OUTLINES.

In the Senate only routine business was transacted; Mr. Crisp, of Georgia, elected Speaker of the House, takes the oath of office and swears in the other members; the other nominees of the Democratic caucus also sworn in. -The meeting of the National Convention of the Anti-sub-treasury wing of the Farmers' Alliance postponed. -Fire at Paterson, N. J., Tuesday morning, destroyed the John Dunlop mills, causing a loss ot \$125,000. -Ed. Young, an illicit distiller, was found dead in the woods in Alabama, near the Mississippi State line. -A meeting of the National Committee of the Democratic party will be held in Washington, January 21, 1892, to select time and place for holding the Democratic Convention. -New York markets: Money easy at 3@31/4, closing offered at 3 per cent.; cotton easy; middling uplands 8 1-16 cents; middling Orleans 8 7-16 cents; Southern flour steady, with a moderate trade; wheat dull and unsettled, closing weaker, with a moderate business; No. 2 red \$1 06@1 061/2 in store and at elevator, and \$1 07% @1 08%

It is said that Foraker has about decided to pull out of the race for the Senatorship from Ohio, and let Sherman have full sweep.

afloat; corn opened stronger and closed

Land valuations are beginning to N. C., is here on a visit to her sister, pick up in Kansas. During the past twelve months it is said that farming lands have increased twenty-five per cent. in value.

There were no winged insects on Springer when he cast that deciding vote for candidate Crisp. When he rises to say "Mr. Speaker," Mr. Speaker will be very apt to recog-

The lake at Chicago is said to have suddenly sunk about a foot. Perhaps it has struck a leak and is oozing out into that mushy stratum that threatens to absorb Chicago some of these days.

Minneapolis is raising a purse of \$100,000 to entertain the delegates and visitors at the Republican con-- vention, and give them a good time. Minnie does not propose to have her hospitality questioned.

Russia ought to understand pretty well how to manage famines, as she has had eight within this century. She began the century with one in 1801, had another in 1808, 1811, (1812, 1833, 1840, 1860 and 1891.

The great railroad bridge across the Mississippi river at Memphis will be completed by May 1st, which event that city proposes to celebrate in grand style. This makes about the fourth bridge to span the Father of Waters.

A number of arrests have been made in Russia of merchants for adulterating flour with clay and other things to sell to the starving peasants. Just retribution would be to imprison them for life and feed them on that flour.

American traders seem to be building up a pretty good business in Mexico. Of the \$63,000,000 of foreign trade done by that country in 1890-91, this country got \$45,000,-000, England \$11,000,000 and France \$3,000,000, the balance scattering.

The "Cheap John" fraternity in Chicago are hustlers. A number of them have recently been arrested and punished for inveigling strangers into their "emporiums," getting them into back rooms and pummelling them if they refused to buy goods.

Commander Longenecker, U. S. N. might stand fire at sea pretty well, but he couldn't stand fire in court. He fainted under the fire of the lawyers in a cross-examination at Newport, R. I., a few days ago, and court had to adjourn until his nerves

were braced up. Since Minneapolis has secured the National Republican Convention St. Paul is making a dead set for the Democratic Convention and as one of the inducements proposes to expend \$200,000 in the erection of a magnificent auditorium which will meat 10,000 people.

LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted.

- The weather at Southport yesterday was cloudless, wind north and

- Please don't permit the fact to elude the grapplers of your memory. that the steamer Wilmington touches at

Carolina Beach every Wednesday.

- Just to give our country friends Guilford county, this State, have glimpse into the grandeur of the city's gratuitous show for their benefit, let them consider one item of expense. The fireworks alone cost \$1100. The men who are manipulating

- It is said that D. A. McDougald, who was recently tried for the murder of his uncle, Simeon Conoley, will leave North Carolina as soon as he can wind up his business affairs.

-- Sickness has so reduced our force that we are compeiled to reduce our usual quantity of reading matter, and to cut and condense much more than we like. Our Rafeigh letter is cut down about one-half.

