New Horses for the Fire Department. The "Atlantic" hose reel horse-"Rich'd J. Iones"-is laid up, threatened with lockjaw. He is receiving the best attention, but there is little hope of recovery. The attack was brought on, it is thought, by overwork. The horse is a great favorite with

the boys, who will be sorry to lose him. The old reliable horse, "John," of the Cape Fear engine, has been exchanged for a handsome gray, seven years old He makes a good match for his mate, "Hardy." The "John" horse had been in the service of the department for a number of years, and had nearly succumbed to the effects of old age and hard service. The members of the Cape Fear company are well pleased with the exchange.

THE MURDERER CAPTURED.

John Johnson, who Brutally Assaulted and Murdered a Colored Girl Near Ivanhoe, in the Hands of Officers of the Law.

John Johnson, the colored man who outraged and murdered the colored child, Florence Sutton, near Ivanhoe, on the C. F. & Y. V. R. R.-as told in the STAR-was captured vesterday at Parkersburg, about ten miles from the scene of the murder. Johnson was arrested by Mr. C. P. Parker, and after being securely bound with ropes was taken on the train last evening to Ivanhoe, and placed in charge of an officer for removal to the jail of Bladen County at Elizabethtown.

The news of Johnson's capture created great excitement in the neighborhood of Ivanhoe station. The colored people gathered by the hundreds. The feeling against the prisoner is very bitter, even among his race, and it was thought to be more than probable that he would be taken from the custody of the officers during the night and lynched by the negroes.

The murder was committed in Lake Creek township, Bladen county. When found Monday morning the body of the murdered girl was lying face downward in a hole that the murderer had hurriedly dug late Sunday afternoon to hide the evidence of his crime. It was scarcely concealed by the earth thrown over it, one foot almost protruding through the surface.

Dr. W. P. Anders made a post mortem examination of the body and found that the girl's neck was broken and that she had been choked and strangled. There was plain evidence that the girl had received the most brutal treatment from the murderer.
