Brayer Shepard, of the New York Mail and Express, declares that money is too cheap. But then it must be remembered that Brayer Shepard is an editor and that he married into the Vanderbilt family. Most people who are not editors and who have not married into the Vanderbilt family find that money is one of the dearest things they have to scuffle for.

As a prolific earthquake producer Japan takes the lead. Her record during the past three months was 2,388. The people over there don't pay much attention to them until they shake the houses down and kill folks, and then those who escape wait until the shakés cease and build their houses again, if they are able.

Senator Cullom, of Illinois, says he is not doing anything to boost himself for the Presidency but feels very confident that if the tussle be confined to himself and Benjamin Harrison he will lay Benjamin out. There is nothing like having a sanguine temperament, with which Senator Cullom seems to be pretty well supplied.

The steamer Croatan, announced to sail yesterday for New York, had not arrived from Georgetown up to midnight. It is supposed she was detained by the rough weather. The bar at Georgetown in the best weather has not much depth of water on it.

A young white man by the name of W. J. Johnson was arrested yesterday by Deputy Sheriff Sheehan on a capias received from Onslow county charging him with carrying a concealed weapon. The deputy left with his prisoner yesterday evening for Jacksonville.

Rev. E. E. Peelo. In explanation of his action in resigning the pastorate of Brooklyn Baptist Church, Rev. Mr. Peelo writes as follows to the North Carolina Baptist: "DEAR BAPTIST:—I leave the work in Wilmington because, as you have indicated, my strength is not sufficient. The work was never so hopeful as now and no people were ever more united in our pastor. They had but recently increased my salary; but I cannot stay where my heart sees so much to do, and my hand is too weak to perform it. God bless His flock and give my successor wisdom and grace sufficient, and so I trust and believe. I have preached more than 600 sermons during the 27 months I've been in Wilmington, and have been so busy in other ways that I did not have time to put the result in my note book. The people of every class have been too kind for any word at my command to express, and my friends are too numerous to mention. God bless Wilmington and her people temporarily and spiritually. R. E. PEELE."

ST. PAUL'S LUTHERAN CHURCH.

Special Services—Rev. Dr. Peschau's Ten Years as Pastor—Elaborate Decorations—Fine Music, etc.

While St. Paul's Evangelical Lutheran Church is not one of the largest churches in the city, it is unquestionably one of the most symmetrical. The fine fresco work it received about a year ago, together with its magnificent organ and altar arrangements, gives one of the handsomest church interiors in the city.

Yesterday afternoon some of the Lutheran ladies were beautifying the interior with flowers, potted plants, bouquets, altar trimming, garlands, adorned mottoes, etc. All of which were tastefully arranged and made a handsome picture.

The ladies deserving credit for these tasty trimmings are Mrs. L. Hansen, Mrs. Dr. Miller, Mrs. Dr. Wright, Mrs. John Gieschen, Mrs. Glaymeyer, Mrs. P. Fick, Mrs. Geo. Heyer and Miss Augusta Ortman. They were assisted by Messrs. Wm. Rheder and F. W. Ortman. All these arrangements are, of course, preparatory to the celebration of the ten years pleasant relations which have existed between the pastor and people.

The special services announced yesterday will begin to-day, and will be in English except the service at 11 o'clock this morning, which will be in German. In the German service Rev. Dr. Peschau will preach a historical sermon. At 8 p. m., there will be special Sunday School services in the church in English. At 7.30 p. m. another historical sermon will be preached (in English). The English services to-morrow night will begin at 8 p. m.

Storm Warning.

Signals were ordered up yesterday, for a northeast storm, by the Weather Bureau at Washington, D. C. An area of high pressure was moving rapidly eastward and yesterday morning central over the lower lakes, with a pressure of 30.68, from which there was a steep gradient to a low pressure of 29.98 off the east coast of Florida. This difference in pressure was expected to cause gales on the South Atlantic coast.

At 12 o'clock last night the weather was cloudy and a strong wind was blowing from the northeast.

The tides were unusually high yesterday and the reports from Southport were that the weather was rough outside.

THE CANNING INDUSTRY.

Of Special Interest to Truckers—A Good Thing, Too, for Other Farmers.

Mr. S. M. Sindall, of Baltimore, has sent out a valuable article on the canning industry, in which he shows that there are now 30,000 factories in operation in forty-one States, and giving employment to 1,000,000 persons during the canning season, while those directly and indirectly concerned number about 4,000,000. The concluding portion of Mr. Sindall's paper will be read with special interest in the South. He says: "In no part of the country has this industry brighter prospects than in the South. Of all sections which I would look to for great success the South is the one. The climate is altogether suitable, your labor is cheap, and not a single case of canned goods should be manufactured in the North and brought to you for consumption. The North has lived for years on the blindness of the South in this particular. I want to see your product put in hermetically sealed packages by your own people, and at your own canneries. It is time that the business men of the South awakened to the importance of a broad spirit of encouragement to all enterprises that look to Southern advancement. As great as has been the work of the Southern people as a whole in the marvellous development that has been going on for five or six years, too many have stood idle and waited, hoping that others would come in and lead such enterprises and let them grow rich out of it.

