WILMINGTON, N. C., FRIDAY, MAY 8, 1891.

Items of Interest Gathered Here

- Tax-listing will begin June 1st. - The children of Miss Hart's school will go on an excursion to-day to Bishop Keener. vanhoe, on the C. F. & Y. V. railroad.

- Messrs. R. B. & W. C. Moore, at their store near Front street market. have a big rooster only one year old that weighs 81/2 pounds.

LOCAL DOTS.

and There and Briefly Noted.

- Regular work was resumed by the Industrial Manufacturing Company yesterday, only one day having been lost on account of the damage done by the

- The Water Works Company have commenced work on making the change from a six-inch pipe on Fourth street between Red Cross and Church, to a twelve-inch main.

- The trim little steam launch Navassa made the run from Meares' Bluff to Wilmington, yesterday, in twenty minutes. Distance four miles over a very crooked river.

- The Passport is expected to take the place of the Wilmington next Tuesday. The Wilmington will be laid off for nearly a week to be painted. She will then begin her regular schedule to Carolina Beach.

- A large party of excursionists arrived here yesterday morning from Bennettsville, S. C., in a special on the C. F. & Y. V. railroad. They spent the day at the Sound, returning to the city in the evening, and will leave for home this afternoon at 4 o'clock.

- The importance of the oyster industry, in which Wilmington is very much interested, is shown in a very strong light by the fact that a mass meeting was recently held in the Con-- Mr. R. D. Galbraith, represent cordia Opera House, Baltimore, to coning Root, Cary & Co., is on a business | sider the means for the practical restoration and recuperation of the Marvland oyster industry.

THE TRUCK TRADE.

Crop Prospects in the Norfolk Section. Farmers around Wilmington like to keep posted about the crop prospects in other sections. They will be more interested in knowing that all crops in the Norfolk section are about ten days late, according to a report of a commission merchant who has investigated the situation, and who adds:

There is a larger acreage of potatoes planted, but owing to so much rain the seed have decayed, and it is not though t that any more barrels will be shipped than there was one year ago. The shoots are up, on an average, three inches. No shipments can be made betore June 15; many say June 20.

Cabbage will commence to go forward about May 10. The crop is a fair one. About the same area was planted

Beans are just coming up and will be ready for shipping by June 15 to 20. Cucumbers are just popping out of

FOR THE HAMMOCKS.

Special Train on the Seacoast Road To-

There will be a special schedule on the Seacoast railroad to-morrow for the benefit of those who wish to spend the day on the seashore, taking in Captain Boyton's aquatic entertainment. Trains will leave Wilmington at 7 and 10 a. m. and 1.00, 2.30, 3.30 and 6.30 p. m., returning from the Hammocks at 7.50 and 11 a. m. and 2.20. 5.20, 6.30 and 7.30 p. m. The train which leaves Wilmington at 2.30 p. m, will consist of twelve coaches. The fare for the round trip, including the exhibition, is only 50 cents.

The M. E. Church at Southport.

The Southport Leader says: "Through the liberality of Mr. and Mrs. Richard Dosher, of this city, the Methodist E. Church is in position to dedicate its new building next Sunday, when Bishop Galloway will be here. The gift of Mr. and Mrs. Dosher was the cancellation of the mortgage held by them against the church, amounting to \$1,000, which leaves about \$300 necessary to be raised, and which the friends of the church believe can be secured this week. It is the wish of all that this handsome edifice be at once cleared from debt and dedicated by Bishop Galloway during his visit here.

Southport Election.

The city election at Southport was held last Monday. It was a close contest between the Democrats and Republicans. D. I. Watson was elected Mayor, and the following Board of Aldermen Moses McKeithan, Rep.; E. A. Grissom, Rep.; Asa Doscher, Rep.; R. Doscher, Jr., Dem.; Wm. Weeks, Dem.

