FIFTY-FIRST CONGRESS.

SECOND SESSION.

The Labor Law Debated in the Senate and World's Columbian Fair Under Discussion in the House.

By Telegraph to the Morning Star. SENATE.

WASHINGTON, Eeb. 6 .- The Naval Appropriation bill was reported with sundry amendments, and Mr. Hale gave notice that he would ask the Senate to take it up to-morrow or at the farthest on Monday.

Mr. Hawley offered a resolution (which was agreed to), calling on the President for correspondence in reference to the conduct of the senior naval officer present at San Jose, Des Guatemala, on the occasion of the arrest and killing of Gen. Barrundia; and the action of the Navy Department.

Mr. Morgan addressed the Senate in support of the biil reported from the Committee on Foreign Relations, to aid in the construction of the Nfcaragua Maratime Canal. At the conclusion of Morgan's speech the Senate resumed consideration of the House bill providing for the adjustment of accounts of laborers, workmen and mechanics, arising under the eight-hour law, and was addressed by Mr. Morrill in opposition

The bill was temporarily laid aside and Mr. Edmunds moved the adoption mian order that on and after Monday next, night sessions be held, except on Saturday, with a recess from 6 to 8 p.m. of Congress to make the Fair a suc-Debate on the Labor bill then proceeded, participated in by Messrs. Sherman, Dawes, Spooner, Cockrell, Blair, Allison, Teller, Ingalis, Vest and Rea-

Mr. Blair proposed that a vote should be taken on the bill and the amendments a. 3 o'clock to-morrow.

Mr. Cockrell objected, saying that there should be full discussion of a bill, that would take thirty millions dollars out of the treasury, and which was a worse back-pay job than that which had retired one Congress. He agreed, however, that the bill should be voted

That being agreed upon, Mr. Dawes modified his amendment by striking out the appropriation clause, leaving it an instruction to the accounting officer of the treasury to read the just claims and report the result to Congress. Adjourned.

HOUSE OF REPRESENTATIVES. Mr. McKinley, of Ohio, asked the

unanimous consent for present consideration of the bill providing that nothing in the tariff act shall be held to repeal or impair the reciprocity treaty with the Hawaiian Islands. Mr. Bland thought that the bill should

be considered in Committee of the Whole, and McKinley moved that the House go into committee for that purpose, but withdrew his motion. The Speaker laid before the House the Senate bill amending the land for-

feiture act of September 29, 1890. Mr. Bingham, of Pennsylvania, from the Committee on Post Offices and Post Roads, reported the Post Office Appropriation bill. Placed on the cal-

The House then went into Committee of the Whole, Mr. Payson, of Illinois, in the chair, on the Sundry Civil Appropriation bill. The pending question was the decision of the Chair upon the point of order raised by Mr. Dingley, of Missouri, against Mr. Bland's free coinage amendment. The chairman sustained the point of order on the ground that the amendment is not germane to the paragraph to which it is offered; and further that it changes the existing law. Mr. Bland appealed from the decision; but the Chair was sustained-134 to 127.

When the question was put there arose immediately great excitement in the hall, and as Mr. Cannon and Mr. Bland took their places as tellers, nearly every member in the House rose and anxiously watched the count. The following Democrats voted in the affirmative: Messrs. Andrews, Mutchler, Vaux, Spinola, Murphy. Wiley and Chauncy. The following Republicans voted in the negative: Messrs. Carter, Townsend, of Colorado. Leird, Bartine, Turner, of Kansas, Kelley, Laws, Con-Wyoming. The vote was very close, dull and weak. and not until the last moment was it evident which side would tip the scales. When the Chair announced the vote to be 134 to 127, the Republican side burst into applause. So the chairman's decision was sustained.

Mr. Dockery, of Missouri, moved to strike out the appropriation of \$20,000 for re-coinage and insert the words "and so much as may be necessary to meet the expenses of such re-coinage is hereby apporpriated out of the silver profit fund." Adopted. In advocacy of his amendment Mr. Dockery said that its object was to provide for re-coinage of nineteen million dollars of subsidiary coin now in the Treasury. About eighteen million dollars of this consisted of half-dollar pieces. The amendment provided a sufficient sum to meet abrasion or defacement of coin, and permitted the Secretary of the Treasury to sub. stitute coins in current demand for these half-dollar coins. Further effect of the amendment would be to compel the Secretary to coin at once into standard silver dollars six millions of trade dollars now in the Treasury.

