Church to-night. The new altar has arrived and has been placed in its proper position. A door has been cut on the north side of the tower and steps built on the outside, so that the chime-ringer can have access to the chimes.
