The wife of James G. Blaine, Jr., has filed a motion in the court at Deadwood, S. D., for alimony and attorney's fees. James Jr. objects to paying alimony or any other money as he says he finds it pretty hard scratching to get money enough to take care of himself.

John I. Stapler, of Trenton, N. J., amassed a fortune of 150,000 making crackers. He had lived plainly, but concluded he would put on more style and built a handsome residence. The style was too much for him. He got an idea into his head that it would bring him to poverty. This thought was too much for him, and he went out and shot himself in the head.

According to the latest reports from Japan the mortality and destruction to property by the recent earthquake were fearful. It is estimated that 7,560 persons were killed, 10,120 injured, 440,000 rendered homeless and destitute, 89,630 buildings being totally destroyed and 28,625 partially demolished. And yet the people who escaped will build their houses again right on the

There has been very little emigration from Japan, but since the Makado has permitted his subjects to emigrate, about 100,000 have sought homes in other countries. There are about 20,000 in the Sandwich Islands, and a good many in Australia. There are about 2,000 in California, where they are increasing pretty rapidly. But they are superior to the Chinese, inoffensive and industrious, and there is little objection to them.

Justice, if that's what they call it, takes a pretty wide range in the State of New Jersey, when a twoyear old child can be arrested for larceny, an instance of which occurred last week. A woman who had a spite against her neighbor had the child arrested. The little thing peeped over the rail and said "good morning" to the Judge. He heard the complaint, lectured the woman, fined the little tot a kiss, which he collected right there, and sent her home.

It seems according to the Geodetic Survey that Ohio is really entitled to a long, triangular strip on the border of Indiana, embracing about 100 square miles and thus by a sweep of the surveyor's chain a whole lot of Hoosiers are suddenly converted into Buckeye people. If this had been discovered years ago lots of these border people might have been feeding at the public crib in Washington.

Chicago is so anxious to get rid of the English sparrow that she is paying two cents a head for them. One fellow brought in 6,000 heads, having killed that many birds with poisoned wheat. Another chap brought in 197 birds and the clerk told him to wring off the heads, and he might dispose of the birds. He took the hint and came in later in the day with a broad grin, chuckling over the \$13 net cash which he had raked in for 197 headless sparrows which he had sold for "reed" birds. I by 8 a. m. Bon ton London is agog over a divorce suit now being tried, in which the wife of Earl Russell sues for a divorce on the ground of cruelty and general meanness of her liege lord. He denies the allegations of the female alligator who, according to his testimony, called him hard names, threw soap-dishes at him, boxed his ears, chased him around the house with a poker and made it exceedingly hot for the poor man. And these are British nabobs who are now amusing London with the recital of the monkey and parrot time they have had at

#### An Interesting Service.

Dr. C. Durham, the Secretary of the State Mission Board of the Baptists, spoke Sunday morning at the First Baptist church on the Cuban Mission. He gave most entertaining information as to the island of Cuba; the character of the climate, people, religion, &c. For instance, he said the island was 700 miles long, and from 75 to 150 miles wide, had a range of mountains 500 miles long, its climate was never hotter than 80 nor cooler than 60 degrees. It is exceedingly fertile-has only half as large an area of land as North Carolina, but about twice as many people, who are fearfully oppressed by Spain.

They pay to the mother country from \$22,000,000 to \$30,000,000 of taxes every year, besides supporting their own government; and he further stated, that from 60 to 80 per cent. of the people would vote for annexation to the United States if they had a chance. The Baptist Mission began there in 1886-A. J. Diaz, a Captain in the rebel army, to escape capture by the Spaniards, cast himself into the sea, and floated three days and nights on a board; was picked up by an American vessel and carried to New York. where he was converted, joined a Baptist Church and returning to Cuba, began to preach and practice medicine. He was a great success from the start, being a man of fine character, great learning and moving eloquence, and as a native did not labor under the disadvantage of having to learn the language and the customs of the people. He has gathered into churches about 2.000 members, and as many children in Sabbath and day schools, and all his fellow pastors are natives of the island. A theatre, costing \$60,000, had been bought in the very centre of the city as a church, with stores and residences which will rent for two thousand dollars, all under one roof, and it was to pay for this Havana church that Dr. Durham was pleading. North Carolina was asked to give \$5,000 and the Eastern Association \$500.

Dr. Durham spoke on the same subject at night to the Brooklyn Baptist urch, and at both meetings liberal collections were raised.

