CHICAGO MARKET REVIEW.

Fluctuations in Prices of Grain and Provisions.

By Telegraph to the Morning Star. CHICAGO, Dec. 18 .- Wheat was excessively dull to-day; there was little or no outside business, with local operators doing next to nothing, and the market had a decided holiday appearance. At the start there was some weakness, as the general disposition was to sell on the firmness created yesterday, and there was an early decline of about 1/4c. but during the last hour the market showed considerable strength. Cables were generally quite firm, and shorts were good buyers, with selling some-what restricted. May opened at 96%c, against 97%c at the elose yesterday, receded to 96 1/2c, advanced to 96 1/8c, eased off some, rallied to 97%c, broke to 97c, grew strong near the end, advancing to and closing firm at 971/2c.

Corn was quiet and lower for December. There was not much call for that month, shorts having apparently gotten under cover and the clique had more for sale than was wanted, and hence lower prices ruled. The longer futures were geerally firm; the improved grading of the past few days was maintained. December started 1/2c lower at 501/2c, sold off to 481/4c, and closed at 49c. January started at 1/8c up, 441/4c, sold to 44c, and closed at 44%c. May fluctuated be-tween 42%c and 42%c, and closed at 4256c-an advance of 1/8c.

Oats were firm and very steady. Hogs products were lower; receipts of live hogs were a trifle above estimates, but prices were quoted five cents higher. There were free offerings, however, and with no one seemingly disposed to support the market lower prices ruled. There was a feeble rally during the last hour, but the gain was lost again. The break in prices was the most serious experienced for some time, amounting to 35@371/2c. for pork, 10c. for lard and 15@20c. for ribs.

COTTON FUTURES.

like New York Futures Market Yesterday By Telegraph to the Morning Star.

NEW YORK, December 18 .- The Sun's

cotton circular says: came weaker, but closed firm at 4 to 5 points advance from the final figures of yesterday, Liverpool was a grievous disappointment to our bears, and some of them were disposed to be cross about it, especially as it was said that private were much better than published reports. It was asserted that capitalists from London were taking cotton to hold in store instead of buying futures. The interior movement again falls about 16,-000 bales behind last year, and the figures of to-day from Memphis and St. Louis show a great falling off from the corresponding date of last year. The comparatively full plantation movement is undoubtedly due to the recent wintry weather in the cotton region, which compelled the planters to work in doors and prepare the remnants of their crop for market. From this time out the statistical position ceases to run against the bulls, though some little time may elapse before it will turn decidedly in their favor. Full interior stocks were the cause of a slight reduction from the best prices of the day, which took place in the last half hour. Spot cotton was

Two Negroes Charged with Murder Taken from Jail and Killed by a Mob.

By Telegraph to the Morning Star. JACKSONVILLE, FLA., Dec. 18 .- A Live Oak, Fla., special to the Times-Union says: Just before 12 o'clock last night a mob of about one hundred men, some disguised and all armed with rifles or revolvers, called on Sheriff Patsda mer and seized and overpowered him. They took from him the keys to the county jail and set a guard over him. They then made a rush for the jail, entered it and took from the cells two negroes suspected of the murder of young Parramore in the streets of Brandford last week. The prisoners were bound to trees a short distance from the jail, and their bodies riddled with bullets.

LATE FOREIGN NEWS.

FRANCE'S LITTLE AFFAIR WITH BUL-GARIA.

The Russian Press Intimate That the Czar May Take a Hand in the Dispute-A Game of Diplomacy that May Result

By Cable to the Morning Star. St. Petersburg, December 18.-The Novoe Vremya to-day prints a semiofficial article concerning the dispute between France and Bulgaria growing out of the Chadonine incident. The article approves the action of France in withdrawing her representatives from Bulgaria, and declares that if France had yielded any in her demands that the decree of expulsion against Chadonine should be rescinded, she would have established a dangerous precedent, which, if established, England would take advantage of in Egypt. "France," the paper says, "cannot rest contented with the recall of her representative at Sofia. We presume that Cambon, the French Ambassador to Turkey, will not conceal from the Sultan the necessity for further action on the

part of France.' The Novosti says that the Chadonine incident may render it incumbent on France and Russia to intervene to prevent Bulgaria from being made the centre of agitation by the Dreibund, and the case for Austria's advance upon the Balkans. In addition, the Novosti says that whatever the outcome of the present difficulty may be, the incident shows that Russia is right in regarding the Goburg regime in Bulgaria supported by the Dreibund as a permanent danger to Europe.

