SECOND SESSION. The Copyright Bill Debated in the Senate -A Political Debate in the House Under Cover of the Indian Appropriation Bill-Announcement of the Death of Admiral Porter and Gen. Sherman.

By Telegraph to the Morning Star.

SENATE. WASHINGTON, Feb. 14 .- The credentrals of Wm. A. Vilas as Senator-elect from the State of Wisconsin, for the term commercing March 4th next (replacing Spooner), were presented by the Vice President and placed on file. A resolution reported yesterday au-thorizing the Select Committee on Relations with Canada to continue its in-

vestigations during the recess was adopted. Mr. Chandler offered resolutions which were agreed to, that the Senate realized in the death of Admiral Porter the loss to the country of an officer of highest rank and distinction, etc., and that a committee be appointed to attend his funeral. Messrs. Cameron

Hale, McPherson, Blackburn and Chandler were appointed. The Copyright bill was taken up, and Mr. Hale antagonized it with the Consular and Diplomatic Appropriation bill. Mr. Call was permitted to offer and have referred to the Committee on Foreign Relations a resolution declaring that the Senate had heard with great concern a newspaper statement in relation to the alleged persecution of Jews in Russia, and also in relation to the cruel treatment of State prisoners in Siberia and other places of imprisonment in the domains of the Czar, and requesting the President to appeal, on the ground of humanity, to the Em-

peror of Russia to take measures to inquire into such alleged wrongs and cruelties to the subjects of Russia and to place them in a condition of freedom and equal rights. The Copyright bill was then proceeded with. Several amendments were offered and disagreed to, when at half-past 3 o'clock a message of the President announcing the death of Gen.

Sherman, was laid before the Senate. Mr. Hawley rose and offered a resolun that the Senate receives with profound sorrow, the announcement of the death of Wm. Tecumseh Sherman, late General of the Armies of the United

Tributes to the memory of the dead General, some of them eloquent and touching, were paid by Messrs. Hawley, Morgan, Manderson, Davis, Pierce and

On motion of Mr. Hawley, the presiding officer was requested to appoint a committee to attend the funeral of Gen. Sherman. The names of the committee were not announced.

Adjourned. HOUSE OF REPRESENTATIVES.

After the passage of a number of bills under the unanimous consent rule, principally relief and private pension bills, the House went into Committee of the Whole on the Indian Appropriation

Mr. Pierce, of Tennessee, started a political debate by a brief speech, in which he denounced the action of the majority of the House during the present Congress. The recent election had shown that the people had not en-dorsed that action, which had broken down the usages and practice of the House, and which had increased the burden of taxation. Touching upon the silver question, he said that the people of the country had an opinion upon that subject, which would not down even at the dictate of ex-President Grover Cleveland.

Mr. Grosvenor, in replying to the gen-

tleman, said that the Democratic party had never dared to take the affirmative action. Now, there came across the pathway of that party a question upon which it would have to take affirmative | 9734c. action. Had the gentleman from Tennessee (Pierce) forgotten that a Democratic President had denounced in unrelenting terms this whole swindle of unlimited silver coinage; had he forgotten that the greatest man in the Democratic party-the man who had the ear of the Democratic partydenounced free and unlimited coinage of silver as a fraud and a swindle? The time had come when every Democrat Grover Cleveland sent in his first free | final quotations. trade message that startled the country as the letter of the day before had startled it-he would come down on his knees and bow down before the superior statesmanship and greater influence and power of this man, who dared to be honest at a time when fraud and trickery were masked, and behind which the Democratic party was skulking.

General debate being completed, the

bill was read by paragraphs for amend-

ments. Matters ran along very smoothly

until about a third of the measure had

been disposed of. Then Mr. Fithian, of Illinois, raised a little breeze by making a motion to strike out the last word of the paragraph, and sending to the clerk and asking to have read a newspaper article antagonistic to the Shipping bill. Before one sentence of the article had been read, Mr. Payne, of New York, raised the point that the gentleman was not addressing himself to the question before the committee. He again proceeded, was again called to | bales. order, and the point of order was sustained; the decision was appealed from and sustained by the House.

