The vindictive Chicago Inter-Ocean remarked a couple days before the election, that there were some places in the South where Republicans would be allowed to vote and have their votes counted, but these were the exception and not the rule. Does it follow from the falling off in the Republican vote in so many of the Northern States, including Illinois, that there were places up there where the Republicans were not allowed to vote and have their votes counted?

The smallest baby on record was born in Newark, N J., August the 15th. It was a boy baby and weighed but three quarters of a pound. It was a premature birth, but the little chap much, to the amazement of the doctors, seems to be getting along all right. Some of the Republican bosses now feel about as small as that baby.

M. Renaudon, who recently died in Paris at the age of 106 years, never used tobacco, and to this the anti-tobacco society attributes his great longevity. Some gentlemen had previously died, a good while before Mr. Renaudon's time, who lived several centuries, and they never used tobacco either. It is a good thing not to use tobacco.

It is an ill wind that blows no hody good. Even the Republicans in the U.S. Senate will draw a breath of relief when they know that the cataclysm that struck them last Tuesday lifts Bore Blair out of the Senate. We do not envy them this comforting reflection.

As a matter of curiosity we would like to know how many white men in South Carolina still belong to the Republican party. So many have left it in the past six months that there can't be many left. Those who did remain were badly left last

LIBRARY ASSOCIATION CONCERT. Crowded Room-Delightful Music-New Pieces and Performers-A Musical

The first Library concert last night was a decided success, and the room was crowded to its full capacity by an enthusiastic audience. The smallness of the room prevented the admittance

of many who had not secured their seats in advance. The concert was preceded by a few short remarks by Capt. Bixby, calling attention to the many new features of

the Library, its new arrangement of books, its new catalogue, its attractive display of pictures and magazines, nearly all due to the energy and faithful work of the principal librarian, Mrs.

The programme was specially interesting on account of its variety and the many new people or instruments therein presented. The mandolin is almost a new instrument to Wilmington, and its light graceful tones were finely brought out by Mr. Murchison in a composition of his own. Again, the violincello is fully as new to us, and Mr. Murchison brought from it smooth and rich tones, echoes of the human voice, in perfect harmony with the sweet and sympathetic notes of Miss Annie De-Rosset, making the combination one which drew deafening applause from the

delighted audience. The brilliancy of the first and pathos of the second-song by Miss Bowden showed the power and versatility of her voice, one which will always meet with a hearty reception from her audience. The round, full, deep bass voice of Mr. Barber is a great acquisition to Wilmington-one that we hope to hear

The other voices were old friends to Wilmingtonians. Mr. Meyer's, full and strong, welcomed again after a long silence; Miss Wood's, filling well an indispensable part of a sweet and expressive trio; and Miss Annie DeRosset's, never heard to better advantage, at times soft, at others showing great power and execution, always appealing to the hearts of her hearers.

We must not forget the taste and expression of the piano solo by Miss Adrian, seconded by her always fine technique; nor the variety and sparkle added to the entertainment by the cornet solos of Messrs. Whiteley and

Krupp. The full programme is as follows:

Piano solo, "Adagia Expressivo, Chas. Mayer; Miss Eliza Adrian. Song "Sognai" ("I Dreamit") Schira; Miss Annie DeRosset.

An excellent assortment of Royster's Candy just received by Bridgers & RanA WEEK OF PRAYER

To be Observed by the Y. M. C. A.

Throughout the World. The week beginning Sunday, Nov. 9. has been set apart, as usual, by the International Convention and the World's Conference of Young Men's Christian Associations as a season of prayer for the Associations and their efforts in behalf of young men.

The American Associations have regularly observed this annual appointment since 1866.

The International Committee, which is the General Executive Committee of the Associations of the U.S. and Canada, has its headquarters in New York. There are 33 regular members, 52 advisory and corresponding members, a board of 15 trustees, 19 regular office and travelling secretaries, and a corps of special agents; all of whom devote the whole or a portion of their time and efforts to the work that is being prosecuted.

The growth of the work during the past twenty-four years-a growth largely due to careful supervision by the International and State Committees-has been remarkable, as the following com-

parisons will show: In 1866, there were less than 100 Associations, with a membership of not more than 15,000; now there are 1,341 Associations, with a total membership

of 213,000. Then, there was one Association building, valued at \$11,000; now, there are 205, worth \$8,352,910. Then, the total net property amounted

to \$90,000; now it amounts to over \$10,-Then, there were less than a dozen young men giving their entire time to the work; now, there are 1,095 secretaries

and assistants. Then, there was less than \$50,000 contributed annually for local, and only \$522 for general (International and State) work; now, there is over \$1,600. 000 given yearly for the former purpose,

and \$162,600 for the latter purpose. Then, there was nothing done for special classes of young men, such as college students, railroad employes, etc.: now there are 302 College Associations, 82 Railroad Associations, 10 German Associations, 36 Colored Associations, and 11 Indian Associations.

The following additional statistics show the present condition of Association work along other lines, being in every instance a very large increase

There are 1,031 Bible and Bible training classes for young men only; 1,537 weekly prayer, gospel, and praise meetings for young men only; 4,949 lectures and entertainments, and 3,269 sociables given annually; 17,143 different students in the educational classes; 511 libraries, with 422,912 volumes; 731 reading rooms; over 50,000 visits to the rooms daily; 368 gymnasiums; 145 literary societies; 9,554 situations secured annually; 178 boys de-

The entire cost of the extended work of the committee (including salaries, traveling expenses, publications, etc., but excluding the expense of the foreign work) was, during 1889, \$50,683. The Convention at Philadelphia authorized and directed an enlargement of this work calling for \$65,000 annually. For this amount the committee is dependent upon voluntary contributions.

If you want something elegant buy a box of Royster's Candy. For sale by Bridgers & Rankin.