At night in the same church, Rev. F. T. Wooten, who was once a member of this church, filled the pulpit.

E. L. & J. H. Hinton made an assignment yesterday to Thos. W. Strange, assignee, impelled thereto, it is stated, by the stringency of the times.

The personal property exemption was claimed and Mrs. J. N. Hinton was preferred for \$2,500 borrowed money. Messrs, W. E. Springer & Co., owners

of the Purcell, inform a STAR reporter that the hotel will be continued without the least interruption.

A STUPENDOUS SUCCESS. Welcome Week Pleasant and Profitable-The Display Most Creditable, and It

Just Must Be Repeated. A STAR reporter continued his interiews, yesterday, with prominent business men of the city, to ascertain their opinions of Welcome Week, what sort of a display was made, and the effect on the commercial interests of the city, present and prospective.

Adrian & Vollers, wholesale grocers and commission merchants, think it was a success and beneficial to the trade of the city. The trades parade was good, of course we ought to have another in 1892, but the parade should begin at 4 p. m.

Alderman & Flanner, wholesale and retail hardware, pronounce the enterprise a huge success; business was increased, new trade was made for the future. We must have another and a better Welcome next year, though this was very good.

Hall & Pearsall, wholesale grocers and commission merchants, believe it was beneficial in its results; the money invested was well expended. Trade was attracted here that would probably have gone elsewhere. The display was handsome; they are satisfied with their business during the week and want another W. W.

Alex. Sprunt & Son are impressed that the week was exceptionally beneficial to retailers. People were drawn from a distance, thereby enlarging the scope of the city's trade and this was a clear gain. Certainly we must have another and another. They are all help and no hurt. The display was fine.

Mr. J. R. Kenly, General Manager of the Atlantic Coast Line, a retiring man and not at all given to exaggeration, thinks the trades display not only exceedingly creditable, but the best he Sheriff Frank H. Stedman gave three has seen, and he has witnessed many. The good results are not only perceptible now, but will be felt hereafter most beneficially. It drew strangers to the city who appreciated the free entertainment, left with a good impression, and will revisit us. It was a thorough success to the business interests, and should be repeated.

Mr. W. A. Riach, General Auditor of the A. C. L., a most genial gentleman, and cautious in all his statements, from reports given him by business men concluded that business interests were very much benefitted; the trades display and all entertainments were of a high character. The business of the city must have been largely and widely extended. It ought to be held again and at night, and better illumination should be provided.

Mr. Wm. Moncure, General Superintendent of the Carolina Central Railroad, being absent from the city, Mr. W. F. Williams, train master, was found in his office and received the reporter with the courtesy so habitual with him. He believes strongly that the trade of the city was vastly improved in many particulars and many a dollar was left here on account of the free and welcome show. Its future benefits could scarcely be over estimated and would be far reaching. The display was splendid and, by all means, we must give an-

Mr. T. C. James, Agent of the C. F. & Y. V. R. R., was cordial and gave it as his firm opinion that every interest in the city was benefitted. The display was most creditable and should be a matter of pride to all residents. More people would have come but for a report that somehow spread in the country, that the bank failure had broken the Welcome up. It should be repeated. Mr. J. W. Martenis, General Passen-

ger Agent of the W., O. & E. C. R. R. assured the reporter in a pleasant and decided manner that he was a wholesouled W. W. man. He thought great good had been accomplished in securing new trade. The business of the city could not be better advertised. The exhibition was capital. It woould never do to let the Welcome Week go down. Worth & Worth, wholesale grocers and commission merchants, felt sure it was a pleasant and profitable week for all. Many agreeable old acquaintances

and new ones, were entertained by the city's welcome gift. The display was admirable, and the managers deserve great credit. It was beneficial to the city in many ways, and ought to be repeated.

Robert Morrison Dead.

Mr. Robert Morrison, a prominent business man of this city, died suddenly at his residence Sunday afternoon at 3.30, in the 68th year of his age, of heart

This interesting entertainment to be disease, He had not been in robust health for some time, but his death was unexpected, as he had not been complaining in a way to produce serious fears-hence his death was a great shock to his family and the community. A native of Philadelphia, he had been residing in this city for forty years, and was one of the firm of Fowler & Morrison. He leaves a widow and a grown son, Mr. W. R. Morrison, who feel poignantly the grief arising from the loss of a kind, affectionate husband and father. He was a member of St. John's Episcoplace to-day.
