It is said that there are 1,000 millionaires in New York. But it is not a good town to build monuments in.

Last year there were imported into this country 11,258,253 bunches of bananas. No wonder there were a good many ups and downs.

Mr. D. F. St. Clair has severed his connection with the Sanford Express to accept a position on the editorial staff of the Charlotte Chronicle.

A Minneapolis, Minn., preacher recently preached a sermon on the text, "Is life worth living," and as a he finished was stricken with apoplexy and died.

Senator Aldrich, of Rhode Island, says he will have to leave the Senate because he is too poor to remain in it. There are a great many people in this country who are glad that he is so poor.

It cost \$2,000,000 to bring the kicking Sioux to law and to shoot three or four hundred of them. It would have been money saved to have fed them plenty of beef and prevented this \$2,000,000 racket.

There is said to be as much good land in South America as there is in North America, but so much attention is given to cultivating revolutions that other crops don't make a good showing.

The Emperor of Germany smokes twelve cigars a day, and yet he is thinking of being the commander-in-chief of the German armies. The enemies of Germany are banking somewhat on these twelve cigars a day.

Experiments have proved that steel plates hardened in oil have incomparably greater power of resistance than plates hardened in the usual way. In recent tests while the balls shot at the former broke into pieces they readily penetrated the latter.

There is an impending war between the German-speaking and Italian speaking barbers of New York. As there are several thousand of the former and only about five hundred of the latter, the Italians should be careful how they cut capers when razors gleam in the air.

The gross earnings of the railroads of the United States last year were \$44,000,000 greater than the year before, while the net earnings were only \$8,000,000 more. The small net earnings in comparison with the increase in the gross earnings is attributed to hot competition and cutting rates below the profitable point.

A Durham, N. C., man writes the Philadelphia Record nominating Robert E. Pattison, of Pennsylvania, and Zebulon Vance, of Dixie, for President and Vice President. This ticket would be a jam up one if it were safe to venture across the line Southward for a candidate, but it would be jam up-er-so to speak, if it was trusted around tail end foremost.

A Maryland Republican at a Republican at a Republican big dinner in Baltimore recently, where a good

many of the machine manipulators did congregate, remarked that if the boodle distributors had spent one half as much money in Maryland as they had in New York she would long since have joined the Republican column. There fellows show that they have a full conception of the seductive powers of money in making Republicans.

The newspapers will get the name of Senator-elect Peffer, of Kansas, down right after awhile. Some are content to make him plain Peffer, others who have full fonts of f's make him Pfeffer, while the New Orleans States goes for the f's and takes the chances on Pfeffer and Pfeiffer. Singular to say, considering how hot he made it for Ingalls, it didn't occur to any one to dub him Peffer.

A LIVELY RUNAWAY.

Wild Race of a Horse and Buggy Through Nutt and Water Streets.

There was a lively runaway on the river front yesterday afternoon. A horse attached to a buggy belonging to Mr. Chas. Wessell, left standing in the street near the Carolina Central railroad depot, took fright at something passing and put out at good speed down Nutt and through Water to Market, where the wild career of the team was stayed by the buggy coming in contact with the iron lamp-post at Market dock. The horse was thrown down by the shock, and was unable to get up until relieved of the buggy shafts and part of the harness. When he finally struggled to his feet a policeman led him up to the City Hall and put him in the pound.

The wheels of the buggy were smashed to pieces and the whole vehicle badly wrecked. Fortunately, no one was injured, though several persons on Water street had a "close brush." The horse was plainly guilty of "disorderly conduct."

Mr. Will H. Junker, the popular press agent of Al G. Fields & Co.'s Minstrels, is also a member of the band accompanying the troupe. He played a solo on the slide-trombone in the street parade yesterday which good judges of music extolled highly.

THE TRUCKING TRADE.

Late arrivals of new Southern eggs during the week ending to-day have met with most favorable sale; fresh North Carolina's selling from 24 to 24 1/2 cents. Shippers should use crates whenever possible, with clean fillers to ensure best sales.

Dried fruits are ruling firm; apples sliced, 10 to 11 cents; coarse cut, 8 to 9 cents; huckleberries 15 to 19 cents; cherries 28 to 29 cents; beeswax 28 to 27 cents; peanuts 3 to 3 1/2 cents per pound.

OPERA HOUSE.

The Next Attraction—Maude Granger, Friday, Feb. 13th. Maude Granger's engagement at the Opera House, next Friday evening, is one of the interesting announcements of the theatrical season. She will be seen in Richard Davey and Lucy Hooper's powerful play "Inherited" which was so enthusiastically received when produced in Paris last winter. The coming of so distinguished a star as the lustrous-eyed Granger will be hailed with delight. The feminine contingent especially will be interested. Everybody has heard of Maude Granger, and every one will be anxious to see her.

A Missing Schooner. The schooner Mavosheen, 175 tons, Capt. Sears, sailed from New York for this port on the third day of January last and has not since been heard of. It is more than probable that she was lost; yet it is possible that those on board may have been taken off by some passing vessel. Capt. Sears' wife accompanied him on the voyage.

Cold Wave Coming. The Signal Service observers of Wilmington were notified last night at 10:15 o'clock by telegraph from the Chief Signal Officer at Washington to hoist the cold wave signal. The temperature, it was predicted, will fall about forty degrees by 8 o'clock a. m. to-morrow, the 11th inst.
