OUTLINES.

The President will leave Washington tomorrow morning, for Indianapolis, for the purpose of casting his vote; he will reach his destination Tuesday morning, and will leave for Washington the same evening. It is now certain that twenty-seven lives were saved from the Spanish steamer Vizcaya, which was sunk in collision off Barnegat on Friday last. Yesterday was annual settling day at the Bank of England, and no business was done on the Stock Exchange. Almost the entire business portion of the town of Chillicothe, in Illinois, was destroyed by fire Friday night; the loss will not fall far short of \$300,000, on which there is only partial insurance. A morocco manufacturer of Lynn, Mass., has turned off one hundred and sixty-seven employes, in accordance with a resolution adopted by the National Morocco Manufacturers' Association that all Knights of Labor should be discharged. A terrible crime is reported from Akron, N. Y.; a young woman, aged nineteen, employed as a domestic, enticed two little girls, aged six and ten years, to take a walk with her, when she threw them off a railroad bridge, instantly killing the eldest girl; the younger one was terribly injured, but is still living; the young woman afterwards tried to drown herself, but was rescued; it is believed to have been a crazy act. The Navy Department has arranged to acquire a supply vessel for experimental use, and will make no further purchase for a year. The Count de Paris sailed from New York yesterday for Liverpool on the steamer Servia. Bids were opened yesterday at the Treasury Department for the construction of a new dry dock at the naval station at Port Royal, S. C.; the award will be made upon the recommendation of the Naval Board. The mate of the steamer Vizcaya in collision with the Spanish steamer Vizcaya, off Barnegat, for whose thrilling account of the disaster by which both vessels were sunk and a large number of lives lost; the struggle for life by the unfortunate people who were thrown into the sea was of a desperate character, and some scenes are narrated of the most affecting kind, especially that of a bright Spanish boy who kept up his nerve until the last moment, the purser of the steamer with two bags of gold in his hands, begged piteously to be saved, but he and his treasure both went down into the waves. A shooting affray occurred yesterday in Clarksburg, W. Va., between a newspaper editor and a prominent citizen, which resulted in both of the parties being seriously wounded and will probably die. A sixteen-year old girl, daughter of a white family living near Columbia, S. C. was found dead in a field yesterday afternoon, with her throat cut from ear to ear, and there are strong evidences that she had been outraged and then murdered. New York markets: Money easy at 4 1/2 per cent. last loan at 4 per cent; cotton quiet; sales 331 bales; sales last evening, not reported, 70 bales, middling uplands 9 3/4; middling Orleans 10 1/8; southern flour dull but steady; wheat dull and nominally higher; No. 2 red \$1 09 1/2 at elevator; corn firm and quiet 3/4 @ 3/8 up; No. 2, 60 1/2 at elevator; spirits turpentine dull at 40 1/4 @ 41c.

Fred. Harder, of New Philadelphia, Ohio, one day last week took a dose of morphine, with suicidal intent. He was pronounced dead, and was buried. A few days after a brother arrived, and at his request the body was disinterred when it was found that the supposed suicide had been buried alive and had died of suffocation. The glass in his coffin was broken and his hands and face badly cut by the glass in his efforts to release himself.

The tax on cutlery is one of the most outrageous in the whole tariff schedule. Knives that in England cost \$3 a dozen, with the tariff added in this country cost \$7.50. By the time it passes through the hands of the jobber and the retail dealer the knife which cost in Sheffield 25 cents costs the American buyer \$1.25. That's protection with a vengeance.

Mr. Stanley says he suppressed much about the "rear guard" in Africa because some things happened which were too shocking to go into print, the recital of which would make Englishmen blush. There is evidently a very dark side untold of the story on "Darkest Africa." But the diaries that are being published will force the story.

A writer in a Chicago religious periodical asserts that Chicago is increasing in wickedness and that she has not as many churches in proportion to population as she had fifty years ago. According to his statement Chicago would be a very good town for a score or two of able-bodied missionaries.

Seal skins are said to have advanced one hundred per cent. in London. The average run of people in this country won't feel this as much as they do in the advance in the price of blankets, woollen garments, &c. They can manage to scuffle along without seal skins.

Ohio Republicans are consoling themselves with the hope that the Democrats will not elect more than half the Congressmen from that State. Well, if they don't, this will be a gain of six, which will do pretty well from one State.

Superintendent Porter says when Philadelphia applies for a recount of the population he will treat her like New York. That is to say he will "treat her with contempt," as the Celtic gentleman did the fellow who asked him to treat.

