OUTLINES.

In the Senate yesterday a bill was renorted providing against a reduction of the currency, and an attempt was made to consider a bill providing that the tariff act shall not be held to impede or impair the force of treaties between the I'nited States and other countries; it finally went to the calendar; the Election bill was further considered, Messrs. Coke and Bate making speeches in opposition, and Mr. Cullom one in its favor; several bills were taken up and passed; including one for a public building at Reidsville, N. C.; considerable time of the House was occupied in a contention as to the order of business, after which Senate bill to place the American merchant marine on an equality with other nations, was advocated in a speech by Mr. Farquaharr, of New York, which was continued until the adjournment. _Indian news is of rather an uninteresting character, and but little of it can be considered reliable; Gen. Miles telegraphs that his order for the arrest of Sitting Bull was none too soon, as the old chief had started runners to different tribes inciting them to hostility, and the effect has been disheartening to many others; he says there are over one thousand Indians in Bad Lands that are defiant and hostile yet. --- Empress Augusta Victoria, of Germany, has given birth to a son: the Emperor was attending a performance at the opera house when the event occurred, and hastily lett for the palace when the accouchment was announced to him; when the ardence learned of the event there was the greatest enthusiasm, all rising to their ivet and shouting "Long live the Emperor and Empress." --- The Grand Hotel at Margate, England, was entirey destroyed by fire Wednesday night, many of the guests made narrow escases, and were compelled to rush from the barning building in their night cistines. - A terrible railway accident is reported from Ontario; an express train went through a bridge, killing a number of passengers and injuring many others. - A man who killed his wife last Ju's by pushing her over a cliff, was hange lat Welland, Ontario, yesterday; he went to the scaffold firmly and with a smile on his face. --- The coal miners' strike in Alabama threatens to close every industry in the Birmingham district. - The rice crop in India this season will be larger than the average, and a considerable quantity will be available for export. -A steamboat, with five hundred bales of cotton on board. was burned on a Louisiana river yesterday. -- N. Succi, the Italian faster, who is new ading the fast act in New York, has passed his forty-second day. He started out to fast forty-five days. He has lost about fifty pounds in weight since he began.

The Indian racket is now on, and the rifle popping has begun. The killing of Mr. Bull knocked the stuffing out of the pipe of peace. There is neither fun nor glory in a tussle with the Indians. It is too much like a dog fight.

Codnsh Hoar is becoming quite accommodating. He isn't particular when, but will be satisfied if the Democrats will fix upon any time when they will quit talking and permit a vote to be taken on the Force bill, and the naughty Democrats wouldn't oblige him even that

Congressman Stahlnecker was barbecue at Lockwood's Folly bridge, stopped by the Doorkeeper of the House of Representatives the other day. As that was the first time Mr. Stahlnecker had put in an appearance since early in July, the Doorkeeper didn't deem it necessary to make any apologies for not knowing

There are still on the pension rolls three surviving widows of revolutionary soldiers. From the way the pension list is growing now the probabilities are that a hundred years hence there will still remain the names of about three hundred thousand widows of soldiers of the late "onpleasantness."

AN APPEAL.

The Ladies' Benevolent Society-Its Labors and Its Needs.

In the multiplicity of charitable institutions that have of late sprung into existence in our midst, the oldest and Force bill Wednesday quoted for the most venerable, and we might add, the benefit of Senator Dolph that clause most practically useful, is about to be in the constitution of Oregon reoverlooked. We refer to the Ladies' Benevolent Society, that finds itself at stricting suffrage to white citizens, this time almost destitute of funds, while Senator Dolph was struck with a beseiged by worthy people asking for assistance. The cold weather of late has brought to light many Hon. Chauncey M. Depew, becases of suffering, not only for lack of wood, but cases of actual need pended for, he says, the enterprises of the necessities of life and of clothing. of this age of steam and electricity The funds of the society are gone and the good women who voluntarily take have made the currency of the counupon themselves the unpleasant but try utterly insufficient for the de-Christian duty of seeking out the distressed and sick, find themselves powerless to lend substantial assistance to the many cases that press around them for