Copyright 1891 by the N. Y. Associated Press. LONDON, December 18 .- The rupture of diplomatic relations between France and Bulgaria on the pretext of the expulsion of the French journalist, Chadonine, now proves to be the initial step of a French diplomatic scheme to ask the Sultan to use his suzerain right to interfere in Bulgaria in Russian interests. Advices were received at the Foreign Office to-night that Carribon, French Ambassador at Constantinople, has demanded and will obtain a formal conference on the subject with the Sultan to-morrow.

This development is no surprise to Lord Salisbury and his diplomatic allies in Vienna and Berlin. Carribon, in an interview with the Foreign Minister of the Porte on Wednesday last, was understood to intimate that as France had never recognized Prince Ferdinand, the Government of France must look for Futures opened unsettled, turned redress to the Suzerain before taking stronger, advanced 6 to 7 points, be- directly active measures. As Ribot must know or expect that the Porte will decline to interfere in a question concerning the internal administration of Bulgaria, anxiety prevails on what

the French Government will next do. The Austrian Government, probably and Chancellor Von Caprivi, supports the Bulgarian bureau. Austria's agent at Sofia has incited Premier Slambouloff to address the Governments of Turkey, Germany, Austria and England vindicating the expulsion of Chadonine. It is now known all round that Ribot does not care a straw for the expulsion or the expulsee.

The St. Petersburg Weekly Vedomosti, after suggesting that it is possible that France, failing to obtain satisfaction, may blockade Bulgarian ports, says that Russia would protest against the appearance of French iron-clads before Varina or Bougas. If the Ribot policy results thus, the peace of Europe is over.

THE FIELD-LINDLEY FAILURE

Indictment of E. M. Field for Forgery By Telegraph to the Morning Star.

NEW YORK, Dec. 18 .- The grand jury to-day returned an indictment against Edward M. Field of the defunct firm of Field, Lindley, Wiechers & Co., charging him with forgery in the second degree. The indictment is predicated on the statement made by the bankers Knauth, Nachod & Kuchie. The following is the statement made by Messrs. Knauth. Nachod & Kuchie, relative to their connection with the Field-Lindley failure. It seems that a Mr. Renter, of Hamburg, an uncle of Wiecher's, one of the partners of the defunct firm, had inherited about \$108,000 from the Wiechers estate, and that this money had been left in Wiecher's hands; the latter used it for speculating in behalf of the firm and reported to his uncle that inside of sixty days the money had realized a profit of \$8,000 aside from interest. The uncle, however, pressed Wiechers for money, and the latter thereupon, on behalf of the firm, made out a one-day sight draft for 490,000 marks on a firm in Manheim, Germany, of the name of Dittenhot & Glozer, with which they had had various transactions, but where Field and Lindley at the time had no balance, nor did they expect to have any in the ordinary course of trade. They counted upon meeting this draft by means of transfer, but there being no funds lorgery was resorted to. On November 25th Field and Lindley arranged that we should make transfer of 498,000 marks equal to \$77,000 on the same firm in Manheim, such bill being accompanied by shipping documents for 14,000 bushels of wheat per the steamboat Trimple. Some days previously they had already sold to us a similar bill of 190,000 marks equal to \$40,000, on the same firm, likewise accompanied by shipping documents for 43,000 bushels of wheat per steamship. All these shipping documents since turned out to be forgeries; there were no such steamships in port at the time and no such wheat. Fortunately we discovered the forgery before the draft was presented and were able to stop payment and thus save our money. It was for this transaction that Field was indicted.

RECIPROCITY TREATIES.

How Germany's Ratification of the Agreement is Regarded at Washington.

By Telegraph to the Morning Star. WASHINGTON, Dec. 18.—The ratification by the German Reichstag to-day of the commercial reciprocity treaty between Germany and Austria and Hungary, insures the completion of the reciprocity arrangement between the United States and Germany so far as the latter country is concerned, but its effectiveness still depends on the action of the Austrio-Hungarian Reichrath, as under its terms our agreement is contingent on the ratification of the German-Austrian treaty by each of those

THE BUSINESS OUTLOOK.

Dun's Review Gives an Encouraging Statement of the Situation. By Telegraph to the Morning Star.

