My DEAR SIR—In sending you yesterday the petition of the Board of Commissioners, I find upon examination that the same is so sweeping and calculated to do injustice to a large class of our fellow citizens; and to tell you the truth, I did not give it the attention that I ought to have done, and the nature of the case requires; but I stated in my communication that the Commissioners did not desire to dictate to our Representatives, but I am satisfied that I, for one, will be misunderstood, and not wishing to do injustice to any one, I wish you to pigeon-hole the whole matter and let the committee recommend what is right in the premises. Yours, truly, H. A. BAGGS.
