A TERRIBLE TRAGEDY.

A Man and a Woman Killed at a Ball in Derango, Colorado-Escape of the Mur-

By Telegraph to e Morning Star

DENVER, COL., August 2 .- A special from Durango, Col., to-day, says: At a ball in Blue Mountains, July 24, a terrible tragedy occurred which is seldom equalled in the history of crime. While the dancing was going merrily, a tough character-Tom Roach-insisted upon dancing. He was drunk and armed with a knife and six-shooter. He was told the sets were all full and was requested not to interfere with persons already on the floor, but he declared he would dance, took hold of a gentleman and attempted to remove him from the floor. This was resented and the parties became engaged in a scuffle, when Frank H. Hyde attempted to end the disturbance. Roach turned on Hyde and viciously stabbed him with a knife, inflicting dangerous wounds in several places. Roach left the room, but continued to act in a disorderly manner. A cowboy named Billy McCord, belonging to the "I. C." outfit, tried to pacify Roach by going out where he was and talking to him. This seemed to enrage him more than ever, and drawing his gun, he killed McCord outright. By this time the excitement was becoming intense and as no one was armed people were almost panic stricken. A boy slipped away to a house near and securing a Winchester turned to the school house. He took aim and fired but missed Roach and killed Mrs. Walton, wife of Charles E. Walton, an estimable woman living in the community. By this time consternation had seized upon all and terror reigned supreme. In the excitement Roach left the place since which time he has not been seen. The entire community are searching for him.

A CHICAGO FIRE.

Dry Goods Store Burned-Loss Estimated at \$1,000,000.

Be Telegraph to the Morning Star. CHICAGO, August 2 .- A fire, involving a loss estimated to be at least \$1,-000,000, broke out at 7.30 o'clock this morning in the large retail dry goods and notions store of Sigel, Cooper & Co., southeast corner of State and Adams streets. The blaze started in the exchange room, on the first floor, and spread through the inflammable stock with the gratest rapidity. About twentyfive employes were in the store at the time, but all, as far as is known, managed to escape uninjured, except one cash boy, who was on the third floor. He started to come down the fire-escape, but being confused lost his footing and fell, receiving severe injuries. There were three watchmen in the building at the time, who have not yet been accounted for. The loss is believed to be cavered by insurance.

THE EIGHT-HOUR LAW.

Trouble in the Trades at Omaha. By Telegraph to the Morning Star.

OMAHA, Aug. 3.-There has been no Iresh trouble at the Omaha and Grant Smelter so far to-day. Police guarded. the works all night, but there was no attempt at violence. When the hour for the day shift to go on duty arrived about 400 men gathered at the entrance, but nobody went to work except half a dozen men who put in the morning emptying a silver furnace. As soon as this was completed the smelters were closed and not a man of the 650 employes was at work. Job printers are still out, with no prospects of a compromise. A number of manufacturers have clubbed together and will test the eighthour law in the courts.

At noon a number of brick-layers went out ior eight hours.

The Queen of Belgium Severely Ill-A Revolutionary Movement in Barcelona Speedily Suppressed.

BARCELONA, Aug. 2.-Great excitement has been caused in this city by what was for a time believed to be a revolutionary movement on the part of the Republican party, but which subsequently proved to be a desperate attempt on the part of certain speculators on the Bourse to bring about a decline of securities dealt in upon the Exchange. For foolhardy daring the scheme has never been equalled by desperate speculators in this or any other country. The troops who garrison the city were in their barracks and the several guards patrolling posts, when a band of fifteen men, some of whom were armed with rifles while others carried revolvers in their hands, cautiously approached the buildings and attempted to effect a surprise of the guards, it being their intention to force their way into the barracks. Sentries were vigilant, however, and soon discovered the approach of the men. Guards ordered the band to halt and give the countersign. To do the latter was of course impossible and the men made a rush upon the sentries, trusting that in the confusion which would follow, they would be able to force their way into the barracks. As they ran towards the sentries they delivered a volley from their weapons and some of the guards fell to the ground, having been struck by the bullets of the aggressors. The other sentries, however, stood their ground, and answered the volley from the attackers

tial, and the chances are all will be PARIS, August 3.-Sorilla, Spanish Republican, in an interview to-day, denied that he was in any way implicated in the Barcelona affair. He said that he would do nothing without certainty of success. The latest report from Barcelona justifies the belief that the affair was a genuine revolutionary attempt on the part of Republicans. All persons arrested are federal Repub-

time a regular battle was fought, and a

number on both sides were wounded.

In the meantime officers stationed at

BUSINESS FAILURE

Abraham Backer a Prominent Dry Goods Commission Merchant of New York Makes an Assignment.

