OUTLINES.

Two Californians settled a quarrel yesterday by shooting at each other with pistols; one was killed and the other arrested. There are fears that a revolution is about to break out in Portugal. Baron Fava arrived at Rome yesterday, and had a long interview with Rudini on the New Orleans affair. The American Car and Equipment Co., of New York, has failed; liabilities several hundred thousand dollars. Municipal elections throughout Illinois Tuesday were about equally divided between Democrats and Republicans. New York markets: Money easy at 3 1/2 per cent, closing offered 3 per cent; cotton quiet; middling uplands 5 1/2 cents; middling Orleans 5 1/2 cents; Southern flour dull and heavy; wheat 3 3/4 @ 4 1/4 cents lower and fairly active for forward shipment chiefly; No. 2 red \$1 23 1/2 in store and \$1 25 1/4 abroad; corn irregular, closing easier and moderately active; No. 2, 82 3/4 @ 83 cts at elevator; rosin quiet and firm, strained, common to good, \$1 70 @ 1 75; spirits turpentine quiet and firm at 40 @ 40 1/2 cents.

About 250 Pinkerton men with Winchester rifles have been employed as peace preservers in the Pennsylvania coke regions, where the racket prevails.

If it be true, as stated, that more than fifty per cent. of the dead taken to the New York morgue in the past year were unidentified, that must be a pretty rough town on strangers.

Mr. Blaine has started out in a fair way to cure the Italian Government of sucking eggs and bring the cable correspondence to a close. His last note cost Italy \$937.50, cable charges.

Minister Rudini will please take notice that the colored citizen who slew the Italian Moccia, in Charlotte, was arrested, tried and convicted all inside of about eight days from the time of committing the murder.

When you eat bought ice cream, you should always know where it comes from, who made it, how old it is, and several other things before you get on intimate terms with it. People who tackle it without making inquiries of this kind, frequently come to grief.

While the white population of California has increased in the past decade 45 per cent. the Chinese population has fallen off 44 per cent., which indicates that the Chinese are not coming very fast if they are not going very fast.

A sensitive German in Philadelphia recently committed suicide because he was charged with stealing newspapers from door steps. Those fellows who steal the STAR from door steps in Wilmington are unfortunately not so sensitive as this German.

The President and his party while on the run to El Paso, declined the invitation of the Mayor of Sanderson to visit "the most barren spot on the face of the earth," but they must have admired the breezy candor of the gentlemen who has the honor of being the presiding dignity of that attractive burg.

A Philadelphian tried Gen. Lew Wallace's Turkish cure for rheumatism—mustard and garlic poultice to the soles of the feet. It didn't cure the rheumatism; it made it worse, but it scared away his cat. So the recipe is not without its merits. If you don't get rid of your rheumatism; you may get rid of your cat.

The Louisville Courier-Journal calls attention to the fact that when Queen Victoria goes on a railroad excursion she must have a train all to herself and no one is allowed to enter the depot or look at her, and that another train precedes hers to scoop up anything that may happen to be on the track, while the Czar of Russia, when he goes away from home, is surrounded with soldiers who jab their bayonets into any one whose inquisitive curiosity brings him too near his august Majesty, but the President of the United States travels along just like any other person and shakes hands with everybody he meets. And the President of the United States (no particular reference to B. H.) is a good deal a bigger man than Queen Victoria or the Czar of Russia.

G. W. Childs, of Philadelphia, thinks rich men who postpone their benefactions till they are about to die make a mistake because they lose the pleasure of witnessing the good they do, and because no one can administer their gifts as well as they can themselves, and he might have supplemented this with the remark that they do not deserve any credit for leaving to some one else the money that they can't take away with them and which might get burned up if they did.

PERSONAL PARAGRAPHS

Pertinent Paragraphs Pertaining Principally to People and Pointedly Printed.

—Mr. H. A. Tucker is quite sick and confined to his bed.

—Mr. C. F. Bennett, the clever efficient "chef" of The Purcell, is on the sick list.

—Mr. Henry M. Cowan, Chief Clerk of the Treasury Department at Raleigh, is in the city.

—Mr. Willis Turlington, of Bennettsville, S. C., an old subscriber to the WEEKLY STAR, is in town, visiting his friends.

—Rev. Mr. J. W. Lee, the evangelist, who is now preaching at Fifth Street Church, called to see us yesterday afternoon.

