twelve-gauge gun of medium weight.

Fire broke out about half-past one o'clock yesterday afternoon in a onestory frame house on Miller between Dickinson and Woods streets. An alarm was sent in from box No. 43, corner of Sixth and Red Cross streets, and the Fire Department responded promptly to the difficulty in getting water-there being no fire-plugs within several squares

of the fire-this house and two other small frame buildings were destroyed. Two of the houses burned were owned by Josh Tucker, colored, and were occupied by Tucker and Rebecca McLean. The third house was owned by Ino. Wright and occupied by Lucinda Jordan, colored. The fire began in the house occupied by Tucker, who saved none of his furniture. The occupants of the other houses saved their effects. The loss is estimated at \$800 to

The nearest fire plug was at Eighth and Red Cross, four squares distant, and the nearest fire-alarm box was five squares away, Owing to these facts both of Tucker's houses were very nearly consumed before the Department arrived, and Wright's house was on fire before the engine could get water. About eighteen hundred feet of hose were required to reach from the hydrant to the burning houses. A small house next to Wright's house also caught on fire, but the fire was extinguished before much damage resulted.

W., O. & E. C. Railroad.

It is expected that the Wilmington, Onslow & East Carolina Railroad will be completed to-day to Southwest Branch, a tributary of New River about four miles from Jacksonville. At this point connection will be established with Jacksonville by means of the little steamer Louise, which formerly ran between Wilmington and Southport and was purchased some time since by the railroad company.

Stocks of Naval Stores at the Ports. Stocks of naval stores at the ports at the close of the week are reported

Sampson County Fair.

The Sampson Fair to be held at Clinton November 26th to 29th inclusive, will be the last county fair in North Carolina this year. An immense attendance is expected and all the arrangements point to an excellent exhibition of the varied mechanical and agricultural industries of Sampson and the adjoining counties. Senator Vance and Col. L. Polk have been invited and BOARD OF ALDERMEN.

A Called Meeting-The Sewerage Problem -An Ordinance Submitted and Adopted. A called meeting of the Board of Aldermen was held last night to consider the sewerage problem. There was present at the meeting his Honor the

The Mayor stated the object of the meeting, and Col. Hall, Chief of Police, was called upon to state the substance of a proposition made by him to the Sanitary Committee. Before doing so he stated that there was a misaprehension as to his powers as Chief of Police to grant permission to lay sewer pipe in the city. The ordinance as it now stands makes it legal for any one to lay sewer pipe any wherein the city, and no one has the power to prevent them. The only condition being that the Chief of Police surpervise the work. The permit given by the Chief is only for the purpose of keeping the police from interrupting and stopping them and no more. As to the suggestion made by

him, it is as follows: As the probability of completing a general system of sewerage is remote, it seems hard to deny the citizens the privilege of putting down sewer pipe for their own convenience at their own expense, which can be done with propriety and system by the city employing a first-class sanitary engineer-no mere pretenderwho shall make a perfect survey of the city and give a topographical map, with a grade of the city and a thorough plan of prospective sewerage adapted to every street and alley in the city, and then pass

and ordinance prohibiting any one from putting down any sewer pipe except in compliance with said plan; so, if the city should conclude to adopt sewerage (which will cost a large outlay of money) the engineer's map and plan are already paid for and at hand. If the city does not so act, then in a few years we will have the city sewer-piped by private enterprise, 12 o'clock noon ......... 60 and at no expense to the city.

After brief discussion the ordinance in relation to sewerage submitted at the last meeting, was again introduced by Alderman Pearsall, and was adopted unanimously, as follows:

Be it ordained by the Board of Aldermen of the City of Wilmington, and it is hereby ordained by the authority of the

Section 1. That it shall not be lawful to lay down any pipe or drain in any street or after of the city for the purpose of any kind of sewerage, without the consent of the Board of Aldermen and were soon on the ground, but owing | first had and obtained for that purpose, and then only in conformity with such sanitary requirements as the County Board of Health, through the Sanitary Board of Health shall prescribe in writing, and under the direction of the City Engineer as to the character and execution of the work, whose compensation for the same shall be fixed by the Board of Aldermen, and paid by the

party for whom the work is done. Sec. 2. That so much of subdivision 3 entitled "Sewers" of Article IV of the General Ordinances of the City. as is inconsistent with the provisions of Section 1 of this Ordinance, is hereby re-

pealed. Sec. 3. That any one offending against the provisions of this Ordinance shall forfeit and pay fifty dollars for each day of violation.

Sec. 4. That this ordinance shall be in force from and after its passage. The Mayor called attention to the election held in the First Ward for an

alderman to fill the vacancy caused by the resignation of Alderman Morton. Alderman Post nominated Mr. A. L. Scott for the position, but at Alderman Pearsall's suggestion the election was postponed until the next regular meet-

ing of the Board.

The Mayor announced that it was in order to elect a Mayor pro tem., and Alderman Hicks nominating Alderman Post, the latter was elected unanimously.

A Crazy Negress. A colored woman named Lucy Hines, living on Tenth street, opposite the Sea-Coast depot, on Sunday evening harangued a large crowd who had stopped while passing her abode. She preached from her porch. She said that God came to her in a dream one night about seven years ago, while she was living on the Sound, and told her to go to Wilmington and preach to the sinful people of that town. She left her home that morning when the cock crew and walked to town, where she has worked ever

Some time ago the city authorities had her under examination with regard to her sanity and found that she was not altogether crazy but laboring under religious excitement. She said Sunday that in future she would hold services Wednesday, Thursday and Friday evenings of each week, and special services on Sundays from 6 to 7 a. m., 2 to 3 and 6 to 7 p. m.

The Collectorship.

James H. Young, who was appointed Collector of this port several weeks since, but whose appointment was "hung up" through the influence of some of his pale-faced Republican friends, is very hopeful that he will handle the import entries and outward foreign manifests before the close of 1890. Well, Damocles Lordly Russell and Softsoaper Highkicker Manning are "devilish sly," but the colored Representative from the will be present at the Fair on the 27th | Second District may cheatham after all. BY RIVER AND RAIL.
