Trask the Murderer in Jail--Wild Talk of a Lunatic--Homicidal Impulses--The Murdered Man's Body Sent to New York--S. Pathy for Mrs. Matthewmann--Coroner's Inquest, Etc.

A STAR reporter called at the jail yesterday about noon, and in company with Jailer King paid the murderer a visit. Trask was found lying on his cot crying. He responded to Mr. King's call and came to the grating. On being interrogated as to why he was crying, no intelligent reply was received.

The weather yesterday at Carolina Beach was delightful, and a good crowd from the city went down to enjoy it. Robt. H. Trask, the insane murderer, is not a relative of Mr. Jas. B. Huggins, as stated yesterday in the report of the unfortunate affair.

The body of Wagner Carr, the white lad drowned at Hilton on Sunday last, was found yesterday about noon, floating in the river nearly opposite the point at which he disappeared.

The policemen's excursion to Wrightsville comes off to-morrow. Many tickets have been sold and there is promise of a "large and flattering" attendance. The sports arranged for the amusement of visitors will afford no end of fun.

This tariff business works funny sometimes. Some time ago an American boiler was sent over to Canada, where it exploded. When the owner started back with the tubes the collector at Buffalo demanded duty on them because they were not brought back in the same condition in which they were exported. On appeal to the Treasury Department the decision of the collector was overruled and the tubes got in free of duty.

A Cleveland, Ohio, Judge has recently decided in a case where two rival electric light companies contended for the ownership of a patent for using the earth as a conductor of electric currents, that the earth belongs to the public. This will be news to some people of the Benjamin Harrison kind who seem to think that the earth belongs to them.

It is not right definitely known whether the fugitive colored gentleman, Thomas, of Cape Fear precinct, is drawing rations from the Government crib at Washington, or rustivating out in Oklahoma. A search warrant might have found him, however, if the prosecutors in the suit against the New Hanover canvassing board had been very anxious to produce him at Raleigh.

PERSONAL PARAGRAPHS. Pertinent Paragraphs Pertaining Principally to People and Pointedly Printed.

Mr. W. D. Wiggins, of Goldsboro, registered at the Purcell yesterday. Mr. J. B. Kennedy, of Raleigh, was in town yesterday, registered at The Orton.

Sheriff J. W. Crowell, of Wilson, was in the city yesterday on a short business trip. Prof. M. C. S. Noble, one of the directors of the Normal and Industrial Training school for girls, left last night for Raleigh to attend a meeting of the board.

Mr. K. Ibuka, the native Japanese who delivered three of his famous lectures here, left yesterday morning for New York. The people of this city enjoyed his lectures very much.

The following were among the arrivals yesterday: J. B. Files, Guio; F. P. Tatam, McCall's; J. F. McNair, North Carolina; H. A. Wells, Charleston; W. H. Pyke, Southport; W. S. Patrick, Clinton; J. H. Maxton, Whiteville; J. B. Moore, Burgaw.

Y. M. C. A. NOTES. Work of the Women's Auxiliary--The New Building. The regular meeting of the Women's Auxiliary to the Y. M. C. A., which was held yesterday, had been announced as the last one before the closing for the summer season, but the interest and work in hand demanded that another meeting shall be held.

The resignation of the President which had been presented at the former meeting, was most reluctantly accepted. Appropriate resolutions of regret were adopted by the meeting and a committee appointed to nominate a successor. The committees working for the furnishing of the various rooms in the new building reported very encouraging progress, having raised a little over \$90 toward the furnishing since the last monthly meeting. Over \$200 more is in the treasury to be used for this purpose.

This sum, added to the \$500 already put into furnishings, make over \$800 that the ladies have already provided toward this object, which they regard as their special work for the new building. As the work on the building progresses, the desirability of the two beautiful stores on Front street becomes more evident. These stores--one 64x32 feet, with an office 12x12 adjoining, and the other 54x23 feet, will be ready for occupancy October 1st, and when fitted up with beautiful plate glass fronts will present a most attractive appearance on the street, and be exceedingly desirable business stands.

