

A Three Hour's Speech of Senator Everts on the Elections Bill—Petitions for its Passage—Indian Affairs—Appropriation Bills in the House—Committee to Investigate the Silver Pool.

By Telegraph to the Morning Star. SENATE. WASHINGTON, January 15.—Among the petitions presented and referred was one by Mr. Everts, from the Republican Club of New York, in favor of the Elections bill now before the Senate, and one from the Manhattan Club, of New York, adverse thereto.

Mr. Dawes, from the Committee on Indian Affairs, reported a resolution (which was referred to the Committee on Contingent Expenses), directing an inquiry into the condition of Indians in North and South Dakota, Montana and elsewhere, and the causes leading to the occupation of Indian reservations by troops; whether treaties with the Indians had been fulfilled; concerning guns and munitions of war in the possession of Indians; what steps are needed to disarm them, and whether care and control of Indians living in tribal relations should be transferred to any other department of the Government.

Mr. Morgan offered a preamble and concurrent resolution on the subject of the recent information or suggestion for a writ of prohibition in the Supreme Court, in connection with the Behring sea dispute with Great Britain. The resolution declares such proceeding to be without precedent, to be prejudicial to comity of nations, and to the usual and amicable conduct of international relations, and not to be in consonance with the dignity of the Government and people, or with the respect due the President of the United States. Referred to the Committee on Foreign Relations.

At 2 o'clock the Elections bill was laid before the Senate, and Mr. Everts re-opened debate, speaking three hours and three-quarters in favor of the bill.

Mr. Pasco obtained the floor, and the bill was laid aside informally. Mr. Hoar gave notice that to-morrow he should ask the Senate to remain in session until the bill was finished.

HOUSE OF REPRESENTATIVES.

After the journal of yesterday had been read, Mr. McMillan, of Tennessee, objected to certain statements therein concerning yesterday's proceedings with reference to limiting debate on the District Appropriation bill, and moved to amend.

Mr. Cannon moved to table this motion, and the yeas and nays were demanded and ordered. By a vote of yeas 128 nays 107 the motion was tabled and the journal approved.

The House then proceeded to the consideration of the Conference reports on Public Buildings bills. Four such reports were agreed to. The bills carry no appropriation but place a limit upon the list of buildings which may be erected, and indicate the amount of appropriation hereafter.

Mr. Dockery, of Missouri, was upon the floor in criticism of the policy of the Republicans in incurring liabilities, which the Democratic House would be obliged to meet, when a message from the Senate arrived amending the passage of the Financial bill with a free coinage substitute.

Reception of this message by the Democratic side was cordial and effusive, and Mr. Bland expressed the hope that early action would be had upon the measure. The bill went on the Speaker's table.

The Speaker announced the committee to investigate the silver pool question—Messrs. Dockery and Payne, Messrs. Dockery and Oats.

Mr. Dockery said that three weeks ago he had asked the Speaker to appoint a special committee, and had told him that he felt free to do so, as he could not accept service on the committee, inasmuch as it was alleged a Democratic Representative from Missouri on this floor was interested in the silver pool. He had made a similar statement to the Speaker yesterday. He was quite unwilling to be placed in the position of investigating a question involving his own honor as a Representative and that of his Democratic colleague from Missouri.

His judgment as to his proper course had been fortified by the opinion of his friends. Therefore, with great respect to the Speaker, he asked to be excused from the duty that had been placed upon him. He would like the Speaker to corroborate his statement as to his declaration.

The Speaker gave hearty corroboration—stating however, that he had not understood the gentleman to decline on account of any personal feeling. The Chair, therefore, would submit a question excusing the gentleman to the House.

Mr. Dockery having been excused, the Speaker appointed Mr. Peel, of Alabama, to fill the vacancy.

The House then went into Committee of the Whole on the District of Columbia Appropriation bill, and was addressed by Mr. Clement, of Georgia, in general commendation of its provisions, but in special criticism of several of its features. At the conclusion of Mr. Clement's remarks the committee rose and the House adjourned.

THE CHILIAN REVOLT.