The committee then recurred to the World's Fair paragraph to which Mr. Candler, of Massachusetts, proposes (though it has not yet been formally offered) the following substitute: "That the Secretary of the Treasury be instructed not to approve the payment of any expense attendant upon the meeting of the World's Columbian Commission, or the Board of Lady Managers, except such meetings as may be called at the time of the dedication and opening of the World's Fair, as provided for in section 9 of said act; nor to approve the payment of any expense attendant upon the meeting of the Executive Committee of the World's Columbian Commission, as created by article 5 of the by-laws of said Commission; nor nor to approve the payment of any sala- | right-minded men.'

ry to any officer of the World's ColumbianCommission out of any money which has been or may be available for such purpose other than an annual salary not in excess of \$5,000 to the President, \$4,000 to the Vice Chairman of the Executive Committee, and \$3,000 to the Secretary; nor to approve the payment of any salary to any officer of the Board of Lady Managers out of any money which has been or may be available for such purpose other than an annual salary not in excess of \$5,000 to the President and \$3,000 to the Secretary; nor to approve the payment of any expenses of the World's Columbian Commission or of the Board of Lady Managers other than those hereinbefore mentioned, which shall amount to more than \$10,000 per

Mr. Wilson. of West Virginia, questioned the efficiency of the National Commission and the expendi ture of Government money, and criticised the salaries paid to officials. The total amount of the salary list was \$68,-540, and under authority given the Commission to increase the number of appointecs as the Fair grew salaries would swell until they swamped the Government appropriation. Report of the World's Fair Committee was that these salaries should be cut down. If the United States assumed to run the Commission by paying its own commissioners it would be morally bound to

make up any deficiency that might occur. A former member of the House had defined "a sinecure," as he expressed it, as a position where there was nothing to do, and "a damned sight of pay." [Laughter.] He thought that a good many of the positions on the National Commission were "a sinecure."

Mr. Breckinridge, of Kentucky, defended the action of the Committee on Appropriations in reporting the paragraphs providing for expenses of the Commission. The appropriations were made in conformity with the provisions | year 265. of the act for which the gentlemen from Massachusetts, New York and West Virginia (Messrs. Candler, Flower and Wilson) had voted, and against which he had cast his vote. It was the duty cess, not a failure; and he as member of ths Committee on Appropriations had felt it to be his duty to concur in the recommendation of appropriations which had been made.

In the course of discussion Mr. Mason of Illinois referred to the fact that Mr. Candler's amendment had not been formally offered, and gave notice that he would make a point of order against it when offered, that it was a violation of the statutes of the United States.

Messrs. Adams. Taylor and Mason of Illinois. defended the World's Fair Commission and deprecated the criticisms which had been made upon Chi-Exposition as being entirely unwar-Coleman, of Louisiana, said that the

Mr. Butterworth had no doubt of this fact, and he continued at some length to defend the city of Chicago from the aspersions cast upon it in the matter of raising money and laid stress upon the point that the proposed exposition was not an enterprise of Chicago nor of Illinois, but was of the whole country.

The New York Futures Market Yesterday. By Telegraph to the Morning Star.

NEW YORK, Feb. 6.—The Sun's cotton circular says:

Futures opened at a decline of 3 points on near and 1 to 2 points on late months, closing easy at 5 to 7 points decline from yesterday's closing prices. Efforts to promote a steadier cotton market to check the decline in prices which have been noted for two or three days past come upon a run of hard luck to-day. Liverpool broke down and the interior movement pointed a large increase over last year in the plantation movement. The bulls, therefore, unloaded with considerable freedom and prices soon had dropped 5 to 7 points. Then the pressure to sell was much less urgent, but there was very little demand and values made no recovery, as is usually the case in the later dealings after a smart decline. The bears again begin to talk inside figures, yet aside from refraining to cover, they do not show very strong nell, Herman, Sweet, and Clark, of faith by their works. Spot cotton was

WASHINGTON NEWS.

Call for a Caucus of Democratic Members of the House.

By Telegraph to the Morning Star. WASHINGTON. Feb. 6 .- A call has been issued for a caucus to-morrow evening of the Democratic members of the House. The request for the caucus was signed by about twenty Democrats, headed by Messrs. Bland and Enloe. The call does not state the object for which the caucus is called, but it is understood that the silver question will be he principal matter discussed, and that there will be a general interchange of views as to the corsue of procedure for the remainder of the session. Mr. Holman, caucus chairman, said the Democrats would rally unitedly against the shipping bill, that he did not think that the matter would figure in the caucus and that there was no disposition on the part of Mr. Dawes to delay the appropriation

By Telegraph to the Morning Star. St. Louis, Feb. 6.-Mayor J. J. Ward, of Palestine, Texas, to-day, c omes out with a card, in which he says the trouble between Rev. Sam Jones and himself was on account of personal matters, and not because the evangelist criticised his official actions. The Mayor says: "While Mr. Jones was here he took it upon himself to refer in the most insulting upon the meeting of the Executive language to my private life and habits, Committee of the Board of Lady Man- | before my wife and children, hence my agers, except such meetings as may be attack upon him. THE BUSINESS SITUATION.

