OUTLINES.

Last Sunday's storm, in Braxton county, W. Va., was very destructive; great losses were sustained by the tarmers and lumber men, and many of them are almost ruined. - A Nova Scotia dispatch tells a thrilling story of the rescue of four shipwrecked men; amid a most perilous sea a few brave men risked their lives, and finally succeeded in bringing the unfortunate sailors to shore. - Dillon and O'Brien sent a dispatch yesterday to their counsel at Tipperary, announcing their safe arrival at Cherbourg, France; if discovered the government will criminally prosecute their accomplices in making their escape. — The deaths from cholera at Aleppo average fifty daily. __ It is stated that a number of the Catholic archbishops of Ireland have been summoned to Rome in the early part of next year; this is an unusual and significent step, and it is believed the summons is in connection with the Irish political situation and kindred subjects. - W. J. Rogers, the Democratic nominee for Congress in the second district of this State, has tendered his resignation on account of illhealth; no other candidate will be placed in the field, as the district is largely Republican, and time does not permit a canvass. - A convention of the Brotherhood of Locomotive Engineers is in session in New York city. - A dispatch from Constantinople reports that the arrests of Armenians still continue, and that many of them have been shockingly maltreated and tortured. - M. P. Gill, M. C., a member of the Irish delegation appointed to visit the United States, to secure aid for the National cause Ireland, is now in New York, and has furnished the Associated Press vith a statement relative to the mission ... its purposes; representative Irish Americans are called upon to communicate with him at the Fifth Avenue Hotel, New York. - A St. Petersoung dispatch states that the government will shortly introduce a reformed judicial system in Siberia and the Russian possessions in Central Asia. - Two Chicago policemen have been at enmity for some time past, which culminated yesterday in one shooting the other with a pistol and fatally wounding him. - New York markets: Money easy at 4@6 per cent., with last loan at 4 per cent.; cotton easy; miduing uplands 105g cents; middling Orle ins 101/2 cents; southern flour dull a 1 quiet; wheat unsettled, closing wea.. .nd dull; No. 2 red \$1 05%; corn quiet a. 1 irregular, closing easy; No. 2, 56@ in 4 cents; rosin quiet and steady; stra :: d common to good \$1 351/2@1 45, rits tur-

pentine quiet and firm at 401/2 +1 cents.

The grip has reappeared in some of the Western States, but some of the Republican politicians find it hard to hold their grip.

Corporal Tanner has again opened his mouth to remark that Raum will be bounced. When Harrison substituted Raum for Tanner he got a devil for a witch.

It is said that Tom Reed is opposed to holding an extra session of Congress: He thinks he has sins enough to account for in presiding over the regular sessions.

Mrs. Annie E. McClure must enjoy being married. She was granted her third divorce in Chicago last week from David G. McClure, to whom she was married the first time

The Count of Paris and his son have been planting trees in this country. There are a good many Frenchmen who wouldn't object to planting the Pretender, his son, and all their tribe.

It is stated that Miss Winnie Davis broke her engagement with Mr. Wilkinson on account of her health, and she will shortly go to Mexico where she will remain six months or more, with the hope of benifitting it.

The longest pole knocks the persimmons. From the way the Republican managers in Pennsylvania are registering the Poles and other imported cattle, they believe the fellow that has the most Poles will get the most persimmons.

That the British Government believes there is distress in Ireland is shown by the fact that it has advanced \$2,000,000 to a railway corporation to extend its lines and thus provide work for the people in the distressed districts.

FIRE ACROSS THE RIVER

The Government Tug-boat Easton and Mud-Scow Partially Burned.

An alarm was sent in last night about 3 o'clock from box 51 at the Champion Compress, for a fire discovered on the west bank of the river at the U.S. government wharf, where the steam tug Easton, a pile-driver and several mudscows were lying. The fire was on the Easton, and spread rapidly to all parts of the boat; but fortunately there was little or no wind stirring and other boats in the vicinity suffered no injury with the exception of a mud-scow alongside of the Easton which was slightly damaged.

The steam tug Marie, Capt. Edgar Williams, put in an appearance soon alter the fire broke out and with her powerful pumps and fire-hose soon had the fire under control, and finally extinguished the flames. Part of the wheel-house of the Easton and the deck-house were destroyed and the

boat otherwise damaged. The Fire Department responded promptly to the alarm, and engines, reels and trucks were soon congregated in the neighborhood of the Champion Compress, but on orders issued by Chief Martin Newman, all, with the exception of the "Atlantic" engine. returned to their houses. The "Atlantic' remained at the foot of Walnut street until the Marie had the fire under con-
