COTTON FACTS AND FIGURES.

—But wasn't yesterday a cotton opener? —The Texas cotton crop is now estimated at 20 per cent. below that of last year. —The weather recently has been very discouraging to the cotton bulls.

Savannah News.

The receipts of cotton at the ports yesterday proved a considerable surprise to the cotton men and a big point in favor of the bears. The receipts at Savannah were 9,887 bales, against 7,793 bales the same day last year.

The Liverpool Post

after reviewing the recent advance, says: "There is no mystery at all about the movement. The market has advanced 1/2d per pound, not because of any change in the facts of the case, but because prices had by successful bearing and a mistaken diagnosis of the situation been forced too low."

RAILROAD NOTES.

—The largest railroad shops in the world will be ready for occupancy by the Northern Pacific railroad in the early part of September. The cost of the same, including machinery, is \$3,000,000, and will enable the company to build anything from a hand-car to a locomotive.

Alleged Violation of the Internal Revenue Laws.

Capt. Jno. Morgan, master of a small schooner running between Wilmington and places in Brunswick county, was brought to this city yesterday, in custody of United States Deputy Marshal Hunt, charged with violation of the Internal Revenue laws in selling liquor without having the necessary license from the government.

FATAL FALL.

Horrible Death of Jas. Harrington, in Fayetteville Yesterday. A special dispatch to the STAR from Fayetteville, N. C., Sept. 16th, says: "Jas. Harrington, Esq., of Cameron, N. C., a prominent stock dealer and former resident of Fayetteville, was instantly killed this morning about 4 o'clock, by falling from a window on the fourth floor of the Lafayette hotel to the pavement below. His neck was broken and his brains dashed out on the pavement."

Wanted—The Heirs of Patrick Usher.

The following is a copy of a letter received by a gentleman of this city and given to the STAR for publication: HOUSTON, TEX., Sept. 9, 1891. DEAR SIR:—I am in search of the heirs of Patrick Usher, and have some valuable news for them; and if you know anybody in your city by that name please inform me. He lived in the neighborhood of Wilmington before the war. If you don't know anybody there who is an heir or who could refer me to the heirs, please turn this over to a newspaper, and oblige a little boy 14 years of age. TOOEILL MARSTON, No. 50, Main street, Houston, Tex.

LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted. —The price of tar dropped yesterday to \$1.50 per barrel. —The recent freshet brought very few timber rafts to market. —Rice birds are "fat as butter," but very few are in market yet.

A Pittsburg dispatch

announces that the Republican bosses of Pennsylvania have put up a little job by which Blaine is to be elected President, Quay go into the cabinet and Magee into Quay's seat in the Senate. This is very nice but there is an obstacle in the way of carrying it out about the size of the Democratic party, which will have something to say about it.

As an instance of how the fish of this country

are ruthlessly destroyed it is said that the whitefish of Lake Ontario has become almost a curiosity, yet in 1880 1,064,400 were caught, and in '85 90,711 pounds. Lake trout have disappeared in the same proportion, and so are the salmon, although not so rapidly, in the Oregon streams.

Jerry Simpson made his anti-silk stockings

remarks in Chicago. It may be that Jerry considered the use of the amount of silk necessary to cover a Chicago woman's foot willful waste of too much raw material.

Macfarland, Greensboro; J. C. Neimeyer, J. J. Gardner, T. O. Hearn, J. D. Burton, North Carolina; W. C. Dodson, J. C. Murchison, Greensboro. —Dr. Richard H. Lewis, of Raleigh, will, we are told, make his regular quarterly visit to our city Wednesday, Thursday and Friday of next week. He will be at Dr. Wood's, as heretofore.

OUTLINES.

The robbers who raided an Express car on the Georgia Central railroad near Savannah, were captured near Madison, Fla. —Roswell P. Flower was nominated as the Democratic candidate for Governor of New York at the Convention at Saratoga, and F. Sheehan was nominated for Lieutenant Governor. —Customs authorities at Shanghai, China, have seized a quantity of arms and ammunition intended for a secret society. —A lineman for the Western Union Telegraph Co. was killed at Cleveland, Ohio, by coming in contact with an electric light wire. —Bands of starving peasants in Russia are resorting to brigandage, and pillage and murder are reported at many places. —The Express car on the Missouri, Kansas & Pacific road was robbed of \$3,500 in Indian Territory; the robbers escaped with their booty. —New York markets: Money easy at 2 3/4 @ 5 per cent. closing offered at 3; cotton quiet; middling uplands 8 1/2 cents; middling Orleans 8 15-16 cents; Southern flour quiet and steady; wheat unsettled and lower, with a fair demand; No. 2 red, \$1.01 1/2 @ 1.03 in store and at elevator; corn lower, with free selling and a moderate business; No. 2, 68 @ 69 cents at elevator; rosin quiet and steady; spirits turpentine quiet and steady.

Col. Cockerill's new paper,

the Morning Advertiser, is the brightest of the New York dailies. A Japanese girl has entered a school of dentistry in Chicago, and is determined to get the pull on it.

The resignation of Judge Cooley

from the Inter-State Commerce Commission will make it difficult to fill his place. He was the brains of the Commission. The Central American and South American countries have appropriated an aggregate of \$1,980,000 to defray the expense of their respective exhibits at the World's Fair.

The Chileans would like to get

their hands on the fugitive Balmaceda but they would like still more to get their hands on the cash that he purloined and got away with before he got away. People were generally under the impression that there was only one Benjamin Harrison in this country, but there are two. The other one lives in Indianapolis, too. But there is only one Russell Harrison.

The snath manufacturers of this

country are reported to have formed a trust, and now if the Farmers' Alliance don't go for this trust and snat(c)h it baldheaded it may be asked what the Alliance is here for.

The Cuban Junta in New York

is hustling around trying to raise funds to start another revolutionary racket in Cuba. They think Cuba is old enough and big enough to manage her own affairs without the assistance of Spain.

The Savannah Times has found it

necessary to put in a newspaper press with the latest improvements, and the paper is now printed from stereotyped forms. The Times is one of the most successful evening papers in the South.

The committee on Buildings

and Grounds for the World's Fair reports that the estimated cost of laying out grounds, erecting buildings and equipping them will be \$12,066,890. Contracts for the erection of most of the buildings have been given out. Frank Melbourne, the rain man, says he will supply Colorado all the rain she wants for \$200 a rain, but as his rain machine hasn't got any brakes or stop attachment, or cloud pluggers or anything of that sort they are afraid to strike a bargain with him. Another feud has broken out in Kentucky. Kentucky is so well furnished with feuds that about the time she gets the old ones locked up or buried the young ones break out somewhere else. If it wasn't for these feuds Kentucky might be some day a densely populated State. One Wall street broker wants another to pay him \$10,000 damages for kicking him on the floor of the stock exchange. There are lots of Wall street brokers who would be more than \$10,000 ahead if some one had kicked them off the floor of the stock exchange before they fell into the hands of the fleecers.