"Most of the developments which are making the South prominent, as an industrial field have been the result of purely Southern effort. Let them keep up the motion. I am like others who are at all conversant with Southern affairs, a strong believer in the Southern States as a field for progress and development and wealth-making in the near future. Investments such as I speak of pay handsome profits, besides being of much benefit to the city or county where the factory is located. The capital required for conducting this business is small, the cost of the machinery being so moderate that in our own State many farmers operate their own canning factory in connection with their other duties.

"The statements as to the percentage of profit in some cases would be incredible if they were not authenticated by unquestionable testimony and amply substantiated by ascertained facts. With sufficient capital and proper management, there is probably no other business known combining such large profits and so high a degree of safety. Take the entire pack, throughout the entire canning districts of the whole country of the last season, so small is the stock of canned goods on hand that the holders can well afford, if they desire, to wait until Spring to dispose of them. The demand for consumption increases disproportionately to the supply. This country is large; facilities for distribution are increasing, and the trade for canned goods is growing. In every household it is a portion of the daily ration. It is cheap, ready for use, and in all respects is desirable. Without it there are portions of our country that would be forced to subsist on salt meat and bread. To the camp, the mine and the mariner it is now indispensable. Take the country at large, and I venture to assert that the pack last year does not exceed three-fifths of an average one, and that, too, in face of little or nothing being carried over from the former season.

A SORRY SUITOR. Seeks Solace for His Passion in the County Jail.

The saying that "the course of true love never did run smooth" was exemplified yesterday in Justice Bunting's Court. Edward Willis made affidavit before the magistrate, charging Mary Biggs with assault and battery; but on examination the Justice found the complaint was frivolous, and dismissed the case at the cost of the complainant, Willis; but, in consideration of the fact that Willis is a cripple, told him that he would be indulged, and could pay the money at his own convenience. Willis said he would prefer to go to jail; but soon after left the court room. Shortly afterwards, however, he returned, crying, and begged the magistrate to send him to jail, but notwithstanding his pleadings, his request was refused. It was found out afterwards that Willis is in love with a girl whose sister is now in jail, and he thought that if he also was committed, he could get the sister to plead his cause with his sweetheart and this bring about a happy consummation of all his bright hopes and desires.

An Accident at Hub.

Two men were very seriously hurt a day or two ago at Hub; a place about sixty miles from Wilmington or the Chadbourn and Conway Railroad. They were at work in the Hub Lumber Co's mill, when some of the machinery broke. Mr. G. A. Johnson, one of the men, was struck by a piece of iron weighing about one hundred pounds, cutting his right hand badly and making a severe contusion on his chest. The other man was hurt about the head. Mr. Johnson came to Wilmington for surgical treatment.

BURGLARS CAUGHT.

Two of the Rocky Mount Thieves Captured—One of Them Says He is From Wilmington—The Oxford Railroad. [Special Star Correspondence.]

ROCKY MOUNT, N. C., Feb. 27.—The last raid, made here Tuesday night, has been brought to light by the arrest of one of the parties in Wilson last night. He was brought here this morning on the 5.30 train. The party says he is from Wilmington, N. C., and named Albert Chesterfield, colored. When arrested he confessed and said he would not have done it but Tom Moore had told the night police he did the "breaking in." He further says, Moore induced him to go in with him and share the spoils, as he had gone into several houses and had not been caught, and if he would do as he suggested would not be detected, but make a good thing of it. Moore watched while he was stealing. Moore has the reputation of being a bad character; he runs a small shop, and is also a barber for colored people, and a preacher. The case has a hearing to-day at 1.30 o'clock.

Rumor says it is a settled fact that the Oxford & Coast Line Railroad will doubtless have Rocky Mount as its terminal point.

It is a wise selection, as this place is now a considerable railroad center, and heavy improvements are going on daily; and lastly, and by far the heaviest, is the railroad shops on which operations will commence when the weather settles. Our people are very liberal and will donate the ground for their shops and depot when they make their survey.

A Morphine Sufferer.

A stranger in the city—a man who said his home was in Columbus, Ga.—was found yesterday morning, about one o'clock on North Front street, suffering from the effects of an overdose of morphine. Police officer Collins walked the man up and down the street for some time and procured some strong hot coffee for him, and by 4 o'clock a. m. he was sufficiently over the influence to take the 4 o'clock train for the South.
