About half an hour after the fire it was discovered that cotton inside the standing portion of the mill was on fire and the fire department was called out. Mr. Dennison, Mr. E. M. Pavie, chief of the fire department, and about a half

dozen others had a narrow escape from being killed. As they were at work inside a cry was raised of fire at another point and they rushed out. Immediately after what was left fell with a crash and the mass of ruins was completely envel-
