The State of Pennsylvania has appropriated \$150,000 to defray the expenses of the State exhibit at the World's Fair. North Carolina is asked to appropriate only one-sixth of this amount.

Ex-Gov. Foster, of Ohio, becomes Secretary of the Treasury. Public opinion is very much divided as to whether he will fill the bill or not. He got his first financial training selling calico.

There are some level heads in the Pennsylvania Legislature. A bill appropriating \$1,000,000 for the improvement of the public roads has been favorably reported by a Senate committee.

LOCAL DOTS.

Cuban doctors are finding a new use for mosquitoes. They let them feast on people suffering from yellow fever and then turn one or two of them loose on people they want to inoculate. It is said that this method works so satisfactorily that per annum is proposed for the widow of out of fifty-eight persons inoculated in this way only eight per cent. contracted the fever and only two of these cases were fatal.

> New England mills have been for some time importing more or less Egyptian cotton. Last Friday a steamer arrived at New York with 3,100 bales for mills in that section. We have not heard, however, of any movement on the part of the protectionists to protect the Southern cotton planter from competition with this product of Egyptian "pauper labor.'

> It is a somewhat remarkable fact that the city of Rome is increasing faster in population than any of the other large cities in the world.

-The "revival" at the Second Advent Church continues. Since Sunday there have been a number of conversions and twenty-two persons have been admitted to membership. -Hon. Alfred Rowland, our Re-

presentative in Congress, passed through

Wilmington yesterday on his way to Washington City. His health has been completely restored. -A white man, supposed to be demented—a stranger in the city—was "run in" last night by the police. He has been in the city several days. From letters found on his person when search-

ed, his name is supposed to be C. H.

Jones, and that he is a mechanic. -Large quantities of early vegetables are passing north over the Atlantic Coast Line. The traffic is of such proportions as to require special trains for the service. These trains are called the "vegetable vestibule trains," and they run from Jacksonville, Fla., directly through to New York.

-The bill to authorize the City of Wilmington to issue bonds for sewers and street improvements passed the Senate yesterday; it provides \$100,000 for sewers, and \$100,000 for street improvements; both propositions to be submitted to a vote of the people at the approaching city election.

RIVER AND MARINE.

Steamer Ashore at Ocracoke-The Tug

- The American steamer Elihu Thompson, from Boston for Mobile, put in at Southport Monday last for oil, and returned to sea the same day.

- The tug Colon which left Wilmington a few days ago for Cuba with two lighters in tow, put in at Charleston, S. C. Monday for a harbor. She reports losing one of the lighters, in the recent severe gale, but it was thought that it drifted ashore near Charleston bar. Some apprehension is felt for the tug Vulcan, which preceded the Colon to sea. She was last seen off Hatteras, but was laboring heavily, and had all night ahead of her. Seven men were aboard. The Colon will resume her vovage as soon as the weather settles. The sea was "mountain high" off the bar Monday.

- The British steamship Craigside, from Galveston to Liverpool, with 5,000 bales of cotton, went ashore Saturday night last, during a terrific gale, at Ocracoke Inlet. The crew of thirty-five were rescued by the life-saving men, with the exception of one man who was drowned. Capt. Wm. St. Clair, master of the vessel, arrived at Norfolk yesterday. He reports the steamer lying on the main beach one mile south of Hatteras Inlet. She was resting easily when he left Saturday, but there has been rough weather since, and the result cannot be definitely foreseen as yet. The Merritt Wrecking Co., of Norfolk, are preparing to make all possible effort to float her. In addition to the tug J. D. Jones, sent to her Sunday, they have since sent the steamer I. J. Merritt and the barge Henry Seymour.

Naval Stores for England.

The British barque Nariva cleared yesterday for Bowling, Eng., with 3,566 barrels rosin, and 500 casks spirits turpentine, valued at \$15,458. Vessel and cargo by Messrs. Patterson, Downing & Co.

German barque Triton cleared for Bristol, England, with 4,454 barrels rosin, valued at \$6,635, shipped by Messrs. Paterson, Downing & Co.

The Norwegian barque Josva cleared for London, Eng., with 4,282 barrels rosin, valued at \$6,600. Vessel by Heide & Co., cargo by Mr. Jno. W. Bolles.

COUNTY ROADS.

They are Presumed to be Under the Control of Commissioners. A corrsspondent of the STAR, writing

on the above subject, says:

"The question of good public roads is one of paramount importance. Railroads are great highways of commerce and are like grand streams sweeping along freighted with the products of the country through which they flow; a stream, however, would be of small proportions and scarcely navigable if not fed by creeks and branches. Our legislators who have been earnestly engaged for a month past in looking after the railroads would have done the people of their several sections immense service if they had sent a committee to Mecklenburg county to investigate the working of their road law. They would 50 Barrels E. R. Potatoes, New, then have had data to show that the public roads of North Carolina at certain seasons of the year are an abomination to the people, and that man or set of men who would be the means of creating a commission to bring about a change in this regard would receive the thanks of the whole State. Our public roads leading to the depots are nearly impassible at this time, and as a consequence business for the railroads is reduced, and that of the merchants proportionately. Now that the commission has been practically adopted, let our law-makers look to the comfort of our country cousins, who are neither cursed nor blessed by railroads.

The Chairman of the Mecklenburg Board of Commissioners tells of the good work accomplished in that county. He says that they have been at work for two years. "The county owns a ten-horse power portable engine, and a tock crusher, sixteen head of mules, eight wagons, and all tools necessary to carry on the work. The total cost of working the "chain gang" has not been more than \$13,080 per annum. This includes wages of superwsors, day and night guards, and stockade expenses. We have since beginning work, macadamized about sixteen miles of road, sixteen feet wide by nine or ten inches in depth, and in addition have erected several substantial bridges, with well built abutments. The great majority of our tax payers do not complain of the increased taxes necessary to carry on the work. In fact they are very much in favor of its continuation.
