THE MORNING STAR.

VOL. XLIX.—NO. 16.

WILMINGTON, N. C., SATURDAY, OCTOBER 10, 1891.

WHOLE NO. 7,727

OUTLINES.

The U. S. cruisers Yorktown and Boston have been ordered to Chili, to relieve the Baltimore and San Francisco. — Briefs have been filed by importers in the U. S. Supreme Court, for cases involving the constitutionality of the McKinley Tariff Act. — An aeronaut was killed and a boy fatally hurt at a balloon ascension in Illinois. — Tobacco-growers of Lancaster county, Pa., are experiencing a big boom. — Three men robbed a bank at Enterprise, Oregon, Wednesday afternoon, and carried off \$2,500. — The Farmers' Alliance of Michigan endorse the Ocala platform and favor the Third Party movement. — Olympic Theatre, St. Paul, Minn., burned; loss \$100,000. — The "Reform" Democrats carried the municipal election at Nashville, Tenn. — A. S. Mann & Co., dry goods, Rochester, N. Y., failed for the sum of \$100,000. — New York markets: Money easy at 4 1/2 per cent, closing offered at 4; cotton quiet; middling uplands 8 1/2 cents; low middling 8 1/2-10 cents; Southern flour firm and quiet; wheat stronger and active; No. 2 red \$1.06 in store and at elevator; corn firm and dull; No. 2, 60 1/2 @ 61c at elevator; rosin steady and quiet; strained, common to good, \$1.35 @ 1.40; spirits turpentine dull and weak at 37 @ 37 1/2c.

It is reported that ex-Czar Reed will resign his seat in Congress to become the attorney of a corporation in New York. The country will resign to that.

It may be remarked that Governor Campbell of Ohio seems to be now in good health and that when he tackles the tariff he goes for it with a sledge-hammer, so to speak.

They say when Gov. Campbell, of Ohio, speaks, and the weather is warm, he pulls off his coat. But he always pulls the mask off the Republican swindlers whether the weather is warm or not.

The Republican papers in New York are scolding Roswell P. Flower, because he bought a coat of arms. Under the Republican tariff he is a lucky man who can buy any kind of a coat.

The Philadelphia Record warns the public against a counterfeit silver dollar in circulation, of light weight, greasy to the touch, of defective jingle, but in appearance calculated to deceive the unwary.

Of all those Republican editors who have charged or hinted that Gov. Campbell can't pay his bills not one of them can say that he dodges the McKinley bill, the one in which they are most interested just now.

It is said that the Hawaiian queen is suffering from heart disease and may die at any day. She leans toward the English, but the American influence is making itself felt, and the sentiment for annexation with this Government is growing.

It is predicted in New York that Mr. Flower will get a majority in New York city, Brooklyn and other towns in the neighborhood of New York and Brooklyn, of 80,000, which will give him a safe majority of 30,000 in the State.

Don Carlos, the pretender to the throne of Spain, is said to be in such straitened circumstances that he had to pawn his jewels. The tariff pretenders in this country are in straitened circumstances, too. They are relying on the tin-shops they are building in the newspapers to keep them out of the pawn shops.

The executors of the estate of Theodore Rogers, of Philadelphia, ought to be able to command a steady job in the executor business. When he died in 1873, his estate was valued at \$192,376, but by the time the distribution was made, last April, it had increased under their management to \$900,000.

The Philadelphia News, Republican, publishes a picture of Col. McClure, of the Philadelphia Times, assailing the Republican party. The Republican party is a poor, helpless-looking female, and Col. McClure, who looks like an able-bodied blacksmith, is standing over her with a savage-looking club. We don't think Col. McClure would club a poor female, but if we were the Republican party and Col. McClure was a savage-looking blacksmith who makes him, and had as big a club as he holds aloft, we'd dodge or run, and yell for the police.

Here is a simple question in arithmetic. If, under the protective policy of the Republican party, the money power of the country has in twenty-five years gobbled up one-fourth of the homes owned by the people in this country how long under the same policy would it take it to gobble up the remaining three-fourths?

About the Brightest, Gaston Gazette.

The Wilmington MORNING STAR, the oldest daily in the State, has just entered upon its twenty-fifth year. Already about the brightest daily in the State, it renews its youth and brilliancy with each succeeding birthday.

Brightest, Cleanest, Newsiest, Morganton Herald.

The old reliable WILMINGTON STAR celebrated its twenty-fourth birthday last week. Always one of the brightest, cleanest and newsiest of the State dailies, the STAR is the oldest daily in North Carolina, and enters its twenty-fifth year with every prospect of continuing to shine on its readers from a cloudless sky for another quarter of a century. Long may it twinkle over the valley of the Cape Fear.

All in Readiness.

