SECOND SESSION.

Consular and Diplomatic Appropriation Bill Passed by the Senate With Important Amendments - Indian Appropriations and Other Matters Considered in the House.

By Telegraph to the Morning Star. SENATE.

WASHINGTON, Feb. 16 .- Among the petitions and memorials presented in the Senate this morning were resolutions of the Farmers' and Laborers' Union of the First Congressional district of Missouri, favoring the purchase or establishment by the Government of six trans-continental lines of railroad, to be paid for by a new issue of legal tender notes, and to be operated by the Government; also, for the issue of fifteen millions of dollars in legal tender notes; and for a loan of money by the Government at 2 per cent. per annum on real estate security, not to exceed \$2,500 to any one person, and declaring that the Union would not support any man for legislative office "who does not stand on the Oca'a demands from the bottom to the top.

The conference report on the Fortification bill was presented and agreed to. Mr. Plumb offered a resolution (which was agreed to), calling on the Secretary of War for information as to the need of greater accommodation for ex-soldiers at the National Soldiers' Home of Hampton, Va., whether men having been during the winter sheltered in tents, and whether part of the buildings that could have been used for their accommodation was not used for other than abso-

utely necessary purposes. On motion of Mr. Hiscock the House joint resolution to correct an error of punctuation in the tariff act of 1890, reating to twine, was taken from the calendar and passed.

The Senate then proceeded to the consideration of the Diplomatic and

Consular Appropriation bill. mittee on Appropriations was agreed to; the mission to Mexico a firstclass mission, ranking with France, Germany, Great Britain and Russia, with a salary of \$17,500; striking out the item of \$10,000 for minister to Central American States, and inserting two items of \$10,000 each for ministers to Guatemaula and Honduras, and for a minister to Nicaragua, Costa Rica and Salva-

The Senate then went into executive session. The doors were reopened at 4.50 and immediately afterwards Mr. Ouay rose and addressed the Senate in refutation of charges circulated against

At the conclusion of Mr. Quay's remarks, the Senate resumed consideration of the Consular and Diplomatic Apprporiation bill, to which the followng amendment had been agreed to in executive session: To enable the President to make an engagement with any such citizen or corporation of the United States as shall appear to possess means and facilities necessary to that end, for telegraphic communication between the United States and the Kingdom of Hawaii, which engagement shall contain provisions sufficient in the udgment of the President to secure to the government and citizens of the United States early and equal communication by telegraph with said Kingdom on reasonable terms for a period not less than fourteen years, a sum not exceeding \$250,000 is appropriated for each year during which the engagement shall be in operation, and during which such engagement shall be so in course of execution, not exceeding twenty years. And the sum total paid under this authority shall not exceed three million dollars.

The bill and amendments having been reported from the Committee of the Whole to the Senate, the committee amendments were agreed to in bulk, except that in regard to the Hawaiin telegraph cable, on which a separate vote was taken, and which was agreed toyeas 35, nays 22. The Democrats who voted in the affirmative were Messrs. Hampton, McPherson and Morgan; Republicans who voted in the negative were Messrs. Plumb, Quay and Wal-

Pending discussion Mr. Hall moved that the Senate adjourn (so as to avoid the order for a recess from 6 to 8 p. m.) Before the vote was stated, the Vice President announced his appointment of the following Senators to attend Gen. Sherman's funeral-the number having been increased from five to six-Messrs, Evarts, Hawley, Manderson, Pierce, Cockrell and Walthall.

Adjourned. HOUSE OF REPRESENTATIVES.

Mr. E. B. Taylor, of Ohio, rising to a personal explanation, said Saturday in the heat of debate, he had used language towards the gentleman from IllInois (Fithian) which he was immediately sorry for. He had said that the gentleman from Illinois had the right to make a fool of himself, but not with his (Taylor's) consent. The words were unreasonable, unparliamentary and unjust, and he apologized to the House and to the gentleman, and regretted exceedingly that he was, under the excitement of the moment, induced to make use of them. [Applause.]

Mr. Fithian said that after hearing the manly statement of the gentleman from Ohio, he accepted the apology in the same spirit in which it had been made.

Mr. Cutcheon presented and the House adopted the conference report on the Army Appropriation bill.

Mr. Owen, of Indiana, from the Committee on Immigration, reported a bill amending various acts relative to the immigration and importation of aliens under contract. Some objection was made that a measure of such importance should be given more consideration than could be given on the first reading, and Mr. Owen withdrew it for the present.

The House then went into Committee of the Whole on the Indian Appropriation bill and without disposing of the bill the committee rose.

Mr. Cutcheon, Chairman of the Committee on Naval Affairs, reported a series of resolutions on the death of Gen.