Seizures Made by the Insurgents and Threats to Blockade the Port of Iquique. By Telegraph to the Morning Star. LIMA, PERU, via GALVESTON, Jan. 15.—Chilian iron-clad Almirante Cochran has seized the cargo left by the steamer Saratoga, at Iquique. The Cochran's commander has given notice that he will blockade Iquique on the 20th inst. The Peruvian government has received a telegram from its Consul at Iquique stating that various Consuls are going to protest against the threatened blockade.

The above indicates that the Almirante Cochran is one of the vessels taking part in the Chilian revolt.

FREE COINAGE.

Text of the Silver Bill as it Passed the Senate. By Telegraph to the Morning Star.

WASHINGTON, January 15.—The Silver bill as passed by the Senate last night is a free coinage measure, pure and simple, free from all national bank and bond legislation contained in the Financial bill. With the exception of a slight technical amendment and omission of the provision for covering into the Treasury the national bank redemption fund, the bill is like that passed by the Senate last year, which was the basis of the compromise embodied in the present law. The text is as follows:

An Act to provide for free coinage of gold and silver bullion and for other purposes: That from and after the date of the passage of this act, the unit of value in the United States shall be the dollar, and the same may be coined of four hundred and twelve and one-half grains of standard silver, or of twenty-five and eight-tenths grains of standard gold, and said coins shall be legal tender for all debts, public and private.

That hereafter any owner of silver or gold bullion may deposit the same at any mint of the United States to be formed into standard dollars or bars, and he shall be lawful to refuse any deposit of less value than one hundred dollars, or any bullion so base as to be unsuitable for the operations of the mint.

Sec. 3. That the provision of the section of "An act to authorize coinage of the standard silver dollar, and to restore its legal tender character," which became a law Feb. 28th, 1878, is hereby made applicable to the coinage in this act provided for.

Sec. 4. That certificates provided for in the second section of this act shall be of denominations of not less than one hundred dollars, and such certificates shall be redeemable in coin of standard value.

Sec. 5. A sufficient sum to carry out the provisions of this act is hereby appropriated out of any money in the Treasury not otherwise appropriated.

So much of the act of July 14th, 1890, entitled an act directing the purchase of silver bullion and issue of treasury notes and for other purposes, as requires purchase of 4,500,000 ounces of silver bullion per month, be, and the same is hereby repealed.

Sec. 6. That certificates provided for in this act and all silver and gold certificates already issued, shall be receivable for all taxes and duties to the United States of every description, and shall be a legal tender for payment of all debts, public and private.

Sec. 7. Owners of bullion deposited for coinage shall have option to receive coin or its equivalent in treasury notes provided in this act, and such bullion shall be subsequently coined.

THE FORCE BILL.

Rather Slim Chances For its Passage in the Senate. By Telegraph to the Morning Star.

WASHINGTON, Jan. 15.—The total vote last night, in the Senate, on Mr. Hoar's motion to take up the Elections bill, was 66, exclusive of the vote of the Vice President. Twenty-two Senators were recorded as absent, including twelve Republicans and ten Democrats. As a matter of fact, Ingalls was present, but refrained from voting, and four of the Republican Senators, while not in the chamber when the vote was taken, were in the city. The actual Republican absentees were seven in number—Blaine, Chandler, Farwell, Moody, Pettigrew, Pierce and Squire.

The Republican vote was 43 (exclusive of the Vice President) or less than a quorum, so that if Democratic Senators should resort to the plan of refusing to vote and in this are joined by Messrs. Stanford, Teller, Walcott, Jones (Nevada), Stewart and Washburn. (Republican) who voted with them last night) the advocates of the Elections bill would require the attendance of six of those seven actual absentees before they could proceed with the measure, or could act upon the closure rule. On the other hand, if the six Republicans who voted with the Democrats last night should not go to the length of technically absenting themselves and should content themselves with casting their votes in opposition to the Republican majority, the latter would have an even quorum exclusive of the Vice President.

NEW HAMPSHIRE.

Republican Legislative Caucus Nominates a Successor to U. S. Senator Blair. By Telegraph to the Morning Star.

CONCORD, N. H., Jan. 15.—The Republican Legislative caucus to-night, on second ballot, nominated Dr. J. H. Gallinger, ex-member of Congress, to succeed Senator Blair. The first ballot stood: Gallinger 95, Blaine 63, Cheney 45, Cheney 18.