OUTLINES.

In a railroad collision near Parsons, Kas., two trains were wrecked and burned; three men were killed and six others seriously injured. Lightning struck a company of soldiers going through their exercises before the German Emperor at Berlin; two men were killed and others were dangerously injured. The Grand Camp of Confederate Veterans of Virginia, will meet in Fredericksburg to-day. In the baccarat scandal suit the jury gave a verdict against the plaintiff. A demonstration was made yesterday by hostile Chilean vessels at Iquique, but no damage resulted. C. H. McCorkle was arrested in New York, charged with negotiating drafts drawn on a firm in Salisbury, N. C., and was held in \$1,000 bail. New York markets: Money easy at 2 1/2 @ 3 per cent., closing offered at 3 1/2 cents; middling uplands 9 1/2 cents; middling Orleans 9 1/2-16 cts; Southern flour quiet and weak; wheat higher and fairly active; No. 2 red \$1.08 1/2 @ 1.09 3/4 in store and at elevator; corn opened higher and closed lower and heavy; No. 3, 66 @ 67 3/4 cents at elevator; spirits turpentine dull but steady.

The immigrant business was on a boom last week. The arrivals panned out 17,166, the biggest run for one week ever made. The divorce mills turned out a pretty big grist in Chattanooga, Tenn., last week. In one day twenty-five divorces were granted.

It is said that Wisconsin has more people of foreign birth than any other State in the Union, which is the reason why Gen. Grosvenor pronounced it a "foreign province." Ex-Senator Ingalls says "I know that I am here but I don't know where I go." If he don't mend his ways, and atone for some of the devilment he has done it won't be hard to tell where he is going.

Some billy goats are very expensive. A denizen of Reading, Pa., has one that devoured \$425 in greenbacks at one feed the other day, and finished up on an assortment of tins cans and patent medicine bottles.

The St. Louis Globe-Democrat, Rep., is fully convinced that son Russell talks too much with his mouth, and believes that it would pay the Republican party to raise a fund and hire him to observe a prolonged silence.

Sarah Bernhardt is immensely popular in the hotels in which she puts up on her travels, and the servants, bell boys, &c., tumble over each other to serve her. Reason: she flips \$20 gold pieces around among 'em as if they were nickels.

The St. Louis Post-Dispatch boasts that "no other city in the world has as wholesome water as St. Louis," but judging from the number of breweries in that town the average St. Louisian don't attach much importance to this discovery.

An examination of the tax books of the city of Philadelphia shows that there have been due the city for years by delinquents about \$6,000,000, and the impression is growing that there must have been a good deal of hocus pocus about the tax business.

Republican gubernatorial timber must be scarce in Illinois when they talk of nominating dirty mouth Joe Cannon. The Republican party has got so low that it will take almost anything these days. It would take a red-hot stove if there was a nickel in it.

Iowa is forging to the front. Among her latest claims to distinction is a sixteen-year old girl, said to be handsome and accomplished, who has just been convicted of counterfeiting, burglary, theft and pocket picking. There may be some doubt about her beauty, but with this record there can be no doubt as to her "accomplishments."

New Jersey rakes in a good deal of cash out of the corporations she charters, her laws being very liberal in that respect, the only requirement being that the incorporators pay the charter fee and taxes on the real or alleged capital stock. Many of these companies do business in other States, but New Jersey gets \$400,000 a year out of them and when all pay up as she proposes to make them do, or forfeit their charters, it will amount to \$600,000.

Yesterday's Weather. The weather records of the Signal Office give the following report of the range of temperature, etc., yesterday: At 8 a. m., 64°; 8 p. m., 78°; maximum temperature, 78°; minimum, 61°; average 70°; prevailing wind, east. Total rainfall, .01.
