A Republican paper lauds Harrison's administration and says it will live in brass. This is quite proper. It is the brassiest administration this country has ever known.

Jay Gould says that the effect of the raise in the price of clothing under the McKinely bill will be to make men wear their coats longer. Perhaps it will also make the women wear their dresses shorter.

New York city has one hundred and twenty-eight hotels, to say nothing of several thousands of establishments of less pretensions where mysterious hash is fabricated and dished out to the hungry but unsus-

picious public. The New York police found nearly 200,000 people more than Porters men did. This shows that the New York police can find people when they want to, and that they

PRESBYTERIAN SYNOD.

SEVENTY-SEVENTH ANNUAL SESSION.

Saturday's Proceedings-Reports Received and Adopted-Union Theological Seminary-Committees Appointed-Resolutions-Final Adjournment.

MORNING SESSION. Synod met at 9:30 o'clock and opened

with prayer. The minutes of yesterday's session were read and approved. The clerk was instructed to procure from Dr. Morton, Synodical Evangelist, statistics from the report made by him yesterday for incorporation in the Minutes of the Synod.

The report of the committee on records of Fayetteville Presbytery was received, adopted, and the resolutions sustained.

Report of the committee on Union Theological Seminary was received and approved and a resolution offered in connection therewith was adopted.

The unfinished business was taken up, which was the consideration of the report of the Synodical Commission.

Rev. C. A. Munroe asked if the establishment of the Central University recommended by that Commission was intended to supplant the theological nstitutions of the church now in exist-

Dr. Shearer, the chairman of the Commission, replied that such an University would necessarily need many feeders, and the decided sentiment of the Commission was that it would, rather than hinder the work of present schools, be the means of establishing more high schools, and increasing the universal interest in the cause of educa-

The recommendations of the Commission were largely discussed, and their import clearly set forth by Dr. Shearer. The report was adopted, and is as follows:

the Synods of North Carolina, South Carolina, Georgia and South Georgia and Florida, beg leave to submit to the Synods the following report:

I. We deem it desirable, necessary, and practicable for the four synods to unite in founding and fostering a school common to them all. We do therefore recommend the adoption of the following Plan of Union, which shall be of the nature of fundamental law for the proposed institution :

1. The Synods shall appoint each three Regents, so elected that one shall pass out of office each year, who shall constitute a Board of Regents, of whom onr half shall be a quorum. The sole government of the institution shall belong to this Board,

2. Such institution shall embrace first such academic and scientific courses as are usual in institutions of a high grade, and then such professional polytechnic, and industrial schools and courses as may from time to time seem proper and necessary. In connection with every course there shall be given a thorough and comprehensive Biblical training so as to make an intelligent Scriptural faith the controlling principle of the in-

stitution. 3. The school shall be called a University, in that it shall offer the best facilities in reach for thorough culture and a high standard of graduation, and also an ever-widening scheme of courses taught, all to be presented in such relations and combinations as may seem wisest.

4. The Board of Regents shall exercise the usual powers of such bodies, and employ executive agencies and exact such by-laws as may seem to them necessary for the furtherance of their work and shall secure a Charter of Incorporation in the State where they shall locate the institution.

5. This Board shall proceed at their own discretion to secure a plant for the University, and endowments, both temporary and permanent. They shall locate, organize, and develop the institution as soon as in their judgment it can be done with safety, and to such extent as the means in hand will justify without incurring debt.

6. Any other sister Synods or any new Synods formed of parts of these shall be entitled to elect Regents as herein provided, on their adoption of

7. This Plan of Union shall be in force when ratified by three Synods.

II. This Conference also offers the following recommendations to the Synods in furtherance of this great interest: 1. That the Synois appoint each a Committee on Church and Christian Education and urge their Presbyteries to do the same, the duty of which committees shall be to disseminate informa-

education as best they may, and make annual reports to their respective bodies on this subject. 2. That the Synods urge upon the ministers under their charge, to preach and instruct the people on the duty and necessity of providing, as far as possible, for the education of our sons and

tion and excite interest in Christian

daughters, and to give a special emphasis to the cause of female education. 3. That Presbyteries, sessions, officers, and private members of the Church be exhorted and encouraged to provide in every possible way for schools, both primary and preparatory, in which the

Bible shall be a text-book. 4. Also that the Synods cause to be prepared and circulated pastoral letters on this subject to all our people.

Report of the committee to appoint Regents of the Orphan's Home to fill vacancies, recommer .e1 S. A. Wiley in the place of Hon. D. G. Fowle, Rev. W. R, McMillan in the place of Rev. Mr. McBride, and A. Leazar in the place of Hon. Alfred M. Scales. Report received

dress to the Churches was received, adopted and ordered printed in the appendix to the minutes.

Report of the Agent of Publication was received, resolutions considered seriatim and adopted, and the report adopted as a whole.

The Moderator made a satisfactory explanation of why the report of missions in this city was not read yesterday in connection with the report of home missions, and said that it would be incorporated in the minutes of the Synod.

Reports of Committee on Statistical reports of presbyteries was received and approved and ordered printed in the appendix to the minutes.

Rev. J. M. Wharev, D. D., Rev. C. A Munroe and Ruling Elder J. A. Gilmore were appointed a committee to nominate a board of Regency of the proposed Southern University, and a Committee on Church and Christian Education, as required by the report of the Synodical Commission.

The report of the Synodical Agent o Sabbath Schools was read by the Agent Rev. A. R. Shaw. The report shows that never before in the history of the Synod has the progress in this line been as marked. It is worthy of note that the Sabbath Schools in Concord Presbytery contributed in the past year more for the purpose of beneficence than for their own expenses; and also that in the Presbytery of Fayetteville, 535 Sabbath School scholars were admitted to communion; nearly one-half of the number reported by the six Presbyteries. Report received and

A resolution expressing the regret of the Synod that "time did not admit of a fuller discussion of the subject of Lay Evangelization so that speakers could be heard on both sides" was adopted by a unanimous rising vote.

