When the moon gets full she appears at her best. When men get full they don't.

Why are such men as Pfeffer and Fred. Douglass invited to speak at the Raleigh Exposition?

With the scarcity of food in Russia, if war should come, she will not find it difficult to recruit her armies, for most men would rather take the chances of being shot than of starving to death.

That young man who stole and got away with a railway locomotive at Jewett, Ohio, a few nights ago, with some training might enter the lists with some of our noted railroad magnates and get away with a whole

The Shoreham Hotel, in Washington, which belongs to Vice President Morton, is said to be in a dangerous condition from dry-rot in the timber in it. The Vice President's hotel and his party are both in the same plight, troubled with the dry-rot.

A Wilmington, Delaware, genius has invented a cash drawer which lops off the fingers of those who attempt to tap it. If a contrivance of that kind had been applied to the United States Treasury, what a lot of fingerless Republican officials there would be in this country.

If the reports from certain disfood be true there is a wretched outwar. The presumption is, however, that the Czar and his folks have

who has been investigating the in-Boston shipped during the last fiscal year over 800,000 gallons of rum to Africa, and a great many thirsty New thunder they sent that much rum out of the country for.

honest dollar will elect McKinley." From the way they are appealing to manufacturers for money and levying assessments on Government office holders that seems to be what Mc-Kinley and the Republican committee are counting on, too. The honest dollar put to a dishonest use.

A laborer working in a field on Long Island was recently struck by a falling meteor and instantly killed. If he hadn't been instantly killed he might possibly wonder why it was his luck to be the one out of the 2,000,000,000 of mortals who meander on this globe whose fate it was to intercept that meteor.

Some of the Western States are very much dissatisfied with the management of the Chicago Fair. Senator Stewart, of Nevada, is loading up his gun to fire into it, when it comes before Congress with that request for \$5,000,000. He says that the management is rotten to the core, and that Director General Davis is utterly incompetent.

BRICK PAVEMENTS.

The City Officials of Dubuque, Iowa, Inrestigate the Brick Pavement Question. The following, from the Dubuque lowa, Herald will be read with interest:

motto, "The way to pave is to pave." It has made him famous. The giant undertaking was carried on against protests and injunctions until to-day real estate owners are begging for brick pavement in front of their property. This history will be repeated in Dubuque and it is altogether probable that a considerable quantity of brick paving

The municipal party left Dubuque last Saturday afternoon in a special car over the Chicago, Burlington and Northern. They reached Rock Island in the evening, and were met with carriages at the depot by the city council of Davenport, to which city they were driven. They were shown the fifty-six blocks of brick pavement completed and the ten blocks on which new work is in progress. Brick is pronounced a most flattering success in Davenport. Early Monday morning the party left Davenport and Rock Island for Gales-

to bear the party to the brick works, where the three factories were visited. The Galesburg Brick and Terra Cotta works have a daily capacity of 50,000; the Galesburg Pressed Brick and Tile Company has a capacity of 15,000 dry pressed brick and 40,000 paving brick; the Purington Paving Brick Company has a daily capacity of 150,000. The latter works are the largest with fifteen kilns. They use oil entirely for fuel, burning 24 tanks or 500 barrels per day, where otherwise they would burn 150 tons of coal. They employ 125 men. Their machinery is all automatic. The clay is a drab color and is blasted from the bluffs. The brick when burned closely resembles glass and is claimed to be as hard as granite. The brick are worth \$6.50 and \$8.50 per 1,000 on board the cars at Galesburg. The railroad company ships them as five pounds weight

Her streets are wide and four miles are paved with brick already, while work is pressing on several other streets. You can hear nothing but brick spoken of

for paving purposes. In Galesburg, the sand used as a bed for the clay is brought from the Mississippi at a great expense, yet the inhabitants choose to bear it in order to have

This city has nine miles of brick pavement and more is going down. It works as well on heavy grades as on level streets. Some of the streets had to be cut several feet, while another was filled forty feet. Property owners made a protest but the good of the city was at a wonderful rate.

