After making corpses of so many of the Sims gang in Alabama it seems that business ought to simmer down.

Elwell Ap. Barnard, a Welsh bard, has written a 110-verse ode to his cow. He doubtless felt that he owed that cow a good deal.

If there be any truth in the dispatches from Mexico relative to the progress of the revolutionary movement, Mr. Garza must have been doing some successful bargaining.

A Chicago man almost beat his little girl to death because she wouldn't eat soup. The Humane Society heard of it, pounced upon him and now he is "in the soup."

It is said that there are 41,000 newspapers in the world, over one-third of which are printed in the United States. This is a mistake. All the newspapers in the world are printed in the United States.

Some men are exceedingly sensitive of their honor, as was the retired French officer who recently killed his friend and benefactor Baronne Delard, in Paris, because he was deeply in debt and dreaded dishonor.

Kaiser Wilhelm had better be keeping his eye on Herr Bismarck, who has recently had at Frederichs-rhde James Gordon Bennett, as a guest. Herr Bismarck and Herr Bennett could make him quite uncomfortable.

Western merchants and farmers say they have lost a million dollars already this fall and winter by bad roads which interfered with marketing the crops. People will wake up some of these days to the importance of good roads.

The Republicans are already beginning to sneer at this Congress as a "Five-cent Congress." The contrast is certainly striking. But a five-cent Congress will fill the bill better than a Congress whose scent was on the millions.

It is said that the late John P. Richardson, of Louisiana, was a victim of the cigarette habit. But it must be said in justice to the cigarette that he was a sufferer from consumption, and that the immediate cause of his death was pneumonia.

A Berlin Anarchist says there are thirty thousand men in this country who would organize to go into the bomb-throwing business if they were called upon. They had a little experience in Chicago some time ago, ever since when they have been remarkably backward in coming forward.

The doctor who performs a surgical operation under the muzzle of a double barrel shot gun in the hands of a lunatic with an emphatic intimation that a failure meant shoot, is subjected to a severe ordeal and must be a man of steady nerve. That's what two New York doctors did the other day when they were called upon to perform a surgical operation on the wife of a saloon keeper, who was insanely drunk and stood with the gun pointed at them all the time. The operation was a success, and the gun was not called into play.

There is an infant industry in Chicago which does not ask protection. But there does not seem to be any disposition in that city to encourage it and help it along. This is the experience of the butcher who started out with such bright prospects until some meddlesome officer ran afoul of him and brought him to a sudden halt when he had disposed of the meat of only two horses, which he bought for three dollars and sold for thirty-six.

The act of those Texas cowboys in taking possession of a passenger train and driving off the train driver because he wore a red necktie may be looked upon as simply an exhibition of pastoral pleasantry, but when, with their breech-loaders, they compelled the young ladies on board to entertain them with songs they showed an unpardonable breach of etiquette.

An Argentine general has refused a Presidential nomination. We don't blame him. So would we, if we were an Argentine general, or any other sort of a general down there. There isn't any fun in being President, when the probabilities are you would have to skedaddle or commit suicide inside of twelve months.

Since Christmas, the markets have been almost entirely bare of poultry, and prices for chickens, turkeys, etc., have advanced.

The school boys who have spent a very pleasant Christmas with their folks, have begun to return, to put in another six months of hard study.

Justice Bunting had only one case before him yesterday, that of Mary Murray, colored, living in Cape Fear township, charged with stealing two hogs from B. A. Carter. She was found not guilty and discharged.

Ben Martin, a Norwegian sailor, was fined five dollars and costs for being drunk and down, and U. L. Nelson, another Norwegian sailor, was fined \$20 and costs for disorderly conduct, at the Mayor's Court yesterday morning.

Thunder and lightning accompanied the rain storm that passed over the city last night about 10 o'clock. A press dispatch from Raleigh reports it as very heavy there—lightning setting fire to and destroying a barn and contents.

Mr. Alden, the Bank Examiner, when interviewed by a STAR reporter last night, said that there was no more information of interest to be given for publication; but that Mr. W. S. O. B. Robinson, the receiver, wrote him that he would reach here to-day.

