OUTLINES.

The hurricane at Martinique was most destructive of life and property; all the shipping was wrecked; an earthquake added to the horrors of the night. The cotton crop of 1890-91 in eight amounts to 8,564,375 bales. Severe earthquakes are reported from Lisbon, Portugal. The Chandler Brothers, who conducted a real estate and savings bank business at Montgomery, Ala., failed; liabilities \$50,000. An explosion took place about noon yesterday in a large brick building in Park place, New York city; the building immediately collapsed and fire broke out; some fifty people in the building at the time were killed. Frank Army, the murderer of Miss Warden, captured at Hanover, N. H., is an old penitentiary convict and a most notorious criminal. New York markets: Money easy, closing offered at 2 1/2 per cent; cotton quiet, middling uplands 8 cents; middling Orleans 7-16 cents; Southern flour dull and unchanged; wheat moderately active and unsettled, closing lower; No. 2 red \$1 10/16 @ 1 11/16 at elevator; corn dull and lower; No. 2, 79 cents at elevator; rosin dull but steady at \$1 35 @ 1 40; spirits turpentine quiet and steady at 36 1/4 @ 37 1/4 cents.

Geo. Francis Train doesn't often joke, but when he jokes he jokes. His latest is nominating Russell Harrison for President.

Notwithstanding all the name he has to take with him, George Washington Lincoln Grant Richardson, a Jersey youth, somnambulates.

The wool clip of Ohio this year will be 26,000,000. At present prices it will sell for \$1,300,000 less than it would have brought before the McKinley tariff.

The temperature rose so high at Helena, Montana, last week, that the mercury climbed out of the top of the thermometers. It was a sort of Helena blaze.

The New York Times rejoices in the prospect of a \$1,000,000 libel suit. There is nothing which makes a paper happier when the thermometer is up than a first-class libel suit.

The President of Peru complains that when he recently visited one of our cruisers the "commonest courtesies" were omitted. Perhaps the usual supply of the Kentucky product had been exhausted before they struck his boat.

The attempt is being again made to induce the women to abandon the side saddle and get on both sides of the horse. But many of them regard this as only a side issue, and nothing to compare with the bifurcated skirt.

The Farmers' Alliance of Indiana, which has been discussing tax matters somewhat, can't see why the stallion Axtell, which recently sold for \$105,000, and earned \$50,000 last year, should be assessed at only \$500. It is quite a petinent inquiry.

The Chinese are progressive. Yong Lee Ong, a San Francisco Chinaman, not only became a Christian but learned how to forge names so well that he was doing a thriving business forging the signatures of revenue agents to opium labels, until somebody gave him away.

Mr. Bailey, of Texas, who it is said will be the youngest man in the next Congress, being under thirty years of age, is such a rattling good talker that the farmers used to follow him from town to town in the campaign last fall to hear him speak.

That Philadelphia undertaker who charged only \$3 for "putting a smile on the face of a corpse" was quite moderate in his charge. The gentleman who thus smilingly led in the funeral procession should not object to it. But any corpse ought to smile to get out of town like Philadelphia.

Chicago claims that she presents superlative inducements to political conventions because she can supply 120,000,000 gallons of water a day, with Lake Michigan as a reserve, has more sewers than any town in the country, and 1,625 policemen to preserve order when the delegates get excited, or pugnacious from drinking the water.

E. B. Preston, of Ottawa, Kansas, quarrelled with his wife and they separated. A few days ago they got together, reconciled their difficul-

ties, talked over them, quarrelled again, the wrangle ending in Preston shooting his wife and then himself. These Ottawa people it seems never learned the lesson that they ought to weigh their words.

It is some satisfaction to learn that while the human ear is growing longer so is the span of life of the mortal who is to wear it. The generation which was thirty years, and fifty years ago thirty-four, has increased to forty-two years. But that does not necessarily hold out any bright prospect to the Republican party.

PECAN TREES.

Information of Value to Persons Interested in the Culture.

ROCKINGHAM, N. C., Aug. 23, '91. Editor Morning Star:

DEAR SIR:—I notice a good deal being said about pecan culture and would like to have my "say" too, and at the same time get all the information I can. I got seed from Arkansas and planted about twelve years ago and the trees now are from twenty to twenty-five feet high, and from six to fifteen inches in diameter and have been bearing for four years. I can say little about the profit of the crop, as I have only a few trees bearing and have put no fruit on the market; but the nuts are fine and well flavored. I send you by this mail an average sample of the nut at this stage of growth; there are clusters on the trees having eight nuts in a bunch. The trees are planted in ordinary soil with barely ordinary cultivation.