Sherman. Tributes of regret and respect to Gen. Sherman's memory were paid by Messrs. | gust 17 1869

Cutcheon, Grosvenor, Outhwaite, Henderson of Illinois, Cogswell, Wandever

and Williams of Ohio. Mr. Wheeler of Alabama voiced the sentiment of the Confederate soldiers in expressing his sorrow at the demise of Gen. Sherman and in testifying to his great military skill and ability, and then the resolutions were adopted unanimously. In accordance therewith the Speaker appointed the following committee: Messrs. Cutcheon, Spinola, Cogswell, Cummings, Grosvenor, Kinsey, Henderson of Illinois, and Outhwaite. The House then adjourned.

Fluctuations in Prices of Grain and Provisions.

By Telegraph to the Morning Star CHICAGO, Feb. 16.-Hutchinson was selling wheat, corn, oats and provisions, and his was the dominating local influence in the grain pits. Fluctuations in May were confined to 971/2 @ 58 as the highest for the first hour. After touching 981% there was a break on free selling to 76% @ 1/2; but there was little re-

covery before the close. There was no news of importance affecting trades, and local influence governed trade throughout, which was

Oats were about steady. The market was quiet, attracting little attention outside of the local scalping crowd.

The provision business was dult and generally heavy in tone without especial cause in anything which cropped up to-day to account for the downward tendency of prices. Receipts of hogs were rather under previous estimates, but there was no activity in the demand for them. There was more than enough for all who wanted anything in the line of provisions and at the close pork was 21/2c lower than at the corresponding time on Saturday, having in the course of the day been 5c lower than the price it closed at. A Fireman on a Steamer Recently Arrived at London Connected With the Last White Chapel Murder.

By Telegraph to the Morning Star. LONDON, Feb. 16.-The latest discovery made by the metropolitan police in connection with the White Amendments reported from the com- | Chapel murder, Friday morning last, by which a women known as "Carrotty Nell" lost her life, bids fair to connect the man Sadler, now in custody with lasting eleven days, completed their this "Jack the Ripper" crime. The metropolitan police now have in their evening. The changes made have genpossession a sharp, dangerous looking knife stained with blood and showing traces of having recently been 'washed. The blood stains were examined microscopically by Dr. Phillips, police surgeon, who has no doubt that the stains are those of human blood. The New York Futures Market Yesterday. By Telegraph to the Morning Star. NEW YORK, Feb. 14.-The Sun's cot-

ton circular says: Futures were unsettled, closing steady at 1 point advance on February and 1 to 2 points decline on other months from Saturday's closing prices. The market to-day was again a see-saw, with fluctuations limited to a few points and finally showing little change. An early decline in Liverpool was followed by depression in this market; a partial recovery there was followed by some improvement here. Then the crop movement for the day at the principal interior towns, as well as at the ports began to show pretty full figures, and the Southern markets began to report dullness or depression, or both. Selling to realize was therefore the impulse of the hour and prices declined. The last quarter of an hour developed a steadiness on some buying orders which came in at the last moment. But it was a point less weak, and if you asked a broker about some matter relating to it his reply was quite likely to be that of the boy in "Bleak House"-"I don't know nothing, I

don't." Spot cotton was dull. RAILROAD ACCIDENT.

A Car Crushed by a Falling Rock on the Pennsylvania Railroad.

By Telegraph to the Morning Star. PITTSBURG, PA., Feb. 16.-An immense rock, weighing at least 200 pounds, fell from Duguesne heights, about 8.50 o'clock this morning and crashed into a passenger coach of the Washington Pennsylvania express on the Pan Handle road, instantly killing one passenger and severely injuring three others, All were students at Duff College, of this city, on the way to school. Miss Clara Fleming, aged 19, was killed, Miss Minnie Baldwin, aged 18, and J. F. Donaho, aged 20, and another young man, name not ascertained, were badly hurt. Heavy rain loosened the rock which fell as the train was passing. It struck the coach in the middle,

BOLD ROBBERY.

A London Bank Clerk Robbed of £11,590.

By Cable to the Morning Star. LONDON, February 16 .- Two expert bank sneaks to-day robbed the clerk of the London branch of the Bank of Scotland, of a leather satchel containing £11,590 in Bank of England notes. The clerk was waiting at the teller's window of the National Provincial Bank with his satchel beside him. One of the sneaks attracted the clerk's attention and caused him to turn, when the other sneak took the satchel and slipped away with it. In the confusion the first man escaped, and there seems no hope for their capture. The thieves are described as rather dudish young men and the police venture the opinion that they are Americans. The clerk who was robbed is only 17 years old. The money is easily dis-
