OUTLINES.

Denial comes from Brunswick, Ga., of the existence of yellow fever at that place. The libel against the schr. Robert and Minnie, that transferred munitions of war to the Chilian insurgent steamer Itata was dismissed by Judge Ross in the U.S. Circuit Court in California; the decision is a great surprise to the Washington authorities. -A storm at Galveston, Texas, Sunday, caused great damage to property and injured many persons. -- The eruption of Vesuvius is increasing, and is accompanied with strong earthquake shocks. - French newspapers are disturbed at the reception'given the German Emperor in England. - Jews to the number of about 900 left Russian Poland last week. --- A cyclone in Mississippi destroyed many buildings; several persons killed and others injured.

Ten Louisiana Republicans were killed and about thirty wounded last Monday. A cyclone blew down the walls of the penitentiary at Baton Rouge.

The Philadelphia Bulletin, Rep., rises to remark that "The Republican party in Ohio will unite against the farmers." The Bulletin is a back number. The Republican party united against the farmers about twenty-five years ago.

There are said to be 46,000 oil wells in the United States, representing a capital of \$120,000,000, with an output of 130,000 barrels a day. This announcement ought to make Prince George of Greece feel at home in this country.

M. Flammarion, the French star gazer, declares that the climate of Europe is growing colder. When B. Harrison reads the cold endorsements the Republican conventions give him he concludes the climate of this country is growing colder, too.

It is said that seventy-four million dollars are invested in Presbyterian Church property in this country. I Ben Butler should see this statement he may regret that he didn't become Calvanistic minister, for which calling he says his pious parents intended

In his lecture on "The Problems of our Second Century," ex-Senator Ingalls says "There :will be then future broader liberty, largeropportunities, and greater development of the nation than the mind of man can now conceive." The gentleman from Kansas is evidently looking for the demise of the Republican

A New Orleans telegram announces that a cyclone lit on a portion of Louisiana the other, day and raised old Harry, demolishing houses, killing and crippling a lot of people. This came shortly after a Farmers' Union, which was composed of men who had been Democrats, renounced allegiance to the Democratic party and declared for the Third Party. Here is a fearful warning to Democrats who go wandering after strange gods. People who don't want to run up against retributive justice in the shape of cyclones and that sort of thing should stay in the Democratic party.

The Fourth was a bad day in Ohio for the balloonists. At Akron, Prof. Brady made an ascention. He was accompanied by a man, who when about two hundred feet up became entangled in a rope and fell headlong to the earth. In his descent he struck the Prof. who had hold of the attorney. No agent or attorney shall parachute. This broke the Professor's fall, who was seriously though not fatally injured. The other was instantly killed. At Elmira, where Mme. Zoetta Bently made an ascention the wind was so strong that the balloon became unmanageable, and she was thrown from the ropes in which she was sitting, falling a distance of sixty feet, breaking every rib in her body and killing her instantly. This balloon business is a very dangerous and costly amuse-

The Stamp Savings System-A New Feature Recently Introduced from Eu-

Savings Banks are being organized in Charleston, Savannah and other cities on a new basis. The following explanation of the plan is interesting:

"The stock will be subscribed on the instalment plan. The par value will be \$50 a share, payable in monthly instal-

"The new feature which the bank proposes to introduce is the stamp savings system. This system has only recently been introduced into this country from Europe, where it is very successfully conducted. It is now in operation in banks in Detroit, Washington City and elsewhere in the United States.

The bank issues a number of stamps of the denominations of 5 cents, 10 cents, 25 cents and 50 cents. These will be placed on sale at drug stores and other places throughout the city.

Those wishing to make small deposits in the bank can buy these stamps from the most convenient place near by without the trouble of going to the bank. They are furnished with a deposit book in which the stamps are pasted. As soon as \$1 worth of stamps has been purchased interest will be allowed upon the deposit. The inaugurators of the system in Savannah believe that it will prove the most popular system of savings ever introduced. Its chief recommendation is its convenience for the deposit of small amounts.

ing in a Fight-One Badly Hurt. Two of the workmen employed on the Y. M. C. A. building in course of erection on North Front street-Billy McIver and John Shepherd-both colored men-engaged in a fight yesterday morning while at work. Shepherd threw a brick at McIver striking the latter on the side of the head and making a severe scalp wound. The injured man was taken to the City Hall, and after the wound was dressed by Dr. Stokes, assisted by Dr. Hanby, McIver was sent to his home in the northern part of the city.

Shepherd made his escape and the police officers had not been able to find him up to last evening.

A NEW WRINKLE.

Arrangement for Fishermen at Carolina Beach.

Down at Carolina Beach yesterday a wire cable an inch in diameter was stretched from the shore to the collection of wrecks of the old blockaderunners that lie about two hundred yards out. It is understood that a chair or car will be swung to the cable, in which chair or car any adventurous fisherman can pull himself out to the "old wrack," and catch sheephead to his heart's content, without getting even his feet wet. That same "old wrack," by the way, is said to mark the best fishing ground on the South Atlantic

Weather in the Cotton Belt.