Dun's Review-Trade Continues Satisfactory With an Encouraging Outlook. By Telegraph to the Morning Star.

NEW YORK, Feb. 6.-Though at a higher level of prices. business continues to exceed last year's on the whole, and is in character more healthy and conservative than usual. With less speculative excitement, making buyers cautious in nearly all lines, so that purchases are closely confined to actual demand for consumption, the volume of business transacted is nevertheless much greater than a year ago in some of the most important branches, and in scarcely any is there material decrease.

The money markets are everywhere easy. Confidence is still affected to some extent by possibilities of monetary legislation, but the impression grows stronger that no important action will occur at this session of Congress and that an extra session will be avoided.

Reports this week from all parts of the country indicate a fair volume of trade for the season, easy money and collections generally fair, though at a few Western points and in the grocery trade at Philadelphia rather slow. The South has the embarrassment of a further decline in the price of cotton, but receipts are large and general trade is somewhat better at New Orleans, though receipts of sugar are light. Trade is improved at Atlanta; fair in volume but quite cautious at Memphis, and dull at present but with bright prospects at Savannah. Philadelphia notes a prosperous

CHICAGO REVIEW.

Fluctuations in Prices of Grain and Provisions. By Telegraph to the Morning Star

CHICAGO, Feb. 6.-Mild weather and heavy receipts in the Northwest caused a weak feeling in the wheat pit at the opening. The first sales of May were at 99%c, and soon 98c was the market price; and about 1/2c was as much reaction as the covering of some shorts could produce. After a long period of nactivity there was some brisk trading and a break to 981/2c. Bulls who were waiting for such as this, seized the opportunity simultaneously with the shorts, and the combined buying of the cago and every body connected with the | two interests caused a quick advance to | 991/3c with a reaction to 983/4@987/3c before the close.

Prospect of nearly double the number of cars on Saturday which figured on to-day's corn inspection sheet caused much weaker feeling to prevail, and the price of wheat breaking about the same time, May corn sold off from 53% to 531/2. The reaction which followed left the price at 53%c.

Hutchinson supported the oats market and to do so had to buy fully a milion bushels.

Bill in relation to lawful fences in Pamlico county; passed second and third Bill to prohibit the sale of deadly

weapons.

Perry, Pickett and Alston advocated the bill. Sutton moved to strike out "pistols." Skinner opposed the bill; said he was opposed to all of this class legislation; it would accomplish nothing, and that it would be better to call a halt in this matter. Ray favored the bill. McGill moved to amend by making the law "applicable to minors only." Gill favored the bill. Morton opposed the bill, said it was class legislation; legislation. That the constitution guaranteed to the citizen the right to have arms and that this carried with it the right in his opinion to dispose of them. Such legislation was undemocratic and he opposed the passage of the bill. Bryan of Wilkes favored the passage of the bill. Zachary opposed the bill. He spoke in behalf of the boys of North Carolina. He said that the boys of North Carolina had been unjustly assailed; that ever since the Battle of King's Mountain the boys had responded to the call of the State. Sutton's amendment to strike out

"Pistol" was lost. McGill's amendment | to make it "only applicable to minors," Williams offered amendment that the bill shall not apply to Iredell-motion to table by Adams-bill tabled.

Bill to amend sec. 1246 of The Code relative to the registration of deeds;providing for cases where the clerk or his wite are interested; passed second third Morton, by unanimous consent introduced a bill to incorporate the New

River Oyster Company. Bill in relation to the working of public roads in Buncombe county was passed and ordered to the Calendar. Bill to create a new township in Richmond county passed second and third reading.

Bill to amend the charter of the town of Weldon passed third reading. Bill to define and prescribe when leases of tupentine trees or orchards shall expire in the absence of special contracts. Morton moved to amend by striking out December 31 and inserting March 1st. Currie moved to strike out and make March 10th the date.

McGill opposed the bill unless the time was extended to March 10th. He said that it was impossible to get out the turpentine in cold weather. (The bill makes leases expire December 31st.)

The bill was passed as amended. Bills passed third reading: To allow the fuice of fruit and wine to be sold in Granville county; to include Buncombe county in the stock law; to prevent gambling at agricultural fairs; for relief of sheriffs, tax collectors and their repsentatives. Pending discussion of the bill to exempt ministers of the gospel from road duty the House adjourned.
