The "Billion Congress" is the title for the 51st, which the New York Sun and Buffalo Courier seem to have hit upon simultaneously. It was somewhat bilious, also.

The Pennsylvania Railway controls 7,915 miles of road and canal. Last year its gross earnings amounted to \$133,000,000, for which it carried 137,000,000 tons of freight and 84,000,000 passengers.

Very frequently innocent bystanders are the ones most injured in impromptu rackets. In that fracas between two Solons in the Arkansas House of Representatives last Tuesday, the spittoons and inkstands, which had nothing to do with bringing it on, were the greatest sufferers.

Among the few nominations by the President which the Senate refushd to confirm were the colored postmaster at Vicksburg and the colored collector of customs at Wilmington. The colored brother don't seem to be in good odor in the Sen-

If Mr. Hoar was looking for an endorsement by the Massachusetts Legislature he didn't get it when the STAR recently), will have charge of the Legislature a few days ago refused to adopt resolutions in favor of the Force bill by a vote of 95 to 68. The Force bill was already dead but this shows what the Legislature of Mr. Hoar's State thinks of the corpse.

Some men are born with a conscience that can't be downed, others are not. The Rochester, N. WILMINGTON, N. C., THURSDAY, MARCH 12, 1891.

As Congress has adjourned and there is no more war going on in Washington, some wicked man tries to disturb the repose of the country with a sensational story about an impending war with England, for

which there is about as much likelihood as there is in the discovery of that vein of subterranean cheese out in Iowa. This is about the last country on the globe that England hankers for a scrimmage with.

The 101 Democrats who stuck to Gen. Palmer solid through 155 ballots threw up their hats yesterday when two of the F. M. B. A. men, who had been voting for Streeter. voted for him and elected him. It was a glorious ending to the gallant and unprecedented fight they made, of which they may well be proud and on which the Democracy of the whole country heartily congratulates

An enthusiastic contemporary which admires the ex-Czar, exclaims: "Thanks to such patriots as Thomas Brackett Reed, the starry banner still waves." BOARD OF ALDERMEN.

Called Meeting-The Water Supply Question-Resolutions Adopted, Etc.

A called meeting of the Board of Aldermen was held last night at the City Hall. Mayor Fowler, in taking the chair,

stated that the meeting had been called at the request of three members of the Board, and requested Alderman Smith. chairman of the Committee on Water Works, to state the object of the meet-Alderman Smith said that the object

of the meeting was to take action in regard to the insufficiency of the water supply, as furnished by the Clarendon Water Works Company, and he stated in this connection that as chairman of the committee he had notified the clerk of the Board of Audit and Finance that the Board should not approve the water

Alderman Bell moved that the Board concur in the action of the committee. Alderman Hicks asked for the reading of the contract between the city and the Water Works Company, and it was read by the clerk.

It was stated that Col. Jno. W. Atkinson, representing the fire insurance underwriters, was present, and on motion,

he was invited to address the Board. Col. Atkinson said that it was important that some action should be taken: that the insurance companies that he represented, in consideration of the establishment of water works, and the contract made by the city with the water works company, had agreed to lower the rates of insurance 20 per cent. He did not feel unkindly towards the company, but it was a matter of fact that they had failed to come up to the requirements of their contract with the city and that the supply of water furnished was inadequate. He alluded to the destruction of the Union School building by fire as owing to the inadequate supply of water, and said if the matter was not remedied, he thought the insurance com-

panies would raise their rates. Mr. D. L. Gore, representing the Carolina Insurance Company, endorsed the remarks of Col. Atkinson in regard to the Water Works Company, and also thought that insurance rates would be

raised unless the trouble was remedied. Alderman Hicks called on Chief Newman of the Fire Department, who was present, to state if he had tested the water pressure Tuesday night, and if so what he found it to be, and how much it should have been.

Chief Newman said he had made the tests at two points, and found the pressure about 40 pounds. It should have been 80 pounds.

The Chief was also asked if it was through default of the Water Works Company—failure of the water supply that the Union School building was des-

The Chief said that with a better supply of water a portion of the building might have been saved.

In answer to a question if one or two thousand dollars additional of the property could have been saved with a better supply of water, the Chief stated that he was unable to sav.

