HOW IT WORKS.

The letter of Hon. Wayne Mac-Veagh, of Pennsylvania, to which we editorially referred yesterday, is in our opinion one of the best and most convincing papers on the demoralizing effects of a high protective tariff that has come under our observation. To the non-partisan, independent voter, who professes to desire and vote for honest and pure methods in the administration of the Government, there could be nothing more conclusive or convincing.

It is a demoralizer beyond question, and a breeder of corruption of colossal magnitude. If the original advocates of this high protection were endeavoring to invent some Congressmen and as many Demo- er. In addition to these facts, the Mer-

Treasury, and leave no money there to meet current expenses, or maturing obligations.

Here is the object in this. For thirty years they have succeeded in Laving the tariff increased until it has risen from an average of thirty-five per cent. to an average of between sixty and seventy per cent. For years there has been a growing demand for the reduction of the tariff to a revenue basis. If there were no pensions, no bounties, no extravagance, and the Government were run in an economical way, the tariff could be cut down to a very low figure. That's what they don't want and that's why the Republicans in Congress who are owned by them, are found defending and advocating these extravagant appropriations, because the more money the Government must have the higher the tariff must be. With \$500,000,000 to be raised every year to meet the ordinary de-

mands of the Government there is not much likelihood of the tariff ever getting close enough to "free trade" to recognize it.

So the tariff costs the people of this country not only the tribute which it directly exacts, but millions upon millions more which the tools of the protected manufacturers impose upon the country in the shape of pensions, bounties, and extravagant appropriations for other purposes, all inspired by the design of increasing the expenses of the Government to prevent a reduction of the tariff and to perpetuate -it on a

high protective basis. While this policy continues, or while the Republican party which favors it continues in power, we will not only have excessive protection, but the extravagance which it fosters will continue and will increase year after year. There can be no relief from either until the Republican party is overthrown.

THE COMBINE PROGRAMME.

The Republican leaders who have been patting the Third party on the back, and have been furnishing the money to pay the expenses of Third party orators, to print and distribute campaign literature, &c., have abandoned the hope of capturing any of the Southern States, but have been manipulating the strings and planning to defeat as many Democratic presided over by a Presbyterian preach-

with violence any anti-Weaver demonstration that might have been made and that they were also equipped with the necessary implements, and is rather confirmatory of the boasts previously made or alleged to have been made. The probabilities are that if any trouble had come, these wild talkers would have been somewhere else, but the spirit they

show proves them to be unsafe counsellors or leaders in any movement. Marion Butler was in the conven-

tion which nominated R. B. Glenn for Democratic elector at large, and presumably voted for him. Whether he voted for him or not, he endorsed his nomination, as he endorsed the Democratic ticket and advised all the readers of the Caucasian, of which he is the editor, to support and vote for it. Now he is running against R. B. Glenn for elector at large. This is political honor. Dr. Maynard was in the State Conven-

tion which nominated Elias Carr, and endorsed what it did. Before he became a candidate he advocated the re-nomination of S. B. Alexander, and wrote that gentleman a letter pledging him his loyal and cordial support. Now he is running against

S. B. Alexander-or trying to run, for he don't seem to have got much of a move on him yet-This is political honor. W. M. Lindsay, of Rockingham, was in the convention of the Fifth district and helped to nominate A. H. A. Williams for Congress. Now he is running in

cahoots with Tom Settle, Republican, against A. H. A. Williams. He is bush-whacking while Settle does the palavering for him on the stump. That's political honor, From the standpoint of the average man political honor seems to be at 'a discount among those champions of the "great

- Every duty, even the least duty, involves the whole principle of obedi-ence. And little daties make the will dutiful; that is, suple and prompt to obey. Little obediences lead into great. The daily round of duty is tull of probation and discipline. It trains the will, heart and conscience. We need not to be prophets or apostles. The commonest ife may be full of perfection. The duties of home are a discipline for the minstries of heaven .- H. E. Manning.

- Dr. Horace Bushnell was an invalid during the last years of his noble and useful life, and when people in Hartford inquired of him, "How is your health?" he used to reply playfully, "I have not got any." This might be the honest answer of many professed Christians in regard to their souls. Their spiritual pulse is feeble; their appetite or God's word is poor; they are more fit for the hospital than for service. They no more enjoy their religion than a fever patient would enjoy a slice of roast beef or a plum pudding.-Dr. T. L. Cuyler.
