

OUTLINES.

Gen. Palmer, Commander in Chief of the G. A. R., has issued an order against any member participating in any demonstration where the "rebel" flag is displayed. —The Corry, Pa., National Bank has suspended. —Marquette Carpet Mills, Yonkers, N. Y., have shut down, and 3,000 hands are thrown out of employment. —The Pope of Rome is seriously sick and his condition causes grave apprehension. —Floods in Spain have caused a great amount of damage; the city of Valencia is inundated, and rail communication with Madrid is cut off. —A sensation was caused in Berlin by the collapse of a banking firm and the suicide of its president and his son, who were hopelessly involved. —Martin Flavin, the McCarthy candidate, was elected over Redmond, Parnellite, in Cork yesterday. —The cotton crop in sight is 3,333,354 bales. —New York markets: Money easy at 4 1/2 per cent; closing offered at 4 per cent; cotton dull; middling uplands 8 1/2 cents; middling Orleans 8 1/2 cents; Southern flour firm and quiet; wheat unsettled and moderately active, closing steady; No. 2 red \$1.06 1/2 in store and at elevator; corn firm and quiet; No. 2, 7 1/2 cents at elevator; rosin dull but steady; strained, common to good \$1.32 1/2 @ 1.37 1/2; spirits turpentine quiet and steady at 35 1/2 @ 36 cents.

Hot Springs, Arkansas, has a new paper called the *Tomas Cat*. It will doubtless be heard from, but in political matters it will be apt to be on the fence.

The man who sues a newspaper for \$100,000 damages for libel shows a very high opinion of the influence and power of the press, and a very high opinion of its financial solidity.

Mayor Grant is said to be one of the best dressed men in New York. He isn't half as well dressed as candidate Fassett was on the day of election by candidate Flower.

Oklahoma is coming to the front as a tobacco growing section, which is attributable, in part at least, no doubt, to the fact that so many negroes from the tobacco growing States of the South have settled there.

From the little we know about Mr. Jorge Montt, who has been elected to the presidency of the Republic of Chile, he seems to be a pretty well ballasted and level headed citizen. The only serious objection we find with him is the way he builds the first part of his name.

When Brayer Shepard, of New York, read the election returns he exclaimed that he wished he lived in Ohio. As there is railroad connection between New York and Ohio, we don't see anything in the world to prevent him from gratifying his wish. Surely New York will not object.

Chili is a shoe string country, long and narrow, but immense, containing 300,000 square miles, with a population of about 3,000,000. A very small proportion of the land is fit for agricultural purposes. This don't matter, however, as the festive population devote most of their time to raising hares, which can be done on one kind of soil about as well as another.

Baltimore claims to possess a citizen who is over one hundred years old, who never drank a glass of whiskey, used tobacco nor saw George Washington. And this in a town where they put up a whiskey that is said to be a specific for all the ills that flesh is heir to and numerous others. But perhaps his youth was spent in the rural districts, which were not frequented by spirits and George Washington.

The head of a business firm believes the bicycle is an institution that ought to be encouraged, and says that the man who glides to and from his place of business escapes the temptations encountered by men who travel in busses, and are in a better frame of mind for business. He might have added that the bicycle also has its moral aspects, for the man who rides a bicycle is in no danger of being stung upon by a three hundred pound hustler, nor of having his toes tramped out of shape by the promiscuous multitude, nor of having so many profane remarks recorded against him.

Beats Florida.

Dr. E. Porter, of Rocky Point, and Messrs. B. N. Duke and W. T. O'Brien, of Durham, returned yesterday from an extended examination of New River, the lands adjoining and the oyster industry.

A STAR reporter had an interview with Dr. Porter and Mr. O'Brien, the former of whom is well known here as President of the Piscatorial Association for oyster culture, and the latter is a modest, affable gentleman connected with the cigarette establishment of the American Tobacco Company in Durham.