Messrs. J. A. Oldham and R. T. Rowan, who have been engaged for the last week in fitting up the Sam Jones Tabernacle told a STAR reporter yesterday that everything was now in readiness for the Evangelist to begin. The benches have been repaired and some of the old ones replaced with new benches. A water barrel with several dippers has been placed in the rear of the building.

In places on the roof where the Tabernacle would leak, they have re-covered it with oil paper, and the ground has been thoroughly covered with sawdust. The windows back of the rostrum have been curtained.

The services are announced to begin there this morning.

Weather Forecasts.

The following are the weather forecasts for to-day: For Virginia and North Carolina generally fair weather, except light rain to-morrow on the North Carolina coast; slightly warmer except stationary temperature on the coast; northeasterly winds.

For South Carolina and Georgia, fair and slightly warmer except light rain and stationary temperature on the coast, northeasterly winds.

FARMER'S ALLIANCE.

A MASS MEETING HELD AT RALEIGH

In Metropolitan Hall—A Large Attendance—Ex-Senator Norwood's Address, Etc.

[Special Star Telegram.]

RALEIGH, N. C., Oct. 9.—Of account of the cool threatening weather, the Alliance meeting to-day was held in Metropolitan Hall. President Bell presided. There was quite a large attendance. Among the crowd were several ladies, including the Female Cornet Band, which occupied seats on the stage.

Ex-Senator Norwood's address consumed about two hours in its delivery. He gave the origin of the Alliance and dwelt on the wrongs that brought it into existence. He favored the sub-treasury plan, if nothing better could be secured, and suggested as a substitute that Congress authorize the Secretary of the Treasury to issue a sufficient amount of Treasury notes to be furnished in sums of \$30, \$40, or even \$50 per capita; sufficient gold and silver to be retained in the Treasury to redeem the notes. When issued the notes to be divided between the States according to population. Notes to be made payable of all debts, dues, etc., except duties on imports. He took no definite stand relative to the Third party. He said that he was not a member of the Alliance but a lawyer; that the Alliance had been first for unification of the South and redress of wrongs. Since the surrender of Appomattox he thanked God a manly stand had been taken. State Lecturer Bell also delivered a speech which was well received.

There was much disappointment at the non-arrival of Senator Peffer.

NAVAL ARTILLERY.

A Few Points About the Drill and Instruction of the Men.

In furtherance of the plans of the U. S. government for the formation of a naval militia, a new drill book for the use of the naval reserves has been issued by the bureau of navigation of the Navy Department, and, as since the issuance of the order granting permission for the formation of a battalion of naval artillery in this State the matter has excited no little interest in Wilmington, the STAR has collected a few points that will be of interest:

In the manual of arms there is a considerable departure from the army regulations necessitated in some measure by the fact that the service rifle in the navy is different from that of the army.

The blue jacket of to-day must be taught a thousand and one things that are of vital importance in the practical use of many weapons, great and small, ranging from the revolver to the fifty-gallon gun. It would manifestly be absurd to spend valuable time in teaching him a complicated red-tape method of shifting a rifle from one shoulder or position to another. For this reason the new navy "manual of arms" has been greatly shortened and simplified. Many positions—"carry," "support," "rest on," "reverse," etc.—have been abolished and the number of motions has been reduced to a minimum.

Nearly all the marching and massing maneuvers of bodies of men are similar to those of Upton's tactics. In this simplicity and freedom of movement have been secured, however, by abolishing all wheels, except by forms, and using the "turn" instead. This will relieve the men of much fatigue on drill.

A short chapter is devoted to formations to be used in case of duty in quelling street riots. The formations for both battalions and separate companies are simple, quickly learned and will be effective in clearing streets and dispersing mobs with as little loss of life as possible.

The chapter on light artillery deals with the service of howitzers, Gatling guns and Hotchkiss machine guns, mounted in boats or in field carriages. All maneuvers needed on show are explained, and provision is made to support the guns against attack by skirmishers by arming half the dragoon of the crew of each piece with a rifle, so that three men may be deployed upon the flanks of the batteries for their protection.

BRUNSWICK ITEMS.

The Southport Leader says: Farmers throughout almost the entire county are complaining of too much rain and say that they are afraid that the potato crops will be badly injured.

The Brunswick Ferry, operating between Wilmington and this county, will reduce all ferry rates to one-half the regular rates, during the Jones revival meetings, which will begin to-morrow, Friday, at Wilmington.

The pilot-boat Harper, on last Monday, when off the Cape Fear bar about twenty-five miles, S. W., picked up a life preserver, marked "Minnie," underneath this name "B. B." The inspection mark showed the date of inspection to be San Francisco, May, 1890, also that the life-preserver was manufactured in the same city.

The Olympic theatre, St. Paul, Minn., burned at 9 o'clock yesterday morning. Loss \$100,000.