The foundation for the pavement is cinders. On top of this is six inches of sand, then a layer of flat brick. This is covered with four inches of sand on top of which the brick are placed on edge, forming the pavement. As to the durability there is no question. The contractor guarantees it for two years and 5 per cent, is held back for that pe-

Later intelligence is to the effect that Dubuque officials were so well pleased with their investigations that the city authorities have decided to put down

Northern Settlers and the Inter-State

A circular from Mr. W. H. Chamberlain, Assistant Secretary Northern Settlers Association, Raleigh, N. C., says the Northern settlers will assemble in mass meeting October 5, 6, 7, 8, 9 and 10, 1891, at the great Southern Inter-State Exposition, and express to the world their views of the South, the treatment they have received at the

This mass meeting is called by order of the Northern Settlers' Association, and every community in the South that has settlers located in it who immigrated from one of the Northern States. will find it to their interest to send a large delegation.

Mayor's Court.

John Thomas, colored, charged with bathing in the river within the proscribed limits, pleaded former conviction and was discharged.

rapid driving.

COTTON FACTS AND FIGURES.

- Receipts of cotton here vesterday 818 bales; the corresponding day last year the receipts were 2,204 bales.

- Cotton advanced yesterday in the Wilmington market; sales being made on a basis of 934 cents for middling.

- Intelligence from some portions of

the cotton belt shows that the hot dry

reather is now doing more harm than - Futures closed steady in New York yesterday, with sales of 94,400 bales

September 8.26@8.29; October 8.28@ 8.30; January 8.81. - Our cotton editor is determined to take in that thousand dollars offered

by Hubbard, Price & Co. for the nearest guess to the new cotton crop. - A traveling man, who travels extensively through Southern and Middle Georgia, said the other day that the

farmers are going to market their cotton as rapidly as it can be gathered. They are so sore over holding last year that they will not entertain the idea under any consideration of holding this year. This explains why the cotton is coming so rapidly to market.

- Commenting on cotton manufacturing in Georgia, South Carolina and North Carolina, the Boston Journal of Commerce says the consumption, per spindle, of the mills in these States was 33-100 of a bale for North Carolina, 34-100 of a bale for Georgia, and 38-100 of a bale for South Carolina. Apparently, considering the relative number of spindles and amount of cotton consumed in these States, finer counts of yarn were spun in Georgia than in South Carolina, and in North Carolina than in either of the other States.

- Savannah News: "This year's cotton crop will not be over 7,500,000 bales," said a cotton man yesterday. He was talking to a buyer, but he was was well founded. There are a great many who agree with him. The weather new is very favorable for the rapid opening and harvesting of cotton. So favorable in fact that many sections report that the immature bolls are opening under the influence of the hot dry weather. This causes a loss in weight to the planter. An early frost is calculated upon by many to cut off the crop and end the harvesting by Nov. 1.

- The St. Louis Globe Democrat's weekly cotton crop report says that the past week has been generally hot and dry throughout the South. Its effect on the crop depends upon previous conditions, and the reports in consequence are conflicting. In some parts of the country it is doing good; in others harm; so, taking the cotton belt as a whole there is practically no change in the condition of the crop. In Georgia, North and South Carolina and Florida, the hot sunshine has benefitted the crop. A top crop is hoped for in South Alabama, while in the north part of the State the conditions are very discouraging. In Mississippi, Arkansas, Lou-isiana and most of Texas the hot sunshine has caused the bolls to open prematurely, and in some cases to dry up completely. The top crop will amount to practically nothing, and the middle crop is below the average. The yield in Mississippi will be 15 to 60 per cent, under that of last year. The estimate for Arkansas ranger from a yield equal to last year's to a decrease of 40 per

Southern Exposition at Raleigh. The Seaboard Air Line will sell reduced rate tickets to the Raleigh Exposition as follows: Charlotte, \$4.10; Forest City, \$5.45; Henderson, \$1.45; Lincolnton, \$4.50; Maxton, \$2.90; Mooresboro, \$5.35; Rutherfordton, \$5.50; Santord, \$1.45; Shelby, \$5.15; Weldon,

This includes one admission to the Exposition. For rates from other points inquire of agents. Tickets to be sold on Tuesdays, Wednesdays and Thursdays of each week, commencing September 29 and ending November 26; good to return for seven days only from date, and must be stamped at the Exposition to be valid to return.

