Their Leading Purpose Said to be the Nomination of an Independent Ticket-Arrangements for the Meeting of the Na-

·tional Alliance. By Telegraph to the Morning Star.

INDIANAPOLIS, Oct. 22 .- The State Farmers' Alliance met here yesterday with 200 delegates present. The address was made by President Thomas W. Force, of Shoals, advocating measures of the Ocala platform. Secretary W. W. Praige reported 200 new alliances formed last year and a total membership of 35,000. A committee was appointed to draft a plan for establishment of the Manufacturers and Agriculturists Exchange. President Force gave as the leading purpose of the Alliance of this State, the nomination of an independent ticket.

Fa'al Collision Near Kansas City, Mo .-A Train Destroyed by Fire on the Illinois Central.

By Telegraph to the Morning Star.

KANSAS CITY, Oct. 22,-A head-end collision occurred on the Kansas City, Council Bluff & St. Joseph Railroad, near Murray's station, three miles north of here, at 7:30 o'clock this morning, between a freight and the north-bound passenger train. The freight train and both engines were completely wrecked. Engineer Fager, of the passenger train, remained on his engine and was fatally injured. Express messenger Ravenaugh was seriously injured; the newsboy, T. B. Farmer, was badly hurt. The passengers were badly shaken up, but none

were injured. St. Louis, Oct. 22.-A special from Milan, Tenn., says: Two freight trains running at full speed, ran into each other at Barwell Hill, Tenn., on the Illinois Central yesterday. A car of oil exploded, setting fire to the train. Three cars of merchandise were destroyed, the two engines demolished, the track on both sides of the wreck burned for five hundred feet, and the woods for a mile. The loss is estimated at \$200,000. One of the engineers was badly hurt.

TRAIN ROBBERS CAUGHT.

Four of the Southern Pacific Raiders in Custody.

By Telegraph to the Morning Star.

SAN ANTONIO, TEX., Oct. 22.-A dispatch from the Pacific Express agent at Langtry states that the capture of four of the Southern Pacific robbers was made by Captain Jones and posse. None of the robbers offered any resistance except John Flint, who after a running fight for several miles committed suicide in preference to surrender. The other three are James Langston, Jack Wellington and one unknown man. The robbers had about \$800 when captured.

At Maysville, North Dakota, the boiler of a threshing machine exploded, killing six men. The explosion was caused by forcing cold water into the heated boiler when the water was low.

CORK, Oct. 22.- John E. Redmond, Parnellite candidate for a vacancy in the House of Commons, caused by the death of Charles Stewart Parnell, who arrived here last night, replying to an address of welcome, announced that he spoke as the elected leader of the Parliamentary party.

SAN FRANCISCO, Oct. 22 .- The steamship Oceanic brings late advices from Amoy, China, giving detail sof a terrible epidemic of cholera prevailing there. Hundreds of people have died and many English and American missionaries have succumbed to the disease. Mrs. Mc-Gregor, wife of Dr. McGregor of the Church of England Mission, died of cholera on the 2nd instant, and was buried the same day. She was sick only six hours. Chinese are dying by the

St. Petersburg, Oct. 22.—Reports from the Provinces of Sunbrisk and Samara show that the local government is unable to cope with the prevailing distress, and that relief has not reached the more remote districts. The work of distribution is not properly organized. Numbers of prosperous persons are receiving help, while many who are entirely destitute are dying of hunger. The authorities have forbidden the local press to record the state of affairs. The Zemstvos (or provisional assemblies) are panic-stricken and are utterly unable to remedy the disorder. The supposed reserves of grain are missing. It has been discovered that when the Czar ordered the distribution of reserve grain in the government granaries the officials did not dare to acknowledge that the stores were empty and tried to will address the council and on Tuesday, make up the deficiency from the military granaries, in order to conceal the speculation. It is leared that this will greatly hamper the military commissariat in the event of Russia engaging in war. Funds for the relief of the starving people have also been deplorably mismanaged. In some districts which are under powerful patronage, there is more than an abundance of rehef while in other districts no heed is paid to starving peasants. Many government employes complain that their superiors deduct a certain amount from their wages for the relief fund, thereby

> leaving them poverty-stricken. LONDON, Oct. 22.- The gale is again aging fiercely over England, Ireland Wales and the South of Scotland, and more stories are coming to hand of vessels ashore and in distress in various ways and in many localities.