State Senator Thomas F. Grady, of New York, says Gov. Hill will be a candidate before the Democratic Convention for the Presidency; but he will have up hill work in getting it while Grover is in the ring.

That Illinois farmer who scooped up \$19,000 the other day in a Burlington, Iowa, gambling house, can stand the McKinley tariff for awhile.

The Peanut Crop. A dispatch from Norfolk Va., says enough of the Virginia peanut crop has been gathered to furnish the estimate that 3,000,000 bushels will be dug this season. This estimate is so enormous that there has been almost a panic in the peanut market. Friday, in Norfolk, which is the largest peanut distributor in the country, the nuts sold as low as three and a quarter cents a pound. It is rumored that a trust composed of the cleaning factories in the principal cities has been formed and has taken charge of the market.

Weather Forecasts. The following are the weather forecasts for to-day: For Virginia, North Carolina, South Carolina, Georgia, Alabama and Western Florida, fair weather, warmer, southerly winds. For Eastern Florida, fair weather, slightly warmer, except stationary temperature in southern portion, variable winds.

Metorological Summary For October. Mr. F. P. Chaffee, signal service observer, furnishes a summary of the weather conditions in October, from which the following is gathered: The mean barometer was 30 inches; the highest, 30.29 on the 10th; lowest, 29.64 on the 29th. The mean temperature was 64 degrees; highest, 86° on the 6th; lowest, 38° on the 28th. Total deficiency in temperature during the month, 10 degrees. The prevailing direction of the wind was northwest, and total movement 6,215 miles, extreme velocity 36 miles from the southwest on the 29th. The total rainfall was 1.88 inches; deficiency in precipitation, 1.99 inches. There were 18 cloudless days, 6 partly cloudy, 7 cloudy. There was frost on the 28th and 30th, and a thunder storm on the 16th.

Arrivals in October. The books of the Harbor Master show the following arrivals at this port during the month of October, viz: American—Ten steamers, one brig and fourteen schooners. Tonnage, 11,838. Foreign—Eleven steamers, one brig and eight barques. Tonnage, 17,586. Total—Forty-five vessels. Tonnage, 28,924.

Remember Bridgers & Rankin is the only place in the city where you can buy Royster's Candy.

COTTON.

A Large Increase in Receipts as Compared with Last Year. The receipts of cotton at this port during the month of October amount to 55,235 bales, against 37,077 the same month last year. Receipts for the crop year—from September 1st to November 1st—are 98,903 bales, against 58,414 for the first two months of 1889—an increase of 45,489 bales.

Exports since September 1st, 1890, are 75,093 bales, of which 69,083 bales went direct to foreign ports. The stock at this port is 25,970 bales, against 9,780 on the first day of November last year.

Cotton Belt Bulletin. The Signal Service men report a killing frost at Wilmington yesterday morning, with the mercury at 34 degrees. The temperature was lower at other stations in the district, the minimum reported being 30 degrees at Charlotte, Wadesboro and Lumberton, 28 degrees at Weldon and Cheraw, and 32 degrees at Newbern. There was no rain in the cotton belt.

WATCH YOUR TICKETS! The Republican candidates for Sheriff and Clerk of the Superior Court, are circulating tickets having the Democratic candidates left off, and their names inserted instead of the regular Democratic nominees. This is an insult to the Democracy of New Hanover. For if they had attended the meeting of the Republicans held on Friday night last and heard the speech of one of the said candidates, no Democrat, yes, no Democrat, could hesitate as to what his duty is on Tuesday next.

Democrats watch your tickets and see that the straight ticket is voted, with no erasures or scratching. This is a time of all others when Democrats should vote the straight ticket. Be cautious and you will have victory.

W. F. OLDHAM, Chairman Dem. Ex. Committee.

POLICE OVERCOATS. Mr. Editor: Don't you think the Mayor and Board of Aldermen went a long way from home to give the contract for the police overcoats to Messrs. D. Klein & Bro., of Philadelphia? How much tax do the above firm pay to this city which goes toward paying the salaries of the Mayor and police force? No doubt they can manufacture North at a somewhat less price than here, not having the heavy taxes to pay that we have. Suppose we should send our orders North for our supplies of groceries, dry goods, furniture, clothing, &c., because they could be bought a little cheaper? What would become of our city government, our city and our merchants? No one will dispute that our merchants pay the largest portion of the taxes to keep up the expense of our city government, and here our city fathers set such an example before our people. Just think over it a little. Why not give all contracts to home merchants, who may be the lowest bidder.