Assistant Chief Cazaux was questioned in regard to this, and gave it as his opinion that if a sufficient supply of water had been obtainable, two streams would have saved the building.

Alderman Craft offered as a substitute for the report of Alderman Smith that a committee of three be appointed to confer with the Water Works Company, and if necessary take legal advice in the

He suggested that the Board should not be too hasty in their action; that if they stopped payment, the company might shut down altogether on the water supply.

The substitute was rejected, and the report of Alderman Smith was approved and adopted.

Alderman Smith offered the following resolution, which was adopted:

That in view of the non-compliance of the Clarendon Water Works Company with the contract made between said company and the city of Wilming-

Resolved, That no further payment or payments be made by the city to the said company until this Board, or a subsequent one, decides that the said company does comply with said contract; and these payments to be made only from date of compliance, and that notice of the action of this Board be sent to the Board of Audit and Finance, and also to the said Water Works Company, with the demand that said company comply with their contract within sixty days from this date.

Alderman Smith moved that the Mayor be instructed to have all the cisterns filled and that where cisterns are not in order, they be immediately repaired. Motion adopted.

Alderman Hicks moved that a vote of thanks be extended to the Sanitary Committee, through its chairman, Alderman Post, for the handsome work done on Jacob's run sewer. Adopted. The Board then adjourned.

attempting to commit a burglary early yesterday morning at the house of R. B. Reardon, colored, on Third street, near Hayden's carriage shop, was arrested later in the day and brought before Mayor Fowler for examination. Eliza Reardon testified that she was awakened by the noise the burglar made in attempting to break open the door and saw him run across the street when he found that he had aroused the household. She recognized the man as Philpot. Other people living in the neighborhood, who were also aroused by the noise, testified to seeing the man supposed to be the burglar, and described him as entirely different in size and appearance from the prisoner. The Mayor dismissed the case.

Ward Meetings To-night.

The Democratic primaries-to select candidates for Aldermen-will be held to-night in the different wards, at half-past eight o'clock, as follows: First Ward-Phoenix Hose Reel

Second Ward-County Court house. Third Ward-City Hall, up-stairs.

Fourth Ward-City Court room. Fifth Ward-Hook and Ladder house, Fifth street, between Castle and Oueen. An interim of fifteen minutes between the close of the balloting and counting the votes will be allowed, to give per-

sons who may be a few minutes late an opportunity to vote.

Mr. C. H. Robinson.

We are confronted by some important questions, as to sewerage, street improvements, our bonded indebtedness. and other matters, which the new board of aldermen will have to consider and pass upon. When the party turns out, good men are always nominated, and every citizen should attend the primary meetings to-night. That popular Democrat, sterling man, and honorable gentleman, Mr. Chas. H. Robinson, will be presented as a candidate for Alderman in the 4th Ward. He is a fair minded, conservative man, who would legislate in no man's favor, but do equal justice to all. He has had large business experience, and would do honor to the city if elected. We advise all citizens to go to the polls and vote for him. DEMOCRAT.

BOYS AT FIRES.

Editor of the Star; DEAR SIR:-In your account of the fire at the Union School house, you say: "Some of the boys ran close risks, and one of them was on the upper floor of the building when the roof fell in, but escaped by leaping from a window, and fortunately sustained no injury.' This was a danger which was foreseen by the bystanders, and some of them made efforts to have the police interfere. Boys notoriously "run close risks," and are not to be expected to have the discretion to know when to leave a burning building. If a kind Providence had not prevented the loss of life and limb, would not the city have peen responsible? A CITIZEN. WILMINGTON, March 11, 1891.

Industrial Manufacturing Company.

At the regular monthly meeting of the Industrial Manufacturing Company, held last night, Mr. B. F. King was elected a director to fill the vacancy caused by the death of Capt. T. J Southerland.

Mr. Samuel Westbrook was elected superintendent of the works, in place of Mr. E. F. Johnson, who resigned. A committee was appointed to draft

resolutions expressive of regret at the death of Capt. Southerland, one of the incorporators of the company. Yesterday's Weather. The weather records of the Signal

Office give the following report of the range of temperature, etc., yesterday: At 8 a. m., 44°; 8 p. m., 54°; maximum temperature, 59°; minimum, 42°; average 50°. Prevailing winds, northeast. Total rainfall, .00 inch.