The Thames has risen so high that it floods meadows, the race course and play grounds at Eton and great stretches of country around Marlow and Maidenhead. Instances are abundant of dwelings surrounded by water and cut off from all communication except by boats. Mail boats crossing the English and Irish channels report rough times and considerable danger. Fourteen people were rescued from a barque ashore at Sand Gate by life-savers. The vessels in the Downs are dragging anchors, and one barque is flying distress signals, but life-boats have been unable to

ROME, October 22.-The Associated Press correspondent has had another interview with an influential Cardinal, who stands near the Pope, the subject being the re ent demonstrations against pilgrims because of the Panthoan incident. His Eminence says, investigation by the Vatican authorities shows that the Pantheon affair was prearranged by the Italian government, aided by Menotti Garibaldi, and that other governments of Europe were privy to the intentions of the conspira-

In reply to a question as to what the Pope would do eventually, the Cardinal said he did not know; that he had sent a diplomatic note to the Nuncios abroad, describing the Pantheon scandal, and he added, "I can say, however, even to-day, that the incident will have the most serious consequences for Italy, for the Vatican, for the situation in general. The relations between Italy and the Pope, between the faithful and Rome, and perhaps between the State and the Vatican, will certainly be seri-

ously modified." "Will the Pope leave Rome?" was the correspondent's next question. "Nothing is yet decided," answered the Cardinal, "but everything is ready for such a step since October 2d. The ecclesiastical world has been partly prepared for such grave measures; but more recent events have to an appreciable extent changed the state of mind.

"How about the conclave?" finally asked the correspondent. "The same sudden change occurs there. Our clerical world was dreading an exodus and innovation, and we were divided as to the decision to take. Recent events have caused a long step to be taken in the idea of holding the conclave abroad. We all feel that the situation is drifting tatally towards extremes. We thought that in case of war alone should we be compelled to seek safety for the Pope abroad; but events have enlightened us as to the last designs of the Italian revolution. We shall be obliged to give way for the moment to force and to

leave for abroad." MADRID, Oct. 22.-Vast tracts of land to the south of the Sierra Nevada have been submerged by floods caused by recent rain storms. The Cadiar river with its tributaries has overflowed the plains of Albunot and Beerschuluz. Crops in these districts have been devoured, and terrible distress exists among the inhabitants of the flooded districts. The country about Mau-Tesa, province of Barcelona, has been swept by the hurricane which has done

much damage. A Childress, Texas, telegram says: The new \$42,000 court house of this county was burned to the ground yesterday. CHICAGO MARKET REVIEW.

Fluctuations in Prices of Grain and Provisions.

By Telegraph to the Morning Star.

CHICAGO, Oct. 22.-Wheat was excited and nervous throughout the session. The opening was easy and close to the closing figures of yesterday, but shorts were scared and nervous, and proceeded to cover. The groundwork of their fear was a sensational dispatch published after the board closed yesterday afternoon to the effect that Russia had captured approaches to Constantinople, aud that the city was at their mercy. The result was an excited bull flurry on the curb yesterday afternoon, at which calls sold up three cents. The truth of the report was positively denied this morning, but the shorts were too badly panic-stricken to recover at once and their purchases caused moderate advance in the early dealings. Later, when the crowd got over its scare the selling became about as urgent as the buying had previously been, and in all the improvement was soon lost, together with as much more on the other side. December opened at 18c lower at 95%c. Sold steadily up to 96%c, broke to 95 1/2c, ralhed to 95%c, but on renewed heavy selling went off to 941/4c, fluctuated narrowly, and closed weak at 941/c. against 951/c at the close yesterday. Corn was fairly active and generally

firm, selling off early partly in sympathy with the strong feeling in wheat, but later it broke off some when wheat began to weaken. The business was not as animated as yesterday as the most nervous shorts had apparently covered. Cables quoted Liverpool one penny higher. November opened 1/2c off at 49%c, advanced to 50%c, declined to 49%c, strengthened to 50%c, broke to 49%c and closed steady at 49%c.

Oats were again firm, early, but softened a little later in the day. Heavy export buyers are still reported. Some dispatches, however, deny the Russian prohibition on which the market got strength yesterday. The close showed an average of 1/8@1/4c compared with

Hog products were generally firm, largely in sympathy with the early strength in grain, but much of the advance was lost during the last hour. Pork shows an advance at the close compared with yesterday of 71/2010c; lard 101/2@5c lower, except January which is unchanged, and ribs are 21/200 10c lower, except January which with lard is unchanged.