Mr. W. M. Howell, superintendent of the street railway, yesterday caught two small white boys placing large rocks on the track on Fifth between Market and Princess streets. The parents of the boys, when told of their wicked doings, gave them a thrashing.

ABOUT THE GRIP.

Mild in the South, but Severe in Many States.

Thus far the grip has prevailed only in a mild form in the South, but it is said the physicians of Philadelphia are becoming very uneasy about the disease in that city. When it first made its appearance there this season it was of such a mild type that very few people paid any attention to it. The physicians said that they did not believe that it would become virulent, and they anticipated very little trouble from it. Within the last week or two the situation has changed greatly. The number who are suffering from the disease is very large, and the percentage of deaths has become alarming.

The disease is accompanied by a great tendency to throat and bronchial complications, and one of the leading physicians says that the epidemic promises to be much more severe than the epidemic of two years ago. The deaths from the disease are now about thirty a day, and the number is expected to increase until there are more favorable atmospheric conditions.

In New York the disease is increasing in virulence and the death roll is steadily growing larger. New Jersey, Connecticut and California are States in which the disease is appearing in its worst places. But there is scarcely any part of the country that is free from it.

So! Haas on the Southern Situation.

Mr. Sol Haas, traffic manager of the Richmond and Danville system, and a former citizen of Wilmington, says that the South is not as bad off as some people say it is. Cotton is low, but the South has made up for the loss on cotton by raising all the grain and meat it needed. He believed the South owes less money to-day than it owed ten years ago.

About one-quarter of the cotton remains to be moved. The South has increased wonderfully in manufactures and general business in the past few years, and on the whole Mr. Haas believes that next year will be a good year for the Southern railroads and the people. He predicts a big year for Richmond.

The Case of Mr. Robt. Chadwick.

Mr. Robt. Chadwick who struck Monroe Toomer, colored, with a gun Christmas day (as published in the STAR a few days since), was called up before Mayor Ricard yesterday morning, but Monroe not being able to appear, investigation of the case was postponed. Dr. Sheppard was sent out to Monroe's house, near Ninth and Castle streets, to ascertain the extent of his injuries. When he returned, he reported to the Court that it was only a scalp-wound and was not dangerous. Mr. Chadwick's bond was then reduced to \$150, and this being furnished by J. E. Reese, Mr. Chadwick was released.

FOR FALSE PRETENCE.

The Case Against John C. Davis Called for Preliminary Hearing.

A large crowd—fully 800 people—gathered at the county court house yesterday morning, all eager to know the outcome of the case of false pretence against Mr. John C. Davis.

At 10.55 o'clock the defendant entered the court room accompanied by Jailor King and a deputy sheriff. All eyes, eager to catch the first glimpse, were turned toward the prisoner as he walked erect and boldly, occasionally stopping to shake hands with some friend and bowing to many.

He still wore his black Prince Albert suit and seemed in appearance as well as usual, with the exception that some marks of care could be traced upon his countenance by careful discernment. In the court room he was given perfect liberty. He moved about, talked to several members of the bar, and finally took a seat beside his counsel, Col. Thos. W. Strange. At 11 o'clock the deputy sheriff proclaimed silence, and his Honor, John J. Fowler, called the case. Col. A. M. Waddell for the State, said that he was ready, and Col. Strange asked that the Court indulge the defendant for a few minutes so that he could have time to send for Mr. J. D. Bellamy, Jr., the associate attorney for the defence, who for some reason had not made his appearance.

The Court took a recess for ten minutes, and at the end of that time Col. Strange said that the defence would no longer ask the detention of the Court, but would waive an examination.

The defendant was required to give a bond of \$750 for his appearance on the first Monday in January, 1892, at the Criminal Court of New Hanover county. The witnesses bound over were Mrs. E. J. Fanning, Miss Lou Way, Sol. C. Weil, and the Register of Deeds, John Haar, Jr.

Mr. Davis failed to give bond and was recommitted to jail. The charge in this case was by Mrs. E. J. Fanning for false pretences; but there is another by her for perjury, and there are others by Mrs. Dixon, a widow lady, for false pretences, forgery and perjury.

Several persons called on Mr. Davis at the jail yesterday morning before the hearing, among whom were Dr. Swindell, Presiding Elder, and some ladies. He talked with all and seemed to be in good spirits.

