Mrs. Georgia A. Brown, of Oakland, Cal., is the champion divorce snatcher. She filed her bill against her husband on Tuesday, and on the following Friday meandered out of court with her liberating documents in her satchel. The next man that ager of the Cape Fear and Yadkin Valshe sets her nets for will know that he has a hustler to deal with.

Mrs Charlotte M. Smith, President of the Woman's National Industrial League, has offered her services to Gov. Campbell, of Ohio, in his campaign against the mogul of the McKinley tariff. The women can't vote in Ohio, but if they could McKinley might as well start on his voyage up Salt River now.

Brayer Shepard, of the New York Mail and Express, has broken out again. He has discovered that "Mills wants the Democrats to carry Ohio, so that the Confederates may retake possession of the capitol.' The long-eared galoot. Does he suppose the Confederates are going around by the way of Ohio to do it?

There are some very foolish people in St. Louis. One of these who had \$28,000, went to the city of Mexico to start a soap factory and didn't discover that the Mexicans had an innate aversion to soap until he had sunk \$15,000. He would have done much better in St. Louis where the people do know something about the properties of soap and do use some occasionally.

Politics in New York is a sort of bald-headed profession. The top of Gov. Hill's head is as innocent of hair as an onion, both candidates for Governor are thinly covered on the dome, while the chairman of the Democratic and Republican committees are as bald as billiard balls. It is safe to say, however the campaign may wag there will not be much hair-pulling in that crowd.

There is a Georgia doctor who don't believe in wasting powder and shot on burglars who happen to get into his house. He has fun with them. On coming into the house the other night he found one concealed in a closet, and instead of treating him rudely, knocking him on the head, perforating his hide or anything of that sort, he yanked him out, toted him down into the yard, tied him to a post, pulled off his jacket, and administered 150 lashes while the fellow bawled for mercy, and then turned him loose. The burglar man said he would see that doctor hanged before he would put his foot inside his door again.

A Tower of Strength.

Wilson Mirror. began its twenty-fourth volume last Wednesday, and is the oldest daily in the State. It is a paper of the finest typographical appearance and superior excellence, and is in consequence very popular with a large circle of readers. It is able and bold and conservative and thoroughly loyal to the Democratic party, and being edited with such conspicuous ability it is indeed a tower of strength, and with a powerful influence. Through all its years it has increased in brilliancy and in splendor, and now it shines with undim-

med lustre and richness.

RIVER AND MARINE.

- Mr. E. D. Thompson, formerly stationed at Beaufort, N. C., has been appointed in place of the late Henry Bacon, to be assistant engineer on the government work on the lower Cape Fear river and bar.

- The Southport Leader says: The efforts to remove the wreck in the Seward channel at the bar by trying to catch it with chains and dragging it out has failed, and it will probably have to be blown up. This wreck which is to be removed is the remains of a Federal blockade cruiser which was on duty off the Cape Fear bar, It was the regular habit of this boat during the war to take up its position at night across the bar, and leave early in the morning. One night through some mischance the boat grounded and for fear of being captured at daylight, the vessel lying under the guns of Fort Caswell, the crew abandoned and blew the vessel up. This took place a few months before the capture of Fort Fisher.

> - A cotton growers' convention will be held at Atlanta, Ga., October 9th. Questions to be considered relate to the reduction of acreage of cotton, the handling, classification and selling of cotton, etc. Exporters, manufacturers and factors are invited to attend.

> -In Wake county, N. C., a correspondent writes regarding the ravenous and rapid work of the army worm in the cotton. It began, he says, a month ago, but the bulk of the damage has been done in the past five days. The leaves have been so eaten that they look like skeletons, only the framework remaining. The result is that the small and recently formed bolls at the top do not grow, The loss to what is known as the "top crop" is said by some farmers in this section, where the worm is reported, to be 25 per cent. Very seldom has there been a year so trying for cotton.

- One of the Savannah, Ga., cotton factors is reported in the News of that city as saying that a financial crisis is threatened if the wharf laborers strike is prolonged any length of time. Large amounts of money have been advanced by the cotton and naval stores men to the producers. Under a normal state of affairs cotton would be coming in now at the rate of 7,000 bales a day, or to the value of \$2,000,000 a week, and the factors would be able to realize on it all that they needed to meet their obliga-The same is true of those in the stores business. Money is at present difficult to secure, and if the strike continues there will be serious embarrassment.

Refunding Bonds, Mayor Ricaud, on his visit North, did not succeed in placing the new bonds to be issued for refunding old bonds nearly due; but had assurances of better prospects in January, when money will be seeking investment. Under the act authorizing the issue, the new bonds cannot be sold at less than par, and the interest is limited to five per cent. None but the very best class of securities can be negotiated on this basis, and that in an easy market.

DOG IN THE MANGER.

MR. EDITOR:-We notice a communication in your issue of the 30th ult., from "Engineer," alluding to the wonderful, yes, the unprecedented profits in the oyster culture in New river, which reminds us of the fact that our last Legislature was virtually forced to pass a bill, (chapter 11, Laws of 1891) allowing the expenditure of \$15,000 in securing gun-boats, and employing the military of the State with power to use shot and shell to drive from our waters the enterprise and capital coming from other States to utilize and develop this wonderful industry. In the face of all this it is surprising that such a field of profit should lie at the very door of the great mart of North Carolina, untouched by our capitalists. How long will this State of lethargy continue?
