The oyster beds in the Chesapeake bay seem to be playing out. In 1888 Baltimore received from them 4,000,000 bushels, while this season, up to the same date, the receipts have been less than 2,000,000 bushels.

The town of Kingfisher, in Oklahoma Territory, got an Indian scare on it the other day and the whole male population turned out to meet the anticipated attack of the redskins, but made the horrible discovery when they went on the hunt for ammunition that all the powder and shot in the town had been sold by the hustling merchants to the Indians.

The burning question in Chicago bon ton society is whether a man should wear gloves at a ball or claw the girls bare-handed. The girls complain that the masculine hands are greasy and spoil their nice clothes. This comes doubtless from handling so many hogs.

NEW ADVERTISEMENTS.

Y. M. C. A.—Notice. STAR OFFICE—Babbitt metal. MEETING—Car. Oil & Cre. Co. CONCERT—At Lutheran Church. MUNSON & CO.—Furnishing goods.

The Y. M. C. A. Eli Perkins will probably deliver a lecture at the Opera House at an early date, under the auspices of the Y. M. C. A.

Judge F. R. Farrar, of Virginia, who has been so favorably received in our city as a lecturer, will tell us about "The County Court Lawyer," at the Opera House, Saturday night, January 29th.

Work on the building is progressing very encouragingly. Although only a small force of men are at work now, the contractor, Mr. Stout, is gathering men and materials rapidly and within a few weeks will have the work under full headway.

The anniversary of the Wilmington Association will be held at the First Baptist Church, Sunday night, February 8th. Prof. W. A. Blair of Winston, will deliver the address, and reports from the officers will present the work of the Association.

The annual State convention will be held at Durham March 19-22 inclusive. Preparations have already begun which will doubtless result in one of the largest and most successful gatherings of young men ever seen in our State. Durham will probably have to entertain 350 delegates.

Mr. W. M. Creasy has consented to conduct the meeting at the rooms next Sunday afternoon at 5 o'clock. These meetings have of late been unusually interesting and promise to be even more so in the future.

Shipping Notes. The British steamship Northgate, Capt. Ramsdale, from New Orleans bound to Havre, France, put in at Southport yesterday for coal.

The Clyde steamer Pawnee, Capt. Tribou, arrived from New York and sailed yesterday morning for Georgetown, S. C.

The British steamship Hampton cleared for Liverpool, Eng., yesterday with cargo of 7,000 bales cotton, weighing 3,343,794 pounds and valued at \$393,687. Vessel by C. P. Mebane and cargo by Williams & Murchison and others.

An Assignment Law for North Carolina. Mr. Bellamy, Senator from New Hanover and Pender, has introduced a bill abolishing preferences but allowing a mortgage to be paid, and wherever a general assignment is made of all the debtor's property it shall be for all creditors alike. The bill requires the assignee to give bond to file assets and prescribes a method of procedure which is simple and easily understood.

Face Badly Burned. Jas. Roberts, eighteen years old, living in the southern part of the city, was badly burned in the face yesterday, by the explosion of a small quantity of gunpowder with which he was loading shells for a shot-gun. The explosion was caused by a spark from the fire-place in the room falling in the powder.

THE GRIP TAKING HOLD AGAIN.

The Unwelcome Visitor Making the Bounds of the Country. The "grip" is going the rounds again, and many people are feeling the effects of the unpleasant visitor.

There are two classes of this uncomfortable disease; the "walking cases," when patients are able to get around; and those who are confined to their beds too sick to get up. The majority of the cases this year are of a laryngeal character, while those of last year were of a catarrhal type. The symptoms are pains in the limbs, hips and back, and the patient feels as if he were going to fall to pieces.

The disease yields rapidly to treatment; twenty-four hours in bed, well wrapped up, with large doses of quinine and Dover's powders, generally bringing relief. It is well, however, physicians say, for people suffering from the "grip" to remember that last year a great deal of trouble was experienced by patients getting out too soon, causing serious relapses.

The Concert To-Night. This evening at 8 o'clock the Grand Orchestral Concert will be given at Luther Memorial Building. The orchestra of nine performers will play some fine overtures and other choice selections in a masterly style.

Mr. Bellamy desired the resolution to take the form of a bill. He favored giving to the Governor all the power necessary, but he feared the provisions of the resolution in regard to non-residents was so strong as to be unconstitutional, and asked that the resolution be referred to the Judiciary Committee.

Mr. Gilman favored the resolution and desired that it should go to the Committee on Fish and Fisheries. The relief was asked for as imperative and must be now or never.

The resolution, with S. R. 82, on the same subject, went to the Committee on Fish and Fisheries.

S. B. 98, a bill to amend the charter of the city of Asheville, the ordinance of which was known as City Recorder, passed its second and third readings.

S. B. 11, a bill to declare the Carolina Construction Company a duly incorporated company under the laws of this State, and to re-enact its charter, on its second reading. An amendment was offered by the Committee on Corporations and adopted, and the bill passed its second and third readings.

S. B. 10, a bill to charter the Great Falls Water Power and Improvement Company, on its second reading. An amendment submitted by the Committee on Corporations was adopted, and the bill as so amended was put on its passage.

Mr. Williams, of Pitt put in his objections to the bill. He thought the bill gave some great advantages. He asked why did not this company go to the clerk of the Superior Court of Halifax county and get its charter of incorporation. He submitted an amendment limiting the charter privileges to thirty years.

Mr. Bellamy stated that the bill had been most carefully considered in the Committee on Corporations, and all conflicting interests there discussed. The Committee have submitted an amendment and with that amendment the bill will pass. This bill provides for utilizing the greatest water power in the United States—the Roanoke river—and to draw within the State millions of capital. He felt it his duty, as Chairman of the Committee on Corporations, to say that what the Committee had done had been in good faith and for the best interests of North Carolina.

Mr. Butler could not vote intelligently on the bill and asked that the bill be referred to the Committee on Internal Improvements.

Mr. Turner opposed this reference of the bill.

By Mr. Jones, on election of Trustees of the University.

Mr. Henry, to investigate convict acts.

Mr. McGill, of instruction to the Committee on Education.

Mr. Toms, to prohibit the sale of liquor near churches.

Mr. Robeson, for removing obstructions across Cane river.

the committee to fix pay for the committee who had investigated the railroads for taxation. It was passed as amended.

Mr. McGill's resolution of instruction to the Committee on Education was then taken up. In favor of his resolution Mr. McGill went on to explain that it took \$97,000 to pay the expenses of running our system; that we wanted the money for educating the children and not take one-seventh of the whole amount.

Mr. Cox asked if he wanted his resolution embodied in the school law to be formulated.

Mr. Gill—I do; every one of them. Mr. Cox moved to refer to Committee on Education.

Mr. Lineback offered an amendment. The Speaker—The amendment cannot be considered until the motion to refer is disposed of.

Mr. Brinson said he could not support the resolution of the gentleman from Cumberland; that a bill would be framed to economize the system and raise the standard high; that he hoped it would be referred.

Mr. Jones hoped it would be referred. Mr. Alexander said hasty legislation was mighty bad; that it was unwise; that the Speaker had appointed a good Committee on Education, and they would consider it thoroughly.

Mr. Perry said he could not concur with the gentleman from Cumberland; that he hoped the House would not pass the resolution.

Mr. McGill said he was as good a friend of education as any man in the House; that what he wanted was to economize and cheapen the system.

Mr. Peebles said we needed some change; that the teachers could go to Europe and meet every year and have a frolic; yet he could not go for the resolution; that he hoped it would be referred. He disapproved of hasty resolutions.

It was referred to the Committee on Education.
