OUTLINES.

Eleven Sicilians, of the nineteen arrested in New Orleans and charged with the murder of Chief of Police Hennessey, were killed by citizens in the parish prison yesterday; the jury before which they were tried having failed to convict any of them. Fire at Syracuse, N. Y., destroyed several business houses, the loss is estimated at \$2,000,000. Negroes who emigrated to Oklahoma from Texas are returning, very indignant at the imposition practiced upon them by emigration agents. A number fire at Norfolk, Va.; loss \$15,000. The insane asylum near Nashville, Tenn., burned; six of the inmates lost their lives. The three colored men convicted of murder on the island of Navassa, have been sentenced by the U. S. Court to be hanged at Baltimore May 16. The U. S. steamship Galena is ashore at Gay Head, Mass., and badly damaged; the officers and crew were saved. New York markets: Money easy, cotton futures at 2 1/2 per cent; cotton first middling uplands 9 1/2-10 cents; flour quiet and steady; wheat quiet and 1 1/2-1 3/4 cents at elevator; corn dull and weak; No. 2, 72@72 1/2 cents at elevator; rosini, firm and quiet; strained, common to good, \$1 55@1 60; spirits turpentine dull and nominal at 41@41 1/2 cents.

It is reported that petroleum has been found near one of Mr. Blaine's coal properties in Western Pennsylvania.

A Chicago man paid \$14,800 for a Bible. Bibles are real curiosities in Chicago, and when she strikes a real curiosity she don't haggle about the price.

A street-car conductor of St. Louis speaks eleven languages, but does all his emphasizing in the American language with Missouri dialectic embellishments.

The increase in the value of property in Philadelphia last year was \$3,000,000. For a quiet, rural town, that don't put on any airs, this is doing pretty well.

England has not only got to importing American horses and eating American beef, plum-pudding and oysters, but indulging in some of our Northwestern American blizzards.

Mr. Parnell says that Mr. Gladstone is a spider. Mr. Parnell should remember that the spider although, like the showman's monkey, "perfectly docile, except when irritated," won't do to fool with.

It is said that Queen Victoria's nose is taking on a beautiful carmine hue. The remarkable thing about it is that this roseate development is coincident with her marked interest in a new Scotch distillery.

Kentucky is the only section of this country where a man can be a "life long" Whig, afterwards a Republican and after that a Democrat, as the late Col. Taylor, of Louisville, was, according to the dispatch announcing his death.

Perhaps the speediest and most effective way to settle the Parnell problem in Ireland would be to induce the fascinating Mrs. O'Shea to emigrate. Parnell would follow her, and the great disturbing element would be removed. Her apron strings are stronger than his respect for himself or his devotion to Ireland.

From the reports in the press dispatches published this morning they are having pretty lively times in New Orleans if the water is high. Six victims of the inexorable Judge Lynch in one day indicates a fearful state of public feeling. It is a conflict between the people and a secret society of assassins in which justice seems to have halted, or quailed at threats or bribes.

The talent for advertising is developed in Paris under some difficulties. A tobaccoist who advertised the best five cent cigar in the world, apparently oblivious of the fact that over fifty thousand tobaccoists in this country advertise the same thing, was hauled up in court and made to pay a fine of \$50 for "malicious intent to deceive," because he couldn't prove that it was the best five cent cigar in the world. The judge, who had a nose, judicially declared that was only a one cent cigar which should not be current in Paris.

If the cable dispatches in reference to the conduct of Parnell be true in leaving his seat in the House of Commons to enjoy the company of Mrs. O'Shea at Brighton, it is not strange that his friends are becoming dissatisfied. In his total disregard of public opinion and of the requirements of common decency he presumes too much on the forbearance of his friends. The man is either crazy or his moral sense is so blunted that he has lost respect for himself and regard for the friends who have stood by him thus far. If only Parnell and his friends were involved it would not be so bad, but the cause of a sadly oppressed, long suffering and hard struggling country is imperilled.

Miss Josephine Medill, of Chicago, the cable dispatches inform us, will be the first daughter of America who will have the honor of kissing Queen Victoria's hand this year. Perhaps we have no business to meddle with the kissing business of Miss Medill, but it seems to us she could put them to better use, and where they would be more relished by planting them under the moustache of some able-bodied, good-looking American sovereign. Why a level-headed, well constructed American girl from the meat-republic of the Great West should want to be trotting up and kissing the hand of an old woman with two or three generations of children, a violent temper and a red nose, we can't comprehend.

Several cases of deaths from trichinosis are reported in a German settlement in Iowa, from eating pork which was probably not thoroughly cooked. It isn't safe to fool with a hog, even after it is dead. The authority that pronounced the hog unfit food several thousand years ago, knew the hog pretty well, and it hasn't evolved into anything better since.

The Seamen's Bethel. The regular Sunday services at the Seamen's Bethel will be held to-day at the usual hour, 3:30 o'clock p. m., conducted by the Rev. F. W. E. Peschau, pastor of St. Paul's Evangelical Lutheran Church of this city. All are cordially invited to attend, especially seamen. Masters of vessels are requested to have their attendance upon these meetings.

Republicans Will Nominate. Republican meetings will be held in all the wards next Tuesday night, to nominate candidates for Aldermen. It is hoped this announcement may have a stimulating effect on those Democrats who seem to have forgotten that a new registration is required. It would be very nice to find, when the polls closed on the day of election, that the Republicans had carried one of the Democratic wards.

The Seaboard and Roanoke R. R. It will be remembered that it was currently reported and fully believed that Mr. Jno. M. Robinson, representing the Seaboard Air Line, had negotiated for the purchase of the Georgia, Southern & Florida Railroad, a road extending from Macon, Ga., to Palatka, Fla. It seems, however, that the Robinson party had an option upon said line, and Mr. Robinson and several of his officers made an inspection of the road and its financial condition, with a view to purchase. It has transpired that the earnings of the road did not come up to the mark; hence, it was decided not to exercise the option which was held.