NEW YORK, Dec. 18 .- Business fail ures occurring throughout the country during the last seven days as reported to R. G. Dun & Co., number for the United States 307; Canada 28. Total 835, against 320 last week. .

As the end of the year approaches, general trade stops and there is perhaps not more than the usual disposition to defer large transactions until after stock taking and the holidays. The holiday trade is now in full blast, and throughout the country is quite large. It is satisfactory to see that from nearly all points reports which note the inactivity usual at this season, also observe prevalent and a strong belief that the business of the coming season will be unusually large and profitable. These expectations have the warrant in fact that the quantity of products marketed during the past few months has been large beyond all precedent, while money markets are well supplied in nearly all parts of the country and undisturbed by any alarm.

Commercial credits and confidence are in a satisfactory shape for the transaction of an enormous business early next year. Meanwhile, causes of apprehension as respects foreign influences are diminishing, and considerable purchases of American securities on foreign account give increased strength to the stock market.

MINING TROUBLES.

Demonstrations by Strikers at Colorado Mines-Troops Ordered Out.

By Telegraph to the Morning Star DENVER, COL., Dec. 18.—Troops have been ordered to Crested Butte and will leave as soon as possible. News received this morning from Crested Butte states that strikers there indulged very freely last night and became reckless and boastful, declaring they would blow up the houses in which live the Austrian strikers who returned to work in the mines yesterday. A sheriff's posse patrolled the town and vicinity night but no act of violence was offered by the strikers. Ventilating fans in the mines were kept at work all day yesterday and last night ejecting the gas which had accumulated from their stoppage. It is reported that fifty more of the strikers returned to work to-day, but it is impossible to get anything from there at present on account of poor wire facilities.

CRAZY MURDERER.

Wild Work of a Lunatic in a Brooklyn Boarding House.

By Telegraph to the Morning Star. NEW YORK, December 18.-Michael acting in concert with Lord Salisbury | Harvey, 34 years old, a boarder at 183 Van Dyke street, South Brooklyn, became suddenly insane this afternoon and shot John Connerton, Sam Dickerson and Mamie Dickerson. Catherine Duffy jumped from a second-story window to escape him, and she broke her ankle. John Connerton and Sam Dickerson were dangerously injured, and were taken to hospital. They may die. Mamie Dickerson was shot in the arm. After shooting the others Harvey placed the muzzle of a revolver in his mouth and pulled the trigger, when the top of his head was blown off. John Conner-

ton died before reaching the hospital. Only two years ago Harvey was discharged from the Flatbush Insane Asylum as cured.

A PITTSBURG FIRE.

Large Wholesale Millinery House Burned

-Loss \$150,000. By Telegraph to the Morning Star. PITTSBURG, Pa., Dec. 18.—Fire broke out in the large wholesale millinery establishment of Peter Donaldson & Co., Nos. 820, 822 and 824 Liberty Avenue, at 1.20 o'clock this afternoon, and by the time the fire department reached the scene the fourth, fifth and sixth stories, extending from Liberty Avenue to the alley, were in flames. The building is a six-story glass front brick structure, 75 feet wide by about 250 deep along the alley and is owned by B. F. Jones. The loss will reach \$150,-000, of which \$125,000 is on stock. The total insurance on stock is \$79,000, and on building \$50,000. The fire started on the fifth floor, from a match carelessly thrown among some waste paper by an employe. Firemen Gorman and Boles, of Truck No. 3, were seriously hurt by falling plate glass.

A STREET FIGHT

Between Two Prominent Citizens of St. Louis-One of Them Fatally Shot. By Telegraph to the Morning Star.

ST. Louis, Dec. 18.-Late last night

Dr. Thos. A. Gordon, one of the leading and wealthiest physicians of the city, shot and fatally wounded John F. Stagge, a large wholesale and retail fish dealer. The men had borne ill feeling toward each other for some time. Last night they met in front of their residences, which adjoin, and a quarrel began in the course of which Stagge, according to Gordon, assaulted the physician, beating him severely. Jor-dan managed to draw a pistol fired two shots at random, bringing down his man with one ball. The bullet entered Stagge's back, near the spine and in the vicinity of the kidney, passing into the abdominal cavity. Stagge was taken to his home where physicians, after an examination, pronounced the wound necessarily fatal. Dr. Gordon has been placed under arrest pending an official inquiry into the affair, and the result of his shot.