About four years ago I planted a nursery, the seed also from Arkansas. The trees are about a foot apart in the row and the rows four feet apart. They are now an inch to two inches in diameter and from ten to twelve feet high. I transplanted fifty last spring without the loss of a single tree. In every excavation from which I took the trees to be transplanted, have sprung up three, four and sometimes half a dozen young trees from the roots of the adjacent trees left exposed. The young trees are now two feet high, vigorous and perfect in shape as if from seed. My bearing trees and nursery are in the town of Rockingham, and a visit of inspection to those interested. I expect to plant a grove of four or five hundred trees; will begin this fall. I have seen a pecan called the "paper shell," about twice the size of the ordinary nut with thinner shell. I would like to know if any one is familiar with the nut and where to get the seed. I saw the nut at the Exposition in Ocala, Florida.

I expect to have on exhibition at the fair in Raleigh this fall a specimen of the nuts grown on my trees. I can sit under pecan trees of my own planting and eat nuts of my own production and do not "mumble them without the teeth, either." Very respectfully yours, T. J. STEELE.

AT CAROLINA BEACH.

A Day of Unqualified Enjoyment for Everybody—The Military "Take the Cake"—Balloon Ascension by Prof. Jewell.

Never has there been in all probability a more quiet and at the same time enjoyable day passed by any body of troops than yesterday at the camp of the F. I. L. I. at the Beach. The usual routine of duty was observed, and the balance of the day was spent in bathing, fishing, strolling on the beach, flirting with the girls—and sleeping, which latter is not hard to do in the salt sea air, with old ocean murmuring a lullaby.

The number of visitors was not so numerous as on Friday, but there was a goodly number of fair women present to add attractiveness and gaiety to the pleasures of the day.

About 5 p. m. the band attached to the command marched to the Oceanic hotel and for an hour charmed the assembled hundreds with several choice selections rendered in the best style and which were heartily appreciated by the visitors.

Six o'clock in the afternoon was the hour appointed for the battalion dress parade, but Mr. Stacey Van-Amringe having arrived at the camp bearing an invitation from himself and the management of the Seacoast Railroad Company, for the military and band to spend Tuesday next at Ocean View, met Capt. John C. Vann, in the absence of Maj. Broadfoot, who accepted the invitation, the command to return to barracks on Tuesday night.

When this matter was disposed of, the line was formed and marched to the parade ground, where dress parade was held; Maj. Broadfoot commanding, with Capt. Vann acting adjutant. The movements of the two companies, and their proficiency in the manual was much appreciated by a number of ex-Confederates who were delighted spectators.

UP IN A BALLOON. Professor Jewell made another balloon ascent and parachute drop at 5.30 o'clock, equally as successful as that of Friday afternoon, reaching an altitude of about 2,000 feet before commencing his descent and landing in the sound three-quarters of a mile from the place of starting without injury, and where he was picked up by a boat which had previously been sent out for that purpose in case the wind should take him in that direction.

A JOLLY CROWD.

A very jolly crowd was that which occupied the rear end of the rear car of the last train leaving the Beach, and the passengers in it were regaled with a number of songs by a chorus of male voices. The last one, "Good-bye, My Lover, Good-bye," was sung with great emphasis, and was led by Mr. Berry Gleaves, who improvised many verses, only one of which the reporter remembers. It ran thus:

"This car has on a precious freight; Good-bye, my lover, good-bye; Colonel Kerchner—a heavy weight—Good-bye, my lover, good-bye."

When the train arrived at the boat landing on the river, a considerable number of people were found waiting to go to the Beach, among them Major A. A. McKethan, a former commander of the company, and with him were several ladies, and some of the first citizens of the goodly town of Fayetteville.

NINETY-EIGHT ANNIVERSARY.

To-morrow (Monday) the company will celebrate its ninety-eighth anniversary with all the ceremonies incident to such an occasion and with the dignity befitting its age and valuable services to the State and the community of which the members, active and honorary, so worthily represent.

The prizes offered for the target shooting contest are as follows: Prize for Wilmington Light Infantry—a repeating rifle. Prize for Veterans—a souvenir spoon. Prize for Band—a berry spoon. First prize for F. I. L. I. Company—a silver pitcher.

ATTEMPT AT MURDER.

In Cumberland County—Mr. Lucial Fisher Shot and Dangerously Wounded. ROSEBORO, N. C., August 20.

On Wednesday night last, about 9 o'clock, some one came to the house of Mr. John Oldham, about three-quarters of a mile from this place on the C. F. & Y. V. railroad, and called for Mr. Oldham, who, being sick in bed, asked Mr. Lucial Fisher, a neighbor of his who was with him that night, to go and see what was wanted.

Mr. Fisher had got but a few steps from the door when he was fired on by some one in the bushes near the fence, putting seven shots in his left breast, and as he turned around the second load was fired at him, putting three shots in his back.

Mr. Fisher is now under the careful attention of Dr. F. J. Cooper, of this place. It is not known who did the shooting. A. R. H. P. S.—August 21st—Mr. Fisher seems to rest very easy to-day, and will probably, with good attention get over it.