The schooner Annie Lord cleared yesterday for Puerto Cabello, Venezuela, with cargo of 200,688 feet of lumber, valued at \$2,709.20.

LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted.

The Criminal Court meets to-morrow. No cases for the City Court yesterday. Ice formed in exposed places in the city yesterday morning. Meeting of Stonewall Lodge, K. of P., to-morrow night. The cold snap has injured truckers' crops around Wilmington. Norwegian barque Saga arrived at quarantine at Southport yesterday. Poultry is scarce and sells at high prices—dressed fowls at 80 cents to \$1.00 per pair. Those who like a clean, bright, newsy paper will not overlook the MORNING STAR. The Register of Deeds issued three marriage licenses the past week—all for colored couples. The Carolina Yacht Club will hold its annual meeting to-morrow evening at the City Hall. Concord Chapter, No. 1, R. A. M., will hold its regular convocation to-morrow evening at 8 o'clock. The fire-alarm was out of order yesterday, causing a false alarm to be sounded late in the afternoon. Intermets the past week are reported as follows: Bellevue, two children; Pine Forest, one adult.

A concert will be given Tuesday night at the First Baptist Church (colored) for the benefit of the church. This is Sunday, you know, and you can't register to-morrow; but you can register to-morrow, and you ought to do it. There was ice on the steps in rear of the STAR building yesterday morning. And it was none of your artificial ice, either. One hundred and fifty convicts have been added to the force already at work on the Short-Cut extension of the Atlantic Coast Line between Fayetteville and Rowland. The work of grading is being pushed with great energy.

Dr. H. M. McDonald, of La Grange, an old subscriber to the DAILY STAR, writing us about irregularities of the mails, says: "I would rather do without my supper than miss the STAR." Correct, Doctor. You are a gentleman of refined tastes. Mr. Hashagen, secretary of the Third Ward meeting Thursday night, requests the STAR to say that he was misinformed in reporting that Maj. T. D. Love withdrew in favor of any one. It was so reported, but he has positive information from him that such was not the case.

THE UNION SCHOOL. Exercises to Begin To-morrow—Where the Scholars will Report. The exercises of this school will be resumed to-morrow. The committee has secured the use of the Assembly hall at the Hemenway school on North Fifth street, the Hibernian hall opposite the City Hall, and the old Union school house on Sixth street between Nun and Church. This building has been repaired and made very comfortable. The pupils in the classes of Misses Cook and Moore will report at the Hemenway; those in the classes of Mrs. Moffitt, Miss Haves and Miss Taylor, will report at Hibernia Hall. All other pupils will report at the old Union School House, on Sixth street. The Committee and County Board of Education have spared no pains to provide for the comfort of the pupils, and the teachers are determined to return to their work with greater energy and zeal. It is hoped that every pupil will be on hand to-morrow morning at 9 o'clock.

WILMINGTON SAVINGS & TRUST CO. Stockholders' Meeting—Election of Officers. The annual meeting of stockholders of the Wilmington Savings and Trust Company was held yesterday afternoon at their banking house in this city. Mr. Geo. W. Williams was called to the chair and Mr. W. P. Toomer was made secretary. The chair appointed Messrs. F. Rheinstein and Geo. R. French as a committee on stock, and these gentlemen reported that 287 shares were represented in person and by proxy. The old Board of Directors was elected for the ensuing year: Col. John W. Atkinson, Mr. H. Walters, Mr. B. F. Hall, Major D. O'Connor, Mr. Pembroke Jones, Mr. Geo. R. French and Mr. F. Rheinstein. Subsequently the newly elected Board met and chose the following officers: President—John W. Atkinson. Vice President—H. Walters. Cashier—W. P. Toomer. Investment Committee—J. W. Atkinson, B. F. Hall and George R. French.

A Good Exhibit. The annual statement of the Wilmington Savings and Trust Company shows that popular institution to be in a flourishing condition. The number of depositors mentioned in the statement has increased to 2,216, and the deposits now amount to nearly \$72,000. Its affairs are carefully and prudently managed, and besides paying its stockholders a reasonable profit on their investment, the bank is of inestimable value to the people of Wilmington.

Those Direct Taxes. In response to the numerous inquiries addressed to the Governor in regard to the distribution of the money recently appropriated by Congress to refund "Direct Taxes," his Private Secretary announces that he is now in correspondence with the Federal authorities on this subject, and that as soon as he is in possession of the facts he will furnish for publication the information necessary to enable interested parties to prepare their claims. There are a good many people in this section of the State who will come in for a share of the "spoils," and an overhauling of the old receipts is now strictly in order.

NOT SOLD OUT YET.

Wall Street Daily News, 13th. There is not the slightest doubt that the Richmond and West Point Terminal would be only too glad to secure control of what is known as the Robinson system, controlling a line from Baltimore by steamship to Norfolk, and from there to Elberton, Ga., and capitalizing for considerably less than its real value. It may also be said that there is no possibility of such a change as long as John M. Robinson is alive. He is the active manager and the property is very closely held. Here is a company which holds the controlling interest in four or five other lines making up the Seaboard Air Line, which is composed of six different railroads and the Baltimore Steam Packet Company, operated under one management, and yet it has a capital stock of only a little more than a million and a quarter, and the funded debt is not greater than that. Further, it has incurred no onerous obligations on behalf of connecting lines. It will readily be understood, there is no reason why this dividend-paying property should be sold, or why it could be purchased upon any terms that would not be favorable to the Richmond Terminal people. There is not in the country any important and strong railroad system which is held by the control of so small an amount of stock.