The rainfall in the Wilmington district of the cotton belt yesterday was .20 of an inch at Lumberton, .01 at Wilmington and a trace at Charlotte and Cheraw. Very heavy rainfall occurred in other parts of the cotton belt. The average in the Mobile district was 3.86 inches; in the New Orleans district 1.18, and in the Vicksburg district 1.39.

The severe storm which caused so much damage in the Lower Mississippi Valley was central yesterday morning in the Central Mississippi Valley, but its force was very much diminished.

The temperature was lower, the average maximum ranging from 84 to 92 degrees.

Stocks of Naval Stores at the Ports.

Stocks of naval stores at the leading ports in the trade, July 1st, are reported as follows: Spirits turpentine-New York, 1,326;

Wilmington, 3,616; Charleston, 2,585; Savannah, 9,561. Total 17,088 casks. Rosin-New York, 17,684 barrels; Wilmington, 15,926; Charleston, 3,755; Savannah, 51,501. Total, 78,866 barrels.

A FISTIC ENCOUNTER.

W. S. Layton Whips Frank Griffin at Roanoke, Va.

W. S. Layton, well known to many of the boys around Wilmington, was the winner in a fistic encounter at Roan oke Va., on the 4th of July.

When time was called, W. S. Layton weighing 147 pounds, stepped from his corner and shook hands with Frank Griffin, weighing 152 pounds. Both men are about 25 years old and in the pink of condition. Griffin's second was Carter Lyons; sponger, John Riordan Layton's functionaries were Harry Murphy and S. Christian. Referee, M. H. Sutphin, of Washington. In the second round they clinched, broke away and fought out into the ring. At this point Griffin got rid of his right glove, whether to useh is naked fist or not cannot be

stated positively, but he never got the

chance to use it, for Layton gave him a

quietus with a magnificent right hander on the neck—Griffin fell a quivering,

bruised mass in Layton's corner and did

did not get up for twenty-one seconds. Of course the fight was over. Referee awarded the purse of \$350 to Layton. The whole affair was quiet in all respects, save for the interference of Carter Lyons. When Griffin was first knocked down, Layton gave him ample time to rise. At this point Lyons rushed toward the combatants and was seen to be interfering; in fact he struck at Layton, whose attention was engaged elsewhere. Layton's second, Murphy, took Lyons to task, when Lyons struck him on the mouth. As soon as Murphy recovered he gave Lyons a terrific smash in the

right eye, closing and cutting it badly.

The Pensioners' Reunion-A Great Gathexing Expected.

The pensioners' reunion, or encampment, is attracting much attention all over the State and promises to be a larger affair than was at first contemplated. There are some 1,500 male pensioners in the State, and out of that number \$00 or 400 would probably, it was thought, attend and preparations were made for that number. Free transportation was kindly tendered by the radroads, and by their special request Col. Hall, their adjutant, ordered all to bring rations and blankets with them. Having some means themselves they are not willing to be considered objects of charity.

It seems now that the number will be largely increased and the veterans at large (other than pensioners) are anxious to join the reunion. An appeal will be made by the friends of the old soldiers to the community for assistance in making the occasion one of pleasure to them in their old age and an episode to be remembered by the coming generation. They want something more than mere rations to make it pleasant, such as fresh meats, fish, vegetables, fruit, ice, &c. Any one desiring to aid in this undertaking can do so through the agency of Capt. J. T. Patrick, Raleigh, or Cols. E. D. Hall and F. W, Kerchner, Wilmington.

The date for the veterans is the 29th inst. They will go into camp on that day, in the quarters vacated by the State Guard, and will remain there a

Special Meeting-Its Charter-Members of the Association.

At a special meeting held July 2d, at the office of the President of the North Carolina Society for the Prevention of Cruelty to Children and Animals, it was ordered that the following extract from the charter granted the Society by the Legislature be published. Also, that a list of the members of the Society be published.

The meeting was well attended, showing the great interest taken. The business before the Society was transacted with promptness and harmony.

The Charter, Section 6, reads: "The police force of the city of Wilmington, as well as of all other places in the State of North Carolina where police organizations exist, shall, as occasion may require, assist the Society, its members or agents, in the enforcement of all laws which are now or may be hereafter enacted for the protection of children and dumb animals, and the members of the Society shall be empowered with police authority to make arrests for cruelty to children or ani-

RIVER AND MARINE.

- A circular from the U. S. Coast and Geodetic Survey reports a change in buoy, Albemarle Sound, North river entrance: A bell buoy has been substituted for the P.S. can buoy formerly shown off the lower end of the dredged channel at the entrance.

- The STAR has received the latest edition of the catalogue of Charts published by the U.S. Coast and Geodetic Survey. As required by law. the Charts are sold, as nearly as practicable, at the cost of the paper and printing. They are based upon accurate Trigonometrical Surveys, and every effort is made to keep them corrected so as to include all information received up to the time they are issued from the office. Persons using the Charts can always obtain the Geodetic Survey Notices to Mariners, which are issued monthly, and can be found at the Sale Agencies of this Survey at all principal ports, at the Custom Houses, and Branch Hydrographic Offices of the Navy Department, and at other usual resorts of mariners. These monthly Notices to Mariners will be regularly forwarded (free of charge) to all persons who furnish their names and post-office address to the "Superintendent, U. S.