Without disposing of the bill, the com-mittee rose and the Naval Appropriation bill was sent to conference. The Speaker having laid before the

House a message from the President announcing the death of Gen. Sherman, it was referred to the Committee on Military Affairs.

Mr. Boutelle, from the Committee on Naval Affairs, reported a resolution expressive of the grief with which the House has heard of the death of Admiral David Dixon Porter, and directing the Speaker to appoint a committee of the requirements of the 25 per cent. - eust 17 1889 to take such action as may be appropriate in regard to the public obsequies of the deceased. The resolution was unanimously adopted, and the Speaker appointed Messrs. Boutelle, Herbert, O'Neill of Pennsylvania, Flower, Lodge, McAvery and Vandever, as the com-

Gibson, the Alleged Dynamiter, to be Indicted in the State Courts-His Defence.

By Telegraph to the Morning Star. CHICAGO, Feb. 14.-It has been decided to lay the case of George J. Gibson, the alleged dynamiter, secretary of the Whiskey Trust, before the State rather than the Federal grand jury, as under the State law it is possible to inflict more severe penalties than under the Federal law. A consultation between President

Greenhut of the Whiskey Trust, Director Woolner of Peoria, Director Mc-Nulty and other officials was held to-day. Greenhut announced at the outset that Gibson had resigned pending an investigation. The preliminary plan of the defence was outlined during the conference. It was proposed to show that gauger De War, who charges that Gibson tried to hire him to blow up Shufeldt's distillery, is a practical machinist, and could have made the infernal machine which he alleges Gibson gave him. It is to be admitted that Gibson was in communication with De War for the purpose of obtaining reliable information as to the output of Shufeldt's distillery, and that in case De War failed to send the information Gibson may have written to him on the subject; that De War had an opportunity and four hours' time in which to tamper with Gibson's valise, after his arrest and before it was put into the vault, and that he might have substituted the bottle of inflammable stuff found in it afterwards, in place of the perfectly innocent liquid; that Dewar had such liquid in his possession and displayed it to Government officials several weeks before the exposure; that no such bottle as that containing the liquid was in Gibson's valise when he was arrested. In short that Gibson may be the victim of a conspiracy of which the Government officials are dupes. As to the shares of whiskey trust stock, it is to be shown that they are the property of Gibson's wife, and that he was merely taking

Germany and the World's Fair-Bismarck and the Emperor-Count Waldersee Charged With Trying to Incite War With Russis.

Copyright 1890 by the N. Y. Associated Press. BERLIN, Feb. 14.-The Foreign office has received through Phelps, United States Minister, a formal invitation from the Government of the United States, asking Germany to take part in the World's Fair to be held in Chicago in 1893. The invitation has been sent by the Foreign office to the authorities of the different States of the Empire in order that German manufacturers may be consulted and commercial bodies report before sending an answer to Washing-

It is expected in official circles that there will be a rush of German exhibitors, for whom it will be necessary to se-

cure the largest obtainable space. The crisis in the fued existing between the Emperor and Prince Bismarck has become acute. In conversation last night at an official dinner given by Chancellor Von Caprivi, the Emperor remarked that the attacks inspired by Bismarck while nominally directed against the Chancellor were in reality aimed at himself. He was deprived, he said, by his position from publicly responding to these attacks. He feared that he would soon be obliged to take severe measures to suppress these attacks, as they were dangerous to the government and the Em-

Report, which has gained general redence, is to the effect that Chancellor Von Caprivi has been instructed to publish in the Reichsanzeiger a warning to Bismarck's paper, the Hamburger Nachvichten, to cease printing its pretended relevations of government affairs, on pain of prosecution. The Hamburger Nachuchten published yesterday an article which caused a sensation in political and military circles. It declares that the recent change in the highest army personnel was due to the fact that Von Waldensee and other officers connected with the general staff were working together to bring on a war with Russia. Chancellor Von Caprivi, who disapproved of the plans of these officers, induced the Emperor to dismiss Von Waldersee and to reform the general staff. The accusations made by the Nachrichten Von Waldersee has aiready denied, but they have acquired fresh significance from the removal of his inthe staff, and their being ordered to the

The latter afterward consulted Fessendorf and Reichsanwalt, of the Leipsic tribunal, on measures to be adopted to stop the attack.