relief. The Young Men's Christian Association, "The King's Daughters" and other kindred associations, worthy in themselves and accomplishing good, have taken away the interest that once was manifested in the old association, and have crippled its finances and its usefulness. This society, from long and intimate acquaintance with the poor, knows how to spend most advantageously the money entrusted to its care, and while it may at times have helped those not so worthy of assistance, their poverty and suffering were such as demanded immediate relief, and that relief was given. When people are sick and starving, charity assists regardless of what past life may have been, and rightly so, yet some have objected to this society because it assisted what they termed the "unworthy." Could the benevolently inclined, and those that have heretofore been subscribers to this charity know the manner in which their contributions have been distributed, no one would cavil at its expenditure. Money, clothing and food are needed, and in this good Christmas 'time, when those who have more than enough of this world's goods, and feel like doing an act that their conscience will approve, and their heart applaud, let them send a contribution to any of the ladies that comprise this organization, and let them make glad the face of a poverty stricken child, or make warm the body of some mother who is depriving herself that the children may be clothed.

WILMINGTON & ONSLOW RAILROAD.

A Hearing Before a Committee of the Board of Algermen on Petition of the Company for Right of Way Over Certain Streets.

Aldermen Montgomery, Smith and Craft, the special committee to whom was referred the petition of the Wilmington, Onslow & East Carolina Railroad Company, asking for right of way along South Front street, from Kidder to Dawson street, and thence along Surry streeet to Castle; and, also, that Surry street be opened on its southern extension from Queen to Dawson street, met last evening in the Mayor's office at the City Hall, to hear what opponents and friends of the petition had to say about the matter.

There were twenty-five or thirty gentlemen in all present, representing the Wilmington Cotton Mills, the railroad company, the Carolina Oil & Creosote Works, and Messrs. S. & W. H. Northrop, Mr. Geo. Kidder, Mr. W. L. Smith, Mr.

Col. Waddell, attorney for the railroad company, said the amended petition asked for the right of way on Surry street to Castle (instead of Church street).

Mr. D. B. Cutlar stated the case. The company asked for two things-the privilege of running up Front street to Dawson, and thence, cutting across the property of the Cotton Mills to Surry, to run along that street to Castle; and, second, to open up Surry street. He explained the powers of the city in regard to the streets, which he said had all been originally dedicated by the owners of lands through which the streets ran-The railroad company had the right to condemn lands for the road under the laws of the State, but this matter the city had nothing to do with. Whether the city should open Surry street is another matter. He thought there was very little to discuss except the privilege of Front street.

Mr. W. A. French, in behalf of the Wilmington Cotton Mills, said the matter of right of way through their property and the opening up of Surry street hadbeen sprung upon themwithout notice and in the absence of their counsel from the city; the company did not want the street opened; it would injure their property; a cut of at least five feet in depth would have to be made through it; besides, the smoke from passing engines would damage the goods made at the factory; and the fine bleached goods which they were now preparing to manufacture; they had already suffered in this particular from smoke from adjacent manufactories. Mr. Geo. R. French and Mr. Don McRae also gave reasons why Surry street should not be opened. Mr. McRae thought that a cut of twenty feet in depth instead of five

feet would be required for the road. Mr. Geo. R. French called attention to the fact that the railroad company had already the right in their charter of running the road on Queen street.

Col. Waddell said the question raised was as to some private property; but all the committee had to consider was the granting of the privilege on the streets. He claimed that Surry street was already virtually opened, The railroad company had bought the Van Bokkelen property at the foot of Queen street, and wished to reach it. He combatted the idea that the railroad would injure the products of the mill; but it did not lie in their mouths to protest when they (the mill owners) had offered to sell the right of way to the company. But this was altogether a private matter. The question for the committee was whether there was any outcry against granting the privilege on the streets asked by the company. The railroad company was prepared to pay private property owners all the law required, for the privileges it asked.

Mr. D. McRae said that the Gas Company were opposed to the road running its tracks to Castle street, and would, if necessary, petition against it.

After further expressions of opinion, oro and con., the committee rose and the gentlemen present took their de-

Taking the Census.

The work of securing a correct enumeration of the population of the city was commenced yesterday by members of the police force detailed for that purpose by Mayor Fowler. It will take probably five or six days to complete the job. Householders could facilitate matters if they would prepare lists and give them to the census takers when they call, giving number of residence, and name, sex and color of residents. The census takers are Sergeant J. D. Orrell, Sergeant L. Flanagan, Privates R. L. Dixon, H. W. Howell, D. W. Chadwick, H. Woebse, W. R. Hall, J. L. White, W. W. King.

Let everybody help the canvassers, so that we may have a correct census of the
