Dick Breeze, of Kansas, Mo., was a priviliged character. He was arrested for a \$10,000 embezzlement, and was on such good terms with the sheriff that the sheriff extended the limits of the jail so as to include the whole city and Dick went where and when he pleased, and kept guard over himself. He escorted himself to the court house to be tried and when convicted he escorted himself to the penitentiary to serve his two years sentence. He went and while getting ready to put on the prison uniform his pardon by the Governor arrived.

THE STATE GUARD.

The First and Second Regiments to En camp at Wrightsville This Year and the Third and Fourth at Asheville-Reasons for Making this Arrangement.

The STAR has reliable information that the honors of the encampment of the State Guard this summer will be divided between Asheville and Wrightsville; the First and Second regiments going into camp at the latter place and the Third and Fourth regiments at Asheville. By this arrangement there will be a considerable saving in the cost of transportation, it is said, and besides Asheville has agreed to pay all expenses. Without this arrangement it is doubtful, as the STAR is informed, if an encampment could be held at all this year, as it would be necessary to raise at least \$1,000 in addition to the amount now available, to have all the regiments together at Wrightsville. Officials appreciate what Wilmington has done for the Guard. As they say, she has been more than kind in every way, and they cannot ask anything of her.

It is the opinion, also, and no doubt a very correct one, that regimental encampments-each regiment entirely under its own Colonel-are best for the troops so far as discipline and instruction are concerned.

Over three thousand dollars have been spent on the permanent encampment grounds at Wrightsville, and yet a great deal more is needed to put the place in the condition it should be. It is thought, however, that it will do very nicely this year for two regiments at one time, and no doubt the First and Second will find it a pleasant and comfortable camp. The State Legislature, however, will have to increase the appropriation considerably to make it fit for the encampment of the entire State

A GREAT DRAUGHT OF FISHES.

Morehead with Nets in Deep Water.

A correspondent of the STAR, writing from Morehead City, gives an account of the remarkable catches of fish made at Morehead City with nets in deep

"Last week," the correspondent writes, was one long to be remembered by the fishermen of Morehead City, on account of the largest catch of fish ever made in the month of February. There were one hundred and fifty thousand seven hundred and sixty-three croakers and sixteen thousand two hundred and sixteen pounds of trout caught in five days, beginning Monday, Feb. 1st, and ending Friday, the 5th. These fish were caught about two and a half miles off shore from Fort Macon, near the sea buoy, where the water will average about six fathoms. They were caught by sinking the nets down to the bottom, and that is done by tying sinkers on the lead line of the net. The nets are allowed to lay on the bottom from ten to thirty minutes and when taken up they are meshed full of fish. This mode of fishing is new, as it was never tried till about one month ago, and so far it has

proved very successful. "For three years and until about one month ago, there were great quantities of fish caught in the same waters with hook and line, but the net-fishing having proved to be so much more successful, hooks and lines have been laid aside and the nets are being used altogether.

"The above figures do not give the entire catch, as there were great quantities of fish caught in the same waters by our sister town, Beaufort, and sold to the dealers of Beaufort."

It would seem from the following that the people of the South are not having all the duil times to themselves:

The Grand Central Hotel, on lower Broadway, New York, has closed its doors on account of financial troubles. The annual rental was \$65,000. This hotel was headquarters for Southerners in N. Y., and derived a large portion of its support from them. Some years ago it was particularly famous as being the scene of the shooting of James Fisk, Jr., by Edward Stokes. The failure of the Grand Central is the fourth that has occurred in New York hotel circles in the past six months, the others being the Sturtevant, St. James and the New

The failure of four leading hotels in New York in the short period of six months, is something well calculated to open the eyes of those who imagine that the South is the only sufferer from hard times.

Episcopal Convocation.

The Convocation of Wilmington will be held at St. Faul's Church, in this city, commencing on Wednesday, the 24th inst., (St. Mathias' Day.) The "Commission" of St. Andrew's Brotherhood for the Southern States will be present at this meeting, and each clergylay delegate. Rev. Dr. Carmichael is the Dean and Rev. C. H. Weaver is the Secretary.

The Cabbage Crop.

Truck farmers in this section will be glad to hear that the cabbage prospect, as far as prices are concerned, is favorable. Commission houses North say that early cabbages will bring good prices. They are getting scarce in that section on account of the hard winter, and shipments from the South are anxlously awaited. The early arrivals from remunerative returns.