Painfully Hurt, Mr. Thos. C. Armstrong, of Rocky Point, yesterday morning, while standing just inside the doorway of Jones' livery stables on Princess street, was knocked down and painfully injured by a horse that ran into the stable from the street. Mr. Armstrong's left hip was severely bruised and he received a slight cut on his right ear.

WILMINGTON'S WELCOME

TO THE BOARD OF MISSIONS OF THE M. E. CHURCH SOUTH.

Eloquent Addresses by Rev. Dr. Creasy, Rev. Mr. Swindell, and Response from

Grace M. E. Church, profusely and beauteously decorated by the ladies, was the scene last evening of a reception tendered by the Methodists of the city to the ten Bishops of the M. E. Church South, now in attendance on the meeting of the Board of Missions in this city, and the event was enjoyed by a large concourse of people.

In the absence of Col. Cole, President of the Board of Missions, Rev. Dr. P. A. Peterson, next in office, conducted the preliminary exercises, which consisted of music and a fervent prayer by Rev. Dr. Rogers, of the Baltimore Confer-

Rev. Dr. Creasy then in behalf of the Methodists and the city delivered a very interesting and stirring address of welcome. He said: this is a glorious occasion for the city of Wilmington, and especially the Methodists, and he took peculiar pleasure in welcoming those whose coming among us is to further the cause of Christ at home and abroad. He had, he said, in preparing his remarks for the evening called to his aid a layman in his church who had materially aided him by giving him valuable statistics concerning the establishment and upbnilding of Methodism in Wilmington. He the then gave a very interesting history of William Merideth in this city, beginning in 1744, who suffered much persecution and preached from the jail windows to the colored people, among whom he labored chiefly, but by whose efforts and those of his co-laborer Mr. Jennett, the seed was sown from which Methodism in Wilmington has grown to its present proportions. The bodies of these two faithful men were first interred under old Front Street Church but now rest under the pulpit of Grace Church ,having been tenderly removed after the fire of 1886 which, destroyed Front Sreet Church.

Bishops Andrews, Wightman and

Capers he said had been important factors in the building up of Methodism in this city, all of these having labored here. Six Methodist churches have been built. Six years ago the fire fiend reduced to ashes old Front Street church, so dear to her people; the bell, as the fire released its support, tolling its own requiem. The kind hearted Hebrews tendered to the feeble and distressed band their house of worship, and for two years and three months they worshiped there. Three and a half years ago they entered their new home with a membership of 208; now they number 475. There have been built in the city two other churches and there are two other points occupied as mission stations. The church has in good working order all the societies directed by the General Conference. There are more than thirteen hundred white Methodists in Wilmington who give cordial greeting to their distinguished guests. In 1850 Jenny Lind, the Swedish Nightingale, came to New York. Her welcome was unique and superb; an artificial grove had been formed at the landing, arches erected and flags floating on which were inscribed "WELCOME;" but this welcome was not for her song but for her singing. We welcome this Board of Missions for both their song and their singing, for they sing of Jesus and his love and teach us to sing and teach others to sing, and as the missionaries bring souls to God angels sing, 'peace on earth, good will to man." May they go on singing and teaching others to sing until from the watch-tower of Asia comes the watchword, "One Lord," and from Africa, the cry comes, 'One faith," and from Europe the herald proclaims, "One baptism," while One Lord, one faith, one baptism."

America takes up the strain and echoes, Rev. Mr. Swindell followed Mr. Creasy in an address full of interest and varied in its character. He said he had looked forward to this meeting with peculiar pleasure, believing it an augury for good. As Dr. Creasy had given an account of the rise and growth of Methodism in Wilmington, he would try to say something of the history of the city. He then began with the settling of "Town Creek," about ten miles below Wilmington, by the Puritans in 1660, and traced rapidly the sucpoints on the river near here, up to 1730, when the first house was built on the present site of Wilmington, first called "Newton," then "New Liverpool" and finally Wilmington, in honor of Spence Compton, Earl of Wilmington. That the visitors might form an estimate of the commerce and business of the city he gave the amount and character of the exports during the past year, consisting chiefly of cotton, rosin, tar. turpentine and peanuts. One of the questions in an old geography was "what are the principal exports of North Carolina?" And the answer, was "tar, pitch and turpentine," and we are trying to keep up our reputation. The patriotism of the of Wesley; but let us not forget our- days.