Mr. O'Brien and Mr. Duke said the scenery along New River far surpassed that on any river in Florida and both were struck with the "lay" of the land along the river for truck farming. The banks are from eight to ten feet high, the surface is level and the soil fertile. They regarded most favorably the future of oyster culture in Onslow county, provided proper attention and intelligent care was given to the business.

Mr. O'Brien thought if he'd had his "trusty and true" gun from home he would have wrought terrible destruction in a flock of wild geese he shot at about 100 yards distant, instead of the long-stocked short barreled affair he blazed away with. He will bring it next time.

Messrs. Duke & O'Brien have purchased a fine preserve about eight miles from Newbern and they promise to visit this section again, probably during the Welcome Week.

The Complimentary Concert to Professor Miller.

Much interest has been shown in the complimentary concert to Prof. J. G. Miller, Sr., which is to take place next Tuesday night in Luther Memorial Building. Those having the concert in charge are very much gratified to hear so many words of commendation about the proposed concert, how much the skilled and obliging Professor deserves it, etc.

Prof. Miller's orchestra will take part. There will be fine piano music, also vocal music of first-class character; in short, it will be one of the best concerts ever given by home talent in our city.

Miss Minnie Schwarz will sing. Tickets are for sale at different places.

—Cotton futures closed firm in New York; November 8.01 @ 8.02; December 8.08 @ 8.09; January 8.22 @ 8.23; March 8.47 @ 8.48.

OPERA HOUSE.

The List of Entertainments to be Given This Week.

FEMALE MINSTRELS MONDAY.
Of Duncan Clark's Female Minstrels who play here Monday night the *Tarboro Southerner* says:

The bald-heads were out in full force Monday night, not a woman present in either gallery or pit; yet there was naught to offend woman. I suspect some of the b. h's were disappointed, but the major portion of the audience was delighted.

The performance was of the variety order, but clean, dances, songs, etc. The singing was fair. One of the features of the evening was the living modes and statuary. Without a doubt this was good.

"SHE STOOPS TO CONQUER," WEDNESDAY.

Mr. Wilfred Clarke, who is chief comedian in the English Comedy Company, which appears at the Opera House Wednesday night, is the youngest son of the eminent comedian, Mr. John S. Clarke. His mother was Asia Booth-Clarke, and maternally he is therefore a nephew to Edwin Booth, and a grandson to the illustrious Brutus Booth. He is an ideal *Tony Lumpkin*, and as the company will give "She Stoops to Conquer," this young actor's appearance will be awaited with interest.

Students of history are familiar with the opposition Goldsmith met with in his effort to elevate the tone of the drama, and with what difficulty "She Stoops to Conquer" was gotten before the public. When, however, it was once presented it made one of the phenomenal successes of the stage, and saved the manager of Covent Garden Theatre, London, from ruin. It has lived through the century to become a dramatic classic, and to be ranked with "As You Like It," and "The School for Scandal," as the three best comedies in the English language. The press everywhere speak of its revival by John T. Ford's company, from the Grand Opera House, Baltimore, as being the most finished comedy performance, next to that of Jefferson and Florence and The Kendalls, now on the stage.

FIELD'S MINSTRELS THURSDAY.

Al. G. Field's Minstrels will be here again Thursday, Nov. 12th. Of their performance, at Wheeling, W. Va., the *Register* of that city says:

The Opera House was packed last night, and Al. G. Field's splendid minstrel aggregation was accorded a flattering reception. There was not a weak point on the program, each number being strictly first-class. Al. Field and Jimmy Wall won fresh laurels in their unique and original negro impersonations. The "Phantom Patrol" and drill was cleverly done and well received. Kibbles, the drill artist, and Joe Lewes, the apodal wonder in their respective specialties, caught on in great shape. The performance was interspersed with clever bits, which had the merit of freshness, and all the singing and dancing was good. Seldom has a larger audience greeted a minstrel performance in this city, and seldom has an audience left better satisfied.

Farewell Meeting to Capt. W. H. Bixby.