Report of the Agent on Education was received. In this connection Rev. Dr. Shaw, President of Davidson Col-We, the commissioners appointed by lege, gave an interesting report of that institution. Report adopted.

Rev. R. C. Beaman, of the M. E. Church South, was introduced and asked to sit as a visiting brother. Report of Committee to nominate a

Board of Regency of the Southern University suggested the names of Rev. J. B. Shearer, D. D. Rev, J. S. Watkins D. D. and Major Robert Bingham. The report was adopted. As the Committee on Church and

Christian Education, Rev. J. H. Rumple, D. D., Rev. J. H. Smith, D. D., and Geo. E. Wilson, Esq., were appointed. Report of the Synod to the General

Assembly was received and adopted. The time fixed for the next meeting was changed to Tuesday, Nov. 10, 1891

at 7.30 o'clock.

Rev. P. H. Hoge, D. D., Rev. H. G, Hill, D. D., and Judge T. B. Womack were appointed alternates on the Board of Regency of the Southern University. Report of the Committee on Paro-

chial Instruction was referred to the Committee on Church and Christian Education.

The following resolution of thanks was adopted by a unanimous rising

Resolved, That the Synod of North Carolina hereby heartily thank the members of the Presbyterian churches and the citizens of Wilmington for the hospitable entertainment and various courtesies extended during its session; to the officers of the different churches for the offer of their houses of worship; to the city newspapers for their accurate reports of its proceeding, and the several railroads that allowed reduction of tare over their lines. The Synod would desire to make special mention of the labors of Mrs. W. Frank Williams for the very accurate reports which she has turnished the daily papers, and would tender especial thanks to her for her untiring labors during our session.'

Report of the committee on the North Carolina Presbyterian was docketed for the next meeting of the Synod.

The roll was called, the minutes of the last session read and approved, and with singing, prayer, and the Apostolic benediction, the seventy-seventh session

of the Synod closed.

Miss Manning.

Tuesday night Effie Ellsler commences an engagement at the Opera House, opening in her latest success, entitled 'Miss Manning." Of the play and company the Richmond Times of Wednes-

Miss Effie Ellsler, a great favorite with Richmond theatre-goers, began a three nights' engagement at the Academy last night, presenting for the first time here her latest comedy success, "Miss Manning." The play is different from anything in which Miss Ellsler has appeared, inasmuch as it affords her an opportunity to make her oudience laugh instead of cry, and that they did laugh and thoroughly enjoy this charm-ing comedy was attested by the frequent outbursts of applause and curtain calls. Miss Ellsler's part is full of comedy, and she completely captivated the large au-dience present by her rendition of two songs with piano accompaniment in the second act.

The company with which she hes surrounded herself this season is better than ever before.

WILMINGTON LIBRARY ASSOCIATION A Pleasant Place For Visitors-Many Additions to the List of Books During the Past Year.

Those who have not visited the Library Association rooms, on Market street, should do so at once to see the many improvements of the past year. The reading room is one of the most attractive looking places in the city, and one that has been much patronized of late by our reading public, Since March, there have been over 3,500 visitors to the rooms, and over 800 books taken out for home reading. More than 90 books have been presented to the Library; embracing works of fiction, history, science, biography, poetry, masonry, and law, and over a dozen new perodicals have been added to the Library lists. The donors of books and periodicals being H. A. Bagg, Miss Bradley, J. C. Chase, F. S, Clark, Junius Davis, J. T. James, Mrs. C. H. King, H. H. Munson, Mrs. M. W. Thomas, J. G. Wright, the Salem (Mass.,) New Hanover, Providence, and Fall River Libraries, and the United

States Government. The Library has been made a governmental depository of public documents, and the Coast Survey has promised it a complete set (over 400) of their maps. Its new card catalogue has been completed so as to show at a glance all the books of the Library, either by the author's name, or by the first word of its title, or by the subject written about. This catalogue is the first of the kind in this city, and is a curiosity worth examination by those who have not already

A NEW RAILROAD.

Letters of Incorporation Taken Out for Big Through Line.

The Raleigh News and Observer men tions that attorneys for a company of capitalists, representing six million dollars, last Friday took out letters of incorporation from the Secretary of State of North Carolina under the laws of the State, chartering the Norfolk, Wilmington and Charleston Railway Company.

The News and Observer adds: "The line will run into this State not far from the town of Shallotte, running through into Columbus or Bladen, and then pursuing the coast line as near as may be practicable, will pass through Wilmington, and proceed thence on to Norfolk. The company has been duly organized, and the required amount to secure the charter has been duly paid in. The corporation is composed of able men, including the strongest capitalists of Virginia, North Carolina and South Carolina. Among the directors there are men who are well known in Charleston, Wilmington and Norfolk, It is definitely learned that the scheme has gone so far that the building of the line is now positively assured at an early date."

During his labors in Wilmington, Sam. Jones shook the city like an earthquake, from centre to circumference. He ran a buzz saw through the centre of the Cape Fear Club; he scorched and burned the ninety saloons in the city till the Mayor did not have a case of violation of the laws to adjust. He attacked the dens of infamy in the place till their inmates poured into the meeting, weeping and crying for mercy like chastised children. He peeled all the hide from infidelic dudes and dudines till their flesh was as nude as a peeled orange; and he blowed up atheism with the dynamite of gospel truth and logic, till the fragmentary particles filled the air thick as thistle downs upon a summer evening's breeze.