Wilmington people has long been known, for they assisted the Bostonians in their execution of the "stamp act" by refusing to allow a vessel bringing stamps to this port to land. While Charlotte claims to be the birth place of American Independence, Wilmington organized a few days after that declaration of independence, a vigilance committee to assist in the resistance to British oppression. He was, he said, especially glad to welcome this Board of Missions because of the work which brought them together-that of sending the gospel to all nations. One thousand. eight hundred and fifty years ago the King of Kings isrued his decree, and for centuries He has awaited the fulfilment of His command. It has been estimated that thirty billions of people have existed since Christ gave His great commission; if these were placed ten abreast, passing each second, it would take nearly a century for them to go by. Every one who has perished without the gospel has gone to judgment, to accuse the Church of unfaithfulness. But the Church is working up on this line. Never has there been so many agencies at work for the spread of the gospel, and never such encouragement to Christian workers. Never have there been so many voices calling from distant lands, openings of providence, and we cannot afford to close our ears to these cries. Methodism has done more, we believe, than any other Church for mis-

sions. The great revival of John Wesley, its founder, quickened religious life and awoke the people to a sense of their duty to others, and this has shaped largely the religion of both hemispheres. Wesley embodied the missionary spirit in all his teachings. He said, "the world is my parish." Wherever the gospel is preached the Methodists have heralds of the Cross telling the people that the blood of Christ can save. I believe the world is to be captured for Christ and and we want a hand in the work that we may have the commendation. "Well done, good and faithful servant." To be more thoroughly stimulated the people need complete information, and emphasis of individual relation to the work. Knowledge does not'always result in zeal but knowledge is necessary to success. What set on fire the heart of Cary, the cobbler? He gathered all the information he could about the destitution foreign lands, made him a map out of leather and as he worked at his bench studied the comparative condition of the heathen and Christain world until his zeal forced him to go to the benighted land. Not until the moral and religious condition of the heathen is brought and impressed vividly on the minds and hearts of the people will they be aroused to their privilege and duty. It must be burned into heir conciences until each is made to feel that he is here to take up the work which Christ laid down, and this conviction must be vital and vitalizing. Let this conception become overwhelmng and the stream of salvation, now running so sluggishly, will water the

waste places of the earth. Dr. Peterson then introduced, in a few happy remarks, the senior Bishop, Rev. Dr. Keener, who in a short, bright cheery speech responded on the part of the Bishops to these addresses of wel-

He said he had been entertained and

instructed. He believed Methodism

was a community of joy, and as long as

we have this fruit which does not grow on nature's soil, we shall have perfect unity. The Saviour has suffered scandal a long time in the fact that the Church has moved slowly in the conversion of the world, and as I grow older ! feel a personal responsibility from which no one can relieve me. Methodism owes its existence to missionary impulses; the Holy Spirit-the same force that sent Whitfield all along this coast -raised up Methodism on a missionary basis if on any thing, yet we have moved very slowly. We have, by a strange providence of God, been thrown in contact with more heathen than all Christendom has ever had the means of reaching. Nations have been sent to us to whom we have not gone. We have seen people of the very lowest strata elevated to the light and liberty of the gospel. suppose more heathen have gone to neaven from the South than from anywhere else; but they have changed; they build churches, attend conferences, attend the Eucemenical Council-in all things maintain their dignity, for cessive attempts at settlement at other | many of them are very intelligent, and we are not ashamed of them. The first batch of Methodists converted after Mr. Wesley, were converted in a jail, and in ten days were hung, and as Mr. Wesley said, "all went off in a good frame of mind.' Mr. Wesley preached to them after their conviction, and all but two were soundly converted. Dr. Creasy spoke of Mr. Meredith preaching to the colored people from the jail window. The world can be divided into two parts-the part in jail and the 'part out. So with Methodism. I admire elegance and do not believe it incompatible with spirituality and sincere worship, as was thought in the days

selves. Religion must have in it the soul of joy, warmth, life, to bring people from under the influence of the archenemy.

