OUTLINES.

The City of Rome, Italy, was severely shaken yesterday by the explosion of and tons of gunpowder in a magazine not far from the chy; great damage resulted, several lives were lost and many persons were injured. --- More riots have occurred in the Pennsylvania coke regions; at the Adelaide plant of the Frick Company, two women were among the wounded, and at Leiserning, five men and two women were killed. ___The strike of street car drivers and conductors in Detroit, Mich., continues: no cars are running; the rails have been torn up in several places and streets blockaded. -Floods in the Brazos and Navasota rivers, Texas, are doing great damage. -The grand jury investigating the New Orleans lynching. have found several indictments. -The Chilian insurgents have again defeated the government troops; the insurgent fleet is concentrating at Valparaiso, but say they will not bombard that city. --- Baron Fava told the Marquis Rudini in regard to the New Orleans lynching, that there is no way out of the situation, as the Federal Government had no power to give Italy the satisfaction demanded. -New York markets: Money easy at 3@ 31, per cent., closingoffered at 3 per cent.. cotton quiet; middling uplands 5's cents; middling Orleans 9 5-16 cents. Southern flour dull; wheat unsettled, closing stronger, with fair business in options and an increased export demand; No. 2 red \$1 22 at elevator, and \$1 261/2 afloat; corn unsettled, closing firmer and active: No. 2, 821/2@ 824 cents at elevator; rosin quiet, strained, common to good, \$1 65@1 75; spirits turpentine dull but steady at 40@

Notwithstanding the refusal of General Sherman's family to consent to the raising of a private fund for their benefit they have been persuaded to yield, and it is now proposed to raise \$100,000, which is to go enthely to his unmarried daughters.

The anti-tights bill before the Minnesota Legislature has been shelved. In anticipation of its passage the ballet girls donned bloomers, and that settled it with the solons. If there was anything attractive in the bloomer they couldn't

The National Democratic League has selected Congressman Wilson, of West Virginia, to make a tour of the States between the Mississippi and the Pacific, to deliver tariff reform speeches and organize Democratic clubs. Thus the campaign of education goes on.

Signor Imbriani who is a member of the Italian Chamber of Deputies wants to know from the Italian Cabinet why Inspector Byrnes, of New York, refused the decoration of honor which the Italian Government conferred upon him. Perhaps he considers this another affront, and wants to add it to the bill of indemnity in the New Orleans business.

While the New Orleans affa > seems to have ruffled Mr. Rudini it does not seem to have had a very dispiriting effect on the subjects of King Humbert, who still think this country a pretty good one to come to and New Orleans not a very bad town. Four hundred and fifty Siciltans landed there in a bunch one day last week.

The Portsmouth, Va., Progress has issued a ten-page trade edition, descriptive of the business progress, industrial development, &c., of that city and the country tributary to it, with a fine map of the Sea Board Air-Line, showing its connections by railroad and water, and also a fine map of Portsmouth. It is a good and valuable piece of work.

The acting Indian Agent at Pine Ridge Agency anticipates more trouble with the noble red man. He says the Indians are in a state of unrest and have not begun their farming, which he construes into a hint that they are thinking more about scalp raising than raising something to eat. Father Craft, who wrote his views some time ago, seems to be of the same opinion.

A committee of three ministers appointed at the session of the Methodist ministers in Philadelphia, April 13th, to investigate the charges against Rev. Sam Small, report that they find his accounts all straight, and that after deducting his salary and expenses there is left in his hands as the proceeds from lectures, sermons, addresses, collections and donations the sum of \$1,100 for Utah University, in the interest of which he was travelling. As Sam has been at work for some time the proceeds must have been small or his salary and expenses large.

The Boston Herald rises to remark that: "The average Southern politician is somewhat less outspoken than the Southern newspapers," which remark without violent stretching might be made to cover the whole country. The doubtful politician can mount the fence, play mum and take observations, but the newspaper is not equipped for fence climbng and if it was the people wouldn't have any use for the paper that did business on the fence.

NEWS OF THE RAILROADS.

The State Railroad Commission Sending Out Letters and Circulars-The Presidency of the C. F. & Y. V. R. R.-Proposed Removal of the Seaboard Air-Line Shops from Raleigh.

The Baltimore Sun publishes the following: "Mr. John M. Robinson, President of the Seaboard Air-Line system, said yesterday that it was in contemplation to remove the shops of the Raleigh & Gaston Railroad from Raleigh to some point farther south. 'It is the purpose,' he said, 'to unite the shops of this line with those of the Carolina Central Railroad at some convenient point on the line of the Seaboard system where more room can be had than in Raleigh. The Carolina Central has very small shops, and as it is necessary to enlarge them it was thought economical to unite the shops of the two roads. The present shops in Raleigh will be continued as repair shops for the Raleigh & Gaston road after the change is made. It may be a year or longer before the change is

effected." RAILROAD COMMISSION. The Raleigh News-Observer of yesterday says: "The Railroad Commission yesterday sent out several letters and circulars to corporations calling attention to irregularities and evils, concerning which complaints have been made to

the Commission. "It having been brought to the notice of the Commission that discriminations have been practiced by the Western Union Telegraph Company, a notice was sent to them to fix a uniform rate of tolls. It was alleged that the toll from Morganton to Raleigh is forty cents, while from Asheville to Raleigh

it is only twenty-five cents. "A circular was vesterday issued to all - Round trip tickets for the Wake | the railroads in the State directing them County Cattle Club, which meets in to make their stations as comfortable Raleigh, will be sold over the C. RIVER IMPROVEMENTS.

Work on the Twenty-Foot Project for the Cape Fear-Cleaning Out Northeast

Two steam dredgers are now at work in the river opposite the city-one at a point near the Wilmington Compress, and the other opposite Kidder's mill each dredging a channel which will be 250 feet wide and twenty feet deep at low water. They will be at work probably for six weeks on these shoals, after which they will go to the cuts opposite Brunswick river and the cuts opposite; Big Island. This work is in continuance of the present project to give twenty feet depth at low water from the city to the ocean. A third dredge will be put at work on this same contract about a month hence.

Work has been going on for the last two months on the upper Northeast river, to clear out the stream for steamboat navigation to Chinquepin, about 78 miles from the city. The steam hoister commenced work awhile ago at Chinquepin and has 'already cleared the river roughly down as far as Bannerman's bridge, from which a good six-foot channel already exists to Wil-

The next appropriation for this river will make thorough work where rough work is being done at present; this rough work being for the benefit of navigation during high water stages, which is all that the present funds will

The work on the Northeast river is done by hired labor, and on the lower Cape Fear by special contract; both under the special supervision of Capt. W H. Bixby, U. S. Engineer in charge of river and harbor improvements in North and South Carolina.

THE MURDERER BRABHAM.

Sentenced to be Hanged May 21st-An · Appeal Taken, | Charlotte Chronicle.]

The Criminal Court convened yesterday (Wednesday) morning at 10 o'clock. The prisoner, Brabham, was brought into Court for sentence yesterday morning. His counsel made a motion for a new trial, alleging certain errors in the Judge's charge to the jury, and in the admission of certain evidence. Judge Meares overruled the motion for a new trial, and after a brief exhortation to the prisoner, sentenced him to be hung on the 21st of May next, between the hours of 5 a, m. and 5 p. m. From this judgment the prisoner prayed an appeal
