OUTLINES.

The returns from Tuesday's election, given this morning, furnish much interesting reading, showing a magnificent victory for the Democrats; the next House of Representatives will be Democratic by a majority variously estimated at from fifty to nearly one hundred, and it is probable that several Democratic U. S. Senators will be secured. McKinley's defeat in Ohio, is one of the best features of the grand result and furnishes conclusive evidence of the public sentiment relative to the Adams tariff bill which he and his party have foisted upon the country; Parson, the Democratic candidate, is elected Governor in Pennsylvania, and there is a gain of several Democratic Congressmen in the same State; the South almost solidly Democratic; but real returns for all the particulars of the great victory. — Ex-President Cleveland has been interviewed on the results of President's election; he expressed himself as delighted, and challenged the right of any man in the country to rejoice more heartily than he over the results; tariff reform was the great question, and the Democratic party must push on the battle until a complete victory is won. — A fire in New Rochelle, N. Y., yesterday morning destroyed property valued at \$75,000. — The President returned to Washington yesterday evening from Indiana where he went to cast his vote. — The minister General Wanamaker does not believe that the President has any thought of calling Congress together before the regular session; two other members of the Cabinet say "there will be no extra session." — There is no truth in the report that Bishop Beckwith is in a dying condition in Atlanta; he has been ill, but is rapidly recovering. — New York markets: Money easy at 3 1/2 per cent, closing offered at 1 1/2 per cent cotton easy; middling uplands 9 1/4-10 1/4; middling Orleans 9 1/4; southern flour quiet and weak; wheat dull and weak; No. 3rd \$1 06 1/2 at elevator; corn 1 1/2 lower and weak; No. 2, 79 1/2 @ 60 cents at elevator; spirits ranging higher and quiet at 41 1/2, 42, rosin firm and quiet.

The Republican party of North Carolina will be represented in the next Congress by one solitary colored brother, a sort of black and tan. He is a proper representative of the g. o. p.

A Tennessee parson stole another man's wife and lit out. The other man might have stood it if the parson in his haste hadn't taken his span of horses along, and had him overhauled and rammed in jail.

It is said that the German Emperor dons five new suits of clothes every day. It is a good thing for the German Emperor that he don't live in this country and hasn't to buck against the McKinley bill.

There will be no reports from the Illinois Cannon in the 53d Congress. He can remain at home and be swabbed out. That's what the people of his district said Tuesday last by a majority of 500.

The gentlemen who run the plow got in their work in some of the Western States last Tuesday. The campaign of education had its effect out there, which proves that education is a good thing.

If Reed, McKinley, and the balance of the gang had their tariff work to do over again with the light of last Tuesday before them, perhaps they would come down a little in their tariff rates.

When Tom Reed meanders about in the next Congress minus his mallet and sash, he may sometimes remark that the minority ought to have some rights that the majority should respect.

The manufacturers of the Eastern States, and the men who work in the shops, expressed their opinion of the McKinley bill Tuesday, and emphasized their demand for free raw materials.

We desire to remark that it occurs to us, or at least there was a strong intimation that way last Tuesday, that the South is still solid, serene and happy.

BOARD OF ALDERMEN.

A Special Meeting at Which the Sewerage Problem Was Considered.

A special meeting of the Board of Aldermen was held yesterday afternoon to consider the matter of the sewer now under construction on Princess street.

Alderman Pearsall submitted an ordinance making it unlawful to lay any pipe or drain in any street or alley of the city for the purpose of any kind of sewerage without the consent of the Board of Aldermen, and then only in conformity with such sanitary requirements as the County Board of Health shall prescribe in writing and under the direction of the city engineer as to the character and execution of the work.

It further provided that any one offending against the provisions of this ordinance shall forfeit and pay \$50 for each violation.

Alderman Hicks wanted to hear from persons interested in the sewer under construction on Princess street, and also from Drs. Wood and Thomas, who were present.

Mr. R. M. McIntire, one of the parties interested in the sewer, stated that they had gone to work after making application to the proper authorities.

Mr. S. H. Fishplate said the company had received permission from the Chief of Police to prosecute the work, and he asked that they be allowed to continue it.

Dr. Wood, upon invitation, addressed the Board. He had carefully studied the whole matter of a system of sewerage for the city, and regarded what was being done as jeopardizing the health of the whole city; it was a piece of patchwork from beginning to end, and dangerous in the extreme—an experiment that had been tried by other cities with the most disastrous results.

He argued, also, that it would besides defeat any public system of sewerage by the city; instanced the fact that the temperature of the river in the summer reaches the point of putrefaction; Northern cities could with impunity do what we dare not do. It is no secret, he said, that genuine typhoid fever has increased, and its origin begins in sewage matter. He argued strongly in behalf of a complete and perfect system of sewerage by the city, under the direction of a competent scientific engineer.

Dr. Thomas expressed himself as thoroughly in accord with Dr. Wood, and urged the importance of a properly constructed system of sewerage. He instanced cases of typhoid fever which were directly traceable to foul and improperly constructed sewers.

Discussion of the matter was prolonged, and finally the ordinance being submitted to a ballot, was rejected by the casting vote of the Mayor, who stated that he voted against the adoption of the ordinance because he thought the same privilege ought to be allowed the company as to other citizens, at least to complete the construction of the sewer now under way.

On motion of Alderman Post a sum not exceeding \$1,500 was appropriated to secure the services of a competent sanitary engineer and securing plans for a complete system of sewerage.

A communication was received from Mr. Pembroke Jones in regard to repairs of Chesnut street wharf. It was referred to committee, and the Board adjourned.

S. mail, on the 27th day of June last, about 93 miles from the city, he and his companion, Mr. Bryan, were stopped by Gaston, who demanded their money. Mr. Bryan drew a pistol and attempted to shoot Gaston, but the weapon missed fire. Gaston fired a pistol at them in return, and then took to the woods.

Mayor Fowler testified to facts attending the arrest of Gaston, and the statements and admissions the prisoner made at the preliminary investigation of the case.

The jury returned a verdict of not guilty.
