Edward McMillan, a miner of Wilkesbarre, Pa., and his wife, some time ago went on a joint raze. In the excitement resulting from the too frequent tapping of the jug, he dropped some remarks derogatory to her fidelity, when she dropped on him with both hands and yanked a peck or so of hair out of his head. He resented this familiarity by knocking her down, heating the tongs red hot, and amused himself for an hour or two boring big holes in her body. Sufficiently amused he curled himself up near by and was soon wrapped in the arms of Morpheus, while death, the reaper, kindly came in and relieved his wife from torture. A few days ago he was convicted of murder, and was sentenced to follow by the hemp line the woman whom he had so barbarously sent into eternity.

A baggage master on the Hudson River Railroad the other day collared Jay Gould and unceremoniously yanked him off the track. Jay was somewhat surprised at this sudden familiarity, but didn't demand an apology when he discovered that there was a lightning train within a few feet of him which would have mashed him flatter than he ever flattened a victim in the stock market if that baggage smasher hadn't promptly collared him and jerked him out of danger.

RICHMOND'S PRIDE.

THE FIRST VIRGINIA REGIMENT GETTING READY FOR WRIGHTSVILLE.

All the Talk at the Army in Richmond —The Regiment Will Reach Wrightsville at Three O'clock A. M., on July 19th. From the Richmond Dispatch the following interesting particulars are gathered concerning the approaching visit of the Richmond troops to Wrightsville: The encampment at Wrightsville is the subject now talked about at the Army by all of the members of the First Virginia Regiment to the exclusion of everything else. The encampment is essentially one for instruction in camp duty and the routine work required of a soldier in active service.

Following out the plan of commissary service now in use in the United States army the regiment will be fed immediately under the direction of the commissary instead of, as was formerly the custom, for each company's providing for its own commissary service, this course having been found to be the most economical method of providing for both regular and volunteer troops. The camp for the regiment has been laid out by Colonel F. A. Olds, quartermaster-general of the North Carolina State Guard. The arrangement of the tents will be as follows: The field and staff officers' tents will be placed in a line, in front of this line and at right angles to it will be the lines of company tents. There will be sufficient space between the company tents and those of the field officers for the establishment of the color-line and the assembly of the battalion. The streets between the company tents will be sixteen feet wide. Immediately in the rear of the companies' tents the kitchens are located. One-half of the mess-tables are to the right of the kitchen and one-half to the left.

This same arrangement of camp will obtain for each of the other four regiments. THE TARGET-RANGE. Colonel Olds also writes that the target-range is supplied with Laidly revolving-targets and also with targets representing skirmishers in line and advancing. These latter are silhouettes, which when looked at from a distance appear as men in actual service. The targets are used in instructing the men in skirmish-firing.

Captain Gassar, the acting inspector of the rifle practice in the regiment, has made a request for ammunition to be used by the regiment during this encampment. For the first practice, which includes the firing at 100, 200, 300, 400, and 500 yards, based on 200 men firing, it will require 2,625 rounds; for the second practice at the same range, it will require 775 for the third, which is at 200, 500, 600, 700, 800, and 1,000 yards, it will require 1,400 rounds. For the general practice at estimated distances it will require 5,000 rounds of ammunition.

NICE CALCULATION REQUIRED. Target-practice at a distance in excess of 100 yards and at 500 yards or more, requires nice calculation on the part of the man firing to enable him to hit the target, since the condition of the light and moisture of the atmosphere, direction and velocity of the wind have to be taken into consideration in aiming the rifle. The wind is a very important factor in the calculation, since one blowing directly across the line at a rate of six miles an hour will alone make a difference in the drift of the bullet at a thousand yards of not less than ten feet. The size of the target at this distance is 12x8 feet, so that as light a wind as this would prevent a man hitting the target who did not know how to make the proper calculations necessary to overcome this cause. It will be a matter of considerable study on the part of the officers to instruct the men to make calculations as indicated above so that they will be enabled to profit by the rifle practice incident to this occasion.