- The Germania Band will meet to-night, (Wednesday), at the band room for practice. Members will attend in full dress uniform, for the purpose of attending the Ice and Snow Carnival given by the ladies of Concordia So-

- The proprietor of Taylor's Bazaar says his emporium was so crowded during Welcome Week that it was difficult to thread one's way through the throng. He wants the jubilee repeated, and will have a gorgeous float of marvellous proportions.

- The following have been elected | tee. the officers of St. John's Lodge, A. F. and A. M., for the ensuing year: J. E. Matthews, W. M.; R. W. Price, S. W.; W. R. Shaw, J. W.; T. J. Pratt, Treasurer; D. C. Whitted, Secretary; E. S. Martin, Building Committee.

- Rhodes & Bowden, butchers in Front Street Market, noted a marked improvement in their business during W. W. week. It was a success of big growth and improved the trade prospects of the entire city, they think, and we ought to repeat it next year.

- There is room for two or three sober and competent newspaper printers in Wilmington-not constant employment, probably, but enough "subbing" to occupy about two-thirds of their time, with occasional opportunities offering for permanent situations.

- Two tramps, Joe Ducrant and Joe Price, are in municipal "durance vile" for reposing somnolently Monday night in the Y. M. C. A. building. They belong to the Knights of the Pedal Circle, and at the kind suggestion of the Mayor will be escorted to the city limits.

The Firemen's Relief Fund. The following circular is of especial interest to firemen, and all are interested in the firemen:

GREENSBORO, N. C., September 21.-At the last meeting of the North Carolina State Firemen's Association held in Durham, August 25th, a new Constitution and By-Laws was adopted, which requires that the membership shall be by companies, and the initiation fee \$5 for each company, and the dues 50 cents per capita on each name on the roll of the company. This entitles you to the benefits to be derived from the "Firemen's Relief Fund," which is \$2 per day for every day you are sick or disabled and not able to attend to your regular business, or, in case of death, to receive \$250 and \$50 funeral expenses. Of course this will not apply only while on duty, answering an alarm. I send you blank applications for membership, and hope you will give them out to your several companies, and insist on their sending them in at once, properly filled out, as the money is for the benefit of the firemen, if they will avail themselves of it by complying with the require-Wilmington & Weldon R. R.-147

> I hope that you will see that your companies are all members. A great many have already joined, and in case of any accident, are entitled to the benefits. So take warning, and don't wait till some of your men are disabled or killed, but attend to it at once.

Yours very truly, J. W. GRIFFITH, Secretary and Treasurer.

An Eventful Life. A handsome, well built man, so far as his body goes, on a wheel chair, with one leg entirely amputated and the other badly mutilated and useless, has been a familiar figure about the hotel lobbies during Welcome Week. His sweet-faced young wife accompanies Total receipts-Cotton, 668 bales; spirits turpentine, 137 casks; rosin, 693 him and sings while he plays on the conducted by Rev. Dr. Carmichael. The bbls.; tar, 592 bbls.; crude turpentine, guitar. Their names are Harry and pall-bearers were Messrs. J. D. Nutt, Lizzie Blake, and his life has been event-

> stage of robust manhood he sought fortune in the far West and went through the various stages of cow boy and mining life, until his lower limbs were crushed in a railroad smash up in Cali-

The sweetheart of his palmy days, with true love undimmed by his misfortune, linked her destiny with his, and they earn a living as above described. He shows polish and refinement, and is generous to other unfortunates. There pletely taken by surprise, was very is ground work for a sensational novel touchingly and happily received by Dr. in Harry Blake's history.

IN FULL FEATHER.

That's the Way the Executive Committee of the Welcome Week Got There-Accounts Closed Up and the Ledger

The last meeting of the Executive Committee for Welcome Week for 1891, that has just passed into the glorious annals of well-recorded successes, was held in the room at The Orton, so kindly tendered by Mr. Montague, the manager, last night.

Lewis was Secretary, and the following were present: Messrs. Geo. R. French, B. Gleaves, C. H. Robinson, S. H. Fishblate, J. Allen Taylor, W. E. Springer, Jas. F. Post, Jr., and A. G. Ricaud. The chairman opened the meeting

Major T. D. Love presided, Mr. G. G.

with an eloquent and most felicitous little speech. He thought the affair was so successful that hereafter there will be no difficulty in drawing a crowd. Mr. Fisblate wanted to entertain the

visitors handsomely, as did Messrs Gleaves, Post and Taylor. Mr. Taylor reported the amounts of subscriptions collected and bills settled.