A SERIOUS AFFAIR.

Three Young Men Arrested for a Deadly Assault on Mr. Wm. Grant.

Marshal Kerman, Mike Dowling and Walter Galloway, all under 21 years of age, were arrested about 3 o'clock yesterday morning, charged with assault and battery with a deadly weapon last Thursday night on Mr. Wm. Grant.

The case was called at 10 a. m. before Mayor Ricard. Dr. Shepard, one of the physicians attending Mr. Grant, said that the condition of the latter was critical, and it was very doubtful if he would survive the injuries received. Testimony given by witnesses of the unfortunate occurrence showed that on Christmas Eve Mr. Grant, with two companions, passed five young fellows on the corner of Seventh and Chesnut streets, when a difficulty arose between Grant and Mike Dowling, one of the crowd. Soon after the row began Marshal Kerman ran around the corner, pulled a board from a tree fender, and (he claims) as he came back Grant started at him, and he struck Mr. Grant with the board on the side of the head. Dowling stated that he struck Grant with a stick about his shoulders just before. The witnesses for the State said that as Mr. Grant was engaged fighting one of the crowd, another ran up behind and struck him on the head, and that only one lick was struck and that with a board.

Kerman and Dowling were required to give bond in the sum of \$500 each, for their appearance at the Criminal Court and Galloway's bond was fixed at \$250. They were committed to jail in default of bail. But later, Galloway secured bondsman and was released.

RIVER AND MARINE.

The British steamship Lowlands, cleared yesterday for Liverpool, Eng., with cargo of 6,858 bales of cotton, shipped by Messrs. Alex. Sprunt & Son.

The Norwegian barque Dux cleared yesterday for Bristol, Eng., with 3,788 barrels rosin, valued at \$5,327, shipped by Messrs. Paterson, Downing & Co.

British schooner Edwin Janet cleared yesterday for Nassau, N. P., with 84,193 feet lumber, 106,000 shingles, 4 pkgs mds., 4 barrels pitch, and 2 do. tar, valued at \$1,059.42, shipped by Messrs. Cronly & Morris.

RAILROAD NOTES.

St. Louis Republic: For some days past the Big Four people have been testing their new 10-wheel freight engines with surprising results on the road between Union and Galion where are the heaviest grades. One of these engines hauled 85 loaded cars from Galion to Union, using but six tons and a half of coal, while one of the company's maul engines, hauling 27 cars, consumed 10 tons of coal. It was claimed by the mechanical engineer who prepared the plans and specifications of these engines that they would haul the same tonnage of an ordinary freight engine with a saving of 83 per cent, in coal, and the tests have shown even better results.

The weekly letter of the banking house of Hambleton & Co., of Baltimore contains the following: "At last we have what we consider definite information regarding the proposed policy of the Baltimore & Ohio company. From a source which we consider entirely reliable, we learn that it is proposed to ask the stockholders at the annual meeting in November to authorize the issue of \$10,000,000 additional stock. This stock to be appropriated as follows: As a dividend to present stockholders, \$8,000,000; to the Pittsburg & Western railroad, \$2,000,000, to be sold as required for extensions and betterments, \$5,000,000. It is also proposed that the company shall announce that it will hereafter pay cash dividends at the rate of 1 1/4 per cent quarterly."

Richmond State: It is said that the official powers of the Southern Vice President, Col. A. B. Andrews, General Manager Green, and Traffic Manager Haas will be greatly extended in their respective departments. They are not to be constituted a managerial board of the R. & D. to operate the properties as was erroneously reported, but each is to run his office without being hampered by the Wall Street end of the line. There seems to be no doubt of the fact that the policy of discharging the men from the shops will be changed. No more men will be discharged, and those who have been put off will, it is said, be re-employed in January. It is believed that President Inman got rattled in the face of the large amount of interest and dividends to be met in January (about \$2,000,000), and started in with his wholesale cutting off without conferring with his associates. Such a policy is regarded as a great mistake from many points of view.

THE GOLDSBORO TRAGEDY.

The Evidence Upon Which Weightman Thompson Was Held for the Murder of the Pearsall Family.

