Slight shocks of earthquake were felt about 1 a. m. last Monday at Charleston, Summerville and Columbia, S. C. Bitter feeling exists between factions in Cork, Ireland; several affairs have occurred at political meetings. A cyclone destroyed thirty houses in the town of Conneaut, Ohio, causing a loss of \$100,000. Harris Martin knocked out Paddy Ryan in four rounds for a \$1,000 purse, at San Francisco, Cal. The Russian Government declined a proposition for relief of famine sufferers by Moscow merchants. It is reported that hundreds of people in the flooded districts of Mexico are on the verge of starvation, and that the government intends to remove the duty on corn. The U. S. District Attorney at St. Louis will institute active proceedings against the "Drug Trust" under the anti-trust law. Mrs. Jefferson Davis will be in Richmond, Virginia, Saturday to select a site for the monument to her husband. Street car stables and other property at Evansville, Ind., burned; loss \$75,000. Steamers arriving at Liverpool report fearful weather. New York markets: Money easy at 3 3/4 per cent., closing offered at 4 cotton quiet; middling uplands 8 3/8 cts; middling Orleans 8 13-16 cts; Southern flour dull and moderately active; wheat unsteady, lower and moderately active for export and milling. No. 2 red \$1 02 1/2 @ 1 03 1/2 in store and at elevator; corn higher, firmer and quiet; No. 2, 71 @ 72c at elevator; rosin dull but steady; strained, common to good, \$1 32 1/2 @ 1 37 1/2; spirits turpentine quiet and steady at 36 1/2 @ 37 cts.

The recent California earthquakes caused a considerable shaking up in the earth stratas of that section. It is said that as some of the results the flow of natural gas wells has been increased, hot water springs have become cold and cold water springs have become hot, and from the cracked earth water of different temperature gushes.

The buildings on the grounds of the World's Exposition at Chicago will cover 150 acres, and will cost \$7,205,000. The cost of preparing grounds, equipping buildings with machinery, electricity, water, operating expenses, &c., estimated at \$10,530,053, making the total estimated cost \$17,825,053.

Will be a Brilliant Success. The ladies, who have in charge the festival to be given for the benefit of the Second Regiment Band of this city, are fast getting things in ship shape. At their meeting at Atlantic Hall, corner of Fourth and Princess streets, various committees were appointed, and among them an executive committee. Now the STAR is requested to call the attention of the executive committee to the meeting to be held this afternoon in the same hall at 4 o'clock. The ladies have taken hold with a courage as admirable as their fairness is lovable; now let the men aid them.

WILMINGTON'S BIG WEEK.

An Enthusiastic Meeting of Representative Citizens Make Assurance Doubly Sure of a Titanic Success.

The Produce Exchange was comfortably filled last night with the solid business men of the city, to discuss and decide upon some plan or plans of action by which the greatest success might be compassed in attracting and entertaining visitors during the week of contemplated festivities.

Mr. George R. French was called to preside and Mr. W. H. Carr was made secretary. Mr. French said that by request he occupied the place of Major Love, who was absent; that the purpose of the meeting was to appoint the various committees and express opinions.

Mr. J. A. Taylor suggested that Mr. J. G. Lewis read the names of the various committees, which he did as follows: Decoration Committee—S. H. Fishplate, chairman. A. D. Brown, H. A. Burr, E. S. Tennant, W. E. Worth, K. Huske, J. G. Barrentine, J. B. Hanks, R. R. Bellamy, J. L. Boatwright, R. N. Sweet, W. H. Sprunt, T. C. Craft, U. M. Robinson, Sam Bear, Jr., F. L. Meares, C. I. Comfort, B. F. Penny, R. M. McIntire, I. Shirer, J. Naumburg, M. W. Jacobi, A. David, F. Rheinstein, L. Hansen, N. Huske, Leo Taylor, Sol Bear, S. A. Schloss, R. I. Katz, George Haar, M. J. Dingelhoff, George Honnet, G. W. Huggins, J. C. Munds, J. A. Tucker & Co., J. D. Nutt, Worth & Smith, Martin & Co., Navassa Guano Co., Atkinson & Manning, Calder Bros., Hodges & Taylor, J. H. Taylor, M. M. Katz & Son, M. J. Dinglehoff, S. P. McNair, Bridgers & Rankin, A. Sprunt & Son, Williams and Rankin, Polvogt & Rehder, E. Van Laer.

There are any other who desire to have floats in the parade they can hand in their names to the committee. Didn't Know Anything About It. James Strickland, a white man of Columbus county, was arrested and brought before United States Commissioner, R. H. Bunting yesterday, on a warrant charging him with operating a distillery without license. Upon the hearing he was discharged. John Grainger, a government witness, who was alleged to have informed a United States officer that Strickland was running such a distillery and the officer, acting on the information, had destroyed the distillery, when put upon the stand swore he knew nothing about it, and hence the discharge of the defendant. But this didn't extract the sting of the arrest, nor repay for the time and trouble of appearing before the Commissioner.

Important Customs Decision. A Washington dispatch says: "In the matter of the Navassa Guano Company, of Wilmington, N. C., protesting against the assessment of two cents a pound on Burlaps bags covering 1,000 bags of muriate of potash, which is admitted free of duty, the board of appraisers held that the bags were ordinary coverings used for the transportation of free merchandise, and that there was no provision for subjecting such bags to duty. The protest was sustained.

