The "Young Republicans" Philadelphia have endorsed Czar Reed. This is one of their vouthful indiscretions of which they may be ashamed, and sorry when they grow older and wiser.

With the election of John M Palmer, the next Senate will stand: Republicans 46; Democrats 40; Independent 2. But in these 46 there are several who have pretty independent ways of thinking and voting.

The march of civilization does not seem to have had an elevating influence (except when some of them are hanged) on the Indian. As proof of this an Indian woman appeared in Lansing, Michigan, one day last week and claimed a member of the Legislature as her husband.

At a dinner in New York T. B Reed began his speech with the remark, "half the trouble in life is to get a hearing." He was thinking about the Democratic minority in the last Congres when he said that, about the trouble they had in trying to get a hearing, and how they didn't get it.

Mr. Marion Smith, of Arkansas, is a hustling young man, who at the age of twenty-one has captivated eight women in one county and murried all of them. There are great possibilities before that young man if he shouldn't suddenly wind up in the penitentiary or run foul of an enraged shot gun.

Florida sharks don't always know whether it is safe to swallow a woman or not. About three years ago they are one that fell from the boat into Jupiter inlet. Since then her husband has been gunning for them and at the last account of progress had abolished three hundred of them and was still on the war path.

When the order was given for the disbandment of the colored troops in the District of Columbia and they were ordered to report uniforms, it was found that eighty were missing, with muskets and bayonets. Search was instituted and they turned up in pawn shops, where the colored braves had deposited them as collateral for a little much needed cash.

If Florida had had a geological survey years ago she might have discovered the phosphate deposits which have been accidentaly discovered, which have added so much to the wealth of the State, and other things which have also geen pccidentally discovered while boring for phosphates. Among the latest of these is said to be a deposit of genuine meerschaum.

SUNDAY SCHOOL CONVENTION.

The Meeting Last Night at the First Presbyterian Church. The County Sunday School Convention of New Hanover met last night at the First Presbyterian church. The meeting was opened by Rev. R. E. Peele,

with devotional exercises. Mr. Chadbourn, as President of the Convention, announced that Rev. Dr. Hodge would deliver the address of

welcome. Dr. Hoge came forward and extended a hearty welcome to all the delegates and representatives of the different schools. Dr. Hoge said the church he represented believed in training children, therefore such a meeting was

doubly welcome. The President (Mr. Chadbourn), then submitted his report. He said there were about sixteen Sunday schoos in the convention; Bladen, Brunswick, Columbus, Onslow and New Hanover belonging to this district. There is progress in every county except Onslow That county, owing to its not being very thickly settled and having no towns, is hard to get at. It is hoped, however, that the towns that are being built and other improvements that are in progress, will greatly facilitate the progress of

Sunday schools in that county. The report of the Secretary and Treasurer showed that at the last meeting there were 13 Sunday schools, with 1,921 pupils and 312 teachers; a total of 2,233. Average attendance, 1,602; total amount of money expended, \$2,524.70.

The election of officers being next in order was then taken up. Mr. Jas. F. Post. Jr., was elected President; Mr. Jacob S. Allen. Vice-President; Mr. W. M. Cumming, Secretary

and Treasurer.

to speak. Dr. Creasy said: "It is always a matter of pleasure to me to serve My Master. "No other movement has done more for the Master's cause in the last century than that of the Sunday school When we see the heavens bedecked with

cieve the hand of God in it; but when we come down to the minutæ, we fail to see God's hand in the small things. "The Sunday School was first organized under very unfavorable circumstances. Robt. Raikes, in 1708, gathered together a band of ragged and dirty children and taught them the alphabet, to spell and read. Then there was one lady to teach them; now, there are 2,500,000-not only teaching the chil-

dren, but praying for each one. Then there was, perhaps, 30; to-day, there are fifty millions of pupils. "Surely! the hand of God is in it! "The Sunday School has increased

amazingly in the last three years; more than a million have been added. "The largest Sunday school in the world is in Stockport, England. The main school has 3,600 pupils, and the four branches have 1,200 members-making a total of 4,800 members. The two largest in America are Wanamaker's, in Philadelphia, and the Pebble school, in

Cincinnati; each having a membership of over 3,000. "The first Sunday school in America was organized by Thos. Hinshaw at a private dwelling at Hanover county, Va. "Why is God's hand in it? Mr. Raikes paid his teachers; now teachers do their

work for the love of God and the good of their fellow beings." The convention meets again to-night and the officers hope to have a full house. Everybody is cordially invited and will be welcome.