—Mr. Spencer LeGrand, Assistant Auditor of the Norfolk & Carolina Railroad, is in the city on a short visit to his brother.

—Mr. H. M. Ford, who is employed by the First National Bank, was out yesterday afternoon, just recovering from a severe attack of "Grip."

—Mr. Thos. Radcliffe, a Wilmingtonian, but now of New York, arrived in the city this morning on the steamship Pawnee, and will be here a few days on business.

—Mr. A. W. Reid, deputy organizer for North Carolina of the Progressive Endowment League, is in the city for the purpose of organizing a Lodge of that order. A meeting will be held Monday or Tuesday next, (of which due notice will be given in the STAR) and the objects of the order explained by Mr. Reid.

The following gentlemen were among the arrivals in the city yesterday: J. W. Gillard, J. S. Hartsell, Charleston; B. Williams, Burgaw; L. J. Jones, Hoffman; A. A. Brown, Chadbourne; J. S. Westbrook, Faison; J. E. O'Hearn, Castle Hayne; J. M. Horne, Charleston; J. J. Powers, N. C. A. F. Toon, Whiteville; J. S. Divine, Charlotte.

The Fire Tuesday Night.

The damage to the warehouse on Dock street by fire Tuesday night is estimated at \$75,000. The building is the property of Mrs. W. A. Wright and is insured for \$100,000 with Messrs. Smith & Boatwright in the Liverpool, London & Globe Insurance Co. The stock of hay, etc., in the building, belonging to Mr. W. P. Oldham, was valued at \$800, upon which the insurance was \$500 in the Springfield, with Messrs. Hodges & Taylor. The fire is thought to have been caused by sparks falling through some pretty wide cracks in the floor of the restaurant just over the warehouse and igniting the hay.

Yesterday's Weather.

The weather records of the Signal Office give the following report of the range of temperature, etc., yesterday: At 8 a. m., 68°; 8 p. m., 66°; maximum temperature, 73°; minimum, 57°; average 65; prevailing wind, southeast.

Warm weather prevailed over the entire South Tuesday, but became cooler at night. At 8 a. m. yesterday, light to fresh south to southeast winds prevailed along the South Atlantic coast, and fresh southwest winds along the Middle Atlantic and New England coasts.

Odd Fellows' Anniversary.

Rev. R. E. Peele, of the Baptist Church, will deliver an address to the Odd Fellows of Wilmington next Sunday afternoon, at Fifth Street M. E. Church, the occasion being the 73d anniversary of the Order in the United States. There are two lodges in this city—Orion and Cape Fear—with a membership altogether of about four hundred.

Excursions Into Brunswick.

A wagonette is to be run on Saturdays on the causeway across Eagle Island for the accommodation of picnickers, pleasure-seekers, fishing-parties and others from the city and for the people of Brunswick county who "come to town" on Saturday. It is a good idea, and excursions in Brunswick will no doubt be very popular.

LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted.

—Sprinkle the streets.

—The United States lighthouse supply steamer Laurel, arrived at Southport yesterday.

—Green peas, fresh from the truck farms around town, sell in market at fifty cents per peck.

—Mr. A. McWilson is now in command of the Passport, running between Wilmington and Southport.

—Prof. Miller's fine orchestra will take part in the entertainment tomorrow night at the Opera House. Also, Prof. Greenwald.

—The box sheet for the entertainment at the Opera House tomorrow night is pretty well cut up, yet there are a few good seats left.

—The funeral of the late Jno. C. James will take place this afternoon at 5 o'clock from St. John's Church. The Confederate Veterans' Association will attend.

—The town of Florence has organized a hook and ladder company and wants apparatus. Here's a chance for the city of Wilmington to get rid of its extra truck, perhaps.

—On account of sickness in the neighborhood, the Fifth Street M. E. Church bells will not be rung, but services will be held every night this week in that church, commencing at 7:45 o'clock, conducted by Rev. J. W. Lee.

—The Chief of the Fire Department tested the hydrant pressure during the fire on Dock street Tuesday night and found it to be ninety-five pounds. The pressure during the fire yesterday at Parsley's mill was also found to be very satisfactory.

The Weather Maps.

The new system of shading with red, blue and black lines respectively the areas where higher temperature, lower temperature, and rain have prevailed, not only gives picturesqueness to the daily weather maps issued by the Signal Service Observers, but enables the eye to perceive at a glance the various sorts of weather that the United States have enjoyed, or suffered from within the preceding twenty-four hours. The weather maps are a hundred per cent. more interesting with these shadings than they were without them.