The Embellishment Case. T. J. Norton, the young white man in the county jail on a charge of embellishment preferred by a representative of Conway & Co., of Charleston, West Virginia, was again brought before Justice R. H. Bunting yesterday. At the request of defendant's attorney the case was continued until to-day at 10 a. m. It is thought some compromise will probably be effected.

Benj. J. Jacobs Dead. Capt. B. J. Jacobs, one of Wilmington's oldest and most respected citizens, died last night at 9:25, in the 74th year of his age. He was married with Julia A. Bowden, Nov. 24th, 1840, and celebrated his golden wedding Nov. 24th, 1890. During the war he was Captain in the Senior Reserves and lived as he died, a thoroughly honest man.

The weather was fair in the cotton belt yesterday, and the temperature was about normal; the average minimum ranged from 51 to 58 degrees, and the average maximum from 68 to 80 degrees. In the Wilmington district the lowest temperature reported was 48 degrees at Lumberton, Raleigh and Weldon.

LADIES WORK FOR THE Y. M. C. A.

A Grand Entertainment to be Given in December Next.

The ladies of our city to whose kindly aid and co-operation the Young Men's Christian Association owes so much have undertaken the work of furnishing the new building. Many of them have been at work for months past for this purpose, but they have decided to concentrate their energies into one grand effort in the form of a "Bazaar" to be held in the new building during the first week of December. The entire building, which will be completed by that time, will be given up to the purposes of the ladies.

Musical entertainments in the hall, an art-loan exhibition, and a beautifully decorated building with tables of fancy goods, a lunch counter, etc., will be among the attractions. The plans will be announced more fully as the date approaches.

More Paraders. In addition to those published yesterday, the following merchants have signified their intention to furnish their own floats and join in the glorious procession Thursday night of Gala Week, to wit: B. F. Penny, John S. McEachern, New Hanover Transit Co., Miller & Haar, Chesnut & Barrentine, J. Weil, C. I. Comfort, Cape Fear Manufacturing Co., J. Naumburg, S. W. Nobles, J. C. Munds, H. C. Evans, H. COTTON FACTS AND FIGURES.

Net receipts yesterday at all United States ports, 76,189 bales.

Receipts of cotton here yesterday 1,027 bales; receipts same date last year, 2,780 bales. Middling cotton steady in this market yesterday at 7 3/8c per pound; same date last year 9 3/4c. Futures closed steady in New York with sales of 133,400 bales; October 8.10@8.12; November 8.17@8.18; January 8.47@8.48. Spot cotton was quiet at 8 3/8c cents for middling uplands.

N. Y. Commercial Bulletin: As yet the immense volume of the cotton movement continues unchecked. This week's figures show the largest ever attained, making a total of crop brought into sight since 18th instant a trifle over 502,000 bales, and since September 1st, 2,208,889 bales, against 2,008,682 bales the corresponding period last year. This simply immense movement, comparing as it does with the start of the largest crop as yet ever grown, naturally creates distrust of the low estimates of this year's yield. It is, however, claimed by a great many well-posted operators that following a remarkably early and general maturity of the crop this season came absolute perfection of picking weather, and that at date the harvest is practically completed over a wide area of the cotton belt, which, in conjunction with financial necessities compelling quick marketing of first gathering, has raised a temporary barrier of sales concealing the actual deficit in crop. Already Southern advances commence to strengthen materially in tone, and this is accepted as an evidence that those closely in touch with the supply commence to discover indications of a falling off in the movement.

The Deadly Cigarette. Dr. F. W. Potter relates a sad case showing the deleterious effects of smoking cigarettes upon youthful systems. Thos. Murrain, a boy sixteen years of age, living with his father, Ed. Murrain, an iron-worker, residing on Hanover, between Third and Fourth streets, is the victim of cigarette smoking to the extent of having epileptic fits. The boy goes about the streets, picking up old stumps, which he smokes incessantly, and his mind is impaired to such an extent that he frequently absents himself from home for a week at a time, returning after dark and crawling under the house to sleep. He has been tied at home, but breaks loose in frenzy and seeks the stimulating cigarette. What to do with the boy is a serious question.

NEW RIVER.

The Fish and Oysters Industry. It is noticeable that our market is poorly supplied with New River fish and oysters this season. The cause is simply this: While the business men of Wilmington are complaining of hard times and the scarcity of "fish and oysters," and ridiculing the idea of giving their attention to a business so insignificant, enterprising business men north of us from Richmond to New York, are on the grounds and actually controlling the products of this wonderful, wonderful field, and realizing thousands of dollars from it. It has never occurred to our business men who run after a bale of cotton, that the fish and oysters of New River amount to more than three times the cotton crop of Onslow county, and in a few years will double her entire farm products. Will all this be allowed to pass us without leaving to city or citizen so much as a drop in the bucket? CITIZEN.

Weather Forecasts. The following are the forecasts for to-day: For North Carolina and South Carolina, fair till Thursday, colder northerly winds.

Odd Fellows' Day at the Exposition.

Monday, the 11th of November, has been decided on as Odd Fellows' Day at the Raleigh Exposition. Ex-Gov. Jarvis will deliver an address on the occasion and a procession will be formed of all the Odd Fellows in Raleigh on that day.

It is desired that each Lodge in the State appoint a committee to act with the Central Committee. Arrangements have been perfected to obtain railroad rates of one cent a mile and board at \$1.50 per day. The sale of the tickets will be for the benefit of the Odd Fellows' Orphanage at Goldsboro, and it is hoped as many of the craft will attend as possible. There will be balloon ascensions and parachute drops and other special features. Grand Representatives W. A. Bobbitt will be chief marshal.