The Goldsboro Argus of yesterday in relation to the murder and burning of the Pearsall family near that place, says:

The circumstances that surround Weightman Thompson and that guided the coroner's jury were properly held in mind to answer for the murder of Pearsall and his family are these in brief. Thompson was the last man known to be with Pearsall before the crisp remains of the latter were found in the burnt dwelling. Thompson had gone home with him that evening from Robt. Ham's, and Pearsall carried with him from Ham's a suit of clothes and a pair of suspenders that he had purchased in this city on Monday and had left at Ham's on Tuesday till a more convenient time to carry them home, which occurred on Wednesday afternoon in company with Thompson. Pearsall's home and himself and family were destroyed by fire Wednesday night. These clothes and suspenders were found hid away in the woods in Thompson's valise subsequent to the burning, and he claims that he purchased them in Halifax, but the clothes and suspenders are thoroughly identified as being the ones purchased by Pearsall in this city and the same that he left Ham's with Wednesday; so there is no question of Thompson's felonious possession of the clothes.

Some statements of Thompson, very damaging to him, were testified to by witnesses, but as they were conflicting we withhold them.

A woman's earrings were found in Thompson's possession, but as yet they are unidentified, and as he has made no statement in his own behalf under oath or on the witness stand, we defer comment on this point.

Windy Weather—Colder.

A fierce wind storm from the North set in last night about 11 o'clock, after the rain had ceased. It rattled doors and windows at a lively rate and drove many persons on the streets to seek shelter. The registered velocity at the signal station was 59 miles an hour. The cautionary Northwest signals were displayed at 11.30 p. m., by direction of the Chief of the Weather Bureau at Washington, D. C. High Northwest winds and colder weather were predicted for the Wilmington section.

Holiday Festival—Market Street M. E. Church.

A Christmas tree and entertainment was given by the Market Street M. E. Church last night at the residence of Mr. W. J. Penny, on Dock street. The following programme was gone through: "Mozart Overture," duet, by Misses Hattie Penny and Bessie Burt; recitation, by Miss Lillian Johnson; song, by Gracie Craig; recitation by Luther Sneed. After this Santa Claus and his assistants appeared and distributed a present to every member of the Sunday school. Confectioneries and fruits were scattered around in profusion. The little children as well as the older heads enjoyed themselves immensely.

A handsome silver communion service was then presented to the church by Mr. R. H. Berry, for the Women's Missionary Society, which was received for Market street church by Presiding Elder Swindell; both made speeches.

Then a vote was taken for the most popular Sunday school scholars—a boy and a girl—which was won by Marvin Craig and Gracie Craig, respectively. They were each given a handsome prize. Everybody went away much pleased with the entertainment.

A Very Pleasant Affair.

The L'Arioso German Club gave a most delightful german last night in The Orton dining room. The german was led by Mr. Wm. Dick, assisted by Lieut. M. M. Patrick. About seventy-five couples were present.

The following visiting young ladies were there: Miss Ida and Janie Hicks, of Faison, N. C.; Miss Clunch and Miss Staunton, of Canada; Miss Calvert, of Baltimore; Miss May Baughman, of Richmond; Miss White, of Connellyville, Pa.; Miss Berta Smith, of Raleigh; Miss Stark, of Norfolk, Va.; Miss Sue Macumber, of Ashland, Va.; Mrs. C. F. Ellis, of New York, and Mrs. J. W. Carmichael, of Charlotte. Music was furnished by Professor Miller's band, and dancing was kept up until an early hour this morning.

Christmas Tree Festival.

A pleasant time was had by the children of St. Andrew's Sunday school last night. A Christmas tree festival was held, with old Santa Claus appearing through the top of a chimney, and giving each scholar a present. Mr. W. C. Von Glahn acted as Santa Claus. After the children had all been supplied, Rev. Alex. Sprunt in behalf of the Brotherhood of Andrew and Phillip, in a neat and most praiseworthy speech presented the pastor of St. Andrew's church, Rev. A. D. McClure, with a handsome gold-headed cane, which was accepted by Mr. McClure with an appreciative speech to the Brotherhood who had so kindly remembered him and who in that way had shown their esteem and friendship.