We take pleasure in calling the attention of our readers to the meeting to be held at the Wilmington Library Association on Monday night, because it is just and proper that as a community we should recognize the zeal, and unselfish work which Capt. Bixby has done for the Library, to say nothing of his liberal expenditure of his own private means in its support.

From a condition of almost collapse, by dint of his intelligent and earnest efforts, we have had the pleasure of seeing the library gradually improve until it is now the best in the South. The rooms are well kept, and well lighted, the volumes are properly indexed, and there are newspapers of Wilmington covering a period from 1828 all indexed for ready reference, and on its tables are displayed for the use of readers 180 magazines and periodicals, suited to the tastes of all classes of readers. There were 1,200 visitors at the rooms last month.

We understand that every member of the Association will be notified of this meeting, by card, and we trust that all who recognize the educational advantages of this institution, whether members or not, will lend the influence of their presence in paying a reluctant farewell to one who has done so much to establish it upon its present basis of prosperity.

The Wife of Col. S. B. Taylor Dead.
The report in this city that the wife of Col. S. B. Taylor, one of the best and most prominent citizens of Onslow county, was thrown out of a buggy and seriously hurt, on Thursday, was verified by Dr. E. Porter last night, who imparted the sad intelligence to a STAR reporter that Mrs. Taylor died yesterday from her injuries.

Seventy-Five Dollars For The Home.

A check for \$75 has been forwarded by Major T. D. Love, President of the New Hanover Veteran's Association, to W. C. Stronach, treasurer of the North Carolina Soldiers' Home, in Raleigh. This amount is the result of the first annual concert given by Prof. Miller's Orchestra for the benefit of the Home.

Weather Forecasts.

The following are the forecasts for to-day:
For Virginia, warmer, fair weather, winds becoming southerly.
For North Carolina, South Carolina, Georgia and Eastern Florida, slightly warmer, southerly winds, fair weather.

One Cent a Mile Railroad Rates and Many Varied Attractions will Draw Crowds.

The column advertisement in the STAR tells the graphic story of the many and varied attractions that will be presented for public delectation during the period from December 1st to 8th.

The display will comprise fireworks; splendid trades' parades of merchants and industrial enterprises in a procession of floats, with gaily caparisoned steeds, about two miles long; carnival horseback exhibition; magnificent marine manoeuvres; military and firemen's parade and contests; bicycle races, base ball games, yacht races, shooting matches by rifle teams and other attractions that will be announced hereafter.

The railroad fare during the festive occasion will be one cent a mile on all roads leading into the city. On the Richmond and Danville system the rate will be one cent a mile on Wednesday and Thursday.

Several Wilmington drummers, among them Messrs. Fred Rhiensien, J. D. Bell, Sigmund Bear and M. Sternberger, came in from their travels over divisions of South Carolina and this State Friday night, and represent that the people in the section traversed are anxious for the big week to come and announce their intention to be here at all hazards.

Let everybody come. Wilmington thoroughly decorated and illuminated will blazon its welcome to all.

Something About Deer.

Mr. Oscar Batton, the deer-slayer of Scott's Hill, brought to Front street market yesterday another invoice of deer, consisting of a fine three-pronged buck and a fat doe. Mr. Batton says he had a long shot Friday at the biggest buck he ever saw, which was followed by a flash and a vanish of the game. He promises the reporter an early gaze upon that antlered monarch of the forest.

The reporter was presented with a tooth-pick, consisting of a detached bone about two inches long, taken from the hinder portion of a deer's foot, just above the hoof. There are two of these bones in each fore ankle and none in the hind one. Mr. T. H. Johnson says no man ever could tell how they served the deer, and feels assured Providence intended them for Indian needles; that these people employed them to sew skins together for clothing and "tepees." The bone is slightly curved, flat and pointed, with a knob very suitable for adjusting the thread or suture to.

On the lot opposite, Mr. L. Hansen is excavating for a foundation whereon he purposes erecting two nice brick stores and a handsome building. This will greatly improve a very desirable portion of the city, and one of the finest streets.