NEBRASKA.

Ex-Gov. Thayer Surrenders and Gov. Boyd Takes Possession of the Office. By Telegraph to the Morning Star.

LINCOLN, January 15.—In accordance with the action of the Board of Public Lands and Buildings, ex-Gov. Thayer this morning surrendered possession of the Executive apartments, but under protest. Gov. Boyd has taken possession of the rooms.

ROYAL BAKING POWDER

A cream of tartar baking powder. Highest of all covering strength. U. S. Government Report, August 17, 1890.

WASHINGTON NEWS.

Prospects of the Silver Bill Before the House. By Telegraph to the Morning Star.

WASHINGTON, January 15.—Silver men in the House were to-day actively engaged in missionary work in the interest of free coinage. They are sanguine of ultimate success, and are certain that the bill cannot be kept indefinitely in committee, and that within reasonable time the Coinage Committee will order a report to be made, notwithstanding all efforts to prevent the bill having an opportunity for consideration. There will not be a meeting of the Coinage Committee until next Wednesday.

At the meeting held yesterday it was ascertained that a comparatively full attendance could not be obtained earlier than Wednesday, and when an adjournment for a week was taken, it was with the understanding that an attempt to reach a decisive vote will not be made on that day, though it is proposed that almost daily meetings shall be held thereafter until a final conclusion is reached.

Mr. Bartine, of Nevada, one of the outspoken Republican advocates of free coinage on the committee, said to-day that he was confident of getting the silver bill back to the House. It might be necessary to report back some compromise measure; but the silver men would not tie themselves, and they could not move amendments in the House. He thought the sentiment towards silver had grown much more favorable than it was last session, and that a good many Republicans were inclined to moderate the influence silver had at the recent elections.

The action of the Senate in taking up the Elections bill had also removed some of the feeling on the part of Republican friends of silver in the House, because it showed what he had known right along, that there was no agreement between silver Senators and Democrats.

The Silver bill has been, under the rules of the House, referred to the Committee on Coinage, Weights and Measures, of which Mr. Wickham, of Ohio, is chairman.

THE INDIANS.

End of the "War" with the Sioux—Hostilities in Camp—Some of the Chiefs to Visit Washington. By Telegraph to the Morning Star.

WASHINGTON, January 15.—A telegram was received at the War Department to-day from Gen. Miles asking permission for a number of Sioux chiefs to visit Washington for the purpose of conferring with the President in regard to their condition. After consulting with Secretary Noble, Secretary Proctor telegraphed Gen. Miles, giving the desired permission. Miles says the sending of chiefs east will answer a double purpose, namely: Satisfy them and bridge over the transition period between war and peace; dispel their distrust and hostility, and restore confidence. It will be also a guarantee of peace while they are absent.

The Evening Star's staff correspondent from Pine Ridge Agency, January 15, says: The Sioux outbreak of 1890-'91 is over. There may be and probably will be trouble with the small detached bands of hostiles, but the great majority of those who revolted against the authority of the United States Government have removed their war paint and are camped near the friendly Indians to the southwest of the Agency, just across White Sulphur creek.

FIRE AT RICHMOND.

Boiler Shop of the Richmond Locomotive and Machine Works Burned. By Telegraph to the Morning Star.

RICHMOND, Va., January 15.—The damage to the boilers, plates and other machinery for the battleship Texas, injured in a fire last night at the Richmond Locomotive and Machine Works, will not be very heavy, nor will the ship's completion be delayed to any great extent by this fire. The machinery in the building burned was very valuable. A portion of it was put in expressly to do government work at a cost of \$50,000. The principal damage to the Texas machinery will be in the polished rod work, bars and plates. The latter being constructed from a peculiar kind of metal, that which has already passed inspection is insured for \$285,000 in the Philadelphia Manufacturers' Mutual Insurance Company. The building destroyed will be rebuilt at once.