Work in Japan" will be delivered by Rev. Dr. Lamberth, a missionary from that country. The public is cordially invited.

Heavy Frosts in All Sections-No Dam age Yet Reported to Crops.

There was a big white frost yesterday morning on the Sounds and in and around Wilmington, but it could not be learned to what extent growing crops and fruit had suffered, as the market-men and others from whom reports were obtained left home too early in the day to ascertain the damage to vegeta-

Passengers on the Onslow railroad from Jacksonville report a heavy frost in that section.

Bishop O. P. Fitzgerald.

A STAR representative, and one who knew him well, had a brief but pleasant interview yesterday with the above distinguished dignitary of the M. E. Church South. He is one of the ten Bishops now in our city in attendance on the sessions of the Foreign Mission Board of the Church, the work of which is of greatest importance and will be continued for several days to come. Bishop Fitzgerald is a North Carolinian by birth but his youth and early manhood were spent in Virginia, where he acquired the knowledge of the "art preservative," and laid the foundation for the eminence he has attained in the editorial guidance of one of the leading organs of the Church, and finally reaching the highest dignity which could be conferred upon him. Many pleasant recollections of youthful days were revived in the interview and the utmost familiarity characterized all of the talk.

A Racing Accident.

Yesterday morning, John Moore, young colored man employed as a driver by Messrs. S. H. Sanders & Co., while out with a sulky, soliciting orders, began racing with another colored driver, John Clinton, on Fourth street, near Campbell. Moore's sulky was overturned, and his foot catching in the seat of the vehicle he was dragged through the street over Fourth street bridge and as far as Hanover street, where, while passing Mr. H. L. Fentress' drug store, Dr. Scott ran out and stopped the horse. When Moore was picked up he was bleeding at the mouth. His injuries are mostly internal. He was resting easy yesterday afternoon.

The University Alumni. One well posted informed our reporter yesterday that the Wilmington alumni were the best organized and most enthusiastie in the State. The annual meeting will be held at 6:30 o'clock to-night, at The Orton. Immediately after the meeting there will be a ban quet. These annual reunions are most enjoyable, and the one this year will be more largely attended than any that has yet been held. Those who wish to join and who have not yet given in their names to the Secretary, Mr. M. C. S. Noble, should do so to-day.

The Conoly Murder. A dispatch to the STAR last night from Maxton says that a committee of citizens met at Mill Prong, Robeson county, yesterday, to investigate the Conoly murder. They commenced their investigation yesterday afternoon and will probably continue it for two or three

A COLD SNAP.

A gentleman from Lake Waccamaw

The minimum temperature recorded was 41 degrees and the maximum 66

A special bulletin from the Chief Signal officer at Washington says the cold weather prevailing over the country for the past three or four days has been of unusual severity, extent and duration, and has been accompanied in some sections by lower temperatures for this season and later frosts than ever previously recorded by the Signal Service. For the past two days the temperature over the greater portion of the country east of the Mississippi and Missouri rivers and in the Southwest has been from ten to twenty degrees below the normal. Severe frosts have occurred throughout the Lake region, the Ohio, upper Mississippi and Missouri Valleys, and were reported vesterday as far south as North Carolina and South Tennessee, which is later than there is any previous records of in those States. Minimum temperatures of 34 and 38 degrees, respectively, were reported yesterday morning from Lynchburg and Raleigh, which is the lowest on record for those stations for
