OUTLINES.

Treasurer Huston's resignation has been accepted, and the President has appointed E. H. Nebecker, of Indiana, in his place. The Swedish nobleman who married Senator Bayard's daughter a few weeks ago, died yesterday at Wilmington, Del. Elizabeth N. J., had a \$400,000 fire yesterday. The State Department at Washington, D. C., has received no intimation that the reply to the Italian government will be received at a given date. The murder of two white emigrants by Indians near Blackfoot, Idaho, has caused great excitement in this region and fears of an Indian uprising. Police at Bradford, England, had a combat with 10,000 striking weavers; the military were ordered out and forced to use their bayonets; many persons were injured. The French Ambassador at Berlin complains to his government of the discourteous treatment he receives from the Emperor. New York markets: Money easy at 3 1/2 per cent., closing offered at 3 per cent.; cotton quiet; middling uplands 17 1/2 cents; middling Orleans 9 1/2 cents; Southern flour strong and demand fair; wheat 1 1/4 higher and demand fair, closing firm; No. 2 red 1 1/4 @ 1 17 1/4 at elevator; corn firm, 2c higher and demand fair; No. 2, 79 1/2 @ 80 cents at elevator; rosin firm and quiet; strained, common to good, \$1 65 @ 1 70; spirits turpentine dull at 40 @ 40 1/2 cents.

That's a discouraging rumor that comes from southern Georgia and Florida, where it is said Jack Frost has completely got away with the early watermelon.

With last week's issue the Roanoke News entered upon its 23d year. The News should stand high among the people for whom it is doing such good and tireless work.

It is said that Secretary Proctor is the coming man for Mr. Edmunds' Senatorial shoes. He is not tending his linen to get there, but he says "he's willin' if the lightning comes his way, and won't dodge."

A sad hearted, despondent lover in Iowa concluded to leave this world and climb a tree. He did. Put his head in the fork of a big branch, swung off and hanged himself into total oblivion of the freaks of cupid or woman's wiles.

In point of population the State of Kansas seems to be progressing backwards. According to a report of the State Board of Agriculture the population of the State which was 1,318,552 in 1888 is now 1,427,096, a loss of 91,456 in two years.

We are indebted to the Asheville Citizen for a splendid bird's eye view of Asheville which presents the capital city of the land of the sky in fine form. It is a good piece of work, well done, and gives one a pretty fair idea of what is to be if it is not already a beautiful city.

M. S. Good, of Nebraska, although he had a Good name seems to have been a pretty tough customer. After committing forgery and killing a man in Nebraska, he was run down at Little Rock, Ark., but he fought so hard that they had to fill him with bullets before they could capture him.

The Legislature of Minnesota has supplemented its anti-female rights legislation with a law against exposing to view any nude female statuaries. A law against telling the naked truth will be next in order, for if that be permitted somebody might say that the Minnesota Legislature is composed of a majority of asses.

The Legislature of Illinois has passed a law which provides that in holding inquests on women the coroner's jury shall be composed of women only. This is quite proper. But why not provide for a female coroner also in such cases? She would have more use for the jewelry, trinkets, &c., that might be found on the corpse than the masculine coroner.

A number of Russian students were arrested at Khartoff and carted off to prison a few days ago on charge of being in the conspiracy, recently discovered, to murder the Czar. Whenever things quiet down over there and there is danger of the services of any of the police being dispensed with they manage to discover a new plot to kill the Czar and that makes them solid again.

DEATH OF MR. HENRY BACON.

Sudden and Unexpected—A Long and Useful Career Ended.

The death of Mr. Henry Bacon, which occurred Sunday last about 6 p. m. at his residence in this city, was sudden and unexpected. He had been sick for two weeks with an attack of "grip," followed by pneumonia, but had improved and was thought by his physician to be on the fair road to recovery. Sunday afternoon he was able to be up, but was taken suddenly, while conversing with members of his family and friends, with an attack of congestion of the lungs and died in less than an hour afterwards. A friend who knew him intimately and well, furnishes the STAR with the following brief account of his life and services: Mr. Bacon has been with us for so many years that he has become identified with the development and life of Wilmington, and his loss will be one deeply felt and regretted by a host of prominent citizens. He was born in Natick, Mass., in 1832, his father's family having lived in that town for several generations. His engineering career commenced in New England, and at one time he was the engineer in charge of the construction of an important extension of the Boston and Maine railroad. Later on he was appointed to the charge of harbor work on the Great Lakes under Col. Junius B. Wheeler, formerly of this State, then in the United States engineer service. From there Mr. Bacon came to the Cape Fear river at the request of Col. Craigill in January, 1876, just at the commencement of the improvements which have since added so much to the commercial value of this city. For a few years he lived at Smithville, coming from there to this city about 1880. For over fifteen years he has had charge of the Cape Fear river improvements, to which he has devoted and consecrated the best years of his life. The work under his charge has been wonderfully successful, the depth of water in the river has been increased gradually from seven and a half feet to twenty feet, and the work already had commenced on new projects for twenty feet depth. No one could have been more conscientious, faithful and efficient than he in such work, to which he carried an enthusiasm and vigor far beyond that usual for one of his time of life, and in which he looked out for the interests of the Government and also of his employes with as much care and solicitude as if everything belonged to him personally. In his own family no one could be more loved and honored. Kind, affectionate, upright and straightforward in all things, he was at once the idol and the ideal of his wife and children. No stranger has come into our community who is so generally spoken of in such terms of respect and good will. His gentle and unobtrusive manners, his kindly words to every one, and his integrity of character won for him in the community the warmest attachment and highest respect of every one. The deceased leaves behind him a widow, two daughters and four sons. Of these one daughter is married and living with her father, and one son is an architect in Winchester, Mass.; another is in charge of river and harbor work in Florida, and a third is studying architecture at Paris and Rome under a scholarship won in open competition in New York city a few years ago. Their career is already an honor to their father's memory. The hour for the funeral has not been definitely fixed but will probably take place early to-morrow morning from the First Presbyterian church, of which the deceased has long been a faithful and honored member.