Mr. Springer moved that the Commitee be made permanent, subject to the ratification of a meeting of citizens to be called by the chairman at an early date. Carried.

Mr. Post moved that Maj. Love be constituted chairman. Carried.

Mr. Robinson moved a vote of thanks to Mr. Gleaves, chairman of the Amusement Committee. Carried.

Major Love tried to decline the chairmanship, but was not allowed to do so. Mr. Fishblate moved that thanks be tendered the STAR and Messenger for their constant and faithful assistance during the entire work of the Commit-

Mr. Gleaves, in rising to second the motion, thanked those papers, personally, for the aid rendered him in his labors. Carried.

Mr. Gleaves moved that Mr. French be retained as Treasurer. Carried. On motion of Mr. Fishblate, a vote of thanks was conferred on the various railroads centreing here for their low rates and other courtesies, and to Mr. Montague for the use of the meeting room. Carried,

The meeting then adjourned.

The Railroad Commission.

The following members of the State Railroad Commission arrived last night and took rooms at The Orton: Major James W. Wilson, chairman, and Messrs. Thos. W. Mason and E. C. Beddingfield, accompanied by Mr. H. C. Brown.

and go up the W. O. & E. C. road to Jacksonville to-morrow morning, returning in the afternoon, on the follow-Major Wilson informed a STAR re-

They will remain in the city to-day

porter that they had no regular appointment, but it is presumed that the Commission will hear complaints bearing on the matters it has in charge.

The STAR wishes these prominent North Carolinians a pleasant sojourn in this "queen city by the sea."

A Worthy Episode.

There was a touching tribute paid to the christian character and great pastoral and personal popularity of Rev. Dr. W. S. Creasy at the parsonage yesterday evening. Many of his friends met there and presented to Dr. Creasy a splendid solid silver service of six pieces, artistically engraved in new and striking designs, especially adapted to the character of the gift, with his initials and those of his good wife appearing in a monogram on each piece.

It was an episode worthy of donors and donee. Dr. Creasy, who has been the well-beloved pastor of Grace M. E. church for four years, will leave for his new charge in Charlotte this morning.

Weather Forecasta.

The following are the forecasts for For Virginia, fair weather, warmer

and southwest winds. For North Carolina, warmer and fair, winds shifting to southwest, warmer and fair Thursday.

For South Carolina, Georgia, Western Florida and Alabama, warmer and fair Wednesday and Thursday, variable

The Funeral of Robert Morrison.

The funeral services of Mr. Robert Morrison took place yesterday at 10 a. m., from St. John's church and were Thomas F. Bagley, J. C. Huggins, J. J. Fowler, H. H. Munson, Berry Gleaves, Born in the city of Boston, at an early | P. Donlan, P. R. Fowler and Dr. W. H. Green. The remains were interred in Oakdale Cemetery.

Presentation of Past Master's Jewel.

At the regular meeting of St. John's Lodge, No. 1, A. F. & A. M., held last evening, there was a pleasant occurrence in the presentation to Rev. Dr. Creasy of a Past Master's Jewel. The presentation speech was made by Past Master Eugene S. Martin, and, though comVITRIFIED BRICKS.

In a Twelve Years' Test They Prove Superior to Belgian Blocks.

Mayor Ricaud and Alderman Thomas visited Wheeling and other places North last Summer to acquaint themselves with the merits of vitrified brick and other paving material. These gentlemen were greatly pleased with the brick, but the main obstacle in the way was cost of transportation.

From an article clipped from the Baltimore Sun, it would seem that this difficulty is minimized by the water care everywhere in Mexico. riage from Baltimore to this city.