Weather Forecasts.

The following are the weather forecasts for to-day:

For Virginia, showers, westerly winds, cooler, except on the coast and stationary temperature.

For North Carolina and South Carolina, showers Thursday, southerly winds and stationary temperature.

For Tennessee, showers, fair Thursday night, westerly winds and stationary temperature.

For Georgia, Alabama and Mississippi, showers Thursday, southerly winds and stationary temperature.

The Government Building.

The United States Engineer offices in the new government building were occupied yesterday by Capt. W. H. Bixby and his office force. They occupy the entire space on the third floor, south end of the building. The old office on Second street, will be advertised for sale shortly.

It will be three weeks before the necessary furniture for the postoffice arrives, so that it will be about the middle of May before Postmaster French will be installed in the new office.

Boating on the River.

The warm weather creates interest in outdoor sports, and there is none which gives more pleasure and affords more amusement than a boat race.

Crews for a boat club on the river ought to be formed, for there is no place which affords better advantages. The boys generally are in favor of such an organization, and if the proper effort be made there is no doubt that a crew could be formed which would not only give amusement to many, but also be of advantage to the members themselves.

Lecture To-night at the Library Rooms.

The attraction of to-night will be the lecture on Lady Jane Grey, or the ten-day reign of an uncrowned monarch, to be given with photographic tableaux at the Library rooms. Those who are interested in English history and those who have not yet seen the fine stereoscopic picture of these lectures, should remember to take advantage of the present low admission rate.

At the Advent Church.

Rev. John A. Cargile, the Southern Evangelist, is to arrive in the city to-day. He will conduct a series of meetings at the Advent Church, beginning to-night. Mr. Cargile is something of the "Uncle Jones" order. He believes in going at sin with the gloves off. He will no doubt interest those who hear him. He is to remain here but five days.

SAW-MILL FIRE.

A Fierce Blaze—Conquered by the Fire Department—Loss Estimated at \$8,000.—The Insurance, Etc.

About 10 o'clock yesterday morning an alarm of fire was turned in from box 15, situated at Mr. W. L. Parsley's mill, near Hilton, in the northern part of the city.

The fire proved to be at the mill, and was caused by a sudden back-draft from a nest of furnaces, igniting the fuel in reach and quickly spreading to the roof of the furnace room and the planing mill. The planing mill had formerly contained the main saw-mill machinery of the establishment, but was a few years since converted to other uses, and contained several planing machines, the shingle manufacturing plant, lath machinery, cut-off saws, edgers, &c., together with the engine and equipments.

The fire spread like a flash; the streams from the yard hydrant were in play at once, and were quickly seconded by the arrival of the C. F. & Y. V. steamboat Compton, with a powerful stream from the river, and the tug Marie, with two well directed streams of water. Meanwhile the Fire Department had reached the scene and were arranged quickly and efficiently. Notwithstanding the situation of the burning building, surrounded by lumber, the efforts of the firemen and the steamers were successful to a large extent, confining the fire to the building in which it originated, and some adjacent lumber.

The loss is estimated at about \$8,000 with insurance as follows: On building, \$750 in the Germania of New York with Messrs. Hodges & Taylor, and on machinery, \$1,250 in the Phoenix of London and \$1,000 in the Aetna of Hartford, with Messrs. Atkinson & Manning.

THE FAMILY MARKET BASKET.

Prices of Meats, Fish, Vegetables, Etc. The market houses of Wilmington just now, are abundantly supplied with fresh meats, fish and vegetables in season, prices ruling as follows:

THE DISPOSAL OF GARBAGE.

Crematories are the Thing—Dr. Potter's Ideas.

Dr. Potter's pet project—a furnace or crematory for the destruction by fire of garbage, decayed meat and other matter that it is now difficult to dispose of—is well worth considering by the Board of Aldermen; particularly as the citizens have decided that they don't want a system of sewerage just now.

Cities north and south of Wilmington have these furnaces and find them serviceable and cheap. The city of Savannah has had two in operation for some time. The official trial made shortly after the furnaces were put up, the Savannah News says, "showed clearly that the garbage cremator burned the eighty cubic yards required by the contract in less than twelve hours, using not over a cord and one-half of fuel, and requiring two men for its management. The night soil furnace burned about half of the amount required, but it did this in less than one-fourth of the time stipulated."