NORFOLK AND WESTERN.

President Kimball Greatly Enthused at the Present Outlook of the Company's

By Telegraph to the Morning Star BALTIMORE, Oct. 22 .- The Manufacturer's Record of this week publishes an interview with President Kimball of the Norfolk and Western R. R., who has just returned from Europe, where he was in the interest of the road. President Kimball says: "Work on all extensions of the road will be pushed forward with greater vigor than ever. By December, sixty miles of track of the Ohio extension will be completed to the bridge now being built across the Ohio river and regular trains will be running to Columbus. I expect to have the Ohio extension completed by July next, which will open up the whole West to the celebrated Pocahontas coke and coal. The business of the road is growing so rapidly and so many new industries are springing up along the line that the managers find it almost impossible to keep pace with the phenomenal increase in business. Cars are in great demand, and it is difficult to provide them fast enough for traffic. During the present season the Norfolk and Western has handled from the Clinch Valley extension to tide water, one million bushels of wheat for export, an entirely new business, as the road did not handle a bushel of wheat for export last year. The export trade of the road generally is growing very fast and causing rapid increase in the foreign commerce of Norfolk. I am well satisfied, not only with the present outlook of the company's affairs, but with its future pros-

MAIL ROBBERY.

Two Pouches with Registered Packages By Telegraph to the Morning Star.

ST. LOUIS, Oct. 22.- A special from Little Rock, Ark., says two mail pouches containing a number of registered packages and several hundred letters were stolen from the mail car of the Little Rock and Memphis Railroad early this morning. The robbery was not discovered until several hours later. Detectives detected George Woods, a wellknown crook, in the suburbs, leisurely opening letters, taking their valuablecontents and burning the letters. He was placed under arrest. It is believed he had an accomplice.

\$200,000 Damages Claimed for Removal of Shops from a Town in Kentucky. By Telegraph to the Morning Star.

LOUISVILLE, Ky., October 22 .- The trustees of Elizabeth town have sued the Chesapeake, Ohio & Southern Railroad Company and the Newport News & Mississippi Valley Railroad Company for \$200,000 damages, caused by removal of the company's shops from that town. In 1868 the town gave \$73,000 toward construction of the road, upon condition that the shops should be permanently located there. The shops were removed to Paducah about five

ROBBERIES AT RALEIGH.

Two Daring Burglaries in the Vicinity of the Exposition Grounds-A Lady's Gold Watch, Money and Other Valuables Carried Off.

[Special to the Star.]

RALEIGH, October 22 .- This morning, between the hours of 1 and 2 o'clock, two of the most daring burglaries ever perpetrated in this vicinity occurred near the Exposition grounds. The residences of Mr. A. J. Ellis and Mr. J. N. Hubbard. janitor of the Agricultural and Mechanical College were entered. The firstnamed gentleman is a large dealer in merchandise and his residence adjoins his store. The latter lives on the Hillsboro road, not far beyond St. Mary's School. A valuable lady's gold watch was taken from Mr. Ellis. Mr. Hubbard was robbed of about \$108 and some valuables. No clue has so far been discovered as to the thieves, but it is thought they are a gang of strangers who have visited the Exposition for the plunder. The sheriff and chief of police are using all efforts possible to find out the perpe-

COTTON FUTURES.

By Telegraph to the Morning Star. NEW YORK, October 22.- The Sun's cotton circular says:

Futures opened at a sharp decline,

quickly rallied, afterward improved, and closed firm at 4 to 6 points advance from yesterday's closing prices. There were wide fluctuations in our market today. The "calculation" which the bears made yesterday that Liverpool would open lower this morning was fully realized in a decline of 4-64d. But unless the bears aforesaid made quick use of this circumstance they got left, for Liverpool recovered half the early decline. And our market did rather more in the morning hour. Then there was a considerable period of inactivity and indecision. There was scarcely any advance till within half an hour of the closing. Then the bulls came to the front with a boom, which run up prices 8 to 10 points as easy as rolling off a log. There was apparently a complete recovery of confidence on their part. Buying orders from outsiders were an element of strength. A smaller interior movement is expected next week. The pears could only point to the increasing stocks and say they can
