OUTLINES.

No business was transacted in Con-

gress yesterday; only eighteen members were present in the Senate, and after grayer and the reading of the Journal, an adjournment took place until Monday. —The London Times severely criticises Gen. Booth's scheme of social regeneration, and accuses him of childlike ignorance in connection with the farm and colony schemes, and that even if practicable Gen. Booth is not the right man to conduct the operations. The strike of railroad employes in Scotland has seriously affected the shipping trade of Glasglow, owing to the lack of coal, which, together with the closing of mills, factories and docks, makes the outlook for the poorer classes very deplorable. —A boiler exploded in a sausage factory in Cincinnati yesterday, which resulted in the killing of a thild and the injury of six persons: the owner had his back broken and cannot live; several small buildings were also wrecked by the explosion. __Cnina advices report the burning of the steamer Shanghai, near Nanking; a terrible panic occurred among the Chinese passengers and crew, and over (wo hundred lives were lost by drowning. -A fire occurred in Auburn prison. New York, early yesterday morning, which destroyed several of the work shops; two firemen were seriously injured by the falling of a wall. ---The Indian news consists principally of contradictions of previous reports; the entire reservations are hemmed in by troops, ready for action. -Two barges, which were in tow of a steamer, were lost Friday morning off the Jersey coast during the storm. -Two boys were playing with an old pistol, thought to be unloaded, in Staunton, Va., vesterday, when one shot and instantly killed the other; the youths were from Tesas, and were attending a military school. - Thirteen inches of snow fell in New York city Friday, and within the past two weeks thirty and a half inches nave fallen at Farmington, Maine. -A terrible accident occurred yesterday in the Knoxville handle factory; the sleeve of a man's coat was caught in the

machinery and his arm torn off from the shoulder; not with standing the terrible injury it is thought he will recover. -A fatal affray occurred at Daviston, Miss., yesterday afternoon, in which six men were shot, one being killed instantly and two others fatally wounded; the trouble originated from a fight at a party on Christmas night, ---- Arkansas reports a bloody affray between negroes, in which two were killed and ten badly injured. -- New New York markets: Money easy at 4@5 per cent, closing offered at 4; cotton dull, middling uplands 9 3-16 cents, middling Orleans 91/2 cents; southern four quiet; wheat, firmer but dull; No. 2 red \$1 0412@1 0458 at elevator; corn flarely steady but dull; No. 2, 58@5814c at elevator; rosin dull but steady; strained, common to good, \$1 421/2@ 1 471; spirits turpentine quiet at 39@

SOUTHPORT NOTES.

Jail Breaking - An Oyster Canning Factory.

The Leader, mentioning the escape of a prisoner named Lee from the county jail at Southport, says the iron cells recently put in are found to be useless. From examinations and reports of prisoners the inmates have had no trouble in leaving the cells whenever they wished. Desiring to provide for the greater comfort of the prisoners a stove was placed up-stairs in the jail, in the passage-way. The man Lee, taking an iron bar from one of the cells, heated it red-hot in the stove, so conveniently near, and by burning a hole in the frame of an outside window easily removed a bar, let himself down to the ground and escaped. Failure to awaken the other prisoners prevented a grand jail de-

Messrs. Conger & Jones are making preparations to engage in the business of canning oysters and clams at Southport. The Leader says they have commenced the erection of suitable warehouses and other buildings for the business, and will also build a dock. The piles for the dock have been ordered and most of them are on the ground. Some of the tools, oyster tongs, etc., came down on the Passport. Work will be pushed rapidly.

THE CLYDE STEAMERS.

A New Schedule For the New York and Wilmington Line.

From and after January 3rd (next Saturday) a regular weekly steamer of the Clyde line, sailing from New York to this port, will go through to Georgetown, S. C. There will be two steamers each week, but one only will make the run through to Georgetown. The day of sailing from New York for Georgetown, calling at Wilmington, will be Saturday, and for Wilmington alone Wednesday. Returning from Georgetown the steamer will leave that port on Thursday, calling at Wilmington next day and the regular sailing days from this port will be Monday and Friday.

The Recent Storm.

The terrible weather which has been vexing the North and West for several days past and whose ragged edge struck Wilmington, marking the days with clouds and rain, to be followed-as on yesterday-with clear skies and a genial sun, began with a rain in Texas last Wednesday, which extended over a vast portion of the country. It was met by a cold wave from the Northwest which changed the rain to snow and made its fury felt in every place east of the Mississippi above a line drawn along the upper borders of Tennessee, and resulted in a blockade which paralyzed business in many cities along the North Altantic coast.