NEW YORK, August 3 .- Abraham Backer, dealer in commercial paper at No. 285 Broadway, made an assignment today without preference to Benjamin F. Einstein, of No. 245 Broadway. Backer was a heavy dealer in commercial paper and also capitalist of the firm of A. Backer & Co., dry goods commission merchants at 285 Broadway. He also manufactured goods at Glastonbury, Conn., where he has a fine mill. Their goods were principally for the Southern

trade. He sold goods which he manufactured there through his own firm of A. Backer & Co. His assignment, it is said, does not affect this firm, although he was the principal partner and capitalist, his son, C. Backer, being the company.

Backer's principal business was deal-

ing in commercial paper. His large connections in the South and Southwest enabled him to handle a great deal of commercial paper, either as a broker or purchaser. Some of this paper he endorsed and had discounted in his banks on which he has a contingent liability, and some of it he sold outright. He had drifted, it is said, gradually into this branch of business by buying at first for personal investment and then extending it by placing paper for merchants with whom he had dealings. He is said to have obtained some of the best paper made, and he handled about \$15,000,000 annually. Backer was very popular in financial and mercantile circles; had the confidence of banks and bankers in this city and elsewhere; is director in the city banks and several Southern banks. He had a number of bank accounts where he got his paper discounted. Backer's assignment, it is said, is principally due to the condition of the money market, which made it very difficult for him to float the quality of commercial paper which he generally handled, and also to the decline in certain Southern railroad bonds in which he was a large holder. His trouble, it is said, in relation to Southern railroad bonds, was the result of his connection with the Macon Construction Co. of Macon, Ga., of which he was one of the directors, and which he is said to have lent much money. His liabilities are said to be about \$4,000,-000, of which \$2,500,000 is direct and \$1,500,000 contingent. The latter is said to be all right and no loss is anticipated. Assets, according to one who is familiar with Backer's affairs, include about \$1,500,000 of bonds of the Georgia Southern & Florida and Macon & Birmingham Railroads, about \$750,000 Alabama State bonds and a large amount of other securities. a valuable mill plant at Glastonbury, Conn., and \$150,000 to

NEW YORK, Aug. 2 .- The Sun's cot-

ton circular says: Futures rose 10 to 12 points owing to unfavorable crop reports and covering of the shorts for local and Southern accounts. The weather reports were literally a wet blanket for the bears, if the rains in Texas be excepted. A dispatch from Houston stated that rains had fallen from Columbus, Texas, to San Antonio, and in that section they were needed. But excessive rains in the Atlantic States, in Arkansas, Mississippi and Alabama, accompanied by reports of too weedy growth and some shedding, as well as from complaints of caterpillars and the boll worm, were the chief factors in to-day's speculation, and it being a "weather market" prices advanced easily with the rise in some measure accelerated by "stop-orders. THE MURDERER OF SIMEON CONOLY CAPTURED.

Daniel A. McDougal Arrested at Albany

Oregon

[Special Star Telegram.] WHITEVILLE, Aug. 8 .- Mr. Frank McNeil, Solicitor of this District, received to-day a telegraphic dispatch from Albany, Oregon, informing him of the arrest of Daniel A. McDougal at that place. McDougal is charged with the murder of his uncle Simeon Conoly, an aged and respected citizen of Robeson county. When arrested McDougal had assumed the name of D. H. Laurin. He was captured by one of Pinkerton's detectives.

The murder of Mr. Conoly was committed in April last, and McDougal was strongly suspected, but disappeared before he could be arrested. The grand jury of Robeson indicted him for the murder, and rewards were offered for his arrest.

CHICAGO MARKET REVIEW.

Fluctuations in Prices of Grain and Provisions.

By Telegraph to the Morning Star. CHICAGO, August 3.-The feeling in the wheat pit was rather bearish at the opening this morning, and the tendency for the first few minutes was downward. December, which opened at 8914c against 8958c at the close on Saturday, sold off to 891/ac. Then New York and St. Louis came in with heavy buying orders, and a cablegram from Paris quoted the weather wet and cold, prices 50 centimes higher and the condition of the spring wheat crop of France as hopeless. These things turned the tide, and the shorts began rapidly to cover, prices making a quick jump to 9114c. Then it became evident that there would be an increase in the visible supply and under free selling the market went off to 90%c. There was a reaction to 91c, later, on advices from New York that foreign houses were good buyers there. The market was rather nervous during the last hour.

After selling off to 90% c for December there was a quick rally to 91%c, and recession to 91c, but the close was firm at 911/8c, on buying by prominent

local houses. Corn sympathized with wheat in the early trading. Sept. opened at 56%c against 571/6c at the close on Saturday The market was slow for the first fifteen minutes, selling to 561/2c., but when wheat started upward corn did likewise and the price of September jumped to 58, but weakened a little, then advanced to 58 kc. There was recession to 58, then another advance—this time to 581/2 cents. The feeling was easier towards the close, however, the shorts having recovered from their fright and September receded to 57% cents at which it

ITALIAN MURDERERS.