RICHMOND, Jan. 15.—There are twenty-three boilers for the new steamship Texas in the Richmond shipyard. Experts of the opinion that they are not damaged to any great extent, but chief engineer Brooke, United States Navy, under whose supervision they were built, says that while to all appearances the furnaces had not been injured, they had been heated by fire and suddenly cooled by water, and the probabilities are that they are injured to such an extent that it would not be proper to allow them to be placed in a ship on board of which there will be a large body of men. If at any future time an accident should occur to the boilers, causing loss of life, he would be held responsible for the same. Consequently, he does not intend to take any chances, but will ask for a board of survey to inspect them.

ILLINOIS REPUBLICANS.

Caucus Nomination for United States Senator. By Telegraph to the Morning Star.

SPRINGFIELD, Jan. 15.—The Republican caucus to-night took a vote on the question of who should receive the party nomination for United States senator to succeed Farwell. The vote resulted: Ex-Gov. Oglesby, 64; Farwell, 80; Gresham, 4; ex-Representative Ross, of La Salle, 7. Senator Thomas Hammer, of Vermont, 11.

SOUTH CAROLINA.

Gen. M. L. Bonham, Late Adjutant General, a Defaulter to the Amount of \$5,000. By Telegraph to the Morning Star.

COLUMBIA, S. C., Jan. 15.—Last night Gov. Tillman summoned a number of newspaper reporters to his office and laid before them a communication from Adjutant General Hugh L. Farley, disclosing that his predecessor, Gen. Mil-ledge L. Bonham, son of the late ex-Gov. Bonham, was a defaulter to the amount of about \$5,000. Secrecy was enjoined until to-night. The State appropriates \$10,000 to \$15,000 annually to assist in maintaining the militia, and it has been customary for the past few years for the Adjutant General to draw the full amount and disburse to the companies by his check. The defalcation was brought to light by the protest of Gen. Bonham's check, issued to Troop A, First South Carolina Cavalry at Brunson, whose commander notified this department, and it was then ascertained that other checks had gone to protest at the Carolina National Bank. It is also stated that the National Guard (colored) have not received their quota of the appropriation. Gen. Bonham will soon submit a statement for publication. He has not been arrested.

COLUMBIA, January 15.—Ex-Adjutant General Bonham has written a letter to Gov. Tillman, confessing his defalcation, and expressing the hope that he will be able to make restitution. He had used, though not expected to have funds in bank to meet checks issued to militia companies which had usually been tardy of presentation.

CHICAGO REVIEW.

Fluctuations in Prices of Grain and Provisions. By Telegraph to the Morning Star.

CHICAGO, Jan. 15.—The principal interest of the session centered as usual in the wheat pit. Weakness was the feature of the deal, although the actual decline since yesterday afternoon was only 3/4c in May delivery and 1/2c in July. Opening transactions were at 96 1/2c for May, which was an improvement since yesterday afternoon. For nearly an hour the market was reported by a moderate number of buying and selling orders, but the price of May delivery was held within the range of 96 1/2c to 96 3/4c. Then with the rush of bulls to sell wheat, the price of May delivery declined to 95 3/4c. During the latter part of the session the price reached to 95 1/2c for May, and closed with sellers at that price.

There was weakness in corn from the beginning. Trading was inactive, and fluctuations showed a tendency toward a lower level as the session progressed. Oats attracted more attention than usual. The market declined steadily under free selling and closed 3/4c lower. Provisions started firmer upon smaller receipts of hogs and activity in demand for them at better prices, as reported from the yards.

COTTON.

The New York Futures Market Yesterday. By Telegraph to the Morning Star.

NEW YORK, Jan. 15.—The S.W.N.'s cotton futures circular of to-day says: Futures opened lower and further declined, closing barely steady at a decline of 2 points on January, 6 points on February and 8 to 10 points on other months from yesterday's closing prices. The market to-day appeared to be wholly under the influence of the b.v crop estimates put out yesterday. Liverpool declined and we followed suit. The subject of the crop estimates was much discussed and a wager of \$500 was made to-night on a return of \$5000. The bears assert that there is now in the South twice as much cotton as there was one year ago. If this be true taken in connection with the excess in the visible supply now shown, and the increased yield promised from Egypt and India, the fact is "omnibus," as Mrs. Partington would say. Still the consumption is very large and spinners are making money, facts which have heretofore been disastrous to the "shorts" on long crop estimates. All high grades advanced 1/4 @ 3/4.