"BAGGAGE ORDERS." The orders as published for the guidance of the regiment will require all baggage to be placed in charge of the quartermaster by July 15th. He will ship all of the camp equipment and baggage on the 16th. The regiment will assemble on the 18th at 8:30 p. m., and leave from the Union depot at 9 o'clock p. m., reaching Wrightsville at 8 a. m. on the 19th. The cost to the men for this encampment, including railroad fare and rations, will be \$7. For this sum, though seemingly small to those not acquainted with the methods of management in the volunteer service, all of the expenses can be met, with the exception of the hire of cooks, servants and horses.

CAMP PLEASURES. Notwithstanding the amount of work to be required of the men, they will have ample time to enjoy the many pleasures incident to camp life; and in addition fishing, boating and surf-bathing will be of much interest to those who are fond of the seashore; and last but not least will be the enjoyment of meeting with North Carolina officers and men from all portions of the State.

Jumped the Trestle. Mr. A. D. Connor, of Hayson, N. C., was caught on the trestle between Wrightsville and the Hammocks by one of the trains, yesterday, and although he was in no danger, as the speed of the train was checked and it would have been stopped before reaching him, he jumped into the Sound with the agility of a sand-fiddler. The water was not deep, and Mr. Connor sustained no injury; but he was sorry he left his Indiana rubber lung boots at home.

THE FIFE-SCHENCK AFFAIR.

Resolutions Adopted by the Meeting at Greensboro.

The Workman of Saturday afternoon last publishes the resolutions adopted at the meeting of citizens, as follows: We, the undersigned committee appointed by a mass meeting of the citizens of Greensboro to report a resolution expressive of the sense of the law-abiding, Christian people of this meeting as to the occurrence of the attack made last night on Evangelist Wm. P. Fife, beg leave to report as follows: Resolved, 1st, That this meeting regrets and is mortified at the attack made on Wm. P. Fife last night in front of the McAdoo House, and without going into any question of blame as between the parties, but simply expressing the sense of this meeting as to that act, we deplore and condemn the act, ESPECIALLY as to the manner of it, the time of it, and the occasion and place, and say that it was in our opinion improper, uncalled for and unjustifiable, and to be condemned by all law-abiding citizens without any regard to questions of personal provocation.

Respectfully submitted, John A. Gilmer, J. R. Mendenhall, J. A. Odell, Wm. Love, T. C. Worth, Committee. Mayor Forbis, of Greensboro, issued five warrants against Fife Schenck, David Schenck and Dr. Schenck, returnable at 8:30 o'clock Saturday evening, but on motion of counsel for defence, the hearing was continued to Tuesday (to-day) at 10 o'clock a. m.

ATLANTIC COAST LINE.

Important Changes—Mr. Kenly General Manager and Mr. Emerson Traffic Manager. An important change of officers of the Atlantic Coast Line has been made, to go into effect July 1st. Mr. H. Walters has resigned the position of General Manager and Mr. J. R. Kenly, for some time past his able Assistant, has been selected to fill this responsible position. General Manager Kenly will discharge its duties with credit to himself and satisfaction to the stockholders.

Mr. T. M. Emerson, heretofore General Freight and Passenger Agent, has been appointed Traffic Manager of the Coast Line. This is a new office, and one that will give Mr. Emerson a wider field for the exercise of his fine abilities. These promotions will probably necessitate other changes, but what they are or may be has not yet transpired.

PROGRESSIVE MAXTON.

To Establish a High School for Boys and Young Men. A correspondent of the STAR writes that a meeting of business men and other citizens of Maxton was held Saturday, at which it was decided to establish there as soon as buildings can be had, a high school for boys and young men. Committees were appointed to select a site and submit plans for proper buildings, (which buildings are to be constructed on the most modern and improved plans) and also a committee to solicit subscriptions. It was determined to erect buildings to cost not less than \$3,000 to \$5,000, and enough money was subscribed in the meeting, before the committee had even begun their canvass, to justify the committee in purchasing the site to begin work as soon as plans can be agreed upon.

There will be another meeting Friday, July 3rd, to hear the reports of the minor committee and to take steps to push forward the work.