The Brumfield Tragedy-Report that Eight Italians Were Killed by the Sheriff's Posse.

By Telegraph to the Morning Star.

NEW YORK, August 3 .- A Catlettsburg (Ky.) special says: A rumor is current upon the streets this morning that the sheriff's posse, in attempting to capture the Italians who murdered the Brumfield family Friday night, were forced to fire on the Italians, eight of them being instantly killed.

LONDON, August 3.—The Globe this afternoon publishes dispatches detailing the murder of Mr. and Mrs. Brumfield and their five children in Wayne county, West Virginia, Friday last, by a crowd of drunken Italian laborers, employed on the Norfolk & Western R. R., and in an editorial commenting on the crime says: "This horrible outrage will assuredly have its full effect upon the future relations between the American and undesirable immigrants. Swarmss of Italians who cross the Atlantic are by far the most objectionable of all emigrants who go to America, they appear to have lost the only visible meritthose of sobriety. Self-defence in some States where protection is exceedingly elementary, becomes not only a right but a duty. The murderers in this case will undoubtedly receive their deserts from the people of W. Va., and it will then be seen if Italy demands Federal enquiry with a view of procuring compensation. If Italy does so the answer that will be made to the demand will perhaps be shorter and sharper than the one previously made by the U.S. government in reply to Italy's demand for compensation for families of Italians lynched at New Orleans. The country which cannot deal efficiently with its murderers must not object to a law that does the work for it.

A HOTEL FIRE.

Of the Guests Burned to Death. By Telegraph to the Morning Star.

PALMER, MASS., August 3.-The Week's House, an old landmark, well known to travelers, was discovered on fire at about 2 o'clock this morning. There were about 35 guests and boarders in the house and they had barely time to escape in their night clothing. Rev. Mr. Williams, a retired Congregational minister who preached last year at Holland, was burned to death. His body was found about 8 o'clock directly in the front entrance, burned beyond recognition; nothing but the charred trunk re-maining. The guests lost all their effects with sums of money ranging from \$5 to \$500.

Decision of the U.S. Circuit Court at Charleston, S. C., in the famous Coosaw case, was filed yesterday in favor of the State. Both judges delivered opinions, holding that the contract between the State and the Coosaw Company expired in 1891.

THE IRON WORKERS.

Pennsylvania Mills Starting Up With Non-union Workmen in Deflance of the

By Telegraph to the Morning Star. POTTSVILLE, Aug. 8.—It was decided this afternoon to start the 23-inch mill of the Pottsville and Iron and Steel Company to-morrow with the men who have left the army of 800 strikers. Other men from out of town will be engaged, when needed, and a boarding house is being erected for their accommodation. A majority of the strikers stand firm, having been promised aid from the Amalgamated Association after the first

of September. READING, Pa., August 3.—S. R, Seipert and Bro., proprietors of the large rolling mill at Seipert Station, this county, after an idleness of four months announced to-day that they would resume to-morrow morning with nonunion men. The mill employs 285 hands. President Wihe of the Amalgamated Association visited the mill and advised the association members to stand firm. This afternoon he left for Philadelphia.

JEALOUSY AND MURDER.

Isaac Simons Kills Robert Hogans and Fatally Stabs his Wife and Daughter.

By Telegraph to the Morning Star. SAVANNAH, GA., August 3.—Isaac Simons killed Robert Hogans last night by stabbing him through the heart with stilletto and threw the body in a ditch near where the crime was committed. After killing Hogans, Simons stabbed his own wife and young daughter. The wife will probably die. Simons escaped. All the parties are colored. Hogans was boarding at Simons' house and was regarded as a member of the family. Jealousy was the cause of the murder.

ELECTRIC SPARKS.

At LaCrosse, Wis., Bishop Flasch, (Catholic), died yesterday morning, aged 60, from cancer of the stomach. BRUSSELS, Aug. 3rd.—The Queen of Belgium has been taken suddenly ill and is supposed to be dying. Extreme unction has been administered.

The common council of Richmond, Va., prossed a resolution to erect a monument to General W. C. Wickham in Monroe Polk. The unveiling will probably take place this fall.

A spectal from Arkansas City, Kansas, says: Jackson Donnelly, a wealthy farmer, living five miles east of this city, and his wife, were found murdered at noon to-day. The supposed motive was robbery.

Walter H. Ellis, a young clerk of the Alabama Great Southern railroad, was arrested yesterday, on the charge of burning the freight depot which blew up Thursday night with fifty kegs of powder in it. He was short in his accounts and is supposed to have blown up the building to hide the shortage.