Mr. Sol. Haas, Traffic Manager of the Richmond & Danville Railroad, has consented to give a reduced rate of one cent a mile over all this Company's lines. And Mr. F. W. Clarke, of the Seaboard Air-Line, announces that his Company will give the one-cent a mile rate over all their roads. These rates will be in effect on Tuesdays, Wednesdays and Thursdays. The Richmond & Danville announce that their rates will be in effect on Mondays, Wednesdays and Thursdays.

A Hopeful View.

The following from the Manufacturers' Record is very encouraging:

"The general business and financia condition of the whole country continues to improve, and the South must necessarily share in this increasing prosperity. The enormous exports of grain for the last two months, to which the usual fall shipments of cotton will now be added, have already turned the tide of foreign trade this way, and gold is now being imported in large quantities, with prospects of heavy imports during the next few months. There are already signs of improvement in the iron and the cotton goods trade, while the railroads of the country are taxed to their utmost capacity to handle their immense traffic. The South has commenced to feel the benefit of this change from the depression of the last seven or eight months which has existed all over

Correct List of the Preferred Creditors,

day prints the following in regard to the recent failure of Alex. McKinnon & Co.: So many and different are the reports about the amount of the preferred credits in the Alex. McKinnon & Co.'s assignment and A. M. McKinnon's individual assignment, that we have determined to give the correct information about them, which we have obtained from the records in Rockingham.

McKinnon & Co. are as follows: First Class-R. D. Dickson, \$915.65; J. M. Smith, \$70.40; Smith & Gilchrist,

Second Class—W. H. Murphy, \$1,043; A. H. Currie, \$200; Mrs. M. A. McCormack, \$200; Isaac Brown, \$25; Mrs. M. A. McCormack, \$200; Isaac Brown, \$25; Mrs. M. A. McIntosh, \$350; Mrs. M. J. McIntyre, \$200.38; S. M. Thomas, \$500; Mrs. Nancy McLaurin, \$187.02; C. H. Coble, \$186.39. Third Class—F. Rheinstein & Co., \$2,902.37; McNair & Pearsall, \$9,408.11. Those in the assignment of A. M McKinnon are as follows:

First Class-Mrs. M. N. McKinnon, \$1,000; Smith & Gilchrist, \$6,098.94. Second Class—M. G. McKay, \$1,700. Third Class—Mrs. M. N. McKinnon, \$4,561.32; S. J. Smith, \$350.

Fourth Class-McNair & Pearsall, .In a supplementary paper to those assignments, the Presbyterian Church is preferred for \$374 by Alex. McKinnon

The total preferred credits therefore of both assignments are \$45,543.33. counting F. Rheinstein & Co.'s account only once in the addition of credits. The liabilities are fully \$70,000 and the solvent assets, by estimates of the assignee, \$30,000.

A. M. McKinnon's residence and all his other lots here, 308 acres of land, 19 mules, 3 engines, all cattle except a eow and calt, all farming implements, all wagons and carts except one cart, all crops gathered and ungathered, all household and kitchen furniture except one bedroom set and dresser, store and accounts at Floral College also and many other minor articles. The various exceptions mentioned are the property of his wife and son.

Cotton Region Bulletin.

The rainfall in the cotton region yesterday was all in the Galveston district, where an average of 30-100ths of an inch was reported for the eighteen stations. The temperature was about the same as on Tuesday, the average maximum ranging from 87 to 94 degrees and the average minimum from 60 to 68 degrees. In the Wilmington district the maximum temperature recorded at Florence was 90 degrees, at Charlotte, Cheraw, Goldsboro, Lumberton, Raleigh and Weldon 88, at Newbern and Wadesboro 84, and at Wil-

The Weather Bureau says that fair and moderately warm weather will continue over the cotton belt; for the next thirty-six hours, except in Texas and Louisiana, where rains are probable.
