APPOINTMENTS FOR VISITATION

March 29-Evening Prayer, S. Thom-

Church, Beaufort county.

s'. Bath.

ripe yet, but this will not prevent the sons of the Emerald Isle from showing to-morrow that St. Patrick's memory is kept green.

died recently, left among her effects 115 night-caps. We have known men who have had more than 115 "night-caps" in their time.

It might be well to remind Hon. M. D. Harter, of Ohio, that Hon, D. B. Hill, of NewYork, is not hankering for an epistolary correspondence ou the silver coinage question just now.

A German cheeseologist declares that Cheshire and Roquefort are the most digestible of cheeses. No one has yet spoken for Limberger, but Limberger is strong enough to take care of itself.

Geo. Alger says he wouldn't "spend money to secure a Presidential nomination if he was sure it would make him President to-morrow." Of course not. He would just put his "bar l' on tap in some safe place where the delegates couldn't get away with the "bar'l" and then appoint some fellow to do the drawing.

Terrapin pursuing is looming up as one of the infart industries of Georgia. Quite a number of people are employed in it, as the terrapins bring in the North from \$10 to \$14a dozen. In the vicinity of Brunswick some catchers make as much as \$10 a day, from which we judge that the climate in that section must be favorable one for terrapins.

The Marion Free Lance was made happy twice this year ; first when it found itself in a "libel suit" and next when it got out of it, the grand jury having decided that it wasn't its suit. There are few things that a newspaper wears with more pleasure than an attractive libel suit, and some newspaper men don't mind paying several thousand dollars for the privilege.

It is reported that the Democrats and the third party people are going to fuse in Kansas, and to get even the Republican managers are going to try to get the Republicans and the third party folks to fuse in the South. This fusion may result in a good deal

## RAILROAD NOTES.

These cars during the past year carried over 700,000,000 passengers without loss - Columbia State, 14th inst .: There of life or injury to person in any inwas much iubilation among the emstance, so far as it is known, by the elecployees of the Richmond and Danville tric current. In fact, it is claimed by railroad in this city yesterday, and to railway managers that no such instance see such satisfaction among men who has occurred since the overhead trolley have been so blue for several months was put in operation. Of ccurse persons past indicated that something unusual have been injured by coming in contact had occurred. An investigation revealed with the cars, as they are now by colthe fact that the authorities had anlision with horse cars, but none have nounced to the employees that, commencing to-day, the shops would be put been so injured by the electric power or on full time-that is to say that they will electric wires used in the operation of be run every day hereafter, working nine street cars." hours per day. The working hours are a little shorter than they were a year. ago, but to go back to regular work, instead of working only four days out of By the Bishop of East Carolina-1892. six, as they have been doing, makes the men happy. The road, now that the fertilizer and other heavy traffic has begun in real earnest, has gotten on its leet again. As Superintendent Dodson said they would do as soon as they got able, they have resumed the regular working hours at the shops. - Savannah News, The statements filed with the railroad commissioners by the railroads of their gross receipts and net earnings for January show a very startling falling off in receipts and earn-

ings. This is more especially marked in the case of the Central than any other line. The Central railroad's receipts for January, 1892, were only \$176,667.99, as against \$309,145.53 in January 1891; the net earnings were \$50,596.50 last January, as against \$153,215.74 a year before, or just about one-third. The Richmond and Danville fell off from \$ 2.375 69 in 1891 to \$52,741.09 in 1893. the Georgia railroad from \$193,088.11 in 1891 to \$116,750.74 in 1892, the Western and Atlantic from \$167,000.84 to \$116,-600 30. The East Tennessee, Virginia and Georgia shows a decrease of only \$5,000 for the month of January as compared with last year, and the Atlanta and West Point shows a neat increase. It is evidently a bad year for railroads and especially for the Central. From

Central did not handle much over onehalf the freights in January that it did in January, 1791.
