RAILROAD NOTES. The Missouri Pacific company has issued an order abolishing smoking on all passenger trains in Louisiana and Arkansas, except in the smoking rooms of sleeping cars. This action is taken on account of the recent law requiring separate coaches for white and colored persons. The company has been running a divided smoker for the accommodation of the two colors, but this did not meet with the requirements of the law, which says that separate coaches must be provided. The company could not afford to run two smoking cars on each train, hence it was decided to prohibit smoking altogether.

The statement of the relief department of the Baltimore & Ohio road for the month of May has just been issued. It shows \$30,758.32 receipts. On the trans-Ohio divisions \$980.50 was disbursed for accidental injuries, \$181.60 for surgical expense, \$2,081.55 for natural sickness, \$250 for natural death; total \$3,093.97. The aggregate of the disbursements for all the divisions including expenses was \$32,281.53. The statement of benefits paid from May 1, 1890, to May 1, 1891, was as follows: 687 accidental deaths, \$713,667.38; 34,148 accidental injuries, \$455,478.88; 20,727 surgical expenses, \$124,917.39; 56,390 deaths, \$528,904.70; aggregate, \$2,823,767.87.

Dow, Jones & Co., Wall street news agency, says: It has been supposed that the difficulties connected with the Richmond Terminal controlled properties were chiefly in the Central Georgia affairs.

This makes the annual report of the Central of Georgia of unusual importance. We are told at the company's office that the report will not be ready for publication until the first of November, but we have obtained figures closely approximating the result of the operations for the year, and the present floating debt.

The gross earnings for the year ending June 30, 1891, were \$2,700,000, an increase of about \$1,000,000. Express about \$7,200,000, increase of about \$900,000. Net earnings about \$3,000,000, increase of about \$200,000.

The fixed charges are close to \$2,000,000, an increase of about \$155,000. The surplus was near \$900,000, against a surplus of \$821,000 in 1890.

We understand the Central of Georgia has on hand securities of the par value of \$18,000,000, which are not hypothecated, against a floating indebtedness of a little over \$4,000,000.

The Rice Market. The latest quotations of rice in Savannah are as follows: Fair, 4 1/2; Good, 5 1/4; Prime, 5 3/4; Head, 5 3/4 to 6; Rough, country lots, 95 cents to \$1.05; Job lots are 1/2 to 1/4 higher. Market firm. Tide Water, \$1.25 to \$1.40.

The latest Charleston quotation is 5 to 5 1/2 cents. The Wilmington market for new rice has not yet opened.

Mrs. H. G. Latta, of Hickory, sister of Mr. Howell Cobb, formerly of Wilmington, died Tuesday afternoon.

Mrs. John A. Logan, who has not yet lost interest in politics, has been taking Blaine's horoscope, and also the horoscope of the g. o. p. She says it is not likely that Blaine can placate or coalesce the factions of Republicans in the various States.

He couldn't do it in the past and she don't see how he can do it a year hence. She sagely remarks that Democratic success seems inevitable unless Republican malcontents put their shoulders to the wheel and work from patriotic motives.

If this be a condition it is safe to predict Democratic success, for patriotic motives have long been unknown quantities in the Republican party, which for many years has been simply an organization for spoils and plunder.

The esteemed St. Louis Globe-Democrat rises in the far west to remark that "Fasset is the only gubernatorial candidate the Republicans of New York have nominated in fifteen or twenty years that the masses could throw up their hats for." This is enough to make people who have observed the enthusiasm shown over the nomination of Tom Platt's man throw off on the St. Louis scribe. The New York Republicans have nominated several gubernatorial candidates that the (m)asses threw up their hats for.

A few days ago the convicts in the Connecticut penitentiary revolted against beans, and later the convicts in the California penitentiary struck against the quality and quantity of tobacco furnished them. What is this country running penitentiaries for anyway if they can't be run to meet the approbation of their guests?

Treasurer O'Brien, of the Catholic Knights of America, got away successfully with \$71,000, and seems to have got away successfully himself.

Shooting holes into each other, as those two Texas editors did the other day, may be an effective way of putting an end to newspaper wrangles but it is not fraternal.

The Pottsville, Pa., Iron and Steel Company a few days ago discharged David and Benj. Musket and now the employes want to know whether they propose to do any more firing.

A Berlin bank clerk who had stolen 11,000 marks was arrested on the steamer when about to take an excursion to this country. A man with that many marks on him could not reasonably expect to escape.

Dan'l Ruggles, of Fredericksburg, Va., don't propose to let Gen. Dyrenforth have either the profit or the glory of being the original dynamite rain-compeller, for he steps forth and claims that he invented and patented that process eleven years ago.

Some of the German municipalities are cute. They require the street car companies to scavenge the streets through which their lines run, as one of the conditions of the privileges granted. Here is an idea that some of our American cities ought to catch on to.

Sherman is said to have the bulge on Foraker in the Senatorial racket, having captured the delegations in the two first Republican Senatorial conventions held, in Foraker's end of the State, too, and on the issue distinctly drawn between Foraker and Sherman, which is first blood for John.

An Irrigation Congress is in session in Salt Lake City. What in thunder do they want with an irrigation Congress with cloud-compeller Dyrenforth knocking the stuffing out of the clouds down in Texas and the rain artist Melbourne offering to furnish Colorado all the rain she wants at \$200 a rain.

A meeting was held in New York a few days ago to protest against foreign immigration. About 7,000 people were present, of whom 6,000 were imported. The most energetic and eloquent protestors were the Italians, who declared that the excessive immigration was knocking the spots out of the fruit and the hand-organ business.

Some Americans who went abroad this year complain that they were systematically snubbed by the Prince of Wales and his set. The American who was trucking enough to put himself into a position to be systematically or otherwise snubbed by the baccaratist and his set ought to have been snubbed, and if there was any other thoroughbred American around with thicksoled boots on the snubbed whiner ought to have been artistically booted to boot.

Grant Kitchin, negro wife murderer, was hanged yesterday at Savannah, Ga.

R. H. Duncan, who murdered the Williamson family of four persons in San Sabin county, Texas, was hanged yesterday for the crime.