A subscriber to the Baltimore Sun writes: "Referring to the paper of Mr. Edward Stabler, Jr., on the subject of vitrified bricks for street paving, I wish to say that while I think he is wrong in some of his statements the paper is in the right direction, for without doubt it is the coming pavement. The vitrified brick is a name only, and has been called such for over forty years; but the brick for paving should not be vitrified, but mineralized. If they were vitrified they would be fused, or in other words glass, but being made of material of different sorts there is always enough fire clay used to keep them from fusing. They are burnt with an intense heat, fully 3,000 degrees Fahrenheit, that would fuse most any material alone without the fire clay.

"Mr. Stabler does not seem to know that there is a company, with headquarters in this city, for the manufacture of these bricks, and the company will be ready to deliver the product in the coming spring. The materials have been made up and burnt by the Fire Retort Company at Locust Point, and are known as the Hayden brick. Some of them are now being put down on Calvert street, between Chase and Biddle streets. The proper size, as proven by experience, is 21/2 by 9 by 4 inches. In Pittsburg one side of a street was paved twelve years ago with bricks and the other side with Belgian blocks. Notwithstanding truckmen used the brick pavement because of its smoothness, it is still far better than the Belgian

Report of the Ladies' City Benevolent So-

WILMINGTON, Dec. 8, 1891.-Our annual meeting having been unavoidably postponed from November to December, we desire now to bring our report to the notice of all interested in our city

There has been as much interest taken in this Society during the year just closed as ever before by those who have attended the meetings, but the number has been few, and at times some have felt discouraged that our membership should be so small.

There are two good reasons for this falling off, one is the existence of the circles of King's Daughters in our midst, the other the more systematic effort of the different churches for benevolent work. Still, the existence of a general city society is an essential need in every

I feel glad to know other societies for charity have been formed in our city They are needed, but I am not willing to see this long time honored organization cease to exist. And in this connection I do plead for help tor our worthy poor, to be disbursed through this channel of benevolence. The experience of those who have been members of this society for years, enables them to work with more judgment than those who are beginners, for they are better

acquainted with existing wants. We have our "Catharine Kennedy Home," or old ladies' Rest, under our care, and now, after our losses by the failure of the bank, are there not many who will lend us their aid to sustain this noble charity in our midst? The inmates of this Home are entirely unable to pay rent regularly, and they are persons who, if we permit them to go to the public aims house, would suffer for lack of those little attentions they now receive from friends who are within reach of them. We have received letters from Charlotte and Thomasville during the year inquiring as to our plan of conducting our work, showing those places feel the need of a city society. Returning our thanks for the aid rendered this society, we submit the follow-Contributions in money \$103 53

Total,..... 50 25 This fund was deposited in the First National Bank. Respectfully, Mrs. A. A. WILLARD. Pres. Ladies' B. Society.

So Say We, All of Us.

The Lumberton Robesonian says of our recent big show: Wilmington's Welcome Week passed off very pleasantly. The crowds were immense, the fire-works grand and the industrial parade, a pictorial history of the city's commercial and industrial progress. It was a grand success in every way. We spent a day there very pleasantly, accompanied by our family. Quite a number attended from this town and all were well pleased with it.

- Spot cotton advanced to 71/2 cents in this market yesterday.

COTTON FACTS AND FIGURES. - Middling uplands in New York

yesterday, 8 1-16c. - Receipts at this port yesterday, 668 bales. Same day last year, 1,425 bales.

- Efforts are being made in Mexico to increase the production of cotton and to make true the prediction of some of the government reports that Mexico will one day occupy a position among the first, if not the first of the world's cotton producers. The government reports describe vast tracts suitable to the growth of cotton; in fact it grows nearly

- H. M. Comer, a Savannah cotton factor, says: "I don't think the crop will be a heavy one, I think the general estimate of 7,500,000 bales is about correct. There would hardly be a heavy crop without heavy receipts, but heavy receipts just now do not necessarily indicate a large crop. The farmers were burned so badly by holding last year that they will not listen to a word about holding this year. It would be advisable for farmers who have paid their debts to hold back the rest of their crop for a month or two. It would help the market and enable them to get a better price. When cotton is poured in to us at the rate of 20,000 bales a day it is impossible to hold it, and all we can do is to simply pass it on. The cotton will have to be held in the country if held at