SUPERIOR COURT

For New Hanover County Convened Yesterday. The April term of Superior Court for New Hanover county convened yesterday at 10 a. m., with Judge Jas. D. McIver on the bench, and Mr. O. H. Allen Solicitor. In the election cases, which were the first on the calendar, Judge Russell, counsel for plaintiffs, said that an agreement would be reached before the end of the term. The witnesses were discharged. The Court adjourned for the day about 12 noon, having disposed of the following cases: J. I. Macks vs. G. W. Black. Non-suit. William Hewlett vs. Eveline Hewlett. Continued. Wright Stanley vs. Eliza Stanley. Divorce granted. Bynum & Cotton vs. J. F. Garrell, agent. Decision reserved. Wilmington Savings & Trust Co. vs. W. P. Canaday. Non-suit. Wm. DEATH OF AN OLD CITIZEN.

Mr. Jacob Lyon, a resident of Wilmington for the past fifty years, died last night at the home of his daughters, Mrs. S. and Mrs. B. Solomon, No. 616 Market street, in his 75th year. He had been sick for some time past, and his death was not unexpected. Mr. Lyon, on coming to Wilmington, engaged in mercantile pursuits and conducted a dry goods business here for many years before and after the war. He was an upright honest man, and held in the highest esteem in business and social circles. He was a Mason of many years standing and a member of many other benevolent organizations. He leaves a family consisting of two married daughters and four sons, the latter residing in Philadelphia, where his body will be taken to-day for interment.

COUNTY COMMISSIONERS.

Adjourned Meeting of the Board—Jurers for the Criminal Court—The Site Purchased for the New Court House.

An adjourned meeting of the Board of Commissioners of New Hanover county was held yesterday. All the members of the Board were present, and Mr. H. A. Bagg, chairman, presided. Mr. Junius Davis appeared before the Board and reported that he had examined the title of the two pieces of property the commissioners proposed to purchase for a site for a new court house, and found the same good. Upon motion the Board ordered the purchase of the property at the price named (\$10,000) and the Chairman was instructed to consummate the purchase. Mr. M. Cronly reported to the Board that a new Block book for the city of Wilmington was needed, and upon motion the Commissioners decided to employ a competent man at a rate not to exceed \$2.00 per day, to prepare the same "in the rough" as the people give in their taxes. Permission was granted the children attending school at Hibernian Hall to use the Court House yard for a play ground. It was ordered by the Board that Mr. C. L. Horner be permitted to remove his license to sell liquor from the Bonitz Hotel, in the city, to Ocean View. License to retail malt liquors at Ocean View was granted Mr. Jas. A. Hewlett. YACHT PASTIME.

A New Boat on the Cape Fear River. The steam yacht Pastime, of which mention was made in the STAR a day or two ago, left Wrightsville Sunday at 1 p. m. and arrived at Southport at 6.49 p. m. the same day. Captain Marshall reports the buoy's in the slue on Fryngpan shoals either adrift or out of position, as he saw no buoy's at all and crossed the shoal with 12 feet of low water. The Pastime was joined by her owner, Mr. H. G. Latimer, at Southport at 12 m. yesterday and at once came up to this city, arriving at 2.49 p. m. The Pastime is 58 feet long and 9 feet beam. She is supplied with an Anderson compound engine, 7 by 14 and 10-inch stroke, with surface condensing engine of the Wheeler pattern, and has an upright boiler made by Park Bros., with steam capacity of one hundred and thirty pounds. The Pastime was built especially for Mr. Latimer, at Geneva, N. Y., and is considered by Capt. Marshall as A. No. 1 for her class. She has a fine forward cabin, engine room, after-cabin and toilet room, with all modern improvements, and has a speed of 12 knots. She is commanded by Capt. Jno. H. Marshall, of Norfolk, Va.; with chief engineer D. C. Whannell; second engineer J. Bauswin; mate George Broughton, of New York; and steward Wm. H. Johnson, of Virginia. Capt. Marshall says the safe pilotage of the boat depended in a great measure on his officers and crew, who stood by him in many moments of danger. The Pastime will be supplied with a home crew and electric plants will be put in soon.
